Construction.

—The town of Bridgton, Me., has voted, 365 to 53, to appropriate $40,000 toward the construction of a railroad from Bridgton to Portland.

—A survey of the route of the proposed Yosemite, Division of California Central Railroad will soon be commenced at a point near Fresno Flats and continued toward Merced.

—A project is on foot for the establishment of a narrow gauge railroad from Los Angeles to San Francisco by way of Santa Monica, San Louis Obispo and other coast towns.

—An effort is being made to have the Athol division of the Boston and Albany Railroad extended from Athol to Orange. But two miles of new track will be required, on which the grade is nearly level.

—Navigation on the James River and Kanawha canal between Buchanan and the mouth of the North river will be closed after the 15th of this month, to permit the laying of the track of the Richmond and Allegany railroad.

—The directors of the Kentucky Central Railroad Co. have appointed an engineer in charge of the extension necessary to connect it with the Knoxville Railroad, and directed the president to advertise for proposals to build the sixty-one miles of road necessary to make the connection.

—It is reported that the first contract for grading the Lehigh and Hudson Railroad, which is to connect the New York and New England with the Lehigh coal region, has been let. It is from Belvidere, N. J., to Danville. The second section, from Danville to Andover, is to be let shortly.

—The directors of the Shenandoah Valley Railroad Company have decided to immediately place under contract the extension of the road between Waynesboro' and Salem, Va., via Lexington, a distance of 90 miles. At Salem it will connect with the Atlantic, Mississippi and Ohio Railroad. The location of the road between Lexington and Salem will be entirely distinct from that of the unfinished line between Staunton and Salem, in which Baltimore and the Baltimore and Ohio R. R. Co are largely interested.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending February 26, as reported by the several carrying companies, amounted to 570,361 tons, against 321,120 tons in the corresponding week last year, an increase of 249,241 tons. The total amount of anthracite mined for the year is 3,650,148 tons, against 3,029,059 tons for the same period last year, an increase of 621,089 tons. The quantity of bituminous coal sent to market for the week amounted to 92,037 tons, against 27,217 tons in corresponding week last year, an increase of 64,820 tons. The total amount of bituminous mined for the year is 596,018 tons, against 687,502 tons for the corresponding period last year, a decrease of 92,484 tons. The total tonnage of all kinds of coal for the week is 662,398 tons, against 348,337 tons in corresponding week last year, an increase of 314,061 tons, and the total tonnage for the coal year is 4,245,166 tons, against 3,716,561 tons to same date last year, an increase of 528,605 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending February 26 was 177,556 tons, of which 129,100 tons were coal and 48,456 tons coke. The total tonnage for the year thus far has been 1,314,558 tons, of which 953,670 tons were coal and 360,888 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended February 26 were 39,063 tons, and for the year 209,588 tons—a decrease of 50,042 tons as compared with the corresponding period of last year.

The coal was carried as follows: Baltimore and Ohio Railroad—week 86,305 tons, year, 184,896 tons; decrease as compared with 1880, 44,825 tons. Chesapeake and Ohio Canal, none; decrease as compared with 1880, 2,584 tons. Pennsylvania Railroad—week, 2 758 tons; year, 24,642 tons; decrease as compared with 1880, 3,138 tons. The coal tonnage of the Reading Railroad for the past week, ending March 5, was about 130,500 tons of which 19,900 tons were sent to and 21,000 tons shipped from Port Richmond, leaving about 48,000 tons on hand on Saturday night.—Phila. Ledger, March 7.

Financial and Economic Transactions of the United States.

The following statement has been prepared by the Treasury Department at Washington, showing the Financial and Economic Transactions of the United States of America for the Four Years ended March 1, 1881:

		For year ended March 1, 1878.	For year ended March 1, 1879.	For year ended March 1, 1880.	For year ended March 1, 1881.	
Total receipts		$265,342,831 86	$263,068,817 04	$268,762,742 93	$366,396,715 41	
Total expenditures		218,289,531 58	236,094,982 91	280,047,664 51	257,323,687 93

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 10, 1881.

The quotation for call loans is 5@6 per cent; the ruling rate on Stocks being 6 per cent.

The posted rates for prime bankers' sterling are 4.80½@4.83. The actual rates are 4.79½@¾ and 4.87½@4.82. Cab'es are 4.81¾@4.82½. Prime commercial bills are 4.77½@4.78.

The offers to sell Government bonds to the Treasurer on Wednesday amounted to $14,488,850, including 5s at from 100 75 to 101.53 and 6s at from 102 to 102.46. Of the 5s offered $963,000 were offered at less than 101 and $2,500,000 at 101,04. The Treasury accepted $5,000,000 6s at from 102 ($1200) up to 102 46.

A dividend of 1½ per cent has been declared on the capital stock of the Western Union Telegraph Company and on the certificates of indebtedness issued to holders of American Union and Atlantic and Pacific stock, making a dividend of 1½ per cent on the entire capital stock of $80,000,000.

The governors of the Stock Exchange have admitted the following additional securities to its list:

New York City and Northern Railroad Company.—General mortgage, $1,000,000 6 per cent bonds, dated May 1, 1880, and due May 1, 1910. The company's railroad extends from a point in Eighth av., New York City, near One Hundred and Fifty-seventh street, crossing the Harlem River by a double track iron draw-bridge, thence midway between the Hudson River Railroad and the Harlem Railroad, to Brewsters, in Putnam

County, a distance of 52½ miles, forming a junction at that point with the New York and New England Railroad.

Texas and St. Louis Railway Company—stock, amount authorized, $2,000,000 in shares of $100 each; amount issued, $1,520,000; an additional $450,000 first mortgage bonds, and $1,520,000 land grant income bonds.

Milwaukee, Lake Shore and Western Railway Company—preferred stock, $5,000,000 in shares of $100 each, all of which has been issued. The number of miles now in operation is 246. From Milwaukee north along Lake Michigan to Manitowoc and Two Rivers, thence west through Appleton to New London, with a branch to Oshkosh. Thence to Eland Junction in Shawano County, and north toward the State line to the Menominee Iron Range; a branch extending from Eland Junction west to Wausau, in Marathon County.

Flint and Pere Marquette Railroad Company—preferred stock, amount authorized, $6,500,000, in shares of $100 each, of which 63,298 shares have been issued and 1,701 shares remain in the hands of the company; also $5,000,000 6 per cent mortgage bonds dated October 1, 1880, and due October 1, 1920, and bearing 6 per cent interest, payable in gold coin April 1 and October 1 in New York. Of this issue a sufficient sum has been reserved to cover prior mortgages, which amount to $3,179,000.

The closing quotations on Thursday were: Adams Express, 128@132; American Express, 71⅛@72⅛; American District Telegraph, 69¾@70¾; Atlantic and Pacific Telegraph, 47⅛@48; Canada Southern, 79⅛@79⅝; Chicago and Northwestern, 122@122¼; do. pref., 133⅛@134; Chicago and Alton, ——@142; Chicago, Milwaukee and St. Paul, 109⅛@109½; do. pref., 120½@121⅛; Chicago, Rock Island and Pacific, 134@135; Columbus, Chicago and Indiana Central, 23¾@24; Cleveland, Columbus, Cincinnati and Indianapolis, 86@87; Hannibal and St. Joseph, 55⅛@56; do. pref., 103½@104½; Illinois Central, 132@132½; Lake Erie and Western, 52@55; Lake Shore and Michigan Southern, 125⅜@125½; Metropolitan Elevated, 118@119; Manhattan Elevated, 38⅛@38¼; New York, Lake Erie and Western, 47⅝@47¾; New York, Ontario and Western, 36⅛@36⅝; New York Central and Hudson River, 145¼@145⅜; Ohio and Mississippi 42⅛@42⅝; do. pref., 104@107; Panama, 212@228; Pacific Mail, 57@57¼; St. Louis, Iron Mountain and Southern, 61⅛@61¾; St. Louis, Alton and Terre Haute, 42⅛@44; do. pref., —@125; Texas and Pacific, 56@56⅛; Union Pacific, 120⅞@121; United States Express, 57⅛@58⅛; Wells Fargo Express, 117⅛@118⅛; Western Union Telegraph, 116¼@116⅜; Wabash, St. Louis and Pacific, 45@45⅜; do. pref., 87¾@88.

Pacific Mail Steamship Co.

A decision was rendered by the Supreme Court of the United States at Washington on the 28th of February in the case of the Pacific Mail Steamship Company against the United States, upon appeal from the Court of Claims. This was a suit brought by the Steamship Company to recover the amount of seven quarterly payments upon a contract with the United States under the act of June 1, 1872, for carrying the U. S. mails between San Francisco and China, at an annual compensation of $500,000. The United States maintained that the steamers used by the company were not such as were required by the contract. The company insisted in the court below that it should have a judgment for $541,666 66. The Court of Claims awarded only $41,666 66, whereupon the company appealed. This court holds that the Pacific Mail Company had the right to use the steamships which it did use in carrying the mails under the contract, and that it is entitled to payment for the trips made by them. The judgment for the Court of Claims is therefore reversed.

Quincy Mining Co.

At the annual meeting of the Quincy Mining Company, held in this city on the 2d inst. a statement was presented showing that the shipment of the season was 4,422,995 lbs. of mineral, which has been smelted at Detroit, and yielded about 83⅛ per cent, or 3,696,268 lbs. of refined copper.

The product of the mine for the year as prepared for shipment was 4,878,610 lbs. or 2,439 610 2000 tons of mineral of the following description, namely :

Stamp copper		4,711,675 lbs.
Mass copper		166,935 lbs.
For which has been realized (estimating copper unsold in New York at 18 cents per pound, and at the mine at 15 cents		$754,406 88
Realized from sales of silver		1,237 83
		$755,694 71

The expenses of the year were :

Running expenses at the mine	$365,659 09	
Building and construction account	42,414 93	
Other expenses	73,578 63	
		481,652 64
Net profit for the year		$274,042 07
Amount realized from interest account	$9,925 65	
The rise in value of the investment in the stock of the company, distributed Sept., 1880, pro rata	63,186 39	
		73,112 04
		$347,154 11
The last report showed surplus as of date, Jan. 1, 1880 of	$455,567 93	
Deduct—		
Dividend of Feb. 10, 1880	120,000	
Value of stock dividend, Sept. 1, 1880	100,000	
	220,000 00	
		235,567 93
Surplus Jan. 1, 1881		$582,722 04
Dividend payable Feb. 15, 1881		200,000 00
Leaving a surplus		$382,722 04

The surplus after paying dividend of February 10, 1880, was $335,567 93, showing an increase during the year of $47,154 11.

According to the report the mine is in splendid condition and the prospects for a large product were never so good as now. If the copper on hand was taken at the market value the surplus would be increased to over four hundred thousand dollars.

The citizens of Mayville, Tuscola County, Michigan, have subscribed $6,000 toward the proposed extension of the Port Huron and Marlette railroad to that place.

Minnesota Railroad Bonds.

The Governor of Minnesota has promulgated under date March 3, the following notice to holders of the old Railroad bonds of the State, who are scattered all over the United States.

A bill has passed the Legislature and received the Executive approval providing for the adjustment of the Minnesota State Railroad bonds, on the terms proposed by a majority of the bondholders to the Legislature of the State. The bill provides that the State will pay 50 cents on the dollar of principal and interest of the Minnesota State Railroad bonds and coupons, computed to January 1, 1884, in new adjustment bonds, payable in thirty years, redeemable at the election of the State after ten years, interest at 5 per cent ; the first coupon, maturing July 1, 1881, payable in the City of New York, with the election to the State to negotiate new bonds and pay cash instead ; all unpaid claims for supplies, etc., not to exceed $15,000 to be paid 50 per cent on claims proven, and the amounts so paid deducted from the amount of new bonds issued in payment of old bonds issued to the road which ought to have paid such claims ; all provided that the tribunal created by the bill, which is to convene on March 23, 1881, shall decide that the constitutional amendment of 1860, prohibiting provision for payment without submission to the people, is void ; otherwise the bill to be submitted to the people at the next general election ; all holders of Minnesota State railroad bonds to file their bonds on or before March 23, 1881, with the State Auditor, accompanied by an agreement to accept said new bonds in full satisfaction of old ones (describing them by number, etc.) and an agreement under seal releasing the State from all claim by virtue of old bonds. The bill provides for the payment of interest from a tax on the gross earnings of railroads.

Dominion Shipping.

According to the annual Report of the Minister of Marine and Fisheries the total number of vessels on the register books of the Dominion of Canada on the 31st of December, 1880, was 7,877, measuring 1,311,218 tons register tonnage, being a decrease of 94 vessels and 20,870 tons register as compared with 1879. The number of steamers on the registry books on the same date was 918, with a gross tonnage of 190,159 tons and a net tonnage of 120,131 tons. Assuming the average value to be $30 per ton the value of the registered tonnage of Canada on the 31st December last would be $39,336,544. The number of new vessels built and registered in the Dominion of Canada during the last year was 271, measuring 65,411 tons register tonnage. Estimating the value of the new tonnage at $45 per ton, it gives a total value of $2,944,845 for new vessels. The number of vessels and number of tons on the register books of the Dominion on the 31st of December, 1880, was :

	Sailing Ships.	Steamers.
New Brunswick	1,097	66
Nova Scotia	2,977	56
Quebec	1,889	352
Ontario	1,042	385
Prince Edward Island	288	14
British Columbia	63	30
Manitoba	21	15
Total	7,377	918

The Cincinnati Northern railroad has reached Lebanon.

Total entered at port....	$26,406,456	$23,213,784

The Hoosac Tunnel is being provided with 7 large and 100 smaller niches for the safety of workmen when the double track is laid. The small recesses will be placed 200 feet apart throughout the length of the tunnel. They will be 8½ feet in depth; 8 feet high and 6 feet wide. At an interval of every 3,000 feet a larger niche will be built, the dimensions of which will be 10 feet in depth, 12 feet high and 8 feet wide. These larger niches are designed for construction hand cars and the larger apparatus used in constructing or repairing the tracks and the interior of the tunnel.

Pennsylvania Railroad.

We give on another page an abstract of the report of this company for the year ending December 31, 1880, showing the gross earnings, operating expenses, net earnings, etc., of the entire system, also an abstract of the Income Account. Below will be found the General Account of the Treasurer at the close of the year:

		$154,256,894 11

JOHN D. TAYLOR, Treasurer.

Philadelphia, December 31, 1880.

Railroad Law.

Negligence—When Question of fact for Jury.

In an action against a railroad company for injury to a horse caused by the foot of such horse being caught between the rail and the planking at a street crossing, the evidence was conflicting. It was proved by the plaintiff upon the trial that the plank was so placed that there was a space of a little more than three and one quarter inches between the plank and the rail, which space was for the passage of the flange of the car wheels; and the evidence of the plaintiff showed that two and one-quarter inches was all which was required for that purpose, and hence the space was one inch wider than it should have been, and this caused the horse's hoof to get into the open space and to be caught by the toecalk under the rail. It also appeared from plaintiff's evidence that the plank was from one-quarter to three-eighths of an inch higher than the top of the rail. The court at trial non-suited plaintiff on the ground that there was no evidence of negligence on the part of defendant in constructing the crossing. Held, error. The case is within the rule that it is a matter of right in the plaintiff to have the issue of negligence submitted to the jury when it depends upon conflicting evidence or on inferences to be drawn from circumstances in regard to which there is reason for a difference of opinion among intelligent men. Wolfkiel v. Sixth Ave. R. Co., 83 N. Y. 49; Weber v. New York Cent., etc., R. Co., 58 id. 451; Hart v. Hudson River R. Co., 89 id.

Carrier of Passengers—Railroad Company may run Special Trains and Exclude Passengers therefrom—Injury to Passengers Riding without Right on Train—Leaving Moving Train on Advice of Conductor—Damages.

(1) A railroad company in this State, providing sufficient trains and cars to accommodate all the traveling public over its line, has the legal right to run special trains over its road for the purpose of carrying provisions and paying its employees, and to prohibit any person from travelling on such train, and if plaintiff entered a car attached to the same knowing its character, without the consent of the corporation or its agents, he becomes a trespasser. If injury is sustained by such person whilst so wrongfully upon such special train, the fact of being on such train will be an element in determining his prudence and want of care, and the liability of the corporation. If one enters a pay-train for the purpose of riding thereon, and by the rules and regulations of the company passengers were not allowed to ride on such trains, it would be his duty to leave the train as soon as he prudently could, when notified of such rule. If one leaps from a train of cars moving at the rate of fifteen miles per hour, on the advice or concurrence of the conductor, his right to recover would involve the question whether he prudently used the only way which the rules of the company permitted him to use, and also his reckleseness and want of ordinary care, for if by the use of ordinary care he could have avoided the injury, the company would not be liable. (2) Where the damage alleged was the breaking of the leg of the plaintiff resulting in permanent injury, and the plaintiff being twenty-one years of age, realizing from $200 to $300 for four months, and being deprived thereafter of employment, a verdict for $14,833 is excessive. South-western Railroad Co. v. Singleton.

[Decided Nov. 27, 1880.]

Negligence—Action for Homicide Dependent Upon.

For a widow to have a right of action for the homicide of her husband, his death must have been caused by some act or by the criminal negligence of the defendants. The allegations that the defendants erected and rented a building having a platform or a bridge as its means of egress or ingress, that the tenants had no way of moving their furniture into the building except over such platform, that while in the employment and at the instance of the tenants the husband of the plaintiff was endeavoring to move an iron safe into the building the platform gave way, and he was killed, and that this resulted from the improper and faulty construction of it by the landlords (who were the defendants) are not sufficient. Such a declaration is demurrable. Daley v. Stoddard.

[Decided Dec. 14, 1880.]

The Cope car coupler for freight trains, which is being introduced on Western railroads, is claimed to have as advantages, first, simple and perfect adaptability to freight cars; second, the coupling or uncoupling of cars from the top or side of the car, thus obviating the going between cars for that purpose, by which so many lives are annually sacrificed; third, its easy adjustment to stray cars from other roads which may not be provided with the Cope coupler, whether higher or lower than the car to which it is attached, and fourth, the certainty of uncoupling from the balance of the train when one car is derailed.

Organization.

—The Dayton and Cincinnati Railroad Co. was incorporated on the 3d inst. The capital is $500,000. The road is to run through Montgomery and Warren counties, from Dayton to Lebanon, connecting at the latter place for Cincinnati.

—Articles of incorporation have been filed with the Secretary of State of California of the Bodie Railway and Lumber Company. Place of business in San Francisco. Directors: H. M. Yerington, A. J. Ralston, R. M. Graves, W. S. Wood, W. Willis, J. B. Low and J. M. Quay. Capital stock, $1,000,000.

—The Oregon Railway and Navigation Company has awarded the contract for grading fifty miles of the road bed between Texas ferry and Colfax to R. N. Steel & Co. The work will be begun as soon as satisfactory arrangements can be made for Chinamen, tools, etc.

—J. N. DuBarry has been elected President of the Western Pennsylvania Railroad Company. The other directors are: D. R. Davidson, John K. Ewing, Robert Hogarth, William J. Howard, George F. Huff, Strickland Kneass, G. B. Roberts, B. F. Ruff, N. P. Shortridge, Edward Smith, G. A. Torrence and J. F. Wrestling.

—At a meeting of the stockholders of the St Louis and San Francisco Railroad Company, held at St. Louis on the 1st inst., the following gentlemen were elected directors: Ezra Bailey, White Cloud, Kansas; Francis B. Hayes, Walter L. Frost, Alden Speare and Albert W. Nickerson, Boston; Jesse Seligman, Edward F. Winslow, Fred. Butterfield, Edward D. Adams, James D. Fish and Wm. F. Buckley, New York; C. W. Rogers, St. Louis, and John O. Day, Springfield, Mo.

—At the annual meeting of the Quincy Mining Company, held in this city on the 2d inst., the following board of directors was unanimously chosen: Thos. F. Mason, New York; F. B. Wallace, New York; John Brown, Boston; Benjamin P. Meservey, Boston; Frank G. White, Michigan. The directors organized by the choice of Thomas F. Mason as president, and chose Wm. Rogers Todd as treasurer and secretary.

—At the annual meeting of the stockholders of the Cleveland, Columbus, Cincinnati and Indianapolis Railway Co., on the 2d inst., the retiring directors were re-elected. The board now stands as follows: General J. H. Devereux, H. B. Hurlbut, S. Burke, James Barnett, T. P. Handy, Amos Townsend, George H. Russell, Cleveland; B. S. Brown, Columbus; H. J. Jewett, Hermann R. Baltzer, J. R. Keene, Walter Ferguson, A. G. Dulman, New York.

—Preliminary papers were granted by the Massachusetts Railroad Commissioners on the 1st inst. to Edward L. Davis and others, of Boston, for the charter of the Sinaloa and Durango Railroad. The road will commence at the city of Altata on the Gulf of Mexico, and will ultimately run in a northeasterly direction to the city of Durango, a distance of some 200 miles. It is proposed to construct only 40 miles at present. The capital of the new road is $100,000.

—The following gentlemen were elected directors of the St. Louis, Arkansas and Texas Railway Company on the 1st inst.: C. W. Rogers, Alex. Graydon and Alexander Douglas, St. Louis; John O. Day and

C. E. Harwood, Springfield, Mo.; James D. Fish, Jesse Seligman and Edward F. Winslow, New York; and George A. Purdy, Pierce City, Mo. This road is being constructed from Plymouth, Mo., on the St. Louis and San Francisco Road, to Dallas, Texas. About 50 miles of track are now laid and a large force is at work.

—The directors of the Missouri Pacific Railroad Company, elected on the 1st inst, are: Jay Gould, Russell Sage, Sidney Dillon, Wm. T. Buckley, Thos. T. Eckert, George F. Forest, Samuel Sloan, Frederick L. Ames, all of New York; D. K. Ferguson, Webb M. Samuel, St. Louis; S. H. H. Clark, Omaha; Jos. L. Stephens, Booneville, Missouri, and L. T. Smith, Leavenworth, Kansas. The officers are: Jay Gould, President; S. H. H. Clark, Vice President; A. H. Calif, Secretary and Treasurer; W. Arnold, Assistant Secretary.

Patent Stretched and Patent Riveted Short Lap

BELTING.

Our Belts are made from pure Oak Tanned Butts, and of the heart or solid part only. No part of the shoulder being used. Any one not familiar with Belt making can readily detect this by the shortness of the lengths and laps. Long laps are made including the shoulder or thinner and softer part of the Leather, causing the Belt to be, in its enduring qualities, no better than its poorest or thinner parts

Our Belting is warranted to run straight and maintain an even bearing on the pulleys, and sold under the fullest Guarantee.

ESTABLISHED IN 1831.

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.

☞ Sample Copies sent on Application. Address

AMERICAN RAILROAD JOURNAL COMPANY,
NEW YORK.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

E. S. BOWEN, General Superintendent.

JNO. N. ABBOTT, General Passenger Agent.

Canada Pacific Railway.

It is expected that the value of the rolling stock and equipments which the Canadian Government is to turn over to the Canada Pacific Syndicate will be fixed this week and the transfer of the part of the road now in operation will probably be promptly made. Preparations are said to be on foot for vigorously pushing construction as soon as the transfer is effected. The recently appointed officers are: R. B. Stickney, General Superintendent; Gen. Rosser, late Chief Engineer of the Northern Pacific, Chief Engineer; William Hardee, Assistant General Freight Agent; J. G. Ogden, Auditor; W. K. Baker, Local Treasurer.

In regard to the operations and plans of the managers a communication from Winnipeg to the London (Ont.) Free Press says that "the Syndicate has already ordered six hundred additional freight cars, one hundred of which will be box cars. These will shortly arrive. It has also arranged to purchase twenty additional locomotives, which will arrive as fast as built. It has purchased four hundred and fifty thousand ties, which are already got out, and made a contract for further unlimited quantities, for which cash will be paid on delivery. It has taken over five thousand tons of steel rails from the Government, and purchased five thousand tons besides. Trains loaded with rails and other material for the construction of the line between Winnipeg and the Rocky Mountains are already crossing Red River, and every effort will be used to transfer as large quantities as possible to the western bank of the river before the approaching break up of ice necessitates a demolition of the temporary pile trestle bridge, on which trains at present cross. Mr. Stickney hopes, by great energy, to accomplish the transfer of all material needed for the construction up till the time the permanent bridge now being built by the city of Winnipeg is completed, probably about the 1st of July. No positive arrangements are made as to steamboat connections yet, but probably harmonious arrangements will be settled with the Winnipeg and Western Transportation Company by which their boats will co-operate in the passenger and freight traffic and in conveying material for construction to points on the Assiniboine river. Gen. Rosser said that he will start west to inspect the proposed location of the road westward, which is already built for one hundred miles, after the return of Stickney from St. Paul, who goes there to-morrow morning to confer with the directors. He adds that the length of road to be built during the approaching season will be only limited by the extent of facilities for conveying ties, rails and iron for bridging westward, the country being almost entirely prairie. He intends to engage all the men and teams that he can secure and put them to work grading and ditching as soon as the frost is out of the ground, which will be in about four weeks. A large quantity of oats has been already secured for sowing. Gen. Rosser arrived last night, and has not yet organized his personal staff. Great satisfaction is felt here at his appointment, as his character as a "rusher" is well known to many of our citizens, and his past career in connection with the Baltimore and Ohio Railway, Pittsburgh and Connellsville Railroad, and more especially the Brainard branch of the Northern Pacific Railway, affords every guarantee for energy and ability. Since this time he has been contracting, and last season he built a short line between St. Paul and Minneapolis, and other pieces of road elsewhere."

Railroads in Manitoba.

Application will be made at the forthcoming adjourned session of the Legislature of Manitoba for an act to incorporate the Winnipeg Southern Railway Company, with power to build and operate a railway beginning at the city of Winnipeg and running thence southerly to the village of West Lynne, and with power to build and construct a branch thereto, starting from the main line at or near the town of Morris, and running southwesterly into the Mennonite reserve in the southern part of this province. Also, for an act to incorporate the Southern Manitoba Loan Company with such powers as may be necessary to enable the said company to borrow money from time to time upon bonds or other securities, and to transact the business of loaning money upon mortgages of real estate in this province. Also, for an act to incorporate the Winnipeg Southeastern Railway Company, with power to build and operate a railway beginning at the city of Winnipeg, thence southerly to the boundary between the said province of Manitoba and the State of Minnesota. Also, for an act to incorporate the Winnipeg and West Lynne Railway Company, with power to construct and operate a railway from the city of Winnipeg, thence in a southerly direction to a point on the boundary line between the province of Manitoba and the United States of America at or near West Lynne, and with power to build a branch westerly to the boundary between the said province and the northwest territories. Also, for an act to incorporate the Meadow Lea and Lake Manitoba Railroad Company, with power to build and operate a railway beginning at Meadow Lea Station on the Canada Pacific Railway and thence northwesterly to a point on Lake Manitoba at or near Lake Francis.

Great Bridges and Their Builders.

In the New York Sunday Tribune recently "Johnny Bonquet" blends fact and sentiment about some of the world's representative bridges and their builders in the following interesting manner: Robert Stephenson, great engineer as he was, reported that suspension bridges would never do for steam. John A. Roebling answered with the Niagara suspension bridge, the cheapest structure and one of the best ever built upon the globe for such a necessity. Roebling is the author of most of the bridge to Brooklyn.

In Menai Strait, which divides an island from the northwestern corner of Wales, the tides rise to the height of thirty feet sometimes and generally twelve feet. The British Government erected a bridge on the great high road from England to Ireland over this strait in 1826. It is a suspension bridge built by Telford on chains and cost $600,000 gold, at that time; it is 100 feet above the water. Twenty years afterward George Stephenson began to build the tubular bridge three miles above, spanning the same strait. It took five years, and trains crossed it in 1850. It has four spans, the two in the middle being 460 feet wide each, and the whole bridge is about 1840 feet long. It is 123 feet above high water mark and cost $3,000,000.

The Niagara suspension bridge, built by Roebling, in 1852, cost only $500,000, is 800 feet in length and 230 feet above the river, and its towers are about 84 feet high. The Niagara foot bridge, built in 1859, cost $175,000, and was said to be, when opened, the longest suspension bridge in the world, or 1,268 feet between towers.

The Cincinnati Suspension Bridge, by Roebling, stands next to the East River Bridge, and is 1,057 feet between towers, 2,252 between the ends, the bridge is 103 feet above low water, the towers are 230 feet high, and each is taller and

larger than the Bunker Hill Monument, and the structure cost $1,800,000; it was built by a company and charges three cents toll per man. This bridge has been in most useful operation since about 1867; it was eleven years between its commencement and opening.

Roebling was the greatest bridge builder in the world. He started the making of wire cordage in America and built suspension bridges to carry the aqueducts of canals across rivers, and engineered the Pennsylvania Railroad across the mountains.

The Brooklyn Bridge, between towers, is 1,595 feet long. Behind the towers there are 940 feet each side, back to the anchorages. The whole length of the bridge and approaches is 6,000 feet. It is one of the widest bridges in the world, 85 feet, with a promenade 13 feet wide, two railroad tracks and four carriage and horse car tracks. It is 135 feet in the centre above the water. The rock on which the towers rest is about ninety feet below the surface of the water on the New York side and half that depth on the Brooklyn side, the most stupendous thing about the structure. Each tower is 134 feet long by 56 wide, and at the top these dimensions are reduced to 120 feet by 40, or the size of a very large house. Each tower is 268 feet above high water. It is 1,336 feet from the beginning of the causeway on Chatham street out to the anchorage on the New York shore. The architect of the bridge received his death wound almost at its inception, standing on the upper frame work of Fulton ferry slip as a boat came in and threw its weight against the piles, which yielded and crushed his foot. As if the spirit of the old ferry, about to be supplanted, had revenged itself on the innovator! They buried Roebling in that summer of 1869, at Trenton, New Jersey, near the spot where poor John Fitch, the watchmaker, eighty-two years before, had started the steamboat. But Roebling's true monument is the Brooklyn Bridge towers, and between them, in the nerves and tendons, trembling like a weaver's web, plies the shuttle of his soul. You can hear his own words if you are reverent, calling to the ships and steamers beneath: "It will be the greatest engineering work of the continent and the greatest bridge in existence. Its towers will be national monuments! It will forever testify to the energy, enterprise and wealth of the great communities it overhangs!" Upon the portal of the bridge they might also inscribe his motto: "I have no fear of honest difference of opinion, it is only cavillers that I dread."

Roebling was hardly more of a German than his great predecessor, Charles Ellet, jr., who went to the Polytechnic School in Paris from his native land to study, while Roebling immediately on graduating at the Polytechnic School of Berlin emigrated to America at the age of twenty-five. Ellet built the first suspension bridge in America at Fairmount, Philadelphia, in 1841, and his suspension bridge at Niagara preceded Roebling's. He also built the suspension bridge at Wheeling, Va., in 1848, then the longest in the world, or 1,000 feet, which stood six years when a storm blew it down. Not improbably he was the precursor of Roebling, whose bridges are the marvels of the art. Ellet lost his life in the capture of Memphis, 1862, shot in the knee in the moment of victory. He was born within sight of Trenton, where Roebling lived and worked, and in the same county with the Ellicott brothers, who surveyed in the previous century the boundaries of our States. Roebling's son, now finishing his father's work on the Brooklyn Bridge, was, like Ellet's sons, in the Union Army. His name is Washington A. Roebling; he was on G. K. Warren's staff and I think is Warren's brother-in-law.

The mighty approaches to the Brooklyn Bridge inspire the eye with fear; its preface is a great epic poem: the leap is worthy of the Straits of Gibraltar. To it the cities are lying in rags like two sleeping swarms of men over whom a great angel is stepping with a lute. It is the true cathedral of New York and Brooklyn, lifting man to heaven and saying "courage!" Yet, huge as it is, the Chinese built bridges on this plan while Christ was yet alive.

A few notes on comparative bridges will conclude. The most modern and representative bridge in London is the new Blackfriars, opened twelve years ago. It is of five iron arches on stone piers, is 1,272 feet long, and cost $1,600,000.

The Pont Neuf, probably the longest bridge in Paris, rebuilt 1852, is 1,080 feet long, and partly stands upon an island in the middle of the Seine.

The International bridge at Buffalo, finished in 1873, cost $1,500,000, and has twelve spans, in all 3,550 feet.

The bridge over the Susquehanna at Havre de Grace, finished in 1867, is seven-eighths of a mile long, and cost $1,250,000. The bridge over the Gunpowder River, between the Susquehanna and Baltimore, is 5,238 feet long.

The longest stone arch in the world is said to be Cabin John Bridge on the Washington Aqueduct, 100 feet above the stream below, and 220 feet span.

The iron truss bridge over the Connecticut River below Springfield was built at Manchester, England, and sent over here and set up in 1866. It is 1,525 feet long and cost $265,000. The bridge over Newark Bay, between Bergen Point and Elizabethport, is one mile and a half long.

The bridge across the Susquehanna at Harrisburg, resting on a large island in the middle of the river, was built in 1817 by a celebrated bridge architect of that day named Burr. It is 2,876 feet long and cost $155,000—more than half subscribed by the State. A bridge by the same architect at Columbia, about twenty miles lower down, is 5,960 feet long, or more than one mile, and was erected by a company supported by the State in 1814, at a cost of $232,000. At that time bridge companies were sometimes in the banking business as well, and the tolls were very high. I remember when a boy being pulled up an inclined plane at Columbia by which the Pennsylvania Railroad gained the plateau above the river up 1,800 feet to make 90 feet perpendicular.

The bridge over the Delaware River at Trenton, recently remodelled by the Pennsylvania Railroad, was finished in 1806, and was considered at the time the finest bridge in the world in wood. It was 1,100 feet long and stood on five arches.

The course of the bridge builder westward has been accurately related by General G. K. Warren, from the opening of the Wheeling bridge in 1849, to connect the Ohio and Allegheny Divisions of the National Road (which little bridge required forty-three years of Congressional agitation and legislation, and suits in the courts), to the first bridge across the Mississippi at Rock Island in 1856, torn down in 1872, of which E. B. Washburne said it had been a damage to commerce of $5,000,000 two-fifths wrecks. It required nineteen years after the incorporation of a company to put a bridge at St. Louis, opened in 1874. The estimates of Captain Eads were under four millions and a half, but the cost and manipulation of finances made it cost nearer twelve millions. In this bridge there are three spans and two piers in the channel, the great middle span 515 feet.

The viaduct at Cleveland, Ohio, is one of the greatest works of our time—a stone and iron structure, with paved streets above and a steam draw at the Cuyahoga River, the whole bridging a chasm three-quarters of a mile wide, and uniting two parts of the city. The Holborn viaduct in London is a baby to it. Cleveland was the fountain head of the principal American iron bridge company, one of the several which build bridges and nothing else, and do it by wholesale.

Ship-building in Wilmington.

The Wilmington, Del., Every Evening says that business in that city at the present time is unusually active, particularly in the car-shops, shipyards and among the iron workers, and then adds:

At the shipyards of the Harlan & Hollingsworth Company it is reported that the establishment has never been so busy since the war, not only through the demand for ships, but all other work done by the company, and that all the orders cannot be accepted. The company have just entered into a contract for the building of an iron ferryboat, for the West Jersey Ferryboat Company, at Philadelphia, to be called the "Baltic." She will be of the same size and finish as those now in use built in this city.

Work has been commenced on an iron passenger steamer for service on the Choptank river. She is being built for the Maryland Steamship Company.

The splendid steamer City of Worcester, for the Norwich Company, and to run on the Sound, will be launched on Saturday morning next from the company's yard. This steamre is 325 feet in length, and will be fitted up somewhat similar to the Bristol and other steamers on the line. She will, however, have many modern improvements for the comfort of passengers not heretofore introduced. She is fitted with six water-tight bulkheads, iron wheel batteries, and four wooden masts. Her interior adornments will be of the most beautiful character. The joiner work on the main deck as well as on the promenade deck will be of hard woods, and the main stairway to be new in style and highly ornamental. The cornice and pilasters in the main saloon will be finished in hard woods, in the "Queen Anne" and "Eastlake" style, while the forward saloon will have an upper tier of state rooms, with overhanging ballustrades all around, all to be finished, together with the stairway leading to it, in hard woods.

In addition to this work the company are repairing the steamers Edwin Forrest, Twilight, Yacht, Falcon, F. A. McCall, Columbia and Maggie, the latter being lengthened twenty-five feet.

It is stated that the St. Johnsbury and Lake Champlain (formerly the Lamoille Valley) Railroad will be extended from Swanton to Rouse's Point, N. Y., there to connect with the Ogdensburg and Lake Champlain Railroad, thus getting a Western connection.

New York, Saturday, March 19, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

AN important event of the week is the commencement of the running of through passenger trains over the new trans-continental route, completed last week by the junction of the Southern Pacific and the Atchison, Topeka and Santa Fe railroads. The first passenger train over this route left Kansas City on Thursday for San Francisco, and on Friday the first eastward bound train left San Francisco. Daily passenger trains are now running both ways.

THE project for using the banks of the Erie Canal as a railroad, on one track of which locomotives would be used for towing canal boats while on the other two proposed tracks freight and passenger cars would be drawn, has been defeated in the State Senate. The action of the Senate thus preventing the giving of so valuable a property, a graded road-bed three hundred and fifty miles long, for an experiment sustained the canal committee in their motives for refusing to approve the bill.

IF it were not sad it would be entertaining to witness the visionary projects inflicted upon the attention of legislators at Albany by which it is designed to force the State to buy what would be on its hands a most unmanageable species of the white elephant. In the form of a long concurrent resolution a project was introduced into the Assembly at Albany this week for ascertaining the amounts that would be required to be paid by the State for obtaining possession of certain railroads. To obtain this information the resolution provides that the Attorney-General shall institute proceedings in the Supreme Court to obtain a decree determining the amount expended in the construction of the roads owned by the New York Central and the New York, Lake Erie and Western corporations.

THAT enterprising measures are on foot which will have no slight effect upon the current of grain transportation is seen in the important work that has been commenced at Newport News, for affording a deep water terminus for the Chesapeake and Ohio Railroad. That point has been selected this week for the terminus, and among the plans arranged for improving its shipping facilities is the construction this Spring of a large grain elevator capable of holding 1,000,000 bushels of grain. New wharves are being built at Newport News, of which it is contemplated to have seventeen each 125 feet long, with a depth of water of 27 feet, sufficient to accommodate the largest ocean steamers. The company has obtained control of the water front for five miles so that the extensive facilities now being provided can be increased to an almost unlimited extent, as the large and increasing trade may demand. The work of extending the road from Richmond to this terminus, a distance of about seventy-five miles, is being vigorously pushed, and it is expected that it will be completed before Fall.

ILLUSTRATIONS of some of the curious and amusing ideas evolved from alleged brains working up railroad legislation just now, are given in some of the measures brought before the Assembly at Albany this week. A voluminous bill was introduced, Monday, the object of which seems to be the purchase by the State of all new railroads hereafter to be built in New York, on a sort of an installment plan of payment, for the sake of getting up an auction sale whenever the State may have acquired possession of said railroads of the future. The idea is to make the State become a stockholder in all new railroads, by requiring the companies building the same to vest 10 per cent of their stock in the State, and to pay stock to the State yearly until the State shall obtain control, when the grand auction shall occur. The legislative mind which conceived this brilliant scheme had probably been dazzled by the installment plan as presented by the seductive signs of certain Bowery tradesmen, and the results of the working of the principle as shown by the numerous red flags displayed by venturesome fourth class boarding house keepers who want to dispose of their furniture even before the control has been obtained. Of course there must be something or some one back of this bill in whose interests it is prepared. It cannot be the State or the railroads or the people; it must be some auctioneer.

THE committee having in charge the preliminaries for the World's Fair need the most prompt and liberal encouragement if the successful carrying out of the project is to be assured, and without such positive assurance it would be much better that the matter should be dropped where it is. It will not do to have the enterprise dragged much farther through dissatisfying discussions about sites. The idea of using a portion of Central Park for the purpose created much more severe opposition than the proposition as looked at by many practical men seemed to warrant. If New York is to have the Fair it should be located where it will yield to New York property-holders and business men the greatest practical benefit. Just how the Park would be so much injured by the Fair has not been clearly shown, though there was something of a ventilating of æsthetic ideas when the subject was broached. The Park can be treated as a thing of utility without necessarily marring its beauty. To the people from a distance visiting New York it would greatly add to the attractiveness of the Fair if they knew so desirable an opportunity would be afforded them of visiting one of New York's chief attractions at the same time and without additional expense. While the Fair would be greatly benefitted could it have that site, the Park itself would receive no inconsiderable benefit by having public attention so generally directed toward it; toward its needs and defects as well as its many points of beauty, with which so comparatively few New York residents are now familiar. If the question of a site is to prevent our having the Fair New York can certainly well afford to let its Park with wise restrictions to be used for the purpose.

THE enterprise of shippers is likely to have far more to do with increasing the exportation of American cattle than any imagined prejudices among consumers on the other side of the water. The fear that the French Government is actuated by a spirit of retaliation concerning tariff measures which would result in a serious blow to the importation there of American cattle, does not seem well founded. The opinion of so eminent an authority as M. Leon Chotteau is reported as being that those of the French Senate who are advocating a higher import tax on American cattle are protectionists, who seem to believe contrary to the belief of many of their countrymen, that France is capable of supplying her own market, and who advocate an increased tariff to protect their home interest whenever it might happen that an excessive supply and low prices in the United States

might combine to produce a sudden demoralization in their market. But French statesmen have the interests of the French people in consideration, and will not be moved by other than the most substantial reasons to legislate in any direction upon important matters affecting those interests. They are moved more by consideration for the public welfare than by prejudiced theories. Their ideas of protection are not widely different from those prevailing here; they would use protection in the same way that a skilled physician would use a powerful stimulant, not indiscriminately for all sorts of maladies and ailments but in cases, often temporary, of special weakness and debility. They realize that the tendency of an indiscriminate use of protection like that of other stimulants is toward abnormal conditions the workings of which in the end are not healthy and reliable. But whatever action may be taken in France concerning import duties, the exportation of our cattle to France and other foreign countries promises to increase. The increase will be measured more by the surplus of the production in the United States than by changes in foreign import duties. Having greater natural facilities for the raising of cattle at small cost than are furnished to any other part of the world it only remains for increasing experience in the shipping of live stock, and the adoption of judicious regulations and safeguards providing for their health to give to the United States an increased exportation of cattle, the magnitude of which may be partially estimated from the importance this department of trade has assumed even in its infancy.

Personal.

Benjamin W. Healey, formerly superintendent of the Rhode Island Locomotive Works died recently at Corinto, Nicaragua.

A party of capitalists interested in the Chesapeake and Ohio Railroad, including President C. P. Huntington, Vice President W. C. Wickham, N. M. McCready, President of the Old Dominion Steamship Company and Messrs. Fisk & Hatch visited Norfolk, Old Point and Newport News this week.

General J. H. Wilson, President of the New York and New England Railroad Company, delivered an address before the Mercantile Library Association of Boston last Saturday evening, in which he gave an interesting account of the workings of the New York and New England Railroad and the important plans of extension now underway.

Wm. F. Black has been appointed superintendent of the Cincinnati and Muskingum Valley Railroad, with headquarters at Zanesville. Mr. Black for a number of years has been the private secretary of General Manager D. W. Caldwell, of the Pittsburgh, Cincinnati and St. Louis Railway, C. C. Waite, who formerly had the position now occupied by Mr. Black, has been appointed superintendent of the Little Miami Railroad.

Major Francis S. Bond, who, though a young man, being just started in his forties, has attained such prominence in railroad circles, both as Vice President of the Texas and Pacific Railway Company, and in connection with the Philadelphia and Reading affairs, was an old army chum of President Garfield, being with him on General Rosecran's staff. His brother William Bond is a banker in New York. Another associate on General Rosecran's staff was Inspector General Horace Porter now identified with the Pullman Palace Car Company, and prominent in railway affairs.

Railroad Earnings.

The earnings of the Flint and Pere Marquette Railroad Company for the week ending March 7, 1881, were $29,195 10, against $28,934 05 for the corresponding week last year—a decrease of $735 95. Since January 1, 1881, the earnings have been $284,459 35, against $257,950 70—an increase of $26,508 65.

The earnings of the New York and New England Railroad for the month of February, were $176,427 35, against $149,907 77 same time last year—an increase of $26,519 58 or 17.7 per cent.

The earnings of the Grand Trunk Railway of Canada for the week ending March 5, were $195,302, against $194,708 same time last year—an increase of $594. The aggregate increase for the ten weeks thus far in the calendar year is $75,689.

The earnings of the Indiana, Bloomington and Western Railway for the week ending February 28, were $16,815 21, against $16,915 49 for the week ending February 29, 1880—a decrease of $100 28.

The earnings of the Denver and Rio Grand Railroad Company for the second week of March were $82,376, against $35,062 for the same period last year—an increase of $47,314. Miles now operated, 551; miles operated last year, 337.

The earnings of the Grand Trunk Railway of Canada for the week ending March 12, were $207,309, against $190,106 for the corresponding week last year—an increase of $17,203. The aggregate increase for eleven weeks is $92,883.

Interest and Dividends.

The Union Pacific Railway Company has declared a dividend of 1¼ per cent, payable April 1.

The New York Central and Hudson River Railroad Company has declared a quarterly dividend of two per cent, payable on the 15th of April.

The American District Telegraph Company has declared a quarterly dividend of 1¼ per cent, payable April 15th. Transfer books close April 1st.

The Lehigh Valley Railroad Company have declared a quarterly dividend of 1¼ per cent payable April 16.

The Missouri Pacific Railroad Company has declared a quarterly dividend of 1¼ per cent, payable April 1. The transfer books will close on the 20th inst.

The Chicago, St. Paul, Minneapolis and Omaha Railway Company has declared a dividend of 1¼ per cent on the preferred capital stock, payable April 20, to stockholders of record on the 30th inst.

The Metropolitan Elevated Railway Company and the New York Elevated Railroad Company have declared quarterly dividends of 2½ per cent, payable April 1 to stockholders of record on the 21st inst.

The Chicago, Milwaukee and St. Paul Railway Company has declared a dividend of $3 50 per share on both the common and preferred stock, payable April 16, to stockholders of record on the 29th inst.

The Dubuque and Sioux City Railroad Company has declared a dividend of 2½ per cent, payable April 15th. The transfer books will be closed on the 31st inst.

An annual dividend of three per cent on the preferred and common stock of the New York and Harlem Railroad Company—from the earnings of the city line—will be paid on the 1st af April.

The Great Western Railway Company of Canada has declared a dividend of 3 per cent per annum on its ordinary stock after payment on all the preference stock. A sum of £4,000 is also carried forward.

The Homestake Mining Company has declared its regular monthly dividend of thirty cents per share for February payable at the office of Wells Fargo & Co., 65 Broadway, on the 25th inst. Transfer books close on the 19th inst.

A dividend of 1¼ per cent will be paid on the capital stock of the Western Union Telegraph Company on the 15th of April to stockholders of record on the 26th inst.; and at the same time 1¼ per cent interest will be pai to the holders of such certificates of indebtedness of the company as may be outstanding at the close of the books

Organization.

—It is stated that a company has been formed to build a railroad from Des Moines to Kansas City direct, and that a contract has been closed with a prominent engineer to commence the survey at once.

—The Grand Rapids and Indiana railroad will, early in the spring, build from Petosky to Mackinaw straits, opposite Mackinaw. This will give an all-rail line to the famous resort of Mackinaw.

—The present Board of Directors of the Pennsylvania Railroad Company, and H. H. Houston, vice James McManes, declined, have been renominated by the committee appointed at the recent annual meeting of the stockholders of that corporation.

—The officers of the St. Louis and San Francisco Railway Company, elected on the 11th inst., are: Edward V. Winslow, President; James D. Fish, Vice President; Charles W. Rogers, Second Vice President and General Manager; F. W. Lillie, Treasurer; Calvin Littlefield, Secretary.

—The directors of the Pittsburg, Cincinnati and St. Louis Railway Company, elected on the 15th inst, are: G. B. Roberts, W. Thaw, J. N. McCullough, T. D. Messler, H. Houston, Wistar Morris, J. N. DuBarry, J. P. Witherell, W. H. Barnes, D. S. Gray, R. Sherrard, A. J. Cassatt and J. P. Green. Mr. Green was elected in the place of Thomas A. Scott and Mr. Cassatt in the place of S. Kneass.

—A bill was introduced into the New York Legislature on the 14th inst, to incorporate the Metropolitan Trust Company, with Thomas Hillhouse, Collis P. Huntington, John T. Terry, Edwin D. Morgan, Jr., Morris K. Jessup, James J. Higginson, Francis A. Stout, Frederick D. Tappen, Edward S. Sanford, Parker Handy, Gracie King, Oliver P. Buel, Freeman Clarke, Dudley Oliott, Josiah B. Williams, Phineas Prouty, Robert H. Pruyn, and Isaac N. Phelps as incorporators, with $100,000,000 capital.

—Articles of incorporation of the Chicago and Eastern Illinois and the Danville and Grape Creek railroads were filed with the Secretary of State of Indiana March 9. The capital stock of the consolidated road is $3,000,000. The Danville and Grape Creek Railroad is seven miles long, running from Danville to the Grape Creek coal mines with the Chicago and Eastern Illinois, and it has been decided to extend the line five miles further to other mines in the vicinity of Westville.

—The directors of the Northwestern Ohio Railway Company, and of the Tiffin and Northwestern Railroad Company (both controlled by the Pennsylvania Company) elected on the 11th inst., are: T. D. Messler, J. N. McCullough, William Thaw, John F. Da-

vidson, Pittsburg; R. F. Smith, Cleveland; Frank Jaynes, George W. Layng, Toledo. Of the Union Bridge Company—J. N. McCullough, George W. Layng, Frank Jaynes, representing the Pennsylvania Company; J. C. Gault, R. Andrews, J. R. Osborn, representing the Wabash Company.

—At the annual meeting of the shareholders of the Lake Champlain and St. Lawrence Junction Railway, held at St. Joseph on the 7th instant, the following were elected directors:—Bradley Barlow, President S. E. R.; Lucius Robinson, of Newport, Vt.; A. B. Chaffee, Montreal; E. Raymond, President Pass. R. R.; J. Thomas Vose, President Boston, Concord and Montreal R. R.; F. A. Metcalf, St. Albans, Vt.; Wm. Donahue, Montreal; James O'Halloran, Q. C., Cowansville, and T. A. McKinnon, Assistant Manager S. E R. At a meeting of the directors held subsequently, A. B. Chaffee was elected President, F. A. Metcalf, Vice President, and R. A. Campbell, Secretary.

—The directors of the Union Pacific Railway Company, elected on the 9th inst, are: Sidney Dillon of New York, Elisha Atkins of Boston, Frederick L. Ames of Boston, Ezra H. Baker of Boston, S. H. H. Clarke of Omaha, F. Gordon Dexter of Boston, David Dows of New York, Greenville M. Dodge of Council Bluffs, T. T. Eckert, Jay Gould, Solon Humphreys and Russell Sage of New York; William L. Scott of Erie, Pa.; John Sharp of Salt Lake City, and Augustus Schell of New York. The directors subsequently elected the following officers: President, Sidney Dillon; Vice President, Elisha Atkins; Secretary and Treasurer, Henry McFarland.

—At a meeting of the St. Louis, Iron Mountain and Southern Railway Company, held at St. Louis, Mo., on the 1st inst., the following gentlemen were elected directors: Henry G. Marquand, Jay Gould, Henry Whelen, Russell Sage, Joseph S. Lowery, Frederick L. Ames, John T. Terry, Sidney Dillon, Samuel Shellhar, Thomas T. Eckert, George R. McClellan, Rufus J. Lockland and R. C. Kerns. Subsequently the board met and elected the following officers: Henry G. Marquand, President; Thomas T. Eckert, Vice President; S. D. Barlow, Secretary and Assistant Treasurer; D. W. McWilliams, Treasurer; J. W. Wallace, General Auditor, and A. W. Soper, General Manager.

—A company has been formed at Indianapolis, Ind., to be known as the New York and Chicago Railroad Company. The directors are: C. S. Brice, Samuel Thomas, George I. Seney, Walston H. Brown, C. R. Cummings, W. B. Howard, Wm. Fleming, James E. Neal and J. A. Latcher. The officers are: President, C. S. Brice; Vice-President, Wm. Fleming; Treasurer, Samuel Thomas; Secretary, James E. Neal. The road will be 200 miles long, and will run from the east line of Allen County, Ind., in a northwesterly direction, via Fort Wayne, to the State line between Illinois and Indiana. It will pass through Allen, Whitley, Huntington, Wabash, Miami, Kosciusko, Marshall, Fulton, Pulaski, Starke, Jasper, Porter and Lake counties to Chicago. The capital of the company is to be $10,000,000. It is said that a connection with the Lake Erie and Western for the purpose of a through line to New York is intended.

—Articles of incorporation were filed in the office of the Secretary of State of Massachusetts on the 9th inst. on the part of the Directors of the Texas, Topolobampo and Pacific Railroad and Telegraph Company. The capital is $30,000. The termini and course of the railroad and telegraph as proposed are as follows: The main line is to run on the most feasible route from a point at or near Pierdas Negras, on the right bank of the Rio Grande, in a southwesterly direction across the State of Coahuila, the district of the Bolson de Mapimic, the State of Chihuahua, perhaps the State of Sonora and the State of Sinaloa to the bay of Topolobampo, on the Gulf of California. The branches are to run on the north to a point near or at Presidio del Norte on the right bank of the Rio Grande and via Tepic and Guadalajara to the city of Mexico and points south. The Directors are Messrs. F. O. Prince and J. G. Abbott of Boston, B. F. Butler of Lowell, G. W. Simmons, T. B. Lewis, T. A. Dodge and E. E. Pratt of Boston, Henry Hastings of Medford, Ulysses S. Grant, Jr., and E. A. Buck of New York, J. B. Price of Jefferson City, Mo., Jesu Escobar of El Paso del Norte, and E. R. Carmen of Mazatlan, Mexico, A. R. Owen af Chester, Pa., and W. S. Chapman of San Francisco, Cal.

Railroad Law.

Railways—Warehousemen—Conditions Limiting Liability.

The plaintiff here delivered to the defendants' Railway Company at Montreal a case of goods accompanied with a "shipping note," which referred to certain conditions endorsed on the back of the note, and upon which conditions the goods were to be sent. The plaintiff received a shipping receipt in the same terms as the note. The goods having been received in Toronto, the Railway Company sent the plaintiff a "freight advice note" informing him of their arrival, at the foot of which was the notice, "see conditions on back hereof." The goods were left in the freight warehouse a month, and then lost. The plaintiff sued the Railway Company for their value. The defence was that the goods were left at the owner's risk according to one of the terms and conditions of the "freight advice note." The plaintiff relied chiefly on two decisions. The first decision was distinguished from this case by this, that in that case the custom of the company was to deliver goods to consignees, and this they had neglected to do, while here no such custom existed, and the terms of the contract pointed out that the goods would remain at the owner's risk. The second was an English case, where conditions intended to bind a passenger were printed on the back of a ticket, and there was no reference on the face of it to indicate that there were any such conditions. Here the plaintiff admitted seeing some reference to "conditions of carriage." The judgment holds that the plaintiff knew, or ought to have known, of the conditions, and that having notice of them he was bound by them. This ought to be a broad hint to shippers and consignees to read the fine print on the back of "shipping receipts" and "advice notes."—Mayor v. Grand Trunk R. W. Co., 31, U. C. C., P. 248.—[London, (Ont.) Free Press.

Extending the Postal Service.

The Post Office Department has completed arrangements for extending the railway mail service over the Southern Pacific and Arizona Railroad from Tucson, Arizona, to Deming, N. M., a distance of 230 miles, and from Deming to Tocarro, N. M., over the Atchison, Topeka and Santa Fe Railroad, a distance of about one hundred miles. This connection completes a continuous railway mail service from the East to the Pacific coast, from Kansas City, Mo., by way of Santa Fe across the southern border of Arizona and through California to San Francisco. The track on this connecting link was completed on the 10th, and the new through mail service will begin on the 18th inst. It will enable the department to forward mails from the Mississippi River to points in Southern Arizona and Southern California several days sooner than heretofore. The completion of the road between Deming and Tucson opens an additional line for traffic and travel between St. Louis and the Pacific coast.

A Safeguard for Brakemen.

The Richmond and Danville Railroad company is introducing on their freight trains a safeguard for their brakemen. It is well known that many fatal accidents which occur to brakemen are those in which the brakemen standing on the top of freight cars are knocked in the head by covered bridges. The safeguard consists of a post erected about half a mile on either side of a covered bridge. To this post a horizontal piece is attached stretching across the track, of course above the reach of any head on top of a car. From this horizontal piece cords are swung, so that in case the brakemen is inattentively standing upright while nearing the bridge, the cords will strike him and remind him to duck his head.

The Pittsburg Chronicle says that Mr. E. A. Ford, at present General Passenger and Ticket Agent of the Vandalia Line, has been appointed General Passenger and Ticket Agent of all the lines operated by the Pennsylvania Company west of Pittsburg. The lines owned and leased by this company are: the Pittsburg, Fort Wayne and Chicago; Chicago and Pittsburg; Erie and Pittsburg; Ashtabula, Youngstown and Pittsburg; Mansfield, Coldwater and Michigan; Tuscarawas Valley; Panhandle route; the Vandalia route; and the Cairo and Vincennes Railroad. Mr. Ford's headquarters will be at Pittsburg and the offices now occupied by the various General Passenger and Ticket Agents previously required will be wholly closed, or simply used as offices of assistants.

From London, Eng., March 10th, we learn that the West Coast Telegraph Company, Limited, operating cables to Peru, has completed arrangements to connect with the Central and South America Cable Company via Panama, Central America, Mexico and the United States to Europe, saving 8,000 miles transmission and about $6 per word on business between points in the United States and the west coast of South America over the route now used, which is via Brazil and Portugal.

The ceremony of laying the first rail of the Washington City and Point Lookout Railroad took place on the 10th inst. at Brandywine, sixteen miles from Washington, D. C., in the presence of Colonel S. T. Suit, President of the company; W. J Wharton, chief engineer; Hector MacLean, chief of construction, and a number of well-known Washington citizens and journalists. The road will be completed from Washington to Point Lookout by the 1st of August.

The new Steamer City of Worcester, constructed to run on Long Island Sound, was launched from the Shipyard of Messrs. Harlan & Hollingsworth, Wilmington, Del., on the 12th inst.

"Short" Stock Sales in Pennsylvania.

An important decision in relation to stock operations has been delivered by the Supreme Court of Pennsylvania in the case of John J. Thomas against John B. Dickson. The facts in brief are that John J. Thomas, the plaintiff in the lower court, was a stock broker in 1874. In June of that year he received from Dickson an order to sell short 500 shares of Pennsylvania Railroad stock. Whether this was really done according to the practice of stock operators, or whether at the end of 15 days the broker merely charged Dickson for the difference, could not be shown at the last trial, since Dickson was dead, and the only evidence that could be presented was a memorandum-book of the broker's charging Dickson with the difference between 49 and 52⅜. Judge Briggs charged the jury that a sale of stock made in good faith, with intent to deliver, whether the seller has the stock in his possession or not, is a legal sale. The jury decided in favor of the broker, and gave him a verdict for $4,808. This verdict is reversed by the Supreme Court, Justice Gordon saying that, under the evidence, no other parties were known to the transaction but Thomas and Dickson, and therefore this was a wagering contract and utterly void. There was no question of agency, for there were but two parties to the transaction.

Delaware and Hudson Canal.

The business of the Company for the year ending December 31st, 1880, is herewith respectfully submitted.

	Tons.
Coal mined and sold for account of the company	2,674,704.18
Transported for other parties	372,889.10
Total	3,047,594.08

Which was distributed as follows:

From Honesdale via canal and railroads	1,531,951.00
South from mines	59,398.16
Erie and West	480,576.07
North via A. & S. R. R.	402,785 02
Local sales, &c.	199,993.18
	2,674,704.18
Add transported for other parties	372,889.10
Total, as above	3,047,594.08

The result of the business for the year showing a profit of $1,351,422 71, or a fraction over 6¾ per cent upon the capital stock, may be regarded as satisfactory, especially when it is considered that in the early part of the year the price of coal was not remunerative, and only became so after the general adoption, in March, of the "restrictive policy" in production. After this, the buyers of coal, accustomed to the low prices caused by years of unhealthy competition, and, lacking faith in the continuance of harmonious action on the part of the producers, took coal only as necessity compelled them.

As a consequence of such action the mines, for the greater part of the year, were worked on half time; the old accumulations of coal were exhausted, and the year closed upon bare markets.

In addition to the above, the business of this company was seriously affected by a continued drouth, which compelled a long suspension of business on the canal, and reduced our transportation to an extent of not less than 250,000 tons of business, and the profits thereon.

It is gratifying to be able to state that "the leased lines" have become self-supporting, and that their collateral advantages, as avenues for the distribution of our coal, are annually increasing. It is now safe to assert that the possession of these lines has strengthened the position of the company to an extent that fully justifies the policy that led to their acquisition.

The disastrous results which followed the plan called "open competition" (but which really means wanton waste and destruction) led to the adoption of the "restrictive policy," that was foreshadowed in our report of 1879. The producers of coal no longer differ upon the question of "over production." All agree that it leads to general demoralization of the trade and ruinously low prices, and the experience of the last year can only strengthen such conviction.

It may therefore be assumed that the policy of judicious restriction will be continued; that prices of coal will be made fair alike to the consumer and the producer, and that the managers of this great interest will so conduct it, that while the interests of the public will be protected on the one hand, the owners of the properties on the other, may feel assured of reasonable returns upon their investments.

The managers are aware that the long suspension of dividends has caused great hardship in many instances, and that those who have loyally retained their stock through the long period of depression, would have been gratified by a dividend from the profits now reported. This course however did not consist with their convictions of duty. It must be remembered that the disastrous condition of the coal interest from the later months of 1876 to the close of 1879 left the capital of the company impaired. Until such impairment was made good, it would have been impolitic, if not illegal, to divide moneys, even though the earnings of the company seemed to justify such a course.

To know that such deficit is now fully made up, and that the property of the company is in the best condition in every department, must be alike gratifying to stockholders and managers, and enables the latter to state that a resumption of dividends can now be justified with reasonable grounds for a belief in their regular continuance.

To correct a general, but unfounded belief, that the debt of the company has been increased about $5,000,000, since the suspension of dividends, your managers take this opportunity to state that the $5,000,000 loan (known as Bonds of 1917) was made for the purpose of retiring the floating debt, and other maturing obligations of the company.

For details of the purposes for which the proceeds of the $5,000,000 bonds were applied, and for the actual increase of the debt, which amounts to only $177,978, you are referred to the annexed statement D.

THOMAS DICKSON, President.

PROFIT AND LOSS Account for year ending December 31st, 1880.

Coal on hand, Dec. 31st, 1879, 221,999 13/20 tons	$535,264 65
Mining coal	8,171,869 83
Transportation	596,827 49

Production of Gold and Silver.

The following report has been submitted to the Secretary of the Treasury by the Director of the United States Mint showing the production of precious metals in the States and Territories for the fiscal year ending June 30, 1880:

	Gold.	Silver.	Total.
Alaska	$6,000		$6,000
Arizona	400,000	$2,000,000	2,400,000
California	17,500,000	1,100,000	18,600,000
Colorado	3,200,000	17,000,000	20,200,000
Dakota	3,600,000	70,000	3,670,000
Georgia	120,000		120,000
Idaho	1,980,000	450,000	2,430,000
Montana	2,400,000	2,500,000	4,900,000
Nevada	4,800,000	10,900,000	15,700,000
New Mexico	130,000	425,000	555,000
North Carolina	95,000		95,000
Oregon	1,090,000	15,000	1,105,000
South Carolina	15,000		15,000
Utah	210,000	4,740,000	4,950,000
Virginia	10,000		10,000
Washington	410,000		410,000
Wyoming	20,000		20,000
Other sources	14,000		14,000

Anthracite Coal Tonnage.

John H Jones, accountant for all the several coal companies, furnishes the following statement of anthracite coal tonnage for the month of January, 1881, compared with the same period last year:

	Jan. 1881.	Jan. 1880
Reading Railroad	392,158	397,291
Lehigh Valley Railroad	230,756	320,184
Central R. R. of New Jersey	236,814	279,777
Del., Lack. and Western	269,326	280,429
Delaware and Hudson Canal	187,073	266,221
Pennsylvania Railroad	155,742	96,164
Pennsylvania Coal	70,835	86,530
New York, Lake Erie & W'stern	29,938	37,716
Total	1,672,645	1,764,316

—showing a decrease of 91,670 tons.

The stock of coal on hand at tide-water shipping points, January 31, 1881, was 417,885 tons; on December 31, 1880, 500,272 tons—decrease, 82,387 tons.

Western Union Telegraph.

The following is the official statement of the operations of the Western Union Telegraph Company, submitted by the Treasurer at the meeting of the directors held on the 9th inst.:

Executive Office,
Western Union Telegraph Co.,
New York, March 9, 1881.

In the Report presented by the Executive Committee at the last Quarterly Meeting of the Board, held December 8, 1880, the net profits for the quarter ending December 31 (November being partially and December wholly estimated) were stated at $951,806 62.

The official returns for the quarter (ended December 31) showed the profits to be $1,026,556 16, or $74,749 54 more than the estimate.

The following revised statement, based upon complete returns, will show the condition of the company at the close of the quarter ended December 31, 1880:

Surplus October 1, 1880, as per last quarterly report		$198,129 86
Net profits, quarter ended December 31, 1880		1,026,556 16
		$1,224,686 02
From which deducting—		
Dividend of 1½ per cent, paid January 15, 1881	$615,061 50	
Interest on bonded debt	106,667 55	
Sinking fund appropriations	20,000 00	
Construction account	327,276 27	
Purchase of telegraph stocks and patents	7,395 56	
		1,076,400 88
Leaves a surplus, Jan. 1, 1881, of		$148 285 14
The net revenue for the quarter ending March 31, instant, based upon official returns for January, nearly complete returns for February, and estimating the business for March will be about		$1,669,173 87
Add surplus January 1, as above		148,285 14
		$1,817,459 01
From which appropriating—		
Interest on bonded debt	$107,000 00	
Construction	175,000 00	
Sinking fund appropriations	20,000 00	
		302,000 00
Leaves a balance of		$1,515,459 01
It requires, for a dividend of 1½ per cent on the capital stock that has been issued ($41,073,410)	$616,101 15	
For interest at same rate on certificates of indebtedness issued to Union Trust Company, in trust ($38,926,590)	583,898 85	
Total		1,200,000 00
Deducting which, will leave a surplus, after paying dividend and interest		$315,459 01

In view of the preceding statements, the committee recommend the adoption by the Board of the following:

1. Resolved, That a dividend of 1½ per cent on the capital stock of this company, be and is declared out of the net revenues of the quarter, payable on and after the 15th day of April next, to stockholders of record, at the close of the books of transfer on Saturday, the 26th day of March, instant.

2. Resolved, That at the same time, and in like manner, one and one half per cent interest for the quarter be paid to the holders of certificates of indebtedness of this company, which may not have been converted into stock.

3. Resolved, That for the purpose of such dividend and interest, the books of transfer be closed at three o'clock p. m. on Saturday, the 26th day of March, and reopened on the morning of the 16th day of April next.

Respectfully submitted,
Norvin Green, President.

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending March 5, and for the year to the same date, compared with their respective amounts carried to the same time last year:

	Week.	1881.	1880.
Reading Railroad	134,516	1,682,952	1,607,280
Schuylkill Canal			88,041
Lehigh Valley	100,878	1,276,836	1,017,101
Del., Lack. & Western	85,376	686,811	511,836
Shamokin Valley	17,965	162,892	128,873
Central New Jersey	122,878	684,340	439,852
United R. R. of New Jersey	30,540	260,767	169,883
Pennsylvania Coal	23,140	177,785	108,644
Delaware and Hudson	82,834	594,255	565,294
Huntingdon & Broad Top Mt	8 579	75,301	72,508
Penn. and New York	21,846	308,812	293,153
Clearfield, Pa.	40,780	316,329	321,691

The report of the Lehigh and Susquehanna Division of the Central Railroad of New Jersey is to February 28, inclusive. The total tonnage of anthracite coal from all the regions for the week ending March 5, as reported by the several carrying companies, amounted to 565,512 tons, against 341,966 tons in the corresponding week last year, an increase of 223,546 tons. The total amount of anthracite mined for the year is 4,211,399 tons, against 3,301,520 tons for the same period last year, an increase of 909,879 tons. The quantity of bituminous coal sent to market for the week amounted to 92,074 tons, against 44,189 tons in corresponding week last year, an increase of 47,885 tons. The total amount of bituminous mined for the year is 687,093 tons, against 688,491 tons for the corresponding period last year, a decrease of 1,398 tons. The total tonnage of all kinds of coal for the week is 657,586 tons, against 386,155 tons in corresponding week last year, an increase of 271,431 tons, and the total tonnage for the coal year is 4,898,492 tons, against 3,990,011 tons to same date last year, an increase of 908,481 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending February 26 was 177,556 tons, of which 129,100 tons were coal and 48,456 tons coke. The total tonnage for the year thus far has been 1,314,558 tons, of which 953,670 tons were coal and 360,888 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended March 5 were 28,179 tons, and for the year 237,717 tons—a decrease of 67,088 tons as compared with the corresponding period of last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 24,302 tons, year, 209,198 tons; decrease as compared with 1880, 61,222 tons. Chesapeake and Ohio Canal, none; decrease as compared with 1880, 2,584 tons. Pennsylvania Railroad—week, 3 876 tons; year, 28,519 tons; decrease as compared with 1880, 3,284 tons. The coal tonnage of the Reading Railroad for the past week, ending March 12, was about 166,000 tons of which 31,000 tons were sent to and 27,800 tons shipped from Port Richmond, leaving about 76,500 tons on hand on Saturday night. There were also 21,000 tons sent to Elizabethport and 20,500 tons shipped thence.—[Phila. Ledger, March 14.

Skobeleff's Little Railroad.

The correspondent of the Republique Francaise who is on his way to join General Skobeleff's expedition, writes from the camp of Koutole that he is in a position to give trustworthy and interesting information concerning the railway which is in course of construction across the steppes:

This railway is destined to enable Russia to throw an army in a comparatively short time into the very heart of Turcomania. It has lately been represented not only as a military line, but as the head of the famous Trans-Asiatic Railway, which is to place Europe in direct communication with India. But that is, at least, not the chief aim which the Russian Government has in view. It may so happen that one day this railway will form a link in the long chain stretching from Europe to the Ganges; but what is now kept steadily in view is the establishment of rapid communication between St. Petersburg and Central Asia, in order to prevent the warlike tribes which inhabit this part of the world being a constant danger and annoyance to their neighbors.

If Russia had been inspired with the ambition of reaching India across the Asiatic Continent she would not have chosen as the head of the line Michaillowsky, which is a shallow little port into which no large vessel can penetrate, but would have selected Orenburg. Moreover, she would not have pressed on the works with such excessive speed. The line is, indeed, but a military one, which already renders great services to the expedition against the Tekkes. In the first instance, it had been decided that it should not extend beyond Mallo Kera, but that a railway should start from that point and be carried as far as Kazan Djick. A decree was, however, subsequently issued ordaining that the main line should be pushed on further. The first twenty-two versts cost 150,000 roubles, but the twenty succeeding versts which have now been completed, only occasioned an outlay of 100,000 roubles. These figures speak for themselves, and show both the rapidity with which the works are carried on and their inexpensive nature.

Great difficulty was experienced in constructing the first eight versts, for the line ran through a desert of sand hills. It was therefore necessary to make deep cuttings and high embankments. But this was not all. It was also essential to prevent the drifting sand from blocking the cuttings and the wind from gradually carrying away the embankments. Watering with sea water was first tried unsuccessfully; then naphtha was used, and answered the purpose of keeping the sand in its place, but it was too costly, and lastly a layer of clay was employed, which it appears is generally found sufficient. However, in the cuttings, wooden fences such as the Russians employ to prevent their railways becoming choked with drifting snow have been raised along the line to protect it from the sand. After the first few versts had been constructed the work became comparatively through an immense plain, only varied by a few hills of sand. When the bed of the dried up stream has to be crossed—such, for instance, as the Amou Daria—the engineers content themselves with filling it up with sand, and boldly lay the rails across it. Along the whole length of the line which has yet been laid the nature of the soil has been the same—that is to say, sand upon a stratum of clay.

The most serious obstacle which has yet been encountered is the almost impossibility of procuring water. It is not only a question of potable water, but of water sufficiently good to be used for the locomotives. The borings which have been made along the line have produced very unsatisfactory results, but some very bad water in small quantities has been discovered which after being mixed with caustic acid, will probably be sufficiently good to serve for the engines. It is also proposed to construct immense reservoirs at certain points where at some season the water collects, such as at Atcha Koniua. It appears that there is also much difficulty in providing fuel for the locomotives. At the present moment wood from Persia has been employed, but owing to the expense of its carriage it is much too dear to be continued. Petroleum is, however, abundant, and since it is used as fuel on the Volga and Caspian Sea steamers, it will also be tried on the railway. One thousand navvies, all Russians, are employed on the works, which progress on an average at the rate of a verst a day.

Commerce of New York.

The foreign imports at New York for the month of February, 1881, are officially stated as follows:

	1880.	1881.
Entered for consumpt'n.	$20,585,964	$17,812,805
Do. for warehousing ...	7,622,450	6,389,790
Free goods	10,984,396	9,363,596
Specie and bullion	972,574	591,072
Total entered at port...	$40,165,384	$34,157,263
Withdrawn fr. wareh'use	6,808,808	6,539,640

The foreign imports at New York for two months from January 1, were:

	1880.	1881.
Entered for consumpt'n	$10,680,829	$33,174,618
Do. for warehousing..	14,905,826	12,130,280
Free goods.....	23,628,271	19,623,225
Specie and bullion....	1,847,612	5,314 499
Total entered at port..	$81,062,538	$70,242,622
Withdrawn fr. wareh'se	13,896,134	14,391,864

The foreign imports at New York for eight months of the fiscal year, were:

	1880.	1881.
6 months ending Jan. 1.	$266,228,601	$280,770 515
January	40,897,154	36,085,359
February.....	40,165,384	34,157 263
Total.	$347,291,139	$351,013,137

The duties received at New York for eight months ending with February, were:

	1880.	1881.
6 months ending Jan. 1.....	$59,271,080 94	$69,593,542 80
January	11,960,677 78	10,572,559 15
February	12,251,602 24	11,217,766 87
Total	$83,486,360 69	$91,383,868 82

The exports from New York to foreign ports for the month of February, were:

	1880	1881.
Domestic produce.....	$23,349,543	$27,064,988
Foreign free goods....	235,877	682,033
Do. dutiable.....	305,728	389,282
Specie and bullion.....	605,022	1,184,443
Total exports.....	$24,496,170	$29,320 746
Do. exclusive of specie	23,891,148	28,136,303

The exports from New York to foreign ports for two months from January 1, were:

	1880.	1881.
Domestic produce....	$48,018,234	$55,591,308
Foreign free goods..	606,234	1,990,800
Do. dutiable.....	683,246	819,114
Specie and bullion...	1,424,941	2,218,957
Total exports....	$50,732 655	$60,620,179
Do. exclusive of specie.	49,307,714	58,401,222

The exports (exclusive of specie) from New York to foreign ports for eight months ending with February, were:

	1880.	1881.
Six months ending Jan. 1....	$197,760,586	$220,889,350
January	25,416,566	30,264,919
February	23,891,148	28,136,303
Total produce...	$247 068,300	$279,240,572
Add specie.....	4,758,007	6,868,358
Total exports...	$251,826,307	$286,108,930

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 17, 1881.

The quotation for call loans is 5@6 per cent, exceptional transactions on pledge of United States bonds being reported at 4 per cent. Time loans are 5@6 per cent, and prime mercantile paper 5½@6 per cent.

The posted rates for prime bankers' sterling are 4.81@4.83½. The actual rates are 4.80@½ and 4.82¼@¾. Cables are 4.82¾@4.83½, and prime commercial bills are 4.78¼@¾.

The Governors of the Stock Exchange have admitted the following additional securities to its list:

Chicago, Milwaukee and St. Paul Railroad Company—First mortgage, Mineral Point Division, five per cent bonds, dated July 1, 1880, and due July 1, 1910; amount issued, $2,160,000. An additional $351,000, Iowa and Dakota Division, first mortgage, seven per cent extension bonds, and an additional $432,000 first mortgage bonds, Southern Minnesota Division.

Peoria, Decatur and Evansville Railway Company—An additional $720,000, Evansville Division, first mortgage bonds, and an additional $480,000, Evansville Division income bonds.

International and Great Northern Railroad Company—An additional $400,000 first mortgage bonds and an additional $800,000 second mortgage income bonds.

Alabama Central Railroad Company—First mortgage 6 per cent bonds dated March 11, 1879, and payable July 1, 1918; amount authorized, $1,200,000; amount issued, $1,000,000. Income

bonds, of which the whole amount authorized, $1,400,000, has been issued.

Toledo, Delphos and Burlington Railroad Company—Stock, $4,000,000, divided into 80,000 shares of $50 each; first mortgage 6 per cent bonds dated January 1, 1880, and payable January 1, 1910, $1,250,000; income bonds of same date and time, $1,250,000; first mortgage 6 per cent bonds, Dayton Division, dated July 1, 1880, and payable April 1, 1910, $1,000,000; income bonds, Dayton Division, of same date and time, $1,000,000 first mortgage Toledo terminal trust bonds, series A, bearing 6 per cent interest and dated July 1, 1880, and payable July 1, 1910, $250,000. The Toledo, Delphos and Burlington Railroad Company was formed May 23, 1879, by the consolidation of the Toledo, Delphos and Indianapolis, the Toledo and Maumee, the Delphos and Kokomo, incorporated under the laws of Ohio, and the Delphos, Bluffton and Frankfort incorporated under the laws of Indiana. On June 18, 1880, the company was consolidated with the Dayton, Covington and Toledo Company, retaining the former name. The road which is narrow gauge extends from Toledo, Ohio, southwesterly to Kokomo, Ind.; the Dayton Division from Delphos to Dayton, Ohio, and the Shanesville Branch from Mer er to Shanesville. The total length of the line is 281 miles.

The closing quotations on Thursday were: Adams Express, 130@132; American Express, 71@72; American District Telegraph, 63@64⅛; Atlantic and Pacific Telegraph, 46⅝@47; Chicago, Burlington and Quincy, 162¾@163; Canada Southern, 81⅝@81¼; Chicago and Northwestern, 123¼@123½; do. pref., 133¼@133¾; Chicago and Alton, 188@189½; Chicago, Milwaukee and St. Paul, 112⅝@112⅞; do. pref., 122½@123½; Chicago, Rock Island and Pacific, 133@135; Columbus, Chicago and Indiana Central, 25@25¼; Cleveland, Columbus, Cincinnati and Indianapolis, 85@86; Hannibal and St. Joseph, 55@55¼; do. pref., 102½@103½; Illinois Central, 136@136¼; Lake Erie and Western, 52@53½; Lake Shore and Michigan Southern, 126⅜@126¾; Metropolitan Elevated, 119@119½; Manhattan Elevated, 89½@89¾; New York Elevated, 126½@127½; New York, Lake Erie and Western, 47¾@47⅞; New York, Ontario and Western, 35¾@36; New York Central and Hudson River, 144⅜@145; Ohio and Mississippi 44½@44⅝; Panama, 212@228; Pacific Mail, 57¾@58; St. Louis, Iron Mountain and Southern, 65¼@65⅜; St. Louis, Alton and Terre Haute, 42@43½; do. pref, 128¼@130; Texas and Pacific, 56⅝@57; Union Pacific, 119@119¼; United States Express, 58@59; Wells Fargo Express, 118@118½; Western Union Telegraph, 114⅛@114¾; do. ex. div., 79⅝@79⅞; Wabash, St. Louis and Pacific, 46⅛@46⅜; do. pref., 88⅝@88¾.

Heaters for Railroad Use.

An important item of expense and one which gives much trouble and care to railroad purchasing agents, and those having in charge the comfort and safety of passengers, employes and freight, is found in providing means for heating cars, stations, workshops, etc., and as is well known, the subject during the past few months has entailed more trouble even than usual on account of the severity of the weather. To meet this difficulty many devices have been brought out of more or less value, especially for heating cars, and while some of them are likely to be permanently adopted, the great majority of roads will still continue to hold to stoves or well tried heaters as being to them the most available. Inasmuch as these are likely to be the most common means of car heating, for the present at least, railroad men are desirous of obtaining for that and general railroad use such heaters as can be mounted in the safest manner while possessing the most powerful heating qualities. To meet this want and the general heating requirements of railroads, The Barstow Stove Co., of Providence, R. I., are manufacturing stoves, heaters and furnaces for cars and railroad buildings that have peculiarly desirable features which railroad men well appreciate upon examination. They are made of the best stock, and as of light and compact form as is consistent with safety, and are economical and durable, and most powerful heaters. The "Regalia" stove manufactured by this company, is one of the most attractive and convenient heaters, for general office or home use, that has ever been offered to the public. It is a marvel of beauty and cheerfulness which qualities with those of economy and convenience have given it great popularity even in the early part of its introduction, for it is one of the latest productions of this extensive manufactory. The New York office and warerooms of the Barstow Stove Company are on the corner of Beekman and Water Streets, under the management of Charles B. Hotchkiss, agent.

The Montreal Telegraph Company.

By the receipt of some telegraph statistics from Canada our attention has been called to the rapid progress which the Dominion has made within the past thirty years. The statistics refer to the annual statement of the Montreal Telegraph Company and its list of offices. That Company was organized in 1847 with a capital of £15,000. It had 500 miles of poles and wires and nine offices. It has now a capital of £500,000, 12,700 miles of poles, 21,500 miles of wire and 1,674 offices. The number of telegrams sent over the line in 1880 was over 2,000,000, and its earnings for the year £137,700. Within the same period Montreal has increased from 50,000 to 150,000, and now that the contract for the railway to British Columbia (over 2,600 miles) has been sanctioned by Parliament a still more rapid increase appears to be generally anticipated throughout the Dominion.—[Liverpool (Eng.) Post.

The two companies chartered under the laws of Ohio and Indiana respectively as the Ohio and Indiana State Line and the Indiana and Ohio State Line, to construct a railroad between Indianapolis and Springfield, have consolidated with the Indiana, Bloomington and Western Railroad Company. The two lines first mentioned are now being constructed, and when completed will connect the Indiana, Bloomington and Western with the Cincinnati, Sandusky and Cleveland Railroad. The Indiana, Bloomington and Western Company will then control a line of about 550 miles nearly direct East and West, from Sandusky and Columbus, Ohio, to Peoria, Ill.

Toronto and Ottawa Railway.

Mr. J. C. Bailey, who has been out with a surveying party locating the line of the Toronto and Ottawa Railway, writes from Marmora, under date March 7th, as follows:

We have now 50 miles actually staked out ready to begin work at a moment's notice, but in addition to this we have the line roughly located between Peterboro' and Bethany, going west a distance of sixteen miles, and between Madoc and Arden, going east a distance of twenty-eight miles; in all forty-four miles more ready to be finally located. All the party are now stationed at the village of Madoc, prosecuting the work as vigorously as possible. Our next stopping place will be Bridgewater.

The Ripley and Russelville Railway Company has been incorporated in Ohio with a capital of $80,000.

A charter was granted by the State Department at Harrisburg, Penn., on the 15th inst., to the Reading and Chesapeake Coal and Railway Company, with a capital of $2,500,000. The road is to run from Reading to the Maryland line, and thence connect with a line to the Chesapeake Bay. It is also to connect with a road from New Holland to Lancaster. The length will be about sixty miles.

Articles of agreement were filed at the State Department at Harrisburg, Penn., on the 15th inst. for the consolidation of the Emlenton, Shippensville and Clarion, Foxburg, St. Petersburg and Clarion, and Foxburg, McKean and Bradford Railroads into one road, to be called the Petersburg, Bradford and Pittsburg Railroad, the length of which will be about fifty-five miles.

The map of the Yates Avenue and Flatbush Railroad Company was filed in the Register's Office, Brooklyn, on the 12th inst. The route begins at Broadway and Yates-ave., running to Fulton-st., thence up Fulton-st., one block to Troy-ave., thence through Troy-ave. to East New York-ave., Flatbush. Edwin Beers is president of the company.

The Louisville and Nashville Railroad company are now redeeming the scrip issued by the old St. Louis and Southeastern Railroad company during the month that road was in the hands of a receiver.

When the Hempfield Railroad is extended it will cross the Monongahela River at Believernon on a bridge 100 feet high the approaches to which are already graded.

The annual election of the Chicago, Burlington and Quincy Railroad Company will be held in Chicago March 30.

The proposition of an American company to lay a railway through Newfoundland has been accepted by the local Legislative Government.

Regular passenger trains will commence running on the Somerset and Cambria (Penn.) Railroad on the 25th inst.

10s Portrait of Daniel Webster.*
20s Portrait of Alex. Hamilton.
50s Portrait of Benjamen Franklin.
100s Portrait of Abraham Lincoln.
500s Vignette representing Victory divested of her Armor.
1000s Portrait of DeWitt Clinton, ex-Governor of New York State

* Only notes of the new issue counterfeited.

Counterfeit Note List.

HOW TO USE THE LIST.

All paper money in the United States is printed in sheets of four notes of one denomination on each sheet. Each bill bears a letter called the check letter, usually A, B, C or D, which appears on its upper left hand, and lower right hand corner. The notes are always numbered in their order on the sheets; thus all notes lettered A, will bear the number 1 or a number which divided by 4 will leave 1 remainder; the number accompanying B divided by 4 will leave 2 remainder, C, 3 remainder, D, no remainder. All genuine notes with letters A and C will have odd numbers, and all with B and D even numbers.

The counterfeiter makes his plate commonly from one bill and rarely prints more than one of the four letters. As soon as a spurious bill is discovered measures are taken to redeem all good bills of that denomination, bearing the same letter. This leaves the counterfeit alone in the field.

All bills bearing the letters given in the foregoing list should be refused by all non-experts.

We can assure our subscribers that there are no counterfeit bills on paper currency of the United States, which are known to the Secret Service Division at Washington at this date.

The National Bank notes printed in Italics are stolen and are worthless.

Banks starred do not exist, and the whole issue is fraudulent.

OFFICE OF THE HOMESTAKE MINING COMPANY,
18 WALL-ST., NEW YORK, March 12, 1881.

DIVIDEND NO. 31.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for February, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 25th inst. Transfers close on the 19th inst.

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.

☞ Sample Copies sent on Application. Address

AMERICAN RAILROAD JOURNAL COMPANY,
NEW YORK.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

SECOND QUARTO SERIES, VOL. XXXVII., No. 13.] NEW YORK, MARCH 26, 1881. [WHOLE No 2,344, VOL. LIV.

Central Pacific and Union Pacific Stocks.

It has been not a little surprising to the careful observer of the workings of the Central Pacific and the Union Pacific Railroads, and especially so to those who have studied into the present and prospective traffic advantages of the two roads, that there should be a difference of about 35 per cent in the current prices of the stocks of the companies, whose roads form the two halves of the original Pacific route. That the quotations of the Union Pacific stock should be above those of the Central Pacific, seems all the more strange, even to a casual observer, when it is remembered that the roads are so similarly situated as to government aid and total cost, and that the advantages of trans-continental traffic, which have been of marked similarity in the past, must of necessity change decidedly in favor of the latter road, through the opening of the new route formed by the junction of the Atchison, Topeka and Santa Fe and the Southern Pacific Railroads. A careful examination of the condition, finances, business and prospects of the two roads certainly does not warrant such a difference in the selling price of the stocks of the two corporations as market quotations have recently indicated, or any difference at all in favor of the Union Pacific. The influence which is temporarily depressing the stock of the Central is doubtless the action of the Government, taken at the suggestion of the U. S. Auditor of Railroad Accounts, to restrain the company from declaring dividends lest the security of the government claim may be imperiled. The prevailing feeling among those most conversant with the matter is, that as soon as this equity suit is brought to trial the incorrectness and inconsistency of the statements upon which it is based will be made readily apparent. It is a matter the ultimate results of which are not in any way regarded in a serious light by those most directly interested, but at the same time it has had an unwarranted depressing influence upon the securities of the company. Meanwhile the business and condition of the company is steadily improving, and when it is known that the Central has not only the larger and more valuable local traffic, but also that henceforth it must participate in the through traffic over the 32d parallel route just opened, of which traffic the Union Pacific must inevitably be deprived, no more reasonable explanation can be given for the difference in the price of the stocks of the two companies than the unsatisfactory one offered above.

As inquiries on this subject are frequently made we have prepared from Auditor French's report and other sources a comparative statement of the indebtedness and revenues of the Union Pacific and the Central Pacific companies, June 30, 1880, which will be found at the conclusion of this article, and which contains much information in tabulated form that we believe will prove of interest to our readers. The statement is made more favorable to the Union Pacific by reckoning among its assets $16,659,139 of bonds and stocks of the branch and tributary roads at their par value. It is claimed indeed that these stocks and bonds bring in revenue and are therefore valuable; this may be so, but the same time it should be remembered that the credit of the Union Pacific is being used through its collateral trust bonds, to improve and extend these same branches, so that while its stock and bonded debt accounts are increasing it is dividing its surplus earnings closely. Without attempting to ascertain the cost and value of the respective roads, it is sufficient to say that the Central Pacific represents the most days' works in construction, and that unlike the Union, which lies wholly in an open country, where parallel roads may be constructed at will by any body, the Central enjoys a very remunerative local traffic of which it cannot easily be deprived, and about 80 per cent of its revenues are derived from local sources. The capital stocks of the two companies are now substantially equal: $60,000,000. The funded debt of the Central has been reduced since the above date by $1,140,000 of its 7 per cent debt, so that without counting the sinking funds the funded and floating debts are also about the same, exclusive of the U. S. subsidy. The Central Pacific had accumulated it will be seen $4,411,340 in its own sinking funds for which the Union Pacific has no corresponding equivalent. While the Central Pacific, like the Union, is devoting the proceeds of land sales to the retirement of its land bonds, it is in addition paying into its sinking funds about $500,000 per annum, and the accumulating interest thereon toward cancelling its mortgage debt, nearly all of which is devoted to the extinction of its first mortgages, having precedence over the Government subsidy, and to that extent improving the lien of the government; while the Union Pacific makes no corresponding provision for its first mortgages, $41,940,000 in amount. This feature singularly enough seems to have been entirely overlooked by Auditor French. The operation of the sinking funds of the Central Pacific will by the time the loans fall due have extinguished some of the prior mortgages entirely, and will have cancelled $13,646,000 of its mortgage debt, while the same class of mortgages of the Union Pacific will remain undiminished. This is exclusive of the sinking fund in the U. S. Treasury held for the benefit of first and second mortgages which amounted January 1, 1881, to about $750,000 for each company.

Much stress has been laid by the government accountant upon the fact that the repayments upon the subsidy debt to the United States by the Union Pacific have been greater than those by the Central. This arises from the fact that the Union Pacific necessarily carries a greater proportion of public mails and stores, and by the presence of Indian troubles near its line it has more troops, &c., to transport. This repayment is in transportation, at current rates, and is no hardship. The inequality of the two companies in this respect was duly recognized by terms of the Thurman act. The indebtedness to the government, or so much of it as remains unliquidated by this transportation and the requirements of the law is not a pressing debt but becomes due and payable with the principal 1895-1900.

The following exhibits the state of the accounts with the United States on subsidy account January 31, 1881; but it must be borne in mind that there are large amounts

(about $2,000,000, for the two companies) awaiting settlement and credit on these accounts.

	Union Pacific Railway including Kansas Pacific.	Central Pacific R. R. including W. Pac.
Principal U. S. currency bonds	$33,539,512	$27,855,680
Interest not repaid by transportation	15,560,350	17,926,618
Total indebtedness to U. S. not due until maturity of bonds	$49,099,863	$45,782,298
Adding net debt as above.	89,452,441	63,061,697
	$138,552,303	$108,843,991

According to a recent circular of Fisk & Hatch, the accumulated surplus of profits of the Central Pacific Railroad Company undivided during the period covered by the United States accounts Nov. 6, 1869 to Dec. 31, 1879 as derived from the Auditor's Reports was $10,164,985; but according to the annual report of the directors the undivided surplus (from the beginning of course) was $15,382,538. To this we are now enabled to add the result of the calendar year's business of 1880 as follows:

Balance to credit of profit and loss		$15,382,538 61
Gross earnings	$20,508,112 88	
Operating expenses	12,045,668 89	
Net over operating exp.	$8,462,443 99	
Revenues from investments, &c.	857,612 78	
	$9,320,056 77	
Deduct int. paid	$4,715,321 94	
Taxes, legal, general, engineering & misc. expenses.	827,940 98	
Co's sinking funds	753,500 00	
Requirem'ts U.S. (two-thirds in transportations) estimated	1,000,000 00	
	6,296,765 92	
Surplus profit for 1880		3,023,290 85
		$18,405,290 85
Deduct dividends Nos. 9 and 10		3,406,530 00
Surplus, undivided after providing for all dividends, interest and sinking funds		$14,999,309 46

It is announced that the Union Pacific Company has increased its dividends to 7 per cent; it will be seen that the Central Pacific Company will be equally competent to do the same, as henceforth its interest requirements will be diminishing while its rentals will be stationary, at the same time that its earnings must be constantly increasing. The system of subsidiary lines some of which at first were dependent upon the present line are now all profitable and completed, and some of them must be very important factors in future development of population and trade on the Pacific coast.

We give a comparative statement of the Union Pacific and the Central Pacific Companies' debt and revenues, June 30, 1880, as follows:

	U. P. R. way.	U. P. R. R.	C. P. R. R.
Bonds outstanding 1873 total	$.....	$48,291,000	$52,584,000
Bonds outstanding June 30, 1880	$82,434,357	53,624,000	56,830,000
Increase of debt during period.	$.....	$5,333,000	$4,246,000
Sinking fund for redemption June 30 1880	.....	$613	$4,187,176
Land notes on hand	$6,462,224	.....	1,820,353
Cash in hands of trustees	.....	.....	224,164
Total available for redemption	$6,462,837	.....	$6,231,693
Floating debt, &c., June 30, 1880—			
Bills payable	$2,894,368	$705,684	$790,807
Accounts	.....	.....	4,926,200
Dividends	2,432,230	2,233,323	1,630,729
Pay rolls and vouchers	1,691,486	837,781	.....
Total unfunded debt	$7,018,084	$3,766,788	$7,347,736
Less—			
Bills receivable.	$78,194	$50,500	$1,877,773
Accounts	7,121,617	3,767,067	786,795
Materials on hand	1,850,669	1,086,689	1,932,696
Cash on hand	2,047,329	490,708	1,855,357
Bonds and stocks	16,659,139	7,428,228	2,334,022
Sinking funds and cash in hands of trustees	613	613	4,411,340
Totals	$27,757,561	$12,832,805	$13,197,983
Total debt funded and floating exclusive of U. S. subsidy	89,452,441	57,400,788	63,061,693
Net debt	$61,694,880	$44,567,983	$49,863,710
Miles	1,815	1,038	1,214
Net debt per mile	$34,000	$43,000	$41,000

Louisiana and Missouri River Railroad.

The following is an abstract of the report of this company for the year ending December 31, 1880:

On the first day of August, 1870, your road was leased to the Chicago and Alton Railroad Company in perpetuity, reserving an annual rent of thirty-five per cent of the gross earnings, after deducting taxes and assessments, with the stipulation on the part of the Chicago and Alton Railroad Company that the minimum rental should never be less than $1,370 per mile per annum.

The gross earnings of the road for the year ending December 31, 1880, were as follows: Main line between Louisiana and Mexico, 50.9 miles, $429,833 19; south branch, between Mexico and Cedar City, 50 miles, $38,091 31; total, 100.9 miles, $467,924 50; less taxes, $11,018 04; leaving the sum of $456,906 46; 35 per cent of which, or $159,917 26, was the rental due your company for the year ending December 31, 1880.

The road between Louisiana and Mexico is a part of a through line between the lines of the Chicago and Alton Railroad Company in Illinois and Kansas City, and that part of the road between Mexico and Cedar City is a branch upon which the traffic is, and probably will continue to be, light. The company has no assets aside from its annual rental, all of which has been appropriated in payment of interest and expenses.

The rental for the year ending December 31, 1880, was $159,917 20. The future rental will be applicable: First, to the payment of interest accruing after 1880 upon 1675 bonds (or guaranteed preferred stock into which bonds have been converted) until the principal of fifty-nine of said bonds issued in excess of $16,000 per mile of completed road shall be paid by your company, and then upon the residue of said stock and bonds, and also to the payment of interest accruing after 1880 upon 300 second mortgage bonds, as the interest on said stock and bonds respectively becomes due and payable; second, to the payment of office rent, salary of transfer agents and secretary and other necessary expenses of the company; third, to the payment of the indebtedness of your company to the Chicago and Alton Railroad Company; fourth, to the payment of the principal of fifty-nine first mortgage bonds, being the excess over $16,000 per mile of completed road which your company is under obligation to pay and discharge before payment of dividends. After making these payments any overplus of rental will be applicable to the payment of dividends upon the preferred and then upon the common stock.

The capital stock is: common, $2,272,700; preferred, $1,010,000. Liabilities—Guaranteed preferred stock into which first mortgage bonds have been converted, $330,000; first mortgage bonds, maturing August 1, 1900, which your company is obliged to pay, $1,345,000; second mortgage bonds, maturing November 1, 1900, $300,000. The annual interest upon the guaranteed preferred stock and first and second mortgage bonds is $138,250, and the minimum rental guaranteed by the Chicago and Alton Railroad Company is $138,370. Other indebtedness is as follows: Note to the Chicago and Alton Railroad Company for money advanced company, dated December 1, 1877, $176,187 96; interest on same from November 5, 1878, to December 31, 1880, $30,336 19; note to the Chicago and Alton Railroad Company in settlement of claim for damages of non-completion of road, payable from earnings of company, if sufficient for that purpose, $200,000; less payment as of date of note, $65,000; interest on same from March 14, 1878, to December 31, 1880, with annual rents, as per stipulation contained in note, $32,541 70; total, $374,065 85. In addition to the above liabilities the first mortgage bonds of the company to the amount of $440 000 are outstanding, on which the Chicago and Alton Railroad Company has agreed to pay the semi-annual interest as it accrues, and the principal upon the maturity of the bonds. So far as known the company has no other liabilities.

The gross earnings of the road for the last five years have been as follows: 1876, $218,360 85; 1877, $213,528 18; 1878, $231,389 75; $1879, $317,750 59; 1880, $467,924 50.

The Richmond (Va.) City Railway was sold on the 15th inst. to satisfy two deeds of trust for $130,000 with interest added, amounting in full to about $190,000. The property was bought by J. L. Schoolcraft, who paid $2,000 in excess of the amount above named.

The Cincinnati Southern Railroad Co. has made an increase of stock to the amount of 10 per cent of its present stocks.

New York, Saturday, March 26, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

ACTION on the bill providing for a State railroad commission for New York has been postponed one week by the Railroad Committee of the Assembly.

THE opening of the Hudson river for navigation to Troy, this week, is put down according to the time honored custom, as marking locally the entry of Spring.

CONSIDERABLE surprise was created in financial circles this week by the announcement that the directors of the Northern Pacific Railroad Company had decided to distribute the 180,000 shares of common stock which since the re-organization in 1875 has been held in the company's treasury. The officers of the company give as the reason for the distribution the desire, on the part of those entitled to receive the stock, to secure their profits at the prices which have recently prevailed.

A SATISFACTORY arrangement, and one which it is believed will be beneficial to both roads, has been concluded between the Pennsylvania and the Baltimore and Ohio Railroad Companies. Under the new arrangement all the Western freight to New York and passenger trains of the Baltimore and Ohio will go over the Philadelphia, Wilmington and Baltimore Railroad, the Junction Railroad, and the New York division of the Pennsylvania Railroad. Freight is now being received on this plan and passenger trains are to begin running Sunday night.

PHILADELPHIA has just received a most generous gift from Colonel Thomas A. Scott, amounting to over $150,000, bestowed in a manner characteristic of the practical ideas of that great railroad man, which have had so much to do with the advancement of Pennsylvania's important industries. Of his gift $50,000 go to the endowment of the Chair of Mathematics in the University of Pennsylvania; $50,000 to the Jefferson Medical College; $30,000 to the Orthopœdic Hospital, and $20,000 to the Children's Department of the Episcopal Hospital.

THE Railroad is looked upon by scientific men as one of the most certain agents for permanently relieving the Northwest of the locust pest. The second report, about ready for distribution, by the United States Eutomoligical Commission of investigations made concerning the Rocky Mountain locust and the Western cricket, gives a vast amount of scientific and practical information on the subject and urges the encouragement of railroad construction and settlement in that portion of the Northwest considered the breeding ground of the locust, as the most natural and effective means for removing the evil.

THE agricultural and manufacturing industries of Georgia and neighboring South Atlantic States, of which we have recently had occasion to speak at length, are receiving a powerful stimulus to their development from the liberal and enterprising policy adopted by some of their railroads. The managers of the Piedmont Air Line are doing most effective work in encouraging immigration to the rich territory through which much of their line runs, it being stated that during the past year they have added over 2,500 permanent settlers to the towns along their line—in Georgia 1019, in South Carolino 1017 and in North Carolina 525.

CONCERNING the loan recently negotiated by the French Government, many conflicting atatements have been circulated, and from them as many conflicting theories advanced in regard to funding possibilities. An accurate statement of the facts in regard to the loan has been telegraphed by Minister Noyes to Secretary Blaine. He says the total amount was $200,000,000, the rate of interest 3 per cent, and the Government sold the bonds at 83¼ cents on the dollar, 16¾ cents below par. The bonds are to be paid at par in 22 years, there being an annual drawing by lot for those that shall be paid each year. The present market price of these bonds in Paris and London is 85.

TICKET scalping in Canada seems likely to receive a destructive blow from the Canadian Parliament. In answer to a petition from a number of Canadian Railroad managers a bill has been introduced in Parliament which proposes to make it a misdemeanor, punishable by fine and imprisonment, for any person other than an accredited agent of a railroad company to sell railroad tickets. Two of the strong points urged in its favor are the well recognized ones that ticket scalping frequently degenerates into dealing in stolen or altered tickets and passes issued for specific purposes, and that a railroad ticket which is merely a non-transferable evidence of contract between the two parties, is in no sense an article of commerce.

IT is not uninteresting in these days of freight blockaded double and four tracked railroads to glance back and see what was called a good days' work for the principal railroad of the country half a century ago, or to be exact forty-nine years ago to-day. In 1832 the AMERICAN RAILROAD JOURNAL published the following detailed statement of the passenger and freight traffic of the Baltimore and Ohio Railroad, as reported from Baltimore for March 26th of that year:

"Arrived 38 cars and wagons, containing, viz.:

Flour	625 barrels.
Iron	2 tons.
Granite	14 tons.
Soap Stone	5 tons.
Paving Stone	10 tons.

Departed 65 cars and wagons, with merchandise, oysters, fish, plaster, hides, lumber, scrap iron, etc.

Arrived 7 coaches with 57 passengers. Departed 7 coaches with 57 passengers."

A slight reflection upon the then existing attractions or hospitality of Baltimore perhaps may be embodied in the apparent fact that the 57 passengers who arrived in Baltimore that day turned around and went right home again in the 7 coaches that brought them there; though the probability is much stronger of its having been an excursion party out for the enjoyment of the novelty of a rapid railroad ride in the coaches drawn by horses.

IN a recent conversation with a Tribune reporter Mr. W. K. Ackerman, president of the Illinois Central Railroad Company gives some excellent points on railroad management and legislative interference with the same, which are well worthy of general consideration and of which certain so called reformers and alleged anti-monopolists seem to remain in pitiable ignorance. Among other things Mr. Ackerman pointedly says: "All practical railroad men will tell you that it is utterly impossible to make one cast-iron rule to govern the railroads of a State. Take, for instance our road.

At one end we are shoveling snow, and at the other we are picking strawberries. Under these circumstances, can you draw a train as cheaply through a snow bank thirty feet deep as you can through a strawberry field? Then, again, we are paying $2 a day for labor in one part and 90 cents in another. Again, we pay $5 a ton for coal in one place $1 in another. Now, how absurd to make one law to govern all these different circumstances! At the best, it is a poor plan for the Legislature to meddle with railroads, because the members do not understand what they are dealing with. Lawyers do not understand railroad matters. I never knew or heard of a lawyer who was successful as a manager."

Personal.

Commodore C. K. Garrison has resigned his position as a director of the Manhattan Elevated Railroad Company.

Dr. Charles Osgood, ex-Mayor of Norwich, Conn., died in that city on the 18th inst. He was formerly President of the New London Northern Railroad.

Ex-Senator Gordon of Georgia is reported as being interested in the construction of a three hundred mile railroad from Columbus, Miss., through the great coal fields of Northern Alabama to Atlanta.

Mrs. Mark Hopkins, of San Francisco, is likely to make her residence among the Berkshire Hills. A handsome house, it is said, is now being fitted up for her in Great Barrington, Mass.

General George D. Wise formerly of the United States Coast Survey, a native of Virginia and an officer in the Union army, died on Friday of last week at Binghamton, N. Y.

Robert E. Murray, General Passenger Agent of the Cleveland, Columbus, Cincinnati and Indianapolis Railroad, died last Saturday at his residence in New Albany, Indiana.

The appointment of Henry G. Pearson as Postmaster is an exceedingly popular one in all New York business circles and the new Postmaster is receiving a flood of congratulations this week.

Henry D. Bird, formerly President and Superintendent of the Petersburg Railroad, died at Petersburg, Va., on the 16th. At the time of his death he had charge of the Appomattox river improvement for the United States Government.

S. K. Hooper, it is understood, will be the General Passenger and Ticket Agent of the Hannibal and St. Joseph Railroad, in place of F. E. Morse, resigned. Mr. Hooper has for some time been Mr. Morse's first assistant.

A solid gold punch bowl valued at $2,500, presented by English holders of stocks and bonds of the Denver and Rio Grande Railroad Company to President W. J. Palmer was on exhibition at Tiffany's last week, preparatory to its shipment to Denver.

The resignation of F. R. Meyers, of the Pennsylvania Company, and W. L. O'Brien, of the Pittsburg, Cincinnati and St. Louis Railway Company, as general passenger and ticket agents, and the appointment of E. A. Ford to fill the vacancies caused hereby, have been officially announced, the changes to take place April 1. Mr. Ford's office will be at Pittsburgh, Pa.

At the meeting of the directors of the Pennsylvania Railroad Company, John C. Sims, Jr., was elected Secretary to succeed Joseph Lesley, who has been ill for several years. The resignation of L. P. Farmer as General Passenger Agent was accepted to take effect April 1st, when the vacancy will be filled. No other changes were made in the official staff of the company.

B. W. Thacher, General Passenger and Freight Agent of the New York, Ontario and Western Railroad and F. W. Getty his assistant, have resigned their positions on that road. Mr. Thacher has accepted a position as Treasurer and Auditor of the Mexican National Construction Company with headquarters at Laredo, Texas. Mr. Getty also goes to the same company as Cashier and Paymaster.

A. A. Talmage, General Manager of the Missouri Pacific Railway has announced the appointment of E. L. Wentz as Resident Engineer with head-quarters at St. Louis, to have general supervision of all construction work in Missouri, Kansas and Indian Territory. In speaking of the appointment the St. Louis Republican says: "Mr. Wentz was formerly chief engineer of the Atlantic and Pacific road, but for the past few months has had charge of the Mexican extension of the Missouri, Kansas and Texas division of the Missouri Pacific, with headquarters at Fort Worth. He is in the prime of life, has had long experience in railway matters, and is generally regarded an efficient and popular official.

The nomination of Levi P. Morton as Minister to France has been duly confirmed by the Senate this week. The appointment is received with great satisfaction in our financial and general business circles, an expression of the prevailing sentiment being well given in the following from the New York Times: At a time when the commercial relations between the two countries are in need of some satisfactory readjustment which shall give them a chance of greatly enlarged growth, it is a piece of exceptional good fortune to be represented in Paris by so clear-headed and able a business man as Mr. Morton. Nor are his advice and influence likely to have a less salutary effect on the discussions of the monetary conference. The resolutely conservative views of Mr. Morton in regard to the place of silver in our coinage, sustained as they are by the fullest knowledge and the most intimate experience of the practical working of financial laws, will render him a valuable auxiliary to the cause of an honest and stable currency. The social qualifications of Mr. Morton for the position will not be doubted by those who know anything of the equally generous and refined hospitality which he has been in the habit of dispensing both here and in Washington.

Inventions.

A turn-table has been invented by Alphonse J. Delavigne, of New Orleans, so arranged that the table is turned in one direction by the weight of the car or locomotive and in the opposite direction by the action of a spring.

Godfried Laube, of Wausau, Wis., has patented a car heater and ventilator, the plan of which is to constantly reheat the air in the car, allowing fresh air to be introduced into the car when desired. It provides for the moistening of the hot air before its introduction into the car.

A railroad time signal has been invented by William A. Knight and Orvy M. Shepard of Evansville, Ind., which consists of a combination of devices that are operated upon by the wheels of a passing train in such a way as to display day or night signals, retain them in sight for a certain length of time and gradually change to different positions.

A car coupling attachment of very simple device and which, on account of its simplicity, its cheapness and the safety its use would seem to assure, is likely to become very popular among railroad men, employers and employees alike, has been invented by T. C. Steward of Chattanooga, Tenn. Its object is vide a cheap and safe method for coupling by means of the well known link and pin, which is effected by the use of a steel bar with an adjustable handle extending from the coupling to the edge of the car, being pivoted adjustably to the lower corner of the end sill of the car in such a manner that it can be operated in any way desired to direct the link obviating the necessity of the operator going between the cars, and at the same time assuring an accuracy and dispatch that could not be better attained by the old method so fruitful of most distressing injuries.

Winfield Scott Rogers, a brakeman on a Pittsburgh, Cincinnati and St. Louis Railway passenger train, running between Colnmbus and Indianapolis has patented a method for lighting car platforms, which is described by the Pittsburgh Chronicle as follows: It is a simple contrivance, and can be attached to a car for about two dollars. About ten feet from either car door there is a lamp for lighting the interior of the car. To this lamp, on the side next to the door, Mr. Rogers' plan is to attach a magnifying lens. Over the car door there is placed a glass ventilator. Outside of the door, at a proper angle and near the glass ventilator, is placed a corrugated concave mirror. The lens concentrates the light on the mirror, which floods the platform and steps and a certain space on either side of the car, with sufficient illumination to make any other light wholly unnecessary. Mr. Rogers tested the plan in his residence, where he carried light from a lamp, or gas jet, in the hall, 16 feet from the door, to and through the transom over the door, lighting the ground eight feet from the door. The device has not been exhibited to any railway men except to Mr. J. N. McCullough, Vice President of the P. C. and St. L. R. W. and Superintendent John F. Miller, of the C. C. and I. C. division of the same road—the division upon which Mr. Rogers is employed. Both pronounced it complete for the purpose. Mr. McCullough said if it could be put in a car for two dollars it was a financial success. Cars in course of erection, made with the glass transom over the door, are ready for the lens and corrugated concavo mirror.

Organization.

The Ironton and Huntington Railroad Company has been incorporated in Ohio, with a capital of $300,000.

The Denver, Colorado Springs and Pueblo Railroad Company has been incorporated at Denver, with a capital stock of $3,000,000.

The corporators of the new Portland and Rochester Railroad have elected George P. Wescott President and William H. Conant Treasurer.

The articles of incorporation of the projected Northern Railroad of Long Island were sent to Albany on the 22d inst. The committee have received subscriptions aggregating $40,000, of which 10 per cent has been paid in.

Elisha W. Willard of Newport, Charles F. Choate of Cambridge, John S. Brayton and Thomas J. Borden of Fall River, Royal Turner of Randolph and Frederick L. Ames of North Easton, have been elected directors of the Fall River, Warren and Providence Railroad Company.

At the annual meeting of the Phœnix Copper Company, held in Boston on the 21st inst., the following Directors were elected: Wm. P. Hunt, Wm. E. Coffin, Frank B. Cotton, M. A. Delano, Caleb W. Loring. The president for the ensuing year is Wm. P. Hunt and the Treasurer Wm. E. Coffin.

The Nantasket Beach Railroad Company, which was formed by the union of the Nantasket Beach, the Boston, Hingham and Hull, and the Hull and Nan-

tasket Beach Railroad Companies, have elected the following board of directors: J. B. Moore, R. M. Pulsifer, George R. Eager, W. H. Hill, John L. Curtis, H [illegible]Litchfield, F. A. Hobart.

The following gentlemen have been chosen provisional directors of the St. Catherines and Niagara Central Railroad Company: Richard Wood, James Norris, Patrick Larkin, R. H. Smith, St. Catherines; Robt. Murgatroyd, Smithville; Wm. Hoover, Caister; Jacob W. Strong, Rosedene; Nelson Haight, St. Catherines, Sec.-Treas.; Lucius S. Oille, M. D., St. Catherines, Chairman.

The directors of the Pittsburg, Youngstown and Chicago Railway Company, elected on the 19th inst., are: C H. Andrews, George J. Margerum, T. W. Sanderson, H. M. Garlick, and L. D. Cochran. C. H Andrews was chosen President, and H. M. Garlick Secretary. About $1,500,000 of the $2.000,000 of capital stock was subscribed. The survey of the line was commenced on the 21st inst.

The directors of the Cleveland, Columbus, Cincinnati and Indianapolis Railway Company, elected on the 2d inst., organized on the 17th by the election of Gen. J. H. Devereux, president; Judge Stephenson Burke, vice-president; George H. Russell, secretary and treasurer; E. B. Thomas, general manager. All are re-elected except Judge Burke, who takes the place of H. B. Hurlbut who has gone to Europe.

At a meeting of the Toledo, Delphos and Burlington Railroad Company held at Toledo, Ohio, on the 17th inst., the contract of consolidation with the Dayton and Southeastern Railroad Company was unanimously confirmed. This consolidation adds 200 miles to the Toledo, Delphos and Burlington system, opening up extensive fields of coal and iron ore, and by the extension to Huntington, W. Va., gives a new outlet to tide water via the Chesapeake and Ohio Railway.

The St. Francis Gold Mining Company has been organized for the purpose of working the alluvial gold fields and quartz veins on their property situated on the River Gilbert and vicinity in Beauce County, Canada. The capital stock is $350,000. The directors are: R. C. Mitchell, Boston; John McNichol, Sherbrooke; C. P. Weston, Boston; W. L. Ball, Richmond; Chas H. Lewis, Boston. The officers are: President, R. C. Mitchell, Boston; Treasurer, W. D. Robertson, Stanstead; Secretary, E. H. Dakin, Bangor, Me.

At a meeting in Pittsburg, Penn., on the 18th inst. of the directors of the Emlenton, Shippenville and Clarion, Foxburg, St. Petersburg and Clarion, Foxburg, Kane and Bradford Railroads, the consolidation of these roads was consummated, and the following board of directors was elected: M. Hulings, Oil City; G. W. Arnold, Clarion; W. J. Welsh, J. M. Dickey, C. W. Mackey, Franklin; J. W. Rowland, Emlenton, and James B. Blakeslee, St. Petersburg. The officers are: President, M. Hulings, Oil City; Vice-President, C. W. Mackey, Franklin; General Manager, J. M. Dickey, Franklin; Treasurer, J. W. Rowland, Emlenton; Secretary, W. J. Welsh, Franklin. Messrs. Armstrong and Reed will remain as Auditors, and M. Mandeville as Superintendent. The new organization will operate under the name of the Pittsburgh, Bradford and Buffalo Railroad.

The Iowa State land office has just issued patents to the Chicago, Milwaukee and St. Paul Railway Company, embracing in the aggregate 6,494.74 acres. The lands are a portion of those granted by act of Congress, May 12, 1864, for building the railroad from McGregor westward, and were granted to said company by act of the Seventeenth General Assembly of the State of Iowa. They are situated in the following counties: Cerro Gordo, 160 acres; Chickasaw, 240 acres; Clay, 80 acres; Hancock, 601.75 acres; Kossuth, 3,628.55 acres; Mitchell, 40 acres; Palo Alto, 1,744.44 acres.

Pittsburg, Cincinnati and St. Louis Railway.

At the annual meeting of the stockholders of the Pittsburg, Cincinnati and St. Louis Railway Company, held in Columbus, Ohio, on the 16th of March, the annual report of the directors for the year ending December 31, 1880, was presented, from which we learn that the gross earnings on the main line were $4,323,406 90, the expenses $2,290,725 40 and the net earnings $2,032,681 50; other receipts, $16,041 21; total net revenue, $2,048,722 71, an increase over 1879 of $435,137 30. The charges against the net revenue for interest on the funded debt and rentals were $1,054,928 98, leaving a profit for the year of $993,798 73. The net revenue from leased lines was $1,874,118 77, and the payments on accounts thereof were $1,622,051 04, leaving a profit on all lines for the year of $745,866 46, an increase over the previous year of $383,865 95. From the net profit in 1880 were paid three years back coupons from the second mortgage bonds and other miscellaneous charges belonging to previous years, amounting in all to $652,010 61, leaving to credit of profit and loss December 31, 1880, $97,050 85.

The New Transcontinental Route.

The first through ticket from New York to San Francisco over the new Southern Pacific route was sold here last Saturday, via the New York Central, Lake Shore, "Bee Line," Missouri Pacific, Atchison, Topeka and Santa Fe, and Southern Pacific Railroads to San Francisco. Though the route has only been opened since the 17th a liberal business is turning that way and the many enquiries being made both concerning passenger and freight traffic indicate a heavy business even for the first season of the line. One special influence that will doubtless affect the passenger traffic materially is that an entirely new country is opened by the line, containing much of interest to travellers, and tourists will naturally be anxious to pass through it, especially as inducing rates and accommodations are offered them. A large traffic of immigrants and American settlers will seek the far Southwest and the rich agricultural sections of the Pacific slope over this route, while new business relations of importance will be established by it between the Pacific coast and the merchants and manufacturers of the Mississippi Valley and the East.

The through Pacific Express which made its first trip over the route last week is now running regularly, leaving Kansas City at 10 P. M. and Atchison at 10.25 P. M. arriving at Deming, 1150 miles from Kansas City, at 7.45 on the morning of the third day—fifty-seven and three fourths hours. Leaving Deming at 9 A. M. it arrives in San Francisco after a run of fifty-four and a half hours at 3.30 on the afternoon of the fifth day from Kansas City, the time being four and three fourths days for the 2,348 miles from Kansas City to San Francisco. The passenger rates are as follows: From Atchison or Kansas City to Deming $74 for first-class and $47 50 for emigrant, limited to ten days; to Tucson, Arizona, 1,369 miles from Kansas City, $95 90 for first-class; $78 for second-class, and $47 50 for emigrant; to Los Angeles, 1,865 miles from Kansas City, $104 for first-class, and $78 and $47 50 for second-class and emigrant respectively; to San Francisco, the same for all three classes as to Los Angeles. Passenger coaches and Pullman palace drawing-room sleeping cars run to Deming without change, and Southern Pacific coaches and sleepers thence to San Francisco. The sleeping car rates are as follows: Missouri river to Deming, double birth, $8; section, $16; Deming to San Francisco, double birth, $6; section, $12. One hundred pounds of baggage checked free on each full fare.

The run made by the first eastward bound through train was one of the most remarkable on record. It consisted of twelve cars and leaving San Francisco on time it was on time at every station on the long line and arrived at Kansas City, Wednesday, on time.

Interest and Dividends.

The Chicago, Rock Island and Pacific Railway Company has declared a quarterly dividend of 1¾ per cent ($1 75 per share) payable May 2 to shareholders registered at the closing of the books on the 30th inst.

The Denver and Rio Grand Railway Company has declared a dividend of 1½ per cent payable April 11 to stockholders of record on the 28th inst.

The Railway Car Trust of Pennsylvania has declared a quarterly dividend of 1½ per cent on series A, B, C, D and E, payable 1st April.

The quarterly interest on the United States four per cent bonds is payable on the 1st of April. The total amount to be disbursed is upwards of $7,000,000, of which over $5,000,000 is on registered bonds, checks for the payment of which will probably be mailed to holders on the 25th inst.

The old Missisquoi and Clyde River Railroad Company has been reorganized by the mortgage bondholders under the name of the Newport and Richford Railroad Company. This road extends from Newport, Vt., to the Canada line, 20 miles, and forms the connection between the Passumpsic and South Eastern Railroad.

The total cost of the railroads, and equipment to the companies now owning the roads lying in whole or in part within the State of Ohio, completed to June 30, 1880, is $615,134,803 34, an increase over 1879 of $105,727,651 79. The proportion for Ohio is $311,837,259 36, an increase over 1879 of $51,600,574 03.

It is expected that the Washington City and Point Lookout Railroad will be completed from Washington to Point Lookout by the 1st of August. S. T. Suit, is president of the company; W. J. Wharton, chief engineer and Hector Maclean, chief of construction.

Among the work of the Ontario Legislature, recently adjourned, was the passage of a bill incorporating a company to construct a railway to connect the Ottawa Railway system with the Sault Ste. Marie, the company to receive a Provincial subsidy of a certain sum per mile.

Railways of Canada.

From the Annual Report of the Chief Engineer on the Railways of the Dominion of Canada, which was laid before Parliament on the 16th inst., we learn that the total number of miles of railway in operation on the 30th of June, 1880, amounted to 6,891; the number of miles under construction, and on which track is laid, 334; number of miles under construction, 1,077—total, 8,302 miles. This mileage does not include 208 miles of the Grand Trunk and 21 miles of the Southeastern Railway situated in the Eastern States and erroneously included in the returns of former years. There was an increase of 636 miles in operation, and a decrease of 126 miles under construction. The nominal capital on the 30th June, 1880, was: ordinary share capital, $126,061,779; preference capital, $70,450,140; bonded debt, $84,756,315—total, $281,271,229. Add from Governments and Municipalties, $97,760,372—making a grand total of $379,031,602. There is an increase of $16,945,463 in the capital of the railways, as compared with the previous year. The total mileage for the year was 22,481,214, against 20,731,689 in 1878-79—an increase of 1,749,525 miles. The number of passengers carried was 10,532,310, against 6,523,816, an increase of 4,008,494. The tonnage of freight handled was 9 842,493, against 8,328,810, an increase of 1,513,683. The following is a comparative statement of traffic on the principal lines:

	Passengers carried.	
	1879-80.	1878-79.
Grand Trunk	1,995,526	1,976,519
Great Western	1,241,111	1,241,586
Intercolonial	581,483	640.101
Canada Southern	.....	278,818
Northern and Northwestern	386,169	376,128
Midland	116,857	113,918
Toronto, Grey and Bruce.	121,685	118 653
Toronto and Nipissing	89,933	89,618

The freight carried on same railways in the two years compares as follows:

	Tons carried.	
	1879-80.	1878-79.
Grand Trunk	2,835,561	2,871,225
Great Western	1,903,400	1,789,634
Intercolonial	561,924	513,861
Canada Southern	1,836,948	1,501,861
Northern and Northwestern	489,600	404,251
Midland	137,515	123,106
Toronto, Grey and Bruce.	115,257	92,855
Toronto and Nipissing	105,473	84,694

The earnings were as follows:

	1879-80.	1878-79.
Passengers	$7,076,339	$6,459,598
Freight	15,506,935	12 509,093
Mails, express, etc	851,188	783,926
Other sources	102,075	166,448
Total	$23,536,537	$19,919,065

There was one more passenger killed in 1879-80 than in the preceding year, but a decrease of 10 in the number of employees, and of 11 in the number of persons, neither passengers or employees. The total decrease of killed was 20, and the increase in the injured 36. The proportion of passengers killed to the number carried was one in 1,053,231, against one in 724,869 in 1878-79. The proportion of injured was one to 633,078, against one to 326,190 in the previous year. The total killed in 1879-80 was 87, as against 107 in 1878-79. The injured numbered 102 in 1879-80, as against 68 in 1878-79. On the Canada Pacific the mileage in operation was 280; number of passengers carried, 17,640.

Anthracite Coal Tonnage.

John H. Jones, accountant for all the several coal companies, furnishes the following statement of anthracite coal tonnage for the month of February, 1881, compared with the same period last year:

	Feb. 1881.	Feb. 1880
Reading Railroad	436,415	299,854
Lehigh Valley Railroad	420,819	289,569
Central R. R. of New Jersey.	323,209	152,747
Del., Lack. and Western	360,125	231,276
Delaware and Hudson Canal	285,606	194,254
Pennsylvania Railroad	141,889	90,569
Pennsylvania Coal	106,153	67,942
New York, Lake Erie & Western	43,004	19,765
Total	2,118,173	1,296,570

—an increase of 821,603 tons.

	1881.	1880.
Reading Railroad	828,573	697,146
Lehigh Valley Railroad	752 576	559,743
Central R. R. of New Jersey.	560,023	432,524
Del., Lack., and Western	629,452	512,805
Delaware and Hudson Canal	472,680	460.476
Pennsylvania Railroad	297,580	186,734
Pennsylvania Coal	176,988	154,473
New York, Lake Erie and Western	72,943	57,482
Total	3,790,818	3,060,886

—an increase of 729,932.

The stock of coal on hand at tide water shipping points, February 28, 1881, was 395,286 tons; do January 31, 1881, 417,885 tons—decrease, 22,599 tons.

The New Alpine Railway Tunnels.

Among the great works of railway engineering at present in process of execution or in prospect, there are none which surpass in interest the three new tunnels through various portions of the Alps. We refer first to the St. Gothard tunnel, which in the rough is complete, and in which only the finishing operations now require to be executed. Secondly, we allude to the Arlberg tunnel commenced but recently, and which is to offer a direct line of communication between Austria and Switzerland, France and the west of Europe. In the third place we refer to the project of a new tunnel through Mount Simplon, which is to form a more direct route than that by Mont Cenis between France and England on the one hand and Italy on the other. It is not without interest to learn something more as to what is doing in these three great projects than the scanty references appearing in the daily press. We therefore propose here to state briefly the most recent facts that have transpired in connection with the projects in question.

The Arlberg tunnel may be dismissed in a few words. Under a guarantee from the Austrian Government, which has provided the money (£1,620,000) for the tunnelling works in yearly quotas until their completion, the operations have been going steadily on since their commencement. At the east end of the tunnel the rocks met with have been found free from water, but at the west end the contractors up to a fortnight ago had to deal with a stratum which presented great difficulties owing to the constant inrush of water. Fortunately they have now found a new and drier rock, and the work is progressing far more favorably than had been anticipated.

The Arlberg tunnel will be more than 10,000 metres long, and therefore though considerably shorter than the St. Gothard tunnel will still rank among the longest tunnels in the world.

The exact length will be 10,248 metres, or six miles six hundred and forty-eight yards. The tunnel will be bored at a height of 1,300 metres, or 4,265 feet above the level of the sea. It will have a double line of rails. The contractors are well known continental railway engineers. It is provided that the work of tunnelling, which was commenced on the 1st of February, is to advance at the rate of 3⅓ metres, or nearly 11 feet, at each end every day until completion. The boring will, it is expected, be finished in about four and a half years, that is, about the month of August, 1885.

Unexpected difficulties have arisen in connection with the St. Gothard Tunnel. It was feared lately that the contractors who have been conducting the operations since the death of M. Favre would stop working. This has fortunately not turned out to be the case. In the month of January they had earned and received upwards of half a million francs less than they had calculated upon. It was originally reckoned that the tunnel would have been completed by the 1st of October, 1880. But it will not be finished, as the contractors had afterward calculated, even by the 1st of April this year. Indeed it is now anticipated by those who are conversant with the affair that the operations will hardly be brought to a conclusion by the end of September this year. The St. Gothard tunnel measures nearly 15,000 metres in length. Of this distance only 5,800 metres were actually in a finished state at the end of last week. It is quite within the bounds of possibility that the contractors instead of making anything out of the tunnel will in the end lose money by it, but it is to be hoped they will not. At the outset they had to deposit the sum of eight million francs as security or caution money for the execution of their task. Of this amount they have already lost, it is understood, one and a half million francs in fines for not fulfilling their contract in its details during the progress of the operations. The contractors will, of course, not think of abandoning the work and so forfeit the remaining 6½ million francs of their deposit money. They have, however, been attempting for some time past to obtain more favorable terms from the company on the ground of the unforeseen and unforeseeable nature of the difficulties they had to overcome.

With regard to the third scheme, it had almost been settled some time ago that the French Government would grant a sum of 50 million francs for a tunnel through the Simplon. But this entire route is now called in question. Frenchmen object to the Simplon tunnel because it would be in Switzerland. The object of the scheme is to take English and French passengers by a more direct line from Paris and London to Italy. Many of the French critics desire to take the tunnel through a portion of the Alps which would leave Switzerland altogether out of the business. An alternative has therefore for some time past been advocated which would cause the tunnel to run through Mont Blanc. The question came before the French Legislature a fortnight ago. A preliminary committee had considered the two projects, the Simplon and the Mont Blanc tunnel, advocated respectively by M. Renault and M. Dupont, and recommended that a special commission should be appointed thoroughly to examine and report on their respective merits. A great objection to the Simplon project in the eyes of Frenchmen is that France would be called on to grant 50 millions of francs for a line passing through the neutral Swiss territory. This it is thought might lead to political difficulties hereafter. The question whether the tunnelling of the Simplon or of Mont Blanc would be the more advantageous for France has occupied much attention in Paris during the past few days. "The advocates of the Simplon route," says the Journal des Debats, "point out the comparative facility of the tunnelling operations by this line, and the comparative narrowness of the mountain at its base. This would allow the tunnel to be driven 600 metres lower than Mont Cenis and 400 metres lower than St. Gothard. Moreover, the rich plain of the Rhone is by this route brought into communication with the rich Ossola Valley

which would be but an hour's ride distant by the rail. Moreover, the distance from Paris to Milan is shortest by this line. The saving in time as compared with the Mont Cenis route is calculated at three hours between the two cities in question. On the other hand, the supporters of the Mont Blanc scheme point out that the Simplon would be too near the St. Gothard tunnel. They stated that the boring operations through Mont Blanc would not be more difficult than through the Simplon. The Mont Blanc tunnel could be carried out as easily, would cost little or no more, and would be far preferable from a political and strategic point of view." Thus the matter stands at present, and nothing further will be done in the matter until the French Chamber has sifted the two novel schemes and arrived at a final decision as to their respective merits.—[Herapath's Railway Journal, London.

Virginia State Bonds.

The Virginia Consols are dated 1st of July, 1871, payable thirty-four years after date, and are redeemable at the pleasure of the State after 1st of July, 1881. The bonds bear 6 per cent interest, made payable 1st January and 1st July in each year, and carry coupons back to 1st January, 1905, which are made receivable for taxes. The last six months' interest is payable with the bond. The bonds were issued by authority of an act of the General Assembly, approved 30th March, 1871.

The 10-40 bonds are dated 1st January, 1879, and are made redeemable after 1st January, 1889, and payable 1st January, 1919, that is, they are redeemable in 10 years and payable in 40 years after date, hence they are called 10-40s. The bonds bear 3 per cent interest for the first 10 years, 4 per cent for 20 years, and 5 per cent for the last 10 years, and carry coupons to date of maturity. Upon the face of these bonds it is stipulated that the coupons shall be received for all taxes and other dues to the State, and also that the principal and interest shall be free from taxation by the State of Virginia or any county or corporation therein. The Supreme Court has decided that the coupon on the Consol is not subject to State taxation. The 10-40 bond was issued under an act approved the 28th of March, 1879.

International Construction Co.

The Legislature of Connecticut has incorporated the International Construction Company, the corporators being Henry Sanford, Oliver Hoyt, A. N. Hawley, Henry B. Plant, Isaac E. Gates, D. O. Mills, Thomas W. Piece, Benjamin Clark, and their associates. Senator Oliver Hoyt explained in the Senate that this is the company which proposes to build the international railway to the City of Mexico. The act of incorporation empowers it "to build, construct, enlarge, repair, complete, equip, furnish, and operate, &c., railroads, railroad bridges, telegraph lines, and all necessary appurtenances in any State or Territory of the United States, or in any foreign country," with power to lease other roads or telegraph lines; to "make joint stock with any other corporations"; "to receive in payment cash, notes, bonds, stocks, or other securities, from any individuals or corporations, and securities issued by any Government, State, county, town or municipal corporation;" to construct or operate roads "by contract or otherwise;" "to own and operate steamship lines, steamboat lines, and ferry boats;" to borrow and loan money, issue its own bonds, &c., at rates of interest not exceeding 8 per cent; to make advances of money to railroad, telegraph, and bridge companies and other corporations and to contractors and individuals." The capital stock is to be $1,000,000, liable to be increased to $10,000,000, divided into shares of $100, and the company may be organized and proceed to business when $100,000 is subscribed and 10 per cent of said subscription is paid in. That is to say, a paid-in subscription of $10,000 is all that is requisite to set the International Construction afloat. A majority of the eight named corporators have power to open books for subscriptions for the purpose of organization, and any two of them may call the first meeting. The remaining sections of the bill are substantially the same as of other acts of incorporation.

Railroads of New York.

The State Engineer and Surveyor has submitted to the Legislature at Albany his report of the railroads of the State for the fiscal year ending September 30, 1880. From this we learn that the number of railroad companies in the State was 214; organized during the year, 33; extinct during the same period, 22; total paid up capital, $437,514,000, of which the proportion for New York is $332,000,000; earnings, $94,523,000; proportions for New York, $65,711,000; mileage built during the year, 86 miles; total mileage, 4,855; number of engines, 3,015; first-class passenger cars, 2,374; second-class, 369; baggage, mail and express cars, 717; freight cars, 68,927; service cars, 1,217. During the year 409 persons were killed in accidents, of whom only 25 were passengers and 145 employes; 826 were injured, of whom only 67 were passengers and 520 employes. The report shows that on an investment of $675,270,000 the dividends amounted to only $15,600,000—less than 2⅓ per cent. Not a very large average rate even in these days of cheap money.

Street Railways in Baltimore.

The Mayor of the city of Baltimore has approved of the ordinance passed by the Councils granting permission to the Patterson and Druid Hill Parks City Passenger Railway Company to lay down tracks on various streets and avenues of that city, commencing at the intersection of Baltimore street and Patterson Park avenue, thence along the avenue to Fayette street, to Wolfe, Monument, Bond, Madison, Forrest, Eager, Cathedral, Howard, Park, Dolphin, Bolton, Wilson, Linden avenue, to North avenue, to the city limits; also beginning at the intersection of Monument and Wolfe streets, along Monument to Washington, to North avenue, to the grounds of the Baltimore Cemetery Company, and also beginning at the intersection of Bond and Monument, along Bond to Eastern avenue, to Shakspeare street, to Broadway, to Thames. The directors mentioned in the ordinance are Edward Shriver, (president,) George W. Ward, Charles Webb, John A. Tomkins, James H. Phinney, Edwin B. Stanton and George R. Hazewell. The fare is not to exceed five cents, with no charge for children under six years, and transfers three cents. Twelve per centum of the gross receipts are to be paid quarterly to the park fund, the company to give bond in the sum of $10,000 for the faithful performance of their duty. The road is to be commenced within six months from the approval of the ordinance and to be completed within twelve months. It is understood the work will be begun in a very short time.

An opinion was rendered in the United States Supreme Court at Washington on the 21st inst., by Mr. Justice Miller, in the case of Eliza J. Dennick, administratrix, &c., plaintiff in error, vs. The Central Railroad Company of New Jersey. The plaintiff, an administratrix appointed in New York under a New York law, sued a New Jersey corporation under the New Jersey statute relating to injuries resulting in death. The death occurred in New Jersey. The court below directed a verdict for the defendants on the ground that a New York administratrix had no cause of action conferred upon her by the New Jersey statute, inasmuch as that statute gave a right of action only to a New Jersey representative as trustee of a special trust to be collected, administered and distributed only under the New Jersey law. In the absence of any controlling authority or general concurrence of decision this court holds that it must decide for itself the question now for the first time presented to it, and with every respect for the courts which have held otherwise it is of opinion that sound principles clearly authorize the administrator in cases like this to maintain the action. Judgment reversed with costs and cause remanded with directions to award a new trial.

In the United States Supreme Court at Washington on the 21st inst., a decision was rendered in the case of Grinnell et al. against the Chicago, Rock Island and Pacific Railway Company upon appeal from the Supreme Court of Iowa. The question in controversy is whether the railroad company, under the act of Congress of May 15, 1856, acquired valid titles to the lands within the old fifteen-mile limit of the Mississippi and Missouri Railroad Company, certified to the State under that grant by the Department of the Interior for the benefit of that company, but which were left outside of the new twenty-mile limit by a change of location of the old line made by the present company under the act of Congress of June 2, 1864, amendatory of the act of May 15, 1856. The judgment of the Supreme Court of Iowa sustaining the railroad company's title to the lands in controversy is affirmed.

The Morgan branch of the New Orleans Pacific Railroad is graded fifteen miles north of Washington, St. Landry Parish, La. There are eighteen miles to be graded before reaching Lecompte, on the line of the New Orleans Pacific. This portion of the branch, it is expected, will be completed by September.

The total amount of tolls collected on the Beauharnois Canal in 1880 was $3,221, against $2,848 in 1879. The total amount collected from 1872 to 1880, inclusive, has been $19,506.

The Pennsylvania Railroad Company has obtained control of the Mineral Mining and Railroad Company at Shamokin, and of the Susquehanna Coal Company.

AMERICAN RAILROAD BOND LIST.

Asterisk (*) affixed to rate of Interest signifies "Payable in Coin."

Stevens' Patent Railroad Car Brake.

In the United States Circuit Court, Baltimore, on the 17th inst., Judge Morris overruled the exceptions by defendant in the case of Asahel Emigh vs. the Baltimore and Ohio Railroad Company to the reports of R. Lyon Rogers, master in chancery, in favor of complainant, and award of a large sum for the use of Stevens patent railroad car-brake. The Judge signed a decree in favor of complainants at the rate of $25 per car per year, amounting in the aggregate to $87,775. The suit by Emigh against the company for the use of the Stevens patent of a car-brake extending over a number of years was brought several years ago. It was referred to Commissioner Rogers as master to take testimony and state an account showing how much was due. The company excepted to the amount found by the master, which exceptions, as stated above, have been overruled by the court.

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending March 12, and for the year to the same date, compared with their respective amounts carried to the same time last year :

	Week.	1881.	1880.
Reading Railroad	163,258	1,846,206	1,714,179
Schuylkill Canal	.....	.....	38,041
Lehigh Valley	144,387	1,420,724	1,079,455
Del., Lack. & Western.	96,839	783,651	567,310
Shamokin Valley	18,339	180,731	148,404
Central New Jersey.	83,356	723,814	552,807
United R. R. of New Jersey	38,834	299,601	185,211
Pennsylvania Coal	21,623	199,408	125,137
Delaware and Hudson	92,969	687,225	612,049
Huntingdon & Broad Top Mt	9,867	85,169	85,047
Penn. and New York.	29,095	337,908	311,989
Clearfield, Pa.	46,418	362,747	323,303

The total tonnage of anthracite coal from all the regions for the week ending March 12, as reported by the several carrying companies, amounted to 572,900 tons, against 348,824 tons in the corresponding week last year, an increase of 224,076 tons. The total amount of anthracite mined for the year is 4,877,546 tons, against 3,713,075 tons for the same period last year, an increase of 1,164,471 tons. The quantity of bituminous coal sent to market for the week amounted to 96,537 tons, against 15,846 tons in corresponding week last year, an increase of 80,691 tons. The total amount of bituminous mined for the year is 770,140 tons, against 676,561 tons for the corresponding period last year an increase of 93,579 tons. The total tonnage of all kinds of coal for the week is 669,437 tons, against 364,670 tons in corresponding week last year, an increase of 304,767 tons, and the total tonnage for the coal year is 5,647,686 tons, against 4,389,636 tons to same date last year, an increase of 1,258,050 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending March 5th was 176,146 tons, of which 126,094 tons were coal and 50,052 tons coke. The total tonnage for the year thus far has been 1,490,704 tons, of which 1,079,764 were coal and 410,940 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended March 12 were 35,188 tons, and for the year 272,905 tons—a decrease of 71,484 tons as compared with the corresponding period of last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 31,472 tons, year, 240,671 tons; decrease as compared with 1880, 60,901 tons. Chesapeake and Ohio Canal, none; decrease as compared with 1880, 2,584 tons. Pennsylvania Railroad—week, 8 715 tons; year, 32,234 tons; decrease as compared with 1880, 7,908 tons.—[Phila. Ledger, March 21.

Railroads in Russia.

The Pall Mall (Eng.) Gazette says that the Russian Government, after five years' cessation from railway building is once more turning its attention in that direction, and then adds:

There are now 40 railway companies in Russia working 23,000 kilometres of metaled road, but only six of them pay dividends, of from 6 to 21 per cent. All the rest are kept going at the cost of the State. After having tried the plan of allowing private companies to make railways, the Government has abandoned it in disgust, and the new Russian lines will be constructed by the State. For the Polish line from Dombrova to Ivangorod the old system of construction by concessions granted to companies will be maintained. The lines between Ekaterinburg and Tumen and that of Ekaterinoslay, which will unite the Dnieper and the southern coal-fields, will be constructed by engineers nominated by the Minister of Public Works and representatives of the Treasury. Funds are to be raised by foreign loans.

Sault Ste. Marie Canal.

The new lock and canal at Sault Ste. Marie will be ready for use about July 1, 1881, with a depth of water at the present stage of sixteen feet. The river has been dredged to sixteen feet for forty miles southward from its head. Now that the final appropriation—$150,000—for the completion of these improvements has been made by Congress, our shipping will have the use of the increased depth of water—sixteen feet—throughout the entire channel between Lake Superior and Lake Huron, in 1881, excepting at two points—Lake George and the East Neebish rapids. The work in Lake George is under contract for completion in 1882. The improvement of the channel at the East Neebish rapids has been in the hands of the Government of the Dominion of Canada.—[London (Ont.) Free Press.

Judge Drummond, in Chicago, has entered an order directing the receiver of the Chicago, Pekin and Southwestern Railroad Company to pay A. Lawrence Hopkins, Receiver of the Toledo, Peoria and Warsaw Railway, the sum of $9,193 73 for rent of that portion of the Toledo, Peoria and Warsaw Railway lying between Eureka and Washington, in Illinois. The receiver was also ordered to pay Fowler & Sellars $1,240 in full of their claim. Judge Drummond also directed the receiver of the Chicago and Iowa road to pay John H. Wrenn and William B. Wrenn $17,646 81, which is the full amount of their claim against the corporation. The receiver was also directed to pay a claim of the Bank of Montreal amounting to $4,852 85.

The Delaware River Railroad running between Woodbury, N. J., and Pennsgrove, is about to be extended from the latter terminus to a point three miles further down the Delaware river, known as Deep Water Point. This is being done with a view of establishing a ferry from that point to Wilmington, Del. The new company has also made contracts for a large number of railroad ties, with which to repair the road between Woodbury and Pennsgrove. The cost of the extension, the new wharves and slips, one or two new ferry boats and the repairs to the present road, will reach $100,000.

The Delaware and Raritan Canal was opened for navigation on the 21st inst.

Philadelphia Stock Exchange.

Closing Prices for the week ending Mar. 22.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 24, 1881.

The money market has been easy during the day at 4@6 per cent, 5 per cent being the ruling rate for call loans, closing at 3@4 per cent. Time loans were 5@6 per cent. Prime mercantile paper, 5½@6 per cent.

The market for foreign exchange was quiet and steady. The posted rates for prime bankers' sterling were 4.80½ and 4.83. The actual rates, 4.79½@4.80 and 4.82@½. Cables, 4.82¾@4.83. Prime commercial bills, 4.78¼@½.

The Governors of the Stock Exchange have admitted to dealings at the Board the following securities:

Louisville, New Albany and Chicago Railroad Company—First mortgage bonds, $3,000,000, principal due July 1, 1910; interest 6 per cent per annum, payable January 1 and July 1 in each year; principal and interest payable at the National Bank of Commerce in New York.

Central Branch Union Pacific Railroad Company—Atchison and Pike's Peak Railroad Company first mortgage bonds, $1,600,000; dated May 1, 1865, payable May 1, 1895; interest 6 per cent payable May and November 1. Funded coupon bonds, $638,000; dated April 1, 1879, payable May 1, 1895; interest 7 per cent payable May and November 1. These bonds are secured by a pledge with the trustees of the unpaid coupons up to and including that maturing November 1, 1878, from the first mortgage bonds above enumerated. These two classes of bonds constitute a first mortgage on the company's road of

$22,388 per mile. Atchison, Colorado and Pacific first mortgage bonds, now issued $3,672,000; dated December 24, 1879, payable May 1, 1905; interest 6 per cent payable February, May, August and November 1. Atchison, Jewell County and Western first mortgage bonds, now issued, $542,000; dated December 1, 1879, payable May 1, 1905; interest 6 per cent payable February, May, August and November 1. Both of these last named mortgages are guaranteed by indorsement of the Central Branch Union Pacific Railroad Company, and provide for a further issue of bonds of the same tenor and date at the rate of $16,000 per mile upon any further extensions that may be built.

The closing quotations on Thursday were: Adams Express, 127@130; American Express, 70@71½; American District Telegraph, 64@65; Atlantic and Pacific Telegraph, 46@47¼; Chicago, Burlington and Quincy, 161½@162; Canada Southern, 78@78¼; Chicago and Northwestern, 120½@120¾; do. pref., 130@132; Chicago and Alton, 136@136¾; Chicago, Milwaukee and St. Paul, 108¾@109; do. pref., 121¼@123½; Chicago, Rock Island and Pacific, 131@132½; Columbus, Chicago and Indiana Central, 23¾@24¼; Delaware and Hudson Canal, 107⅞@108; Delaware, Lackawanna and Western, 118⅝@118¾; Hannibal and St. Joseph, 53¾@54; do. pref., 100@100¼; Illinois Central, 132½@132¾; Lake Erie and Western, 50¼@51; Lake Shore and Michigan Southern, 125⅞@126; Metropolitan Elevated, 114¼@115; Manhattan Elevated, 88⅜@88½; Michigan Central, 109⅜@109⅝; New York Elevated, 122½@124; New York, Lake Erie and Western, 45¾@45⅞; do. pref., 85@—; New York, Ontario and Western, 34¼@34⅜; New York Central and Hudson River, 142¼@142¾; Ohio and Mississippi 42⅞@43; Panama, 212@228; Pacific Mail, 54¼@54½; St. Louis, Iron Mountain and Southern, 63@63⅛; St. Louis, Alton and Terre Haute, 40@41½; do. pref, 122@126; Texas and Pacific, 53@53⅛; Union Pacific, 116@116¼; United States Express, 56@58; Wells Fargo Express, 117@118; Western Union Telegraph, 113@—; do. ex. div., 78½@78¾; Wabash, St. Louis and Pacific, 44¾@44⅞; do. pref., 85¾@86.

The first rail of the Washington City and Point Lookout Railroad was laid at Brandywine, sixteen miles from Washington, on the 10th inst.

Cape May and Sewell's Point Railroad.

The ordinance passed by the City Council of Cape May, N. J., authorizing the construction of a passenger railroad through that city, has been approved by the Mayor. The route is as follows : to begin at Delaware Bay Railroad station, west of the Sea Breeze House, running on the Sea Breeze property, north of Beach avenue to the West Jersey Railroad station, thence south Lafayette to Perry, thence to Washington, to Ocean street, to Columbia avenue, to Howard street, to Stockton avenue, to Madison avenue, and thence to Sewell's Point. The motive power between the Sea Breeze House and Madison avenue is to be horse, and between Madison avenue and Sewell's Point steam.

The North Carolina Legislature, which adjourned on the 14th inst., levied a special tax of six cents on the hundred dollars' valuation of real and personal property to pay interest on the four per cent bonded debt of the State. The additional levy of six cents will raise $140,000 which will be sufficient to pay the entire interest, if the whole debt is funded in four per cents. The amount of four per cents now issued is $2,500,000, and the funding is proceeding rapidly every day.

The Harrisonburg (Va.) correspondent of the Baltimore Sun, writing under date of March 18th, says that a connection from that place with the Shenandoah Valley Railroad at Port Republic is talked of and is greatly desired ; also that work on the narrow gauge railroad from Port Republic via Harrisonburg to the Ohio River will soon be resumed.

At Chicago, Ills., on the 17th of March, in the United States District Court, Judge Drummond ordered the Chicago, Pekin and Southwestern Railroad Company to pay the principal and interest due the second mortgage bondholders within 10 days or the road will be sold.

Mr. Wharton Barker, of Philadelphia, says that there are 1,500 steamboats on the River Volga burning wood, because there is no railroad from the great coal fields of Russia to the river by which they could be supplied with fuel.

At the Harlan and Hollingsworth Company's Ship yard, Wilmington, Delaware, from which the "City of Worcester" was recently launched, a keel is being laid for a side wheel steamboat 205 feet long.

The Minneapolis and St. Cloud Railroad has been consolidated with the Mankato and St. Cloud Railroad. The new organization is called the St. Cloud, Mankato and Austin Railroad Company. The capital stock is $2,000,000.

The stockholders of the Penobscot and Lake Megantic Railroad Company have accepted the amendment to their charter made by the Maine Legislature, and the road will hereafter be called the International Railway of Maine. A survey of a new route is to be begun at once.

The tracks of the Newburgh Branch of the New York, Lake Erie and Western Railroad from Newburgh to Grey Court and Turner's, 40 miles, were turned into narrow gauge on the 17th inst. by 200 laborers.

Pennsylvania Railroad.

The statement of the business of all lines on the Pennsylvania Railroad Company east of Pittsburg and Erie for February ,1881, as compared with the same month in 1880, shows

An increase in gross earnings of.....	$151,038
An increase in expenses of.....	225,116
A decrease in net earnings of.....	$74,078

The two months of 1881 as compared with the same period in 1880, show

An increase in gross earnings of	$256,702
An increase in expenses of.....	490,217
A decrease in net earnings of.....	$233,515

All lines west of Pittsburg and Erie for the two months of 1881 show a surplus over liabilities of $525,036, being a gain over the same period in 1880 of $90,966.

A charter was granted from the State Department at Harrisburg, Penn., on the 15th inst. to the Reading and Chesapeake Coal and Railway Company, with a capital $2,500 000. The road is to commence at Reading, Penn., and extend thence through Lancaster and Chester Counties to the Maryland State Line, and thence to Perryville, Md., where it will connect with a line to Chesapeake Bay. It will also connect with a road from New Holland to Lancaster. The length of the road will be about 60 miles. The principal office of the company will be at Lancaster, Penn.

The Supreme Court of Rhode Island in the suit brought by the Boston and Providence Railroad Company against the New York and New England Railroad Company to set aside the sale of the Hartford, Providence and Fishkill Railroad to the New York and New England, has decided that the sale was valid. The New York and New England therefore continue in possession.

The Emlenton, Shippenville and Clarion, the Foxburg, St. Petersburg and Clarion and the Foxburg and Kane Railroads have been consolidated under the name of the Pittsburg, Bradford and Buffalo Railroad. An extension will be made to Kane, and direct communication with the Bradford oil field secured.

The suit of Asahel Emigh and F. A. Stevens against the Baltimore and Ohio Railroad Company, which has been pending since 1864, for infringement of the Stevens patent railroad car brake, was finally settled in the United States Circuit Court at Baltimore on the 17th inst. by a decree for plaintiffs for $87,775.

A gentlemen who has recently arrived at Cincinnati from Mexico, and who is interested in the roads there, says the name of the Palmer-Sullivan line is the "National Mexican Railway" and that the "Mexican Central Railway" is the name of the road which is to be built by Boston capitalists.

Bids are now being received at Knoxville, Tenn., for the completion of the railroad to connect that city with the Louisville and Nashville Railroad ; also bids for connecting the East Tennessee, Virginia and Georgia Railroad with the North Carolina system.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Marked thus (*) are leased roads.	Stock outstanding.	Dividend Periods.	Last Dividend Payable.

Patent Stretched and Patent Riveted Short Lap

BELTING.

Our Belts are made from pure Oak Tanned Butts, and of the heart or solid part only. No part of the shoulder being used. Any one not familiar with Belt making can readily detect this by the shortness of the lengths and laps. Long laps are made including the shoulder or thinner and softer part of the Leather, causing the Belt to be, in its enduring qualities, no better than its poorest or thinner parts

Our Belting is warranted to run straight and maintain an even bearing on the pulleys, and sold under the fullest Guarantee.

J. B. HOYT,
D. B. FAYERWEATHER,
HARVEY S. LADEW.

LEATHER BELTING.

Made exclusively from Messrs. J. B. Hoyt & Co.'s Best Oak Butts — shoulders all cut off, only solid leather used—short lengths and short laps—fully warranted.

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

AMERICAN RAILROAD JOURNAL COMPANY,
NEW YORK.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

E. S. BOWEN,
General Superintendent.

JNO. N. ABBOTT,
General Passenger Agent.

SWIFT'S IRON AND STEEL WORKS,

26 West Third St., CINCINNATI, O.,

Manufacturers of all Weights of Standard and Narrow-Gauge Rails by most Approved Process. Also Rail Fastenings, Steel and Bloom Boiler Plate, Tank Sheet and Bar Iron.

First Things about Iron and Coal.

The following facts, most of which were culled by the editor of the American Manufacturer from a work recently issued by James M. Swank, Secretary of the American Iron and Steel Association, will prove highly interesting to the general reader.

Iron was first made in America in 1620, at a point on Falling creek, a branch of the James River, in Virginia.

The first iron manufactured west of the Allegheny mountains was made in Fayette county, Pa. John Hayden, of that county, has been awarded the honor of having made "the first iron in a smith's fire" as early as 1790.

As far as can be ascertained, the first rolling mill west of the Allegheny mountains was located on Cheat river, in what is now West Virginia. The date of its erection is unknown.

The first rolling mill in Pittsburg was built by Christopher Cowan, an Englishman, in 1812. It had no puddling furnaces, nor was it intended to roll bar iron.

The first rolling mill erected west of the Alleghenies to puddle iron and roll bars was built in 1816 and 1817, at a place called Middletown, better known as Plumsock, in Fayette county, Pa.

Pig iron manufactured with bituminous coke is claimed to have first been made as a regular product in the United States by F. H. Oliphant, at Fairchance Furnace, Fayette County, Pa., in 1836.

It appears that anthracite coal was first used in a blast furnace in Maryland. In 1840, Jessie B. Quinby testified, in the suit of Farr & Kumzi against the Schuylkill Navigation Company, that he used anthracite coal at Harford Furnace, Maryland, mixed with one-half charcoal, in 1815.

Uncoked bituminous coal was first used in a blast furnace about the year 1843, in the Shenango Valley, Pa.

The first use of Lake Superior iron ore in a blast furnace was in 1853, by David and John Agnew, proprietors of the Sharpsville furnace, at Sharpsville, Mercer county, Pa.

Cast-steel was made in the American colonies at an early day. In 1805 there were two steel furnaces in Pennsylvania, producing 150 tons of steel annually. One of these was located in Philadelphia county. In 1810 the steel product of the whole country was 917 tons, of which Pennsylvania produced 531 tons, in five furnaces—one each in Philadelphia city, Philadelphia, Lancaster, Dauphin and Fayette counties.

Bessemer steel was first made in the United States at Wyandotte, Mich., in the autumn of 1864.

The first Bessemer steel rails rolled in this country were rolled at the North Chicago Rolling Mill, on the 24th of May, 1865, from hammered blooms made at the Wyandotte Rolling Mill, from ingots of steel made at the experimental steel works at Wyandotte. The first steel rails rolled in the way of regular business were rolled by the Cambria Iron Company, at Johnstown, Pa., August, 1867, from ingots made at the works of the Pennsylvania Steel Company, near Harrisburg, Pa.

Siemens-Martin open hearth steel was first made in the United States in December, 1868, by Cooper, Hewitt & Company, proprietors of the works of the New Jersey Steel and Iron Company, in Trenton, N. J.

The Siemens gas furnace was first used in this country at the copper works of Park, McCurdy & Co., in Pittsburg. It was completed August 14, 1863, and was used for melting and refining copper. But this furnace was first regularly introduced in the United States by John A. Griswold & Co., at Troy, N. Y. The license for its construction was granted September, 1867, and it was used as a heating furnace in the company's rolling mill.

The first successful application in this country of the Siemens furnace to the puddling of iron was at the rolling mill of the American Silver Steel Company, at Bridgeport, Conn., in 1869. Prior to this an unsuccessful attempt was made to accomplish the same result at the Eagle Rolling Mill of James Wood & Co., Pittsburg.

The Whitwell hot blast was first applied in this country to the Rising Fawn Furnace, Dade county, Ga., June 18, 1875.

The first iron rails of any kind made in this country were cast by the Lehigh Navigation Company, at their foundry in the upper end of Mauch Chunk, Pa., in 1826. A few flat rails were rolled prior to 1842, but such rails were only bar iron. The manufacture of heavy wrought rails was commenced at the Mt. Savage Rolling Mill, in Alleghany county, Md., in 1844. The mill was erected especially for this purpose. The rails were of the U pattern, known in Wales as the Evans patent. They weighed 42 pounds to the yard. The Montour Rolling Mill, at Danville, Pa., was built in 1845, expressly to roll rails, and here were rolled, in October of that year, the first T rails made in the country.

The first iron vessel built in the United States was launched at Pittsburg in 1839. It was named the Valley Forge. For general navigation purposes it was completely successful. Other iron vessels were built at Pittsburg within the next decade, among them an iron schooner for ocean service, and an iron steamer, the Michigan, for service on the lake—both built for the Government about 1842. The latter is still doing Government service on the lakes, or was very recently.

In the Statistics of Coal, by Richard Cowling Taylor (1848), it is stated that the earliest historical mention of coal in this country is by the French Jesuit missionary, Father Hennepin, who saw traces of bituminous coal on the Illinois river in 1679. In his journal he marks the site of a "coal mine," above Fort Crevecœur, near the present city of Ottawa. Anthracite coal was first discovered in Rhode Island and Massachusetts, about 1760. It has since then been found in Virginia, Arkansas, New Mexico and Pennsylvania, in the United States, and in the State of Sonora, Mexico. The supply of the towns on the Ohio and Mississippi rivers with Pittsburg coal (bituminous) became an established business at a very early day after the close of the Revolutionary war. This trade has grown to large proportions, and in 1880, 68,000,000 bushels, or considerably over 2½ millions tons, were sent down the Ohio, and immense quantities of coal and coke were shipped to nearly all points of the compass by rail.

New and Powerful Locomotive for the New York Division of the Penn. R. R.

A monster locomotive, built by the Pennsylvania Railroad Company at its shops, at Altoona, and designed for moving swiftly heavy passenger trains on the New York division of that road, will make its first regular trip from the West Philadelphia depot at 7.35 this morning. It is 62 feet long (including tank), weighs about 43 tons, fully equipped, and has 18 inch cylinder and four 6½-foot driving wheels. The stroke of the piston is 24 in hes, the diameter of the boiler 52 inches, and the fire-box, which is raised above instead of being placed between the frames, in order to give greater generating surface, is large in proportion to the extra amount of the work expected from the motive power. The engine is an anthracite coal-burner, and, while designed to carry 125 pounds of steam—the usual pressure, can carry as high as 140, and is fitted with a new steam reversing arrangement that enables the engineer by simply opening and shutting a valve, to easily control its movements. It is expected that she will, after a few trips have been made, make the distance between West Philadelphia and Jersey City regularly in ninety minutes. The engine did her first work on the road on Friday, bringing the Pacific express from Altoona to Harrisburg. There she was transferred to the St. Louis day express, a faster train, with which she made the run to this city, 110 miles, in 172 minutes, arriving on regular schedule time. She was in charge of Engineer Covert, of the New York division, who is to run her in future, and who was accompanied by Engine Foreman Black and others as pilots, all of whom expressed the greatest satisfaction with her speed, power and general movements. She is numbered "10," after the engine she displaces, and her length, height and evident strength attracted more than usual attention to her while she was en route to this city.—[Phila. Ledger, March 28.

Cincinnati Southern Railway.

From the Report of the Cincinnati Southern Railway recently issued, it appears that there has been expended up to the close of last year $19,960,829 74. As this exceeds by nearly $2,000,000 the $18 000,000 advanced by the City of Cincinnati, the residue had to be taken from the receipts of the operating company and charged to "maintenance of way." This being the case the trustees make the following showing, answering the frequent question as to where the difference between the receipts of the road and the amount paid by the city has gone:

Total surplus received since opening of road from licensees		$1,589,458 84
From which deduct—		
General expenses	$130,646 54	
Contingent expenses	3,382 28	
Superintendent's department	961,550 41	
Bridge department	62,895 87	
		1,158,475 10
Leaving net income		$430,983 74

The disproportion of expenditures for maintenance of way as compared with the total net surplus received from the company, is due to the fact that maintenance began two years and six months prior to the date of opening the road for traffic, the payments therefor being advanced out of construction fund and repaid by the net surplus of the earnings of the road as rapidly as they have been paid over by the company. All of the surplus so received up to January 1, 1880, ($765,092 22), was applied for this purpose, and at that date the sum of $4,019 78 was still due the construction fund for advances for maintenance purposes, so that the earnings of the road since it was first opened for traffic (July 21, 1877) have not only produced an income to the city of $430,983 73 in excess of all expenses for operating and maintenance purposes during that time, but have repaid over $320,000 for expenditures for maintenance prior to the date the road began to produce a revenue.

Out of this $430,983 73 payments to the city have been made as follows:

July 7, 1880	$23,005 60
October 5, 1880	92,203 87
November 9, 1880	175,611 77
Total	$290,821 24

—leaving a balance of $140,162 49, out of which another payment has been made to the city since the date to which the report covers. The expenditures for construction amounted to $16,834,809; for maintenance, $1,027,828, and for rights of way, $651,328.

New York, Pennsylvania and Ohio R. R.

The operations of the New York, Pennsylvania and Ohio Railroad for 1880, the first year of the reorganized company, were as follows:

Gross earnings from operation		$5,265,857 48
Operating expenses		3,575,269 13
Net earnings from operation		$1,690,088 35
Earnings from other sources		28,187 97
Total net earnings from all sources		$1,718,276 32
Out of which were paid fixed charges as follows—		
Rental of equipment	$283,614 98	
Rental of leased lines	356,277 92	
General expenses, taxes, &c	60,879 37	
Total payments		700,772 27
Net income for the year 1880		$1,017,504 05
Deduct:—		
Interest on prior lien bonds, due & accrued	$400,000 00	
Payments on account improvements & additions	96,344 67	
Interest on first mortgage bonds, $862,500 (one-half paid in cash) due January 1, 1881	431,250 00	
Total deductions		927,594 67
Surplus for the year		$89,909 38

Imports and Exports.

The eighth monthly statement of the chief of the bureau of statistics for the current fiscal year shows the excess of exports of merchandise over imports as follows: For the month ended February 28, 1881, $19,300,295; month ended February 29, 1880, $4,309,202; for the eight months ended February 28, 1881, $210,887,405; eight months ended February 29, 1880, $152,618,305; twelve months ended February 28, 1881, $225,453,012; twelve months ended February 29, 1880, $212,306,044. The excess of imports or of exports of gold and silver coin and bullion was as follows: Month ended February 28, 1881, (excess of exports,) $465,073; month ended February 29, 1880, (excess of imports), $279,762; eight months ended February 28, 1881, (excess of of imports,) $72,175,866; eight months ended February 29, 1880, (excess of imports,) $75,464,892; twelve months ended February 29, 1881, (excess of imports,) $72,602,365; twelve months ended February 29, 1880, (excess of imports,) $89,791,266.

The Springfield Southern Railroad, a standard gauge road, 118 miles in length, extending from Springfield to Jackson, Ohio, has been purchased by a syndicate in the interest of the Indiana, Bloomington and Western Railway Company. It is proposed to consolidate the coal lands and mines of Jackson County with the railroad, under the name of the Ohio Southern Railroad Company. Of the present road sixteen miles are laid with sixty-pound rails and the remainder with light iron. Ten miles additional are also graded. The road has already cost, it is said, nearly $2,000,000 in cash. When the full 128 miles are completed and properly equipped, the property will represent a cash investment of $3,000,000. It is proposed to cover the entire property with $7,680,000 in securities as follows: $1,920,000 first mortgage 6 per cent bonds covering the road and coal property, and equivalent to $15,000 per mile of road; $1,920,000 ($15,000 per mile) of income bonds, and $3,840,000 ($30 000 per mile) of stock. The subscription will be for $1,920,000, and for $10,000 subscribed there will issue $10,000 first mortgage bonds, $5,000 income bonds and $10,000 stock, The syndicate announces its further purpose of extending the road by the issue of first mortgage bonds limited to $15,000 per mile to the Ohio River from Jackson, thus furnishing the I, B. and W., and the C., S. and C. another outlet to the seaboard via the Chesapeake and Ohio Railroad.

The population of the German Empire on the 1st of December, 1880, has now been finally ascertained. It amounts in all to 45,194,172 souls, as against 42,727,260 at the previous census in 1875. The increase in five years is therefore 2,466,912. The population of the principal States of the Empire is now as follows. Prussia, 27,251,067, against 25,742,404 in 1875; Bavaria, 5,271,516, against 5,022,390 in 1875; Saxony, 2,970,220, against 2,760,586 in 1875; Wurtemburg, 1,970,132, against 1,881,505 in 1875; Baden, 1,670,589, against 1,507,179 in 1875; Alsace-Lorraine, 1,571,971, against 1,531,804 in 1875; Hesse-Darmstadt, 936,944, against 884,218 in 1875; Mecklenburg-Schwerin, 576,827; Saxe-Weimar, 309,503; Saxe Coburg Gotha, 194,479; Oldenburg, 337,454; Brunswick, 349,429; Anhalt, 282,747; Lubeck 63,571; Bremen, 156,229, and Hamburg, 454,041.

The stockholders of the New York, Providence and Boston Railroad Company have decided to accept the recent amendments of the charter of the company, granted by the Legislatures of Rhode Island and Connecticut, allowing the company to mortgage its property. The charter amendments permit the company to issue bonds to the amount of $500,000, to bear interest not exceeding 6 per cent, and payable in not more than thirty years. The money is to be used in laying a double track of steel rails from Providence to Stonington. The company will mortgage that portion of the railroad running from Stonington to Groton, and the ferry from Groton to New London.

New York, Saturday, April 2, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

THE World's Fair now depends upon the railroads for a successful start. It has been proposed among the committee having charge of the finances to ask for no further private subscriptions until the railroads have subscribed at least $1,500,000. If the public generally shows an interest in the project, and it seems to be doing so now with a little more of enthusiasm than was manifested a few weeks ago, the railroads can safely be counted on as being willing to take their full share of the risk.

THE Ship canal which it has been proposed to build across Delaware somewhere below Appoquinimink Creek, is again before the Delaware legislature. A bill was introduced into the legislature of that State this week providing for a right of way and naming as incorporators Congressman Martin, Governor Hall and other prominent Delawarians, and John E. Hurst, Henry C. Smith, William H. Baldwin, William T. Dickson and Joseph E. Bruff, of Maryland, corporators, with a capital stock of $30,000,000, the cession of their authority to be made to the United States Government, whenever it shall undertake to construct the canal. Grants have been previously made for this project, but there being a possibility that the commission to be appointed by President Garfield might select some other route than those previously provided for, is the probable explanation of the present legislature being called upon for further action.

MINNESOTA had ten miles of railroad at the close of the year 1862; at the close of last year she had 3,099 miles with a considerable amount of construction under way. With so great a part of her important through lines completed there has been during the past few years a most valuable addition to the revenue of the State from railroads. The State revenue from this source in 1878 was $200,171 and in 1879 $249,354, that for 1880 not being yet reported. These gratifying returns would seem to fully warrant Commissioner Wm. R. Marshall in recommending that the State should give assurance of security and fair treatment to capital that may seek investment in her railroads. Mr. Marshall in his report for the past year has given not only much interesting information in a very comprehensive manner, but some valuable suggestions as to the action of the State, of which the above is one and another is that minimum rates of transportation will be secured without the use of further means than those tending directly to encourage railroad construction.

Government Ownership of Railroads.

It would seem that if there was any place where the idea of government ownership of railroads would be popular that place of all others would be France. Two reasons why this might be expected are that there has been an extended railroad agitation in France and many evils, imaginary or otherwise, have been complained of; and that the French people of the most substantial class have unlimited confidence in the power of their government to suppress an evil when it assumes to do so. This confidence in the power of government obtains most conspicuously among a people who are placed face to face with governmental questions through studying and watching the growth of forms of government newly adopted by them. The change of government has righted many wrongs; they look to the established government as the power which shall hold the corrective check over all evils affecting their political and commercial economy.

To France then we might look expecting to find, if any where, commercial bodies strongly favoring the government ownership of railroads. But on the contrary in France to-day the most important associations looking directly to commercial interests distinctive from railroad interests, the chambers of commerce and other institutions aiming to work for the welfare of trade, are strongly opposing the idea of the government taking possession of the railroads. The legislative bodies of France are being urged by the Gray Chamber of Commerce to use their power in opposition to any further purchase of railroads by the Government; and not only that, but it is still further advocated by this commercial body that the government cede back again the railroads now in its possession to the railroad companies most directly interested in them. One of the reasons urged in behalf of these measures is one that applies with peculiar force to the Republic on this side of the water; that the tendency of the management of railroads by the government is strongly toward creating a monopoly and a centralization, that turns the duties of the government into those of an industrial and commercial concern, qualifications incompatible with those required for the highest perfection of the State and the welfare and satisfaction of the people.

That a State monopoly contains demoralizing elements of a most dangerous character alike to republican institutions and commercial prosperity is so well known a fact as to need no written presentation. No monopoly can be conceived whose workings would be more prolific of evil to commercial interests, and of political corruption in its worst forms, than that which should place in the hands of inexperienced legislators and money grabbing politicians the bestowing of the vast patronage that would fall to their hands through the government having possession of the railroads. Too much is expected now of our legislators. It has become far too common for chronic complainants to look upon legislative action as the great remedy for imagined ailments, whereas it would seem that the constant appearance in our State legislatures of bills containing most impracticable ideas concerning the management of railroads, and advancing ridiculous theories pertaining to transportation should illustrate the fact that improvements can only be assured by the employment of means which long experience in the practical school of railroad management alone can suggest. Experienced railroad men working not for political influence but for their own direct benefit, which must be inseparably united to that of the general public, are the only powers that can successfully and justly manage railroad affairs.

There is a regulator that governs more evenly than legislators can possibly do the relations between the railroads and the people; it is found in the principles that underlie the laws of supply and demand, of the survival of the fittest and of successful competition, though it may be called by no more worthy name than self interest. The more plainly a manager can see that the exercise of his fullest and freest powers are tending directly to his own benefit the more sure may be the public which he serves of receiving the best possible facilities and accommodations. There may be exceptions but the rule holds good that the railroads

which to-day are giving most thorough satisfaction to the public are those which are under a close management, almost a one man power it may be, whether the power has been centralized by the control originally being in the hands of the few whose enterprise and capital may have built the road, or by the control falling into the hands of the managers through natural consolidations, or even by judicious rules fixed under the much misrepresented and poorly understood pooling system. A co-operative plan has been suggested for the management of railroads in which the patrons shall be their own railroad managers. When every body's business ceases to be nobody's business, when experience ceases to have a value, when a generation largely made up of railroad men comes suddenly into existence by an unnatural birth, or when schooling and discipline are no longer necessary in any department of business and trade then and probably not until then will the suggested co-operative management of railroads be likely to be witnessed in successful working. The idea of the ownership of the railroads by the government has some elements of common character with those apparent in the co-operative plan, with the addition of that most dangerous element to be found in its political aspect, and the consequent discouragement of invention and honest enterprise.

Organization.

Articles of association of the Great Northern Timber Belt Railroad Company, capital $2,500,000, have been filed with the Secretary of State of Wisconsin. The line will run from Green Bay to St. Croix River.

Articles of incorporation of the Stillwater, Hastings and Rochester Railway Company have been filed with the Secretary of State of Minnesota. The capital stock is fixed at $150,000, divided into shares of $100 each.

The Central Tunnel Railway Company filed articles of incorporation at Albany, N. Y., on the 26th ult, with a capital of $5,000,000. It is to run from the City Hall to the Grand Central depot, New York. Among the directors are H. C. Stetson and Geo. Lorillard.

The officers of the Camden and Philadelphia Ferry Company, recently elected, are: President, Edmund Smith; Secretary and Treasurer, W. H. Gatzmer; Directors, John C. Bullitt, G. M. Dorrance, T. Jones Yorke, J. W. McKnight, Thomas H. Dudley, W. J. Sewall and Isaac S. Buckalew.

The Governor of Pennsylvania has granted a charter to the New Brighton and New Castle Railroad Company. The directors are J. N. McCullough, Wm. Thaw, Thos. D. Messler, J. D. Layng, Jno. Davidson, Wm. Stewart and Wm. Mullins. The capital stock is $210,000 and the gauge 4 feet 8 inches.

Articles of incorporation have been filed in Minnesota for the Red Wing and Iowa Railroad, which is to be built from Red Wing, Minn., to Zumbrata, thence to the Iowa State line. The officers are: S. B. Foote, President; Charles Betcher, Vice-President; J. S. Hoard, Secretary, and J. C. Pierce, Treasurer, all of Red Wing. The capital stock is $800,000.

The officers of the New Mexico Southern Railway Company, elected on the 25th ult., are: President, U. S. Grant; Vice President, G. M. Dodge; Secretary, James H. Wood; Treasurer, Russell Sage; Executive Committee, Jay Gould, Frank Work, Russell Sage. A resolution was adopted requesting General Grant to proceed to Mexico to represent the interests of the company.

The Brooklyn (N. Y.) Underground Railroad Company has been organized, with a capital of $1,000,000, ten per cent paid in. Its route extends from the Sands street end of the Brooklyn bridge to Flatbush, where it connects with the Prospect Park, Flatbush and Coney Island Railroad. Its cost is estimated at the rate of $1,000,000 a mile, though there will not be a mile of tunnel.

The Secretary of State of Illinois has issued letters of incorporation to the Danville and St. Louis Railroad, to run from Danville to the St. Louis, Alton and Terre Haute Railroad, in Coles County. The principal office is located at Chicago. Capital stock, $1,000,000. Incorporators: Francis G. Tibbetts, Edgar Holmes, Wm. H. A. Brown, Malcomb Peters, George Bull and Hiram W. Beckwith.

At the recent annual meeting of the stockholders of the Camden and Atlantic Railroad Company, the following gentlemen were elected directors for the ensuing year: Charles D. Freeman, John Lucas, James B. Dayton, Enoch A. Doughty, Thomas H. Dudley, Samuel C. Cooper, George T. Da Costa, Joshua R. Jones, William E. Read, John Pearce and John B. Hay. The officers are: President, Charles D. Freeman; Secretary and Treasurer, Daniel M. Zimmerman.

At the annual meeting of the Housatonic Railroad Co., held at Bridgeport, Conn., on the 25th of February, the following directors were unanimously elected: Wm. H. Barnum, David S. Draper, William D. Bishop, Samuel Willets, George W. Peet, Horace Nichols, A. B. Mygatt, Edward Leavitt and John B. Peck. At a subsequent meeting of the board W. H. Barnum was elected President, D. S. Draper, Vice-President, and C. K. Averill, Secretary and Treasurer.

Articles of association of the South Bend Southern Railroad Company have been filed in the office of the Secretary of State of Indiana. The road will run from South Bend to Plymouth; length, 23 miles; capital, $220,000; Directors, Clem. Studebaker, Schuyler Colfax, James Oliver, Alexis Coquillard, J. M. Studebaker, John G. Birdsell, John C Knoblock, Joseph D. Oliver, William D. George, Joseph Warden, Peter E. Studebaker, Jacob F. Studebaker and William Mack.

At the annual meeting of the Maine Central Railroad Company, held in Augusta, Me., on the 23d ult., the following gentlemen were unanimously elected directors for the ensuing year: Abner Coburn, Skowhegan; Darius Alden, Augusta; Arthur Sewall, Bath; William G. Davis, Portland; Alfred P. Rockwell, Boston; George S. Morrison, New York; George P. King, Boston; George E. B. Jackson, Portland; William B. Bacon, Boston; Willard P. Phillips, Salem; Elijah B. Phillips, Boston; Stephen J. Young, Brunswick; Horatio N. Jose, Portland.

Articles of corporation of the Fond du Lac, Portage and Sturgeon Bay Railroad Company have been signed at Madison, Wis. This company, with a capital stock of $2,000,000, proposes to construct a road from a point on the Chicago and Northwestern Railway in Sauk County, via Portage City and Fond du Lac, to Sturgeon Bay, in Door County. The company is reported to be backed by abundant capital and numbers among its corporators representative men all along the line, who were present at the organization.

At a special meeting of the Delaware Western Railroad Company, held at Wilmington, Del., on the 25th ult., Robert Garrett was elected President, and the board was reorganized so as to consist of Robert Garrett, Perry Belmont, Victor Dupont, John W. Davis, R. Snowden Andrews, William M. Canby and William Canby, the two last named being members of the old board. It is understood that the board will be increased to nine members, and that Osman Latrobe and John K. Gowan will be elected as the additional members.

Articles of incorporation have been filed in the office of the County Clerk, New York, for the following companies: The New York and San Miguel Mining Company, capital stock $100,000, divided into 100,000 shares of $1 each; trustees, J. B. Cornell and four others. The Consolidated Galena Silver Mining Company, capital stock $500,000, divided into 100,000 shares of $5 each; trustees, A. W. Bood and eight others. The Young America Silver Mining Company, capital stock $160,000, divided into 160,000 shares $1 each; trustees, Mr. James H. Phinney and four others.

At a meeting of the stockholders of the St. Louis, Wichita and Western Railway Company, recently held at Oswego, Kan., the following directors were elected: O. W. Rogers, St. Louis; John O'Day, Springfield; B. F. Hobart, C. M. Condon and W. A. Thomas, of Kansas. The new directors elected the following officers: C. W. Rogers, President; John O'Day, Vice-President; T. W. Lillie, of New York, Secretary; E. G. Chadwick, St. Louis, Assistant Secretary, and C. M. Condon, Treasurer. The road is leased and operated by and forms a part of the St. Louis and San Francisco, Colorado and Kansas through line.

Articles of consolidation of the Ohio, Indiana and Pacific Railway Company, with the Indiana, Bloomington and Western Railway Company, under the name of the latter, were filed with the Secretary of State of Indiana on the 24th ult. The capital stock is $10,000,000, of which $5,000,000 is issued for redemption of the existing debt—$4,500,000—of the Indiana, Bloomington and Western, and for necessary improvements; $3,000,000, or so much thereof as may be necessary, is set aside for the construction and equipment of the eastern extension, and the remaining $2,000,000 is authorized for the general purposes of the consolidated road, and may be issued as required. The new bonds will bear 6 per cent interest.

Manufacturing.

The Cambria Iron and Steel Works of Johnstown and the Edgar Thomson Steel Works of Pittsburgh, Pa., are to furnish 12,000 tons of steel rails for the Louisville, New Albany and St. Louis Railroad.

The editor of the Nautical Gazette, says that the iron steamer City of Worcester just built for the Norwich and New York Transportation Company, by the Harlan & Hollingsworth Company, "is the finest specimen of iron work ever turned out of any shipyard in the world."

The Pittsburg Bessemer Steel Co. and Graff Burnett & Co., have recently ordered testing machines from Riehle Brothers, of Phila elphia. An extending trade through their Pittsburg and Chicago branches is reported by Riehle Brothers, with their well known charging scales having a greater demand than ever before.

William F. Gedney, 270 West street, this city, is manufacturing a car axle lubricant that is gaining great popularity among railroad men. He sends a sample sufficiently generous for a good trial without charge. Mr. Gedney has had an experience of about fifteen years in the handling of lubricants, one of his best known productions being the "Uncle Sam Lu-

bricating Compound," which in different grades is adapted to a great variety of uses.

Interest and Dividends.

The Cincinnati, Indianapolis, St. Louis and Chicago Railroad Company has declared a dividend of 1½ per cent. This was formerly the Cincinnati, Lafayette and Chicago, which consolidated with the Indianapolis, Cincinnati and Lafayette. On February 2, 1880, the road was sold under foreclosure, and the present company organized.

In settlement of all arrears of dividends which have accrued upon the preferred stock of the St. Louis, Alton and Terre Houte Railroad Company up to January 1, 1881, the directors have declared a dividend of 55 per cent upon the preferred stock, payable in dividend bonds, for which (pending the preparation of the bonds) dividend bond scrip will be issued on the 20th inst. to stockholders of record on the 5th inst.

The Oregon Railway and Navigation Company has declared a quarterly dividend of 2 per cent, payable at the Farmers' Loan and Trust Company, 26 Exchange Place, on the 2d of May to stockholders of record on the 9th of April.

The Lake Shore and Michigan Southern Railway Company has declared a dividend of 2 per cent, payable at the Treasurer's office, Grand Central Depot, on the 2d of May.

The Michigan Central Railroad Company has declared a dividend of 1½ per cent, payable at the Treasurer's office, Grand Central Depot, on the 2d of May.

The Delaware, Lackawanna and Western Railway Company has declared a quarterly dividend of 1¼ per cent, payable April 20.

The Philadelphia and Reading Railroad Company gives notice that, pending the litigation on the subject, no forfeiture for non-payment of instalments on the deferred income bonds will be enforced, and the final payment on those bonds, due March 31, is extended to April 30.

At a meeting of the Directors of the Delaware Western Railroad in Wilmington on the 29th ult., Osman Latrobe, of Baltimore was elected one of the Board.

The Philadelphia Inquirer says that the committee having the matter in charge have approved of the scheme by which the Philadelphia and Erie Railroad is to be made use of as a connection for the new trunk line that is being established between New York and Williamsport, Penn., via the Central of New Jersey and Catawissa Railroads. It is here the connection with the Philadelphia and Erie Railroad comes in, that road being used between Williamsport and Driftwood; thence over the Allegheny Valley's low grade division to Brady's Bend, and across the river, where an additional track will be laid on the narrow-gauge road now in operation from that point. By these connections, and an additional one, Youngstown, Ohio, will be reached, and connection thus made with the Wabash system. This will be the shortest line to the East, and will inevitably cut heavily into the traffic now enjoyed by the New York Central and Canada Southern Railroads.

Capt. Coe, Chief Engineer of the Shenandoah Valley Railroad, has removed his headquarters from Hagerstown, Md., to Waynesboro', Va., and will vigorously push the work of locating a line for the road between Waynesboro' and a point on the Atlantic, Mississippi and Ohio Railroad, near Salem or Big Lick, in Roanoke county. The work of construction will quickly follow the location of the road.

Railways in Australasia.

The project of a railway between the north and south of Australasia is now fairly under way, and will reduce the time between England and Sydney by 30 days. The principal sections of the northern part is already completed. It is 312 miles long and runs between Brisbane and Rome. Between the latter point and the Bay of Carpentaria there are yet 887 miles to construct. The line will connect with that between Roehampton and Emeraldtown. There are still gaps to fill between Brisbane and Sydney, and Sydney and Adelaide. The road will link together the principal cities and most peopled regions of the great island, with the exception of those in the west. A syndicate has been empowered by the Legislature of Queensland to construct all the road within its domains, and will receive 4,000 acres of public land for each kilometre or three-eighths of a mile built.

From the returns made to the Secretary of the Treasury by Mr. Joseph Nimmo, Jr., Chief of the Bureau of Statistics, we learn that the total value of the exports from the United States of barley, corn, cornmeal, oats, rye, wheat and wheat flour for February, 1881, was $13,919,246, against $14,426,844 for the same month in 1880. For the two months of the calendar year 1881 the totals were $28,848,652, against $29,059,726 in 1880. For the eight months of the fiscal year 1881 the totals were $182,428,826, as against $188,835,659 in the corresponding period of 1880. The report by customs districts shows that while the aggregate shipments for the eight months of the fiscal year from New York are in excess of those of the corresponding period of the previous year nearly $1,000,000, from Boston nearly $2,000,000, and from New Orleans over $2,500,000, the falling off at Philadelphia is nearly $3,000,000, and at Baltimore $5,553,103. The decline in the shipments from San Francisco during the eight months is a trifle in excess of $4,000,000, and those from Willamette, Oregon, have fallen off nearly one-half, or from $3,405,677 in 1880 to $1,607,785 in in 1881.

The Chief of the Bureau of Statistics reports that the total values of the exports of domestic provisions, tallow and dairy products during February, 1881, were $14,727,671, and during February, 1880, $9,243,383; for the two months ended February, 1881, $29,946,353, and for the same period in 1880, $18,700,830. The total values of the exports of provisions and tallow for the four months ended February, 1881, were $52,168,399, and for the four months ended February 1880, $34,196,425. The total values of dairy products for the ten months ended February, 1881, $22,219,097, and for the ten months ended February, 1880, $15,399,607.

The Montreal Witness says that Hon. Isaac Burpee and Mr. E. R. Burpee have gone to Presque Isle to arrange for the immediate extension of the New Brunswick Railway in that quarter. It is expected that the whole track will be relaid and the gauge of the road widened before September.

Northern Central Railway.

The following is a comparative statement of the gross earnings, operating expenses and net earnings of the Northern Central Railway Company for the month of February:

	1881.	1880.
Gross earnings	$382,657	$330,860
Operating expenses	247,830	213,094
Net earnings	$134,827	$117,766

For the two months ending with February the gross earnings, operating expenses and net earnings were:

	1881.	1880.
Gross earnings	$768,814	$666 354
Operating expenses	493,801	427,155
Net earnings	$275,013	$238,199

The Richmond (Va.) Dispatch says that the Bright Hope Railway Company are looking to a plan of extending their line of road from their present eastern terminus at Chester to Bermuda Hundred, at the confluence of the James and the Appomattox rivers. Complete surveys have been made, and it is thought the company will finally determine the matter in a few days. They also contemplate an extension of the western end of the line from Clover Hill into Amelia county, towards Blacks and Whites, on the Atlantic, Mississippi and Ohio Railroad. This improvement will afford a means of developing the rich mineral resources there, and of giving an outlet to the fine lumber in that section.

At a meeting of the Provincial directors of the Ontario and Quebec Railway Company, held in Montreal on the 26th ult., an arrangement for the organization of the company was completed, and the directors adjourned until April 26th to receive the report of Mr. Lumsden, C. E., who has been entrusted with the preliminary survey of of the line, and is now engaged at the works. A committee of directors was also appointed to confer with the Quebec Government and the various railway companies interested in the early construction of the road, which is now a certainty.

The bill providing for the settlement of the repudiated debt of Minnesota, which recently passed the Legislature of that State and is now a law, adjusts the greater part of the debt at 50 cents on the dollar, some of the claims being disputed. The payment is to be made out of the proceeds of internal improvement lands. Selah Chamberlain, of Cleveland, Ohio, who has for years urged the payment of this debt, either personally or by his agents, will receive securities valued at more than $1,500 000.

The sale of the Levis and Kennebec Railroad to J. R. Woodward of the Quebec Central Railroad for $192,090 has already been noticed. We learn that it is contemplated to raise the roadbed several feet, the whole length of the line, and under the new ownership, it is hoped that the road will enter upon a more prosperous career than it has had in the past. A junction with the Quebec Central was effected last fall near St. Joseph de la Beauce.

Inventions.

An important combination of interests in superior modern appliances for the promotion of security in railway travel, and establishing effective safeguards against every class of railway accidents has recently been perfected. According to the Pittsburg Chronicle it consists of a consolidation of control of all the important patents and appliances manufactured by the Toucey & Buchanan Interlocking Switch Company, of Harrisburg, and the Union Electric Signal Company, of Boston. Very appropriately the general direction and management of both these companies has been placed under the immediate charge, as President, of Mr. George Westinghouse, Jr., whose famous brake systems are now world-renowned, and are saving hundreds of lives every year by their successful operation on a large proportion of the railways of this and all other civilized countries.

Philadelphia and Reading Companies.

The following is the monthly comparative statement of gross receipts, tonnage and passengers of the Philadelphia and Reading Railroad Company for the month of February, 1881 and 1880:

	1881. Month.	1881. Years to date.
Gross receipts:		
Railroad traffic	$1,277,766 73	$3,836,149 20
Canal traffic	3,858 80	6,139 92
Steam colliers	50,708 88	152,615 40
Richmond coal barges	4,093 33	14,686 45
Total Railroad Co.	$1,336,427 69	$4,009,590 97
Reading Coal & Iron Co	803,625 63	2,520,885 94
Total of all	$2,140,053 32	$6,530,476 91
Tonnage and passengers:		
Tons of coal on railroad	566,421.05	1,578,750 01
Tons of merchandise	410,650.05	1,289,490.10
Passengers carried	638,970	2,145,085
Coal transp. by steam colliers	31,261.00	109,537.00
Tons of coal mined:		
By Coal and Iron Co	235,161 08	666,619.01
By tenants	102,911.11	311,925.01
Total mined from lands owned and controlled by Co. and from leasehold estates	338,072.19	978,544.02

	1880. Month.	1880. Years to date
Gross receipts:		
Railroad traffic	$1,038 229 92	$3,737,667 60
Canal traffic	Loss 6:7 46	28,609 56
Steam colliers	45,273 37	189,972 26
Richmond coal barges	2,275 95	22,068 63
Total Railroad Co.	$1,085,161 78	$3,978,318 05
Reading Coal & Iron Co.	530,472 35	1,926,806 36
Total of all	$1,615,634 13	$5,905,124 41
Tonnage and passengers:		
Tons of coal on railroad	369,211.07	1,506,517.09
Tons of merchandise	449,305.17	1,376,312.05
Passengers carried	617,611	2,107,527
Coal transp. by steam colliers	37,307.00	127,889.00
Tons of coal mined:		
By Coal and Iron Co	169,502.11	721,922.17
By tenants	53,667.04	234,394.11
Total mined from lands owned and controlled by Co. and from leasehold estates	223,169.15	956,317.08

Comparative statement of business of the Philadelphia and Reading Railroad Company for February, 1881:

	1881. Month.	1881. Year to date.
Gross receipts	$1,336,427 69	$4,009,590 97
Gross expenses	805,106 33	2,458,936 46
Net profit	$531,321 36	$1,550,654 51

	1880. Month.	1880. Year to date.
Gross receipts	$1,085,161 78	$3,978,318 05
Gross expenses	687,273 65	2,248,619 97
Net profit	$397,888 13	$1,729,698 08

Comparative statement of business of the Philadelphia and Reading Coal and Iron Company for February, 1881:

	1881. Month.	1881. Year to date.
Receipts	$803,625 36	$2,520,885 94
Expenses	703,544 90	2,344,911 99
Profit	$100,088 73	$175,973 95
Net profit of all	631,402 09	1,726,628 46

	1880. Month.	1880. Year to date.
Receipts	$530,472 35	$1,926,806 36
Expenses	609,559 69	2,187,051 07
Loss	$79,087 34	$260,244 71
Net profit of all	318,800 79	1,461,453 37

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending March 19, and for the year to the same date, compared with their respective amounts carried to the same time last year:

	Week.	1881.	1880.
Reading Railroad	142,661	1,988,870	1,820,894
Schuylkill Canal	.....	.....	38,041
Lehigh Valley	166,266	1,526,990	1,140,392
Del., Lack. & Western	81,331	864,982	683,106
Shamokin Valley	18,540	199,272	168,212
Central New Jersey	90,584	814,899	611,058
United R. R. of New Jersey	34,375	333,976	205,878
Pennsylvania Coal	18,738	218,147	147,113
Delaware and Hudson	76,099	763,274	655,860
Huntingdon & Broad Top Mt.	11,635	96,804	93,733
Penn. and New York	33,359	371,268	329,124
Clearfield, Pa.	56,098	418,845	327,205

The total tonnage of anthracite coal from all the regions for the week ending March 19, as reported by the several carrying companies, amounted to 520,319 tons, against 301,204 tons in the corresponding week last year, an increase of 219,115 tons. The total amount of anthracite mined for the year is 5,397,865 tons, against 4,073,025 tons for the same period last year, an increase of 1,324,840 tons. The quantity of bituminous coal sent to market for the week amounted to 103,362 tons, against 32,220 tons in corresponding week last year, an increase of 71,142 tons. The total amount of bituminous mined for the year is 883,504 tons, against 773,700 tons for the corresponding period last year an increase of 109,804 tons. The total tonnage of all kinds of coal for the week is 623,681 tons, against 333,424 tons in corresponding week last year, an increase of 290,257 tons, and the total tonnage for the coal year is 6,281,366 tons, against 4,846,725 tons to same date last year, an increase of 1,434,644 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending March 19th was 197,216 tons, of which 145,800 tons were coal and 51,416 tons coke. The total tonnage for the year thus far has been 1,871,950 tons, of which 1,359,930 were coal and 512,020 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended March 19 were 41,682 tons, and for the year 314,586 tons—a decrease of 38,292 tons as compared with the corresponding period of last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 35,411 tons, year, 276,082 tons; decrease as compared with 1880, 83,251 tons. Chesapeake and Ohio Canal—week and year, 1,197 tons; decrease as compared with 1880, 1,964 tons. Pennsylvania Railroad—week, 5 074 tons; year, 37,308 tons; decrease as compared with 1880, 3,007 tons. The Reading Railroad coal shipments for last week, ending March 26, were 93,000 tons, of which 22,268 tons were sent to Port Richmond and 18,084 tons shipped thence, and 6,303 tons were sent to Elizabethport and 11,674 tons shipped thence.—[Phila. Ledger, March 28.

A map of the Brooklyn, Fort Hamilton and Coney Island Railroad has been filed in the Register's Office, Brooklyn. The route is in the town of New Utrecht, beginning at the city line, at Sixty-fourth st. and Third-ave., and extending along Third-ave. and Lexington-ave., through the village of Fort Hamilton to the New York and Brighton Beach Road, with which it connects in Mill-lane, near the village of Bath. It will afford communication from South Brooklyn and Fort Hamilton to Brighton Beach, and will doubtless run in connection with the steam transit, by dummy engines, now in Third-ave. from Twenty-fourth-st. to Fort Hamilton.

At a meeting of the stockholders of the Buffalo, Pittsburg and Western Railway Company, held in Philadelphia on the 28th ult., a new mortgage of $7,500,000 was authorized. About four-fifths of the entire stock was represented, and voted in favor of the project. The old bonds, amounting to $4,060,000, are to be taken up, and the remainder of the proceeds of the mortgage bonds will be devoted to the construction of new lines and other improvements. Work on the extensions to Salamanca and Buffalo will be commenced about the middle of April.

The directors of the Huntingdon and Broad Top Mountain Railroad Company have decided to fund the overdue issue on the $1,500,000 consolidated seven per cent bonds by the issue therefor of new stock in the proportion of two-thirds preferred to one-third common, including the interest due April 1. The holders of these consolidated bonds have consented to a reduction of the interest from 7 to 5 per cent, and the company hopes to pay the fixed charges regularly in the future.

The cable steamers Dacia and International will begin laying from Vera Cruz, Mexico, the first section of the Central and South American cable southward to Tehuantepec. When they have completed this work they will return to England and take on the cable to be laid on the Pacific coast from Callao, Peru, to the Tehuantepec isthmus via Panama, Costa Rica, Nicaragua and Guatemala.

It is stated that when the lease of the Hopkinton Railroad expires it will not be renewed by the Providence and Worcester, the present lessee.

The Legislature of North Carolina has granted a charter for the Danville and Haw River Railroad Company.

Cincinnati, Sandusky and Cleveland R. R.

A meeting of the stockholders of the Cincinnati, Sandusky and Cleveland Railroad Company is to be held at Sandusky, Ohio, on the 6th of April. A circular has been sent to stockholders which contains the following:

"The proposed lease, besides protecting in every possible way the rights and interests of this company, provides that the lessees (the Indianapolis, Bloomington and Western Railroad Company) shall build and have completed by Jan. 1, 1882, a new line of some 140 miles of railroad connecting our road at Springfield with theirs at Indianapolis, and stipulating that all business from their roads destined to points north and northeast of Springfield shall be sent over our Cincinnati, Sandusky and Cleveland Road. It further stipulates for a guaranteed minimum rental, more than sufficient to meet all the interest on our fixed indebtedness and the expense of maintaining our organization. It also provides, in addition thereto, for such a percentage of the gross earnings and receipts as will—from the enlarged business to be brought to and carried over our road—in the estimation of your committee, make our common stock a dividend-paying one as soon as the new piece of railroad provided for is built and in operation."

The Receiver of the Ohio and Mississippi Railroad Company reports receipts for the month of February (including $13,063 65 cash on hand February 1) of $511,278 06, and the disbursements $491,998 59, leaving cash on hand February 28, 1881, amounting to $19,280 06. The disbursements were for vouchers prior to Nov. 1, 1876, $750; vouchers subsequent to Nov. 17, 1876, $341,624 76; pay rolls, $148,610 09; arrearages $1,013 74.

The last spike was driven at Luray, Va., on the 28th ult., completing the Shenandoah Valley Railroad from Hagerstown, Md., to Waynesboro, Va., where it connects with the Chesapeake and Ohio Railway. The completion of this road establishes a new and independent line for business between the Atlantic seaboard, Western and Southwestern points. Through trains will be running from Hagerstown to Waynesboro by the 15th of April.

The second steamer for the Iron Steamboat Company of New York was launched at Cramp's yard on the 26th ult. She is to be called the Perseus, and is 210 feet long and 32 feet wide. Another boat, for the same company, to be called the Pegasus, will be launched in a few days, and the fourth boat will be in service in June. The Cetus, the first of the four boats launched, is now receiving her machinery.

A dispatch from Black River, Ohio, says that "the proposed New York, Chicago and St. Louis Railroad has surveyed a line and purchased the right of way from Vermilion to Cleveland, running through Lorain. Work will be commenced immediately."

At the recent annual meeting of the Maine Central Railroad Company the by-laws were so amended that the annual meeting shall in future be held on the third Wednesday of December in each year, at such hour and place as the directors may determine.

The New York, Providence and Boston Railroad Company has determined to issue $500,000 worth of bonds on a mortgage of the road between Stonington and New London.

Railroad Earnings.

The earnings of the Chicago and Grand Trunk Railway for the first ten weeks of this year were $239,659, an increase of $46,414 over those of the corresponding time last year, while the number of passengers carried was 10,458 less for the ten weeks ending March 12, 1881, than for the same period last year. The earnings for the week ending March 12, were $23,691 as compared with $22,501 for the corresponding week last year.

The earnings of the Great Western Railway of Canada for the week ending March 18, were $116,163, an increase of $5,502 over those of the corresponding week last year. The aggregate increase this year to March 18 over last year's earnings to the same date was $33,751.

For the weeks ending March 7, 14 and 21, respectively the earnings of the St. Paul, Minneapolis and Manitoba Railway were $35,546 23, $76,127 42, $74,225 45 while the earnings of the corresponding weeks last year were $38,041 47, $36,903 96, $59,324 23 respectively. The increase in the earnings from Jan. 1 to March 21, over those of the same period last year was $147,415 09.

The earnings of the Indiana, Bloomington and Western Railway for the week ending March 15, were $25,183 09 as compared with $23,791 60 for the corresponding week last year, an increase of $1,390 49.

For the week ending March 21, the earnings of the Flint and Pere Marquette Railroad were $36,201 25 as compared with $32,658 50 for the corresponding week last year, an increase of $3,542 75. From Jan. 1 to to March 21 the earnings were $358,154 15; same period last year $323,447 10; an increase for the eleven weeks of $34,707 05.

The Denver and Rio Grande earnings for week ending March 19, reported for 551 miles now operated were $35,294 as compared with $35,537 for corresponding week last year, for the 337 miles then operated.

The earnings of the Grand Trunk Railway for week ending March 19, were $216,743; same week last year $201,257; increase $15,486; aggregate increase for twelve weeks $108,369; miles open 1,406½.

A charter has been obtained from the State of Kansas for the Merchants' Telephone Company, organized for the purpose of building a line from Kansas City to connect the cities of St. Joseph, Atchison, Leavenworth, Lawrence and Topeka. The capital stock is one hundred thousand dollars, divided into one thousand shares. As soon as the frost is out of the ground work will be commenced.

Right of way has been granted to the St. Louis, Hannibal and Keokuk Railroad Company to construct its road through Lincoln county, Mo. The line is now completed and in running order from Hannibal to Prairieville, from which point it will be extended a distance of 38 miles to Perryque, where it will connect with the St. Louis, Kansas City and Northern for St. Louis. Thirty-two hundred tons of iron have already been ordered and work will be commenced in a few days.

At a meeting of the Northern, Northwestern and Sault Ste. Marie Railway Company, held in Toronto on the 24th ult., a provisional committee was formed to complete the organization of the new company. The meeting adjourned for one week.

The First Railway in Canada.

The first railway not only in this Province but in Canada was the old Champlain and St. Lawrence line between St. Johns and Laprairie. It was opened in August, 1836. Lord Gosford, the Governor-General, and other distinguished gentlemen were present at the inaugural and participated in the banquet, which was served in the station—the time-honored building, which, defying the ravages of time, still does duty as freight shed. One of the chief promoters of the railway was the late Jason C. Peirce, father of C. S Peirce, of St. Johns, and associated with him were the late Peter McGill, Robert Jones, John Shuter, &c. James McDonald, of St. Johns, was also connected with the early management of the line. The road was originally built of scrap iron—that is, thin plates of iron nailed on to wooden sleepers, and the rolling stock was very light. For about fifteen years after construction the road was not operated in the winter time. Then the track was changed from Laprairie to St. Lambert, and the line continued from St. Johns to Rouse's Point. The second locomotive used on the old Champlain and St. Lawrence Railway was called the Jason C. Peirce, and it is still in use on the road at Joliette.—[St. Johns News.

Underground railroad project is being talked up in Brooklyn, and agents are now at work obtaining rights of way from property owners along the proposed line. It is proposed to build the tunnel from Fulton Ferry and the approach of the East River Bridge to the City Hall, and thence to the Long Island Railroad depot.

Articles of consolidation were filed on the 22d inst. in the office of the Secretary of State of Ohio of the Ohio and Indiana State Line Railway with the Indianapolis and Ohio State Line Railroad, under the name of the Ohio, Indiana and Pacific Railway Company.

The survey of the route for the proposed new Northern Railroad of Long Island was commenced by J. C. Lane of New York and G. A. Roullier of Flushing on the 26th ult. The road is to run from Astoria to Northport, and the prospects for its speedy construction are said to be bright.

A charter has been procured for the West Virginia Central and Pittsburg Railway, and the route is being surveyed. It runs from Covington to the Pennsylvania State line. The projectors ask Pittsburg capitalists to build from the State line northward to that city.

The stockholders of the Penobscot and Lake Megantic Railway Company, at their meeting in Bangor on the 15th ult., voted to change the name to the International Railway Company of Maine.

The gross earnings of the Philadelphia and Erie Railroad Company for the month of February, 1881, were $225,500 90, the expenses $159,896 20, and the net earnings $65,604 70.

The Somerset and Worcester (Md.) Railroad is being put in complete order, and it is said there is now a prospect of its being extended to the lower end of the peninsula.

During the year ended March 1, 5,722,000 hogs were packed in Chicago—an increase of 1,071,000 over the previous year, and the largest number ever packed in any city in the world.

AMERICAN RAILROAD BOND LIST.

Personal.

The resignation of Charles Donnelly as vice president of the Pittsburg and Connellsville Railroad is reported.

It is proposed in England to formally celebrate the one-hundredth anniversary of the birthday of George Stevenson, the famous inventor, June 9th.

A. A. Folsom, superintendent of the Boston and Providence Railroad, makes a trip to Europe in June.

Cyrus W. Field left Alexandria, Egypt, on the 23d and was expected at Marseilles the middle of this week on his way home.

Charles Russell, superintendent of the Boston and Albany Railroad, is returning with his family from San Francisco, where they have been spending several months.

Hugh J. Jewett has sent a letter to the commissioners declining the presidency on account of not being able to spare the time which he thinks the successful administration of the office tendered him would require.

General Grant, accompanied by Mrs. Grant, Mr. and Mrs. Ulysses S. Grant, Jr., Senor Romero and Mr. Dawson, General Grant's Secretary, left this city Monday morning via the Pennsylvania Railroad on their way to Mexico.

James R. Wood, has been appointed general passenger and ticket agent of the Pennsylvania Railroad, succeeding Mr. Farmer. Mr. Wood formerly held the same position on the Chicago, Burlington and Quincy Railroad.

The directors of the Pennsylvania Railroad Company retain the legal department as it has been for some time, with John Scott as general solicitor, James A. Logan, assistant general solicitor, and George W. I. Ball, asisstant general solicitor and conveyancer.

Mrs. Lucy A. Stetson, wife of Charles A. Stetson, the veteran hotel proprietor well known among railroad men and the traveling public through having conducted the Astor House for forty years, died last Saturday at the residence of J. Henry Ford, her son-in-law, in this city, aged 73 years. Mrs Stetson was a native of Lynn, Mass.

William F. Turreff has been appointed master mechanic of the Cleveland, Columbus, Cincinnati and Indianapolis Railway, succeeding L. S. Youngs, with headquarters at Cleveland, John O. Ewan has been appointed superintendent of the Indianapolis division of that road, succeeding Mr. Turreff, with headquarters at Union, Ind.

It is reported that Charles Parsons has resigned the presidency of the Midland Railroad Company of New Jersey, and E. S. Francis and J. F. Hull hace resigned as members of the board of directors, a number of the stockholders including Mr. Parsons, having sold their stock to a construction company which is to extend the road to the Pennsylvania coal fields.

Manager Gardner who has been so long and in very important relations connected with the Hoosac Tunnel road, has accepted the position of general manager of the Mexican National Railway and Construction Company. His resignation of the position on the tunnel road went into effect April 1st. For the present his family will remain at his home in Greenfield, Mass.

The amount of stock required by the charter of the Leamington and St. Clair Railway Company has been subscribed, and ten per cent of the amount deposited to the credit of the company in the Bank of Commerce at Windsor, Canada. The company intend vigorously to push the work to completion.

The Rights of Private Property.

The St. Louis Railway Register not only gives a valuable amount of information of interest to the railroad circles of the far West, which it ably represents, and to the general public, but also has a way of editorially putting things very plainly and pointedly, as witness the following:

"There are three great rights guaranteed by the constitution of this country and of every State. Not only are these rights secured to all by the written law, but by the Divine law, which is unwritten, yet whose binding force is universally acknowledged. These three rights are of Personal Liberty, Personal Security and Private Property. While admitting the obligation of the first two, there are found men who by their actions dispute the third. They say that a man only has a right to acquire property up to a certain amount, and then he is lawful prey for beasts and communists. * * * * *

There are two classes of men who are leaders in this warfare against what they call monopolies. One is composed of unprincipled politicians, either impecunious or otherwise, and the other class is made up of vagabonds, tramps and lazy adventurers, who, like parasites, draw sustenance from the labors of others. Every man who is willing to work and who is thrifty will become rich; no combinations nor laws keep him down, and when any man or company by superior sagacity, thrift and economy, or by prolonged and incessant labor, or by inheritance from his fathers, has gained wealth, much or little, he is entitled to the protection of the laws in keeping it if he is so disposed. We take our stand firmly in defense of the rights of private property. Law and Gospel alike support us, and we are backed by the sound judgment and instincts of the great mass of the people."

Secretary Windom came to New York this week for the purpose of consulting with prominent business men in reference to the redemption of bonds. It was not intended that any definite arrangement should be entered into here, that being left to a meeting of the Cabinet after his return to Washington. It is generally supposed however that some policy will be adopted by which from $300,000,000 to $100,000,000 of the fives and sixes will be taken up this year. Washington dispatches the middle of the week said that offers for the 4 per cents had already been made on terms that would bring the interest down to nearly 3 per cent.

The Illinois Central, the Ohio and Mississippi and the Indianapolis, Decatur and Springfield Railroad Companies are about to unite in erecting a union depot at Springfield Ills.

The Levis and Kennebec Railway was sold at sheriff's sale at Levis on the 22d ult., to James R. Woodward, of Sherbrook, manager of the Quebec Central, for $192,000.

The route of the Olean, Bradford and Western (Penn.) Railroad is being surveyed. It will pass through the most prolific oil farms of McKean county.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 31, 1881.

The rates for call loans during the day have been 5@6 per cent on stocks and 4@5 per cent on United States bonds. Time loans were 4@5 per cent, and prime mercantile paper 5@6 per cent. In the last hour the Money Market was fairly active at 6 per cent, and a few borrowers paid an additional commission.

The posted rates for prime bankers' sterling were 4.81@4.83½; the actual rates, 4.80@¼ and 4.82¼@½. Cables, 4.82¾@4.83. Prime commercial bills, 4.78½@¾.

The Governors of the Stock Exchange have admitted to dealings at the Board the following securities:

Missouri, Kansas and Texas Railroad Company—Consolidated mortgage bonds, dated December 1, 1880, payable December 1, 1920. Rate of interest 6 per cent per annum in gold, payable semi-annually on the first days of June and December. Authorized issue $45,000,000, of which amount $20,097,000 are now admitted to the list as follows: Bonds Nos. 1 to 18,217, amounting to $18,217,000, which are to be issued for the purpose of retiring the following prior bonds: 1. To retire Union Pacific Railway Company Southern Branch bonds, $2,296,000. 2. To retire Tebo and Neosho Railroad Company Bonds, $349,000. 3. To retire Hannibal and Central Missouri Railroad Company bonds, $800,000. 4. To retire Missouri, Kansas and Texas first consolidated bonds, issues February 1, 1871, June 1, 1872, November 1, 1872, and June 1, 1873, $14,772,000,

and bonds Nos. 30,218 to 32,097, both inclusive, amounting to $1,880,000, have been issued to acquire ninety-four miles of additional railway in Texas, completed and in operation by the Missouri, Kansas and Texas Railway Company. Of the bonds originally issued and outstanding, viz., $1,150,000, on said ninety-four miles, nearly, $1,000,000 have been surrendered and the remainder are likely to be presented within a very short time for exchange. By acquiring these bonds the Missouri, Kansas and Texas Railway Company acquires all rights on and to this ninety-four miles of railway.

New York and New England Railroad Company—Capital stock, $20,000 000, in shares of $100, of which $8,562,000 is issued and $11,438,000 is reserved for conversion of Boston, Hartford and Erie bonds: First mortgage 7 per cent bonds, $600,000, due 1905, and first mortgage, 6 per cent bonds, $2,000,000, also due in 1905.

Sterling Iron and Railway Company—Capital stock, $2,300,000, in shares of $50 each: Income coupons, 7 per cent bonds, series B, $418,000, and unsecured income 6 per cent bonds, $491,000. The property of the company is situated in Orange and Rockland Counties, in the State of New York, and consists of about 25,000 acres of land, on which are numerous veins of iron ore, of which five are now being worked and are fitted up with necessary engines, etc. On the property are two blast furnaces complete with necessary machinery, hot blast ovens, etc., having a productive capacity of 15,000 tons of pig iron per year; and at the mines and furnace are 173 dwelling-houses, three school houses and one church, belonging to the company. There are also two railroads owned by the company, one of seven and a half miles, branching from the Erie Road at Sterling Junction (thirty-five miles from New York), and one of a mile long, branching from the Erie Road at South field (forty-two miles from New York). The company owns and operates two stores.

Vermont Marble Company—Capital stock $3,000,000, in shares of $100 each, and $1,200,000 5 per cent gold sinking fund mortgage bond, payable December 1, 1910 or at 105 and interest at an earlier date at the option of the company. The company is organized under the General Laws of the State of New York. The business of the company consists in the quarrying of marble at West Rutland, and at Sutherland Falls, Vt.; in the sawing and selling of marble at the following mills, viz., their Sutherland Falls Mills, Vt., with 66 gangs of saws; their Centre Rutland Mills, Vt., with 28 gangs of saws; their West Rutland Mill, Vt., with 24 gangs of saws; their Salem, N. Y., Mill, with 8 gangs of saws; and by one additional mill (under contract) at Centre Rutland, Vt., with 12 gangs of saws; and in the selling of marble at their branch yards in Philadelphia, Boston, Chicago and Toledo. The gross sales of marble from the above quarries and mills in 1880 amounted to $654,049 97, at a cost for production of $499,977 50. The company's property consists of some 800 acres of land, comprising seven quarries, located at West Rutland, at Centre Rutland, and at Sutherland Falls, Vermont; valuable water powers and extensive mills at each of the two last mentioned places, and at Salem, N. Y.; a large steam mill (250 horse power) at West Rutland, twenty steam engines with quarrying machines, many large and expensive buildings, together with all the machinery, live stock, implements and improvements necessary to perfect their extensive works.

The Finance Commissioners of Baltimore will receive proposals, at the Mayor's office, until 12th inst., for $200,000 City 4 per cent stock. The interest on the bonds is payable semi annually, 1st January and 1st July, and the principal matures in 1920. This is the first issue of 4 per cent attempted by the city. A portion of this loan has been taken by the commissioners for the city sinking fund.

The first mortgage dollar bonds of the Philadelphia and Erie Railroad Company, amounting to $2,000,000, which matured on the 31st ult., will be paid upon presentation at the office of the Pennsylvania Railroad Company in Philadelphia. The first mortgage sterling bonds, amounting to $3,000,000, and which matured at the same date, will be paid in London.

The Secretary of the Treasury gives notice that his order of 24th February last, authorizing the purchase of called 5 per cent bonds at par and accrued interest up to date of presentation, is modified as far as the registered bonds are concerned, none of which can be purchased during the month of April, as the transfer books of the Treasury will be closed in order to make preparation for the payment of interest due 1st May next. The call for 5 per cents was made on 21st February, and the bonds embraced within it mature on 21st May.

Payment of Called Bonds.

The following circular to holders of called bonds was issued by the Treasury Department at Washington on the 30th ult.:

Notice is hereby given that this department will redeem on and after April 1, 1881, any of the outstanding United States five per cent funded loan bonds of 1881 embraced in the one hundred and first call (which will mature May 21, 1881) at the rate of $101 25 in full payment for each $100 of the bonds. All bonds forwarded for redemption should be addressed to the Secretary of the Treasury, Loan Division, Washington, D. C., and all registered bonds should be assigned Secretary of the Treasury for redemption. Where parties desire checks in payment for registered bonds drawn to the order of any one but the payee, they should assign them to "the Secretary of the Treasury for redemption for account of" (here insert name of person or persons to whose order the check should be made payable.)

Holders of income bonds of the Allegheny Valley Railroad Company are notified that the cash fund applicable to the payment of the interest due April 1, 1880, being insufficient to pay the whole of the interest on said bonds, will be distributed pro rata, allowing $9 on each $35 coupon, and proportionately for those of lower denominations, and the deficit paid in orders upon the Trustees for Bonds of the same issue and scrip convertible into such bonds for sums less than $100, at the office of the Company, Pittsburg, Pa., on and after April 1, according to the terms of the Bonds.

The Denver and Rio Grande Railway system, is to be extended to Houston, Texas, and the surveying party has already arrived at that point to commence the survey of a narrow gauge line from Houston to Laredo, where a connection will be made with the Mexican National road.

The track of the Richmond and Alleghany Railroad has been completed to Scottsville, a distance of 80 miles from Richmond.

* Only notes of the new issue counterfeited.

The Pennsylvania Railroad Company is straightening the track of the great curve near Millstone Junction, N. J. materially shortening the line of the New York division.

Trains on the Pittsburg, Virginia and Charleston Railroad are now run as far south as California.

COUPONS of the CENTRAL PACIFIC RAILROAD COMPANY (San Joaquin Valley Branch) and of the LAND BONDS, due April 1, 1881, will be paid at the banking house of Fisk & Hatch, No. 5 Nassau st., New York.

C. P. HUNTINGTON, Vice-President.

BARBER BIT BRACE.

Hereafter every Bit Brace found in any market with Jaws as shown in the above cut, and bearing our name, will be made of Rolled Steel and heavily Nickel Plated. The Head is of Lignumvitæ, and the revolving Hand piece of Rosewood. The Jaws are of forged and tempered Steel, and will adapt themselves to any shape tool tang, round, square or flat, and hold it perfectly without any fitting. When made with a Ratchet Attachment it will bore in places where there is not room to revolve the Sweep; a slight back and forth motion driving the bit in or out. We formerly used Iron Jaws, which wore out. All such we will now replace with Steel, sending them by mail prepaid on receipt of 25 cents. They are all one size and will fit any Brace which we ever made. Our Braces are for sale by nearly all Hardware Dealers. Those who do not have them in stock will furnish them if requested. Price from $1 75 to $3 25 each. Many Braces are sold for less money; but this is the only Steel Brace in market; and one of them is worth six of any other kind. Save this notice as it may not appear again.

MILLERS FALLS CO.,

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.

☞ Sample Copies sent on Application. Address

NEW YORK.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

SECOND QUARTO SERIES, VOL. XXXVII., No. 15.] NEW YORK, APRIL 9, 1881. [WHOLE No 2,346, VOL. LIV.

The Northern Pacific.

HISTORY OF ITS MANAGEMENT—ITS LAND GRANTS, BONDS AND STOCKS—REORGANIZATION IN 1875—THE VILLARD SUIT AND FACTS PRESENTED BY IT.

A valuable history of the Northern Pacific Railroad, and of much interest just at present can be made up from the documentary evidence to be used in the suit of Henry Villard to annul the recent issue of 180,000 shares of the common stock of the company. The Times has recently published much of the evidence from which a connected story is made as follows: Congress chartered a line of railroad and telegraph from a point on Lake Superior to Puget Sound, with the right to construct a branch to Portland, Oregon, under the name of the Northern Pacific Railroad Company. To aid in the construction of this line lands were granted to the amount of 10 sections per mile on each side of said road in the States, and of 20 sections per mile on each side in the Territories, the land thus granted amounting to nearly 47,000,000 acres. J. Gregory Smith, of St. Albans, Vt., and his associates, who procured this charter, were at an expense therefor of $102,000 in cash. In order to provide for the building and development of the road, the enterprise was divided into 12 shares of $8,500 each, by an agreement made Jan. 10, 1867. These shares were distributed as follows: J. Gregory Smith, 4⅞ shares; W. B. Ogden, 1½ shares; and 1 share each to R. H. Burdell, D. N. Barney, R. H. Barney, George W. Cass, J. Edgar Thomson, and Edward Reilley. It was mutually agreed by these subscribers that the best efforts of each and all should be given to obtain from Congress the passage of a bill granting aid to the company for construction purposes, and each party, it was agreed, should contribute, according to his interest, the necessary funds for that purpose, provision being made that not over $12,500 should be assessed on a single share. Having thus secured control of the charter, the syndicate, on May 20, 1869, made an agreement with Jay Cooke & Co., of Philadelphia, by which that banking firm became the Northern Pacific's sole fiscal agents. The 12 original shares were increased to 18, the additional 6 being assigned to Jay Cooke & Co. The capital stock of the company it was agreed should be appropriated as follows: The representatives of the 18 shares should subscribe for $80,000,000, an equal portion to each share, which should be issued in full paid-up stock. Each of the 18 shares was to receive $124,500 immediately, and $54,000 additional was to be issued to each share as often as 25 miles of railroad were constructed, and the residue of the capital stock, $10,999,000, was deliverable to Jay Cooke & Co., and as often as the fiscal agents sold and placed to the credit of the company the proceeds of $1,000 of stock the agents themselves were entitled to receive $200 of the same stock.

Bonds of the company were issued to the amount of $100,000,000, payable in 30 years in gold, bearing interest at the rate of 7 3-10 per cent per annum. These bonds were secured by a first mortgage upon the railroad, its lands and property. Claims against the company, including the moneys expended by the original shareholders, were paid in these first mortgage bonds at 88 cents on the dollar, with interest. This first agreement with Jay Cooke & Co. was supplemented Jan. 1, 1870, in that the 18 shares were increased to 24, the extra 6 to go to Jay Cooke & Co., and to be paid for as were their first 6. In consideration of this and other arrangements, and to facilitate construction, it was stipulated by Jay Cooke & Co. that $5,000,000 should be raised by subscription within 30 days for the immediate use of the company; the fiscal agents also agreed to pay the drafts of the syndicate from time to time to the extent of $23,175 as security. As collateral Jay Cooke & Co. had transferred to their account one-thirtieth part or share in the Northern Pacific Railroad Association.

But Jay Cooke & Co. became bankrupt, and it was necessary to determine upon a plan for the re-organization of the company. At a general meeting of the bondholders held March 18, 1875, a committee was appointed to consider this matter and recommend a plan. This committee consisted of Johnston Livingston, J. N. Hutchinson, William McKnight, John M. Denison, Abner Coburn, William Windom, and George Stark. On April 16 preceding the United States Circuit Court had appointed a Receiver for the company. The order making this appointment was given under proceedings brought by the Trustees of the Northern Pacific bondholders. On May 12 following the court granted a final decree under which the road and all its property were directed to be sold for the benefit of the bondholders. This decree was in accordance with the desire of the committee. They reported that they considered this "an arrangement between all parties in interest which shall satisfy every equity, avoid tedious litigation, and secure the extension of the road. This extension is indispensably necessary to restore value to your investments."

The bondholders subsequently held a meeting at which the plan recommended was adopted. That plan proposed that Johnston Livingston, of New York; Frederick Billings, of Woodstock, Vt.; George Stark, of Boston; William Thaw, of Pittsburg; J. N. Hutchinson, of Philadelphia, and John M Denison, of Baltimore, be appointed a committee to attend the sale of the railroad and its property with a view to purchase the same and take title therefor, to assume the management of the road after purchase, and attend to the issuing of bonds and stock, and do all things necessary to place the railroad and property again under the control and management of a Board of Directors to be elected by the preferred stockholders. Other detail matters were provided for, and it was arranged that preferred stock should be created and issued to the amount of $51,000,000, the entire stock of the company, preferred and common, being $100,000,000. This preferred stock was to be entitled to dividends not exceeding 8 per cent per annum, as the net earnings might suffice to pay. After and during the time the income of the road was sufficient to pay the 8 per cent dividend on both preferred and common stock, the surplus was to be divided on both alike per share, according to the number of shares issued of

each. Common stock was to be issued to the amount authorized by the charter, less the $51,000,000 preferred. "Certificates of this stock," was the verbiage of the plan adopted, "shall be issued to holders of, or to those now entitled to, certificates, share for share, and the residue ratably to those originally entitled thereto or their assigns."

The purchase of the road and its property was made Aug. 12, 1875, by the committee, in accordance with the provisions of the "plan." The price paid was $100,000. There was at this period 550 miles of road in paying operation, substantially free from debt, and attached was a domain of nearly 10,000,000 acres of land. In an official statement of the Northern Pacific Railroad Company made July 16, 1879. President Billings enumerates the proportion of preferred and common stock of the company as recognized by the management: Preferred, 438,000 shares, 72,000 shares of preferred having been extinguished by exchange for lands; common, 490,000 shares. Of the 490,000 shares of the common the President's report states that there were entitled to be issued 299,526 shares, and of this amount 283,844 shares had been issued, and 15,682 shares were then being issued. The remaining 190,474 shares of this common stock, regarding the issuance of which, or a portion of which, the present litigation has arisen, were to be issued. It was at this time that the Northern Pacific Railroad Company made application to have the entire amount of its preferred and its common stock (including the residue of the common stock) placed on the regular list of the New York Stock Exchange. In his annual report to the stockholders at the annual meeting, Sept. 24, 1879, President Billings said: "Of the 490,000 shares of the common stock there were entitled to be issued 299,526 shares, and which are nearly all issued. The remaining 190,474 shares of the common stock are to be issued, according to the plan of reorganization, to the numerous owners of the old proprietary interest, as the road progresses."

Pork Packing in the West.

THIRTY-SECOND ANNUAL STATEMENT OF THAT INDUSTRY BY THE CINCINNATI PRICE CURRENT.

The history in the past year of the pork packing industry in the West, beginning on the first of March, 1880, shows that there were indications of liberal supplies of hogs for the spring and summer markets, exceeding corresponding time in the previous year, and also indicating that the deficiency in numbers packed during the winter of 1879-80, compared with the preceding winter, would be made up by May, in the increased supply. This view of the case, which we took as early as January, and which we urged upon the consideration of the trade, was verified by the results. The winter had been exceptionably favorable for stock, and the promise of good prices led farmers to the taking of good care of young swine.

The movement of hogs to market in the latter part of the summer season exceeded our expectations, and the quality of the stock marketed indicated that many farmers were putting their hogs into market earlier than they had intended, under the inducement of prevailing high prices, and an encouraging outlook for better values for corn. Later events made it plain that a large number of hogs were marketed before November which were not calculated for market before that month.

THE SUMMER SEASON OF 1880

commenced with good promise of abundant supplies of hogs, and packing operations progressed more rapidly than the preceding year, or any previous season at corresponding time. On the first of May, at the end of the first two months of the summer season, there was an increase of 500,000 in the number of hogs packed as compared with the preceding year, and on the first of June the increase was about 640,000; this was increased to about 780,000 on the first of July and to about 1,075,000 on the first of August. On the first of September the packing was about 1,800,000 ahead of the corresponding date in 1879, and on the first of October the increase had reached 1,400,000, but during October the business was not so active as in the same month in 1879, and the summer season closed with a total packing of 5,323,898 hogs, against 4,051,248 in the corresponding eight months of 1879, showing an increase of 1,272,650 hogs. The six large cities made a gain of 1,050,078, of which 815,709 is credited to Chicago; St. Louis gained 60,000, and Cincinnati fell off 39,000, while Indianapolis increased to the extent of 140,000, and Milwaukee made a gain of 69,000 Cleveland packed 5,000 more than the preceding summer, Cedar Rapids 118,000 more, Kansas City 94,000 more and Atchison 52,000 more.

Prices of hogs in March were $4 20@4 50 per 100 lbs. gross in the leading markets, ranging slightly lower in April, and about $4@4 25 in May; in June about the same, and in July $4 25@4 50, and late in the month $4 50@4 75; August $4 75@5; September $4 85@5 25, and in October reduced to about $4 50@4 75. The average price was 75@85c per 100 lbs. gross higher than during corresponding time in 1879.

Our returns show that the average gross weight of hogs in the summer of 1880 was 1.41 pounds heavier than in 1879, and the yield of lard 1.33 pounds per hog less. The production of lard was equal to 494,538 tierces.

THE WINTER SEASON OF 1880-81,

beginning November 1, opened with hogs in the leading markets about $1 per 100 pounds gross higher than a year before, but this difference was subsequently reduced considerably, and the average price paid during the winter at all points is about 46c. per 100 pounds gross higher than the preceding winter. Cold weather began about the middle of November, and the season continued favorable for slaughtering operations throughout the remainder of the winter. In our estimate of the probable supply of hogs available for the winter packing, published the first of December, we said: "There is not much in the present indications favoring any material change in the number of hogs for winter marketing, compared with a year ago, and an approximate estimate we deem it safe to suggest 7,000,000 head for the entire season." On the 1st of January our returns showed an increase in packing to that date of about 260,000, and the estimate for the season indicated a total of 7,030,000 to March 1. But the final figures have fallen about 110,000 below these estimates. Had Chicago returns of packing for the past winter sustained the same relation to the net supply of hogs at that point, as for the preceding winter, our final figures for the winter would not have varied 10,000 hogs from our first of January estimates.

The winter has closed with a packing of 6,919,456 hogs, or 30,995 less than the preceding winter, the average weight showing a reduction of 5.23 pounds per hog, and the total packing at the average weight of the preceding winter is equivalent to a reduction of 200,865 in number of hogs. The yield of lard is 35.65 pounds per hog, or .67 of a pound less than 1879-80.

The cost of hogs has averaged $5 80 per 100 lbs. net, or $4 64 gross, an increase of 58 cents net, or 46 cents gross per 100 lbs.

The production of mess pork has been 359,691 barrels, or 170,867 less than the preceding winter, and the total of barreled pork of all kinds amounts to 451,497 barrels, or 175,305 decrease for the season.

GENERAL SUMMARY OF PACKING IN THE WEST.

The packing in the West during 1880-81 compares with the previous year as follows:

WINTER SEASON.

Nov. 1 to March 1.	1880-81.	1879-80.
Number of hogs packed	6,919,456	6,950,451
Average net weight, lbs.	207.71	212.94
Aggregate net weight, lbs	1,437,252,661	1,480,068,518
Average yield of lard, lbs	35.65	36.32
Aggregate pounds of lard	246,677,145	252,439,188
Tierces of lard, 330 lbs. each	747,506	764,967
Av. cost of hogs per 100 lbs. net	$5 80	$5 22
Aggregate cost of hogs	$83,831,087	$77,281,648
Mess pork made, bbls.	359,691	530,558
Other kinds of pork, bbls	91,806	96,244
Total, all kinds pork bbls	451,497	626,802
Hogs packed at interior points	2,211,646	2,376,817
Number at six cities	4,707,810	4,573,634

The total number is equal to 6,749,566 hogs at the average weight of 1879-80, equal to a decrease of 200,865 head.

SUMMER SEASON.

March 1 to Nov. 1.	1880.	1879.
Number of hogs packed	5,323,898	4,051,248
Average net weight	184.66	188.53
Aggregate net weight, lbs	983,109,336	743,525,500
Average yield of lard, lbs	30 65	31.98
Aggregate pounds of lard	163,197,754	129,580,672

TOTAL FOR TWELVE MONTHS.

Year ending March 1.	1880-81.	1879-80.
Number of hogs packed	12,243,354	11,001,699
Aggregate net weight.	2,420,361,997	2,223,594,018
Aggregate pounds of lard	409,874,899	382,019,860

PACKING AT THE SIX PRINCIPAL CITIES.

Number of hogs packed at the six large cities in the West, from November 1 to March 1:

NUMBER PACKED.

	1880-81.	1879-80.
Chicago	2,781,064	2,525,219
Cincinnati	522,425	534,559
St. Louis	474,159	577,793
Indianapolis	388,763	364,021
Milwaukee	325,729	340,783
Louisville	215,670	231,259
Total	4,707,810	4,573,634

AVERAGE NET WEIGHT.

	1880-81.	1879-80.
Chicago	212.55	222 77
Cincinnati	214.70	213.05
St. Louis	200.69	206.54
Indianapolis	187.22	186.37
Milwaukee	206.91	211.37
Louisville	208.80	202.50
Gen. ave	208.94	214.81

AVERAGE YIELD OF LARD.

	1880-81.	1879-80.
Chicago	37.94	40.59
Cincinnati	39.46	36.18
St. Louis	35.56	36.08
Indianapolis	28.48	25.73
Milwaukee	32 79	32.22
Louisville	32.12	29.80
Gen. ave	36.46	37.16

Centralization of Railroad Management.

Illinois, containing as it does nearly one-tenth of the entire amount of railroad in operation in this country, presents a good field in which to investigate the workings of railroads and the tendencies of the same. Especially is this so since railroad traffic is presented there in a greater variety of phases than in any other State. Covering such a vast extent of territory from North to South it sends not only its own wealth of agricultural products by many routes to the seaports, but it lies where much of the production of the farther West must seek a right of way for its Eastward course. While it possesses on its boundaries rare facilities for river and lake navigation, its great internal domain with its traffic commanding situation is a section where railroads have no important rivals in navigation and to their network of interests is left the working of the laws of railroad competition, probably in as unadulterated a form as it would be possible to find in any of the most important of railroad fields.

It is a well known fact that last year was conspicuously one in which the policy of consolidation was in active use and its workings were being practically tested. The centralization of management was a prominent feature last year in the changes made among the railroads of Illinois. Thirteen railroads were sold to or incorporated with other organizations during the year ending June 30, 1880, in Illinois, with arrangements about completed for the consolidation or change in management of several others. With the railroads overcrowded with traffic and travel to an unprecedented degree and with a renewal of general prosperity and business activity and the consequent buoyancy of prices, those who are clamoring against consolidation might if ever have expected then to see an increase in freight charges or other prophesied burdens placed upon the people. In Illinois the average freight rate on twelve representative roads for 1876 was 1.81 cent per ton per mile; in 1877 and 1878, 1.53; in 1879, 1.40, and in 1880 it was 1.23 cent per ton per mile. During last year the passenger rates were also reduced, from 3½ and 5 cents per mile to 3 cents per mile on the leading railroads. On account of the improved management it was possible as it could not otherwise have been, to turn the activity of business to its best account and to nearly double the net earnings of the leading railroads even at the greatly reduced rates, while by the same means a number of Illinois railroads were saved from financial ruin, to the further benefit of commerce, the people and the State.

THAT the International Cotton Fair to be held in Atlanta next Fall can be made of great benefit to the South, seems to be fully appreciated by the enterprising projectors who are successfully pushing the enterprise, subscriptions for more than one-half of the necessary funds having been already obtained. The exposition will be held during the last three months of the year. Among the interesting features will be a model cotton factory in full operation, which it is proposed to erect on the grounds. There will also be displays of cotton from all parts of the world growing in the field, and of the latest improved machinery for its manufacture, including several new ideas for picking cotton, which promise to largely do away with the performance of the work by the fingers. The enterprise seems to have no lack of energy and enthusiasm bestowed upon it, and well carried out it will prove a practical demonstration of Southern manufacturing advantages and resources which will do much to draw to the South the capital and industries she most needs for her development and prosperity.

Philadelphia and Reading Accounts.

The ninth audit of the accounts of the receivers of the Philadelphia and Reading Railroad Company was filed by George M. Dallas, master, in the clerk's office of the United States Circuit Court, Philadelphia, on the 1st inst. The report embraces the financial affairs of the railroad and coal and iron companies for the month of February. The balance on hand February 1 was $217,457 31; receipts during the month, $2,331,008 54; payments, $2,244,333 53; balance on hand March 1, $304,182 32. The actual receipts of installments on the deferred income bonds during the month, kept in a seperate account, were $109,427 22, making the total to March 1, $265,564 15. The accounts of the coal and iron company show a balance on hand March 1 of $52,997 27.

Illinois and Michigan Canal.

At an adjourned meeting of the Illinois and Mississippi River and Canal Improvement Company, held at Rock Island, Illinois, on the 1st inst., arrangements were made for a northwestern convention to be held in Davenport, Iowa, on the 25th of May, and a committee was appointed to make preparation for the same. The call, when issued, will invite each Governor of a Northwestern State to appoint 10 delegates, each Board of Trade 5, and each farmers' club 3, to attend this convention. All State officers, United States Senators and Congressmen will be invited. Secretary Windom has already promised to attend if possible. A long list of noted public men will be especially invited. The call will state the object of the convention to be an appeal to Congress for a speedy extension of the Illinois and Michigan Canal to the Mississippi River, by way of Hennepin, for the purpose of opening an all-water route from the Upper Mississippi to Chicago, the lakes, and the Erie Canal. The City of Davenport and Rock Island, by a vote of the Boards of Aldermen, have each appropriated money to pay the expenses of the convention.

Mexican Southern Railroad.

The Mexican Southern Railroad, of which Gen'l Grant was recently elected President, is to start at Anton Lizarado, a harbor 15 miles south of Vera Cruz, and run by way of Tuxtepec and Oaxaca across to Huatalco on the Pacific, a distance of 503 miles. The estimated cost of the road is put at $30 000 a mile, or a total of $15,150,000. As the Mexican concession proposes a narrow-gauge line, this estimate may not be excessive; but $30,000 a mile for a road in a new country, which is to cross at least one pass at the city of Oaxaca at a height of 5045 feet above the ocean, and will probably have other higher points to surmount in passing over the Mexican Cordilleras, is certainly not an extraordinary estimate. The concession granted by the Mexican Government gives the option of building the line on a standard gauge, and as the new road is to connect on the north with the Vera Cruz Railroad, and on the south with the Tehuantepec line, the new road will probably be built from the start on the standard gauge. The road, it is said, will run through the most fertile and best developed section of Mexico.

American Steamship Co.

At the annual meeting of the stockholders of the American Steamship Company, held in Philadelphia on the 4th inst., the directors submitted the tenth annual report of the transactions of the company, for the year ending December 31st, 1880. During this period the four steamships accomplished 35 voyages. The receipts from freight were $554,952 90; passengers, $384,351 81; miscellaneous sources, $3,680 13—total receipts,

$942,984 84. The disbursements were: for operating expenses, $730,759 39; expenses of agencies at Philadelphia, New York, Liverpool, Chicago, &c., $66,174 27; advertising, $17,043 46; wharf expenses at Philadelphia and Liverpool, $12,726 28; expenses of general office, $6,078 88; extraordinary expenses, $78,107 71; interest paid on mortgage bonds of the company, $89,610—total expenditures, $1,000,494 99; showing a deficit for the year of $57,510 15.

Personal.

F. J. McWade has been appointed general baggage agent of the Pennsylvania Railroad in place of C. R. Clement deceased.

Colonel Sidney B. Jones has been appointed General Southern Traveling Passenger Agent of the Panhandle Company.

Mr. Stickney, Superintendent of the Canada Pacific Railway, was expected in Montreal this week, on business connected with the transfer of the finished portion of the line to the Syndicate.

The cost of the three brown stone houses being erected on Fifth Avenue by William H. Vanderbilt is said to be over $1,500,000. A $400,000 house is also being built by William K. Vanderbilt.

Abram S. Hewitt presided at a banquet recently given in this city to S. G. Thomas, the Englishman who made the important improvement on the Bessemer steel process.

James Buell, formerly president of the Importers and Traders Bank and of the United States Life Insurance Company died in this city on Monday. Mr. Buell was one time Secretary of the Bankers' Association and a director of the Fifth Avenue Bank.

Mr. Evarts, Mr. Thurman and Mr. Howe, representing the United States in the Monetary Conference, sailed for Liverpool in the Arizona Tuesday. Henry F. Gillig of London was also among the Arizona passengers.

Mr. Senecal, manager of the Occidental Railway, and Mr. Chaffee, manager of the South Eastern, of Canada, are in the city this week, to make arrangements in favor of the Occidental in regard to western trade.

At a meeting of the Directors of the Western Union Telegraph Co., April 2, Cornelius Vanderbilt resigned as a director, and Gen. Eckert was made a member of the Executive Committee, in place of S. F. Barger, resigned.

Alvin Bronson died in Oswego, April 2d, in his ninety-eighth year. Mr. Bronson was formerly a member of the firm of Bronson & Crocker, who nearly fifty years ago carried on a large commercial business on the lakes. He was one of the projectors of the Oswego Canal.

The resignations of William H. Vanderbilt and Samuel F. Barger from the Directory of the Western Union Telegraph Company, were accepted at a meeting of the directors March 26. Frederick L. Ames, of Boston, was elected to fill one of the vacancies, the other being left open until a future meeting.

Mrs. Emily J. Kiernan, wife of John J. Kiernan of the Wall Street Financial News Bureau, died in Brooklyn on Saturday, March 26th. Mrs. Kiernan was an active worker and a liberal subscriber for the support of charitable institutions, being widely known throughout Brooklyn for her generous acts of charity. She died of pneumonia after an illness of less than three weeks.

J. C. Anderson, who has been connected with the Midland Railroad of New Jersey for a term of years, and for the last three years the General Freight and Passenger Agent, with office at 93 Liberty street, has accepted a like position with the New York, Ontario and Western Railway Company, with headquarters since April 1st at Middletown, N. Y. He succeeds Mr. Thacher who goes as Treasurer and Auditor of the Frontier division of the Mexican National Railway Company.

A dispatch from Springfield, Mo., April 3, to the St. Louis Republican, says: P F. Galt, for the past three years auditor of the S. and W. M. railroad at this point, has resigned the office and accepted an official position with the Oregon Navigation and Transportation company at the solicitation of Mr. T. F. Oakes of that corporation. Mr. Galt left this morning for his new field of operations in Washington territory and carries with him the regard and best wishes of many friends in this city.

A. A. Hayes, Jr., secretary of the Brush Electric Light Company, delivered a lecture Tuesday evening, on "New Journeys Round the World," at the Railroad Reading Room in the Grand Central Depot under the auspices of the Railroad Branch of the Young Men's Christian Association. Among the audience were Cornelius Vanderbilt, C. M. Bissell, superintendent of the Harlem Railroad, J. R. Collins, general freight agent of the New York and Harlem Railroad, and F. A. Haskell, general agent of the New York Central and Hudson River Railroad.

Hocum Hosford, manager of the Boston and Lowell Railroad died at his residence in Lowell Tuesday, after a long illness of a rheumatic nature. Mr. Hosford was elected to the position of manager of the Boston and Lowell Railroad and branches in 1875, after having been on the board of directors for many years. He was formerly Mayor of Lowell and had been for many years prominently identified with important manufacturing and business enterprises being esteemed as one of the representative men in the business and social circles of that city.

Among the many forms of invitation issued April 1st in honor of that historical day is one said to have been sent out by a passenger agent of the Hoosac Tunnel Route, to about 1500 personal friends to join in an excursion trip from Chicago to Boston and return. Among the hospitalities mentioned in the invitations are the following, which in their character remind one of the liberality that the lamented Mr. Sothern used to incorporate in somewhat similar invitations. "A ball-room car will be attached to the train, and some of the best theatrical talent has been engaged for performances when no balls are in progress and the stage unoccupied by the three fine bands provided. The train will pass through the Niagara Falls tunnel, and on the way the visitors will inspect the electric locomotives in the shops."

Official circulars have been received announcing the resignation of Colonel W. L. O'Brien and Mr. F. R. Myers and the appointment of Mr. E. A. Ford as General Passenger and Ticket Agent of the Pennsylvania Company, with headquarters at Pittsburg. Circular No. 2 by Mr. Ford, announces Henry Monett as Chief Assistant General Passenger Agent, Pittsburg; C. C. Cobb, Assistant General Passenger Agent, Cincinnati, and C. W. Adams, Assistant General Passenger Agent, Chicago. Circular No. 4 by Mr. Ford, referring to circular Nos. 2 and 3, says: Henry Monett, Chief Assistant General Passenger Agent, Pittsburg, will have immediate control of all clerks in the General Passenger and Ticket office, and they will report to him for instructions. He has authority to conduct local and general correspondence; issue instructions to all subordinates in regard to passenger rates, tickets and the various matters pertaining to passenger business, using the signature of the General Passenger and Ticket Agent, or his own, as circumstances may seem to require. No one but Mr. Monett will be allowed to sign the name of the General Passenger and Ticket Agent to any document whatever, except upon special authority. When the General Passenger and Ticket Agent is absent from Pittsburg, Mr. Monett will represent and act for him. C. W. Adams, Assistant General Passenger Agent, Chicago, will have immediate charge of the various matters pertaining to passenger business west and northwest of Chicago, including Chicago and Logansport, and all territory tributary to this company's lines via Chicago or via Logansport, except the business controlled by the agent of the Chicago, Cincinnati, Indianapolis and Louisville pools. C. C. Cobb, Assistant General Passenger Agent, Cincinnati, will have immediate charge of the various matters pertaining to passenger business south of the Ohio and east of the Mississippi rivers (including Texas) and in the territory east of Indianapolis, south of Logansport and west of Newcomerstown, including the cities of Cincinnati, Columbus, Dayton and Indianapolis.

Organization.

Articles of incorporation of the Boulder Mining and Improvement Company have been filed in the office of the clerk of New York County. Capital stock, $10,000, divided into 100 shares. Trustees, Alfred L. Rowe, James E. Chandler and Charles H. Young.

The Indianapolis Car Works Company has filed articles of incorporation in the Recorder's office of Marion county, Indiana The capital stock is $100,000, and Charles S. Millard, W. R. McKeen and Wm. B. Howard are directors.

Articles of incorporation of the Terre Haute and Merom Railroad Company were filed with the Secretary of State of Indiana on the 1st inst. The object is the construction of a narrow gauge railroad from Terre Haute to Merom, Sullivan county, a distance of thirty-five miles.

At the annual election of directors of the Long Beach Improvement Company, held in Hartford, on the 2d inst., the following board was elected to serve for the ensuing year: Conrad N. Jordan, F. D. Tappan, E. K. Goodnow, Washington Lee, Lewis A. Hall, F. H. Smith, W. M. Laffan and Thomas M. Foote.

The directors of the American Steamship Company, elected on the 4th inst., are Henry D. Welsh, President; John Price Wetherill, D. B. Cummins, N. Parker Shortridge, Strickland Kneass, William D. Winsor, G. B. Roberts, Geo. N. Allen, Henry C. Butcher, J. N. Dubarry, Joseph W. Lewis. Mr. Robert W. Smith was continued as Secretary and Treasurer.

The Indiana Coal and Railway Company has filed articles of incorporation at the office of the Secretary of State in Indianapolis. This company proposes to build a railroad from Terre Haute, through the counties of Vigo, Clay, Omer, Monroe, Brown and Bartholomew to Columbus, in the latter county, a distance of eighty miles. The capital stock is placed at $1,500,000.

At the recent annual meeting of the Franconia Railroad Company the following officers were elected: President, Cyrus Eastman; Directors, Eleazar B. Parker, George B. Redington, J. A. Dodge, Henry L. Tilton, Chas. H. Greenleaf, Samuel Bell; Treasurer, Henry L. Tilton; Clerk, E. C. Stevens; Additional Corporators, J. Thomas Vose, Peter Butler and Benjamin H. Corning.

The following gentlemen have been elected directors of the Second Avenue (N. Y.) Railroad Company for the ensuing year: William S. Thorn, Samuel Willets, Adolphus Hamilton, Waldo Hutchins, Peter Schneider, James Everard, James D. Fish, George Bell, Robert Willets, Julius Wadsworth,

Henry K. Sheldon, C. Schwarzwaelder and M. Mattson.

The stockholders of the Long Beach Improvement Company have elected a new Board of Directors, consisting of the following gentlemen: Conrad N. Jordan, F. D. Tappan, E. K. Goodnow, Washington Lee Lewis A. Hall, F. Hopkinson Smith, Thomas M. Foote, and W. M Laffan. Mr. Smith was re-elected, President of the company, and Mr. W. M. Laffan Managing Director.

Articles of incorporation have been filed with the Secretary of State of Wisconsin for the incorporation of the Minneapolis, St. Paul, and Sault Ste. Marie Railroad Company, the intention being to build a line of railroad from Abbotsford to some point in Oconto County not yet decided on. The capital stock is to be $15,000 per mile of road actually built. The incorporators are Charles L. Colby, Edwin H. Abbot, Fred N. Finney, James L. Colby, and Howard Morris, all of Milwaukee.

At a meeting of the stockholders of the Chicago, Burlington and Quincy Railroad Company, held in Chicago on the 30th ult., the following board of directors were elected: J. M. Forbes, Sidney Bartlett, Chas. J. Paine, T. J. Coolidge, J. L. Gardner, Jr., W. Endicott, Jr., Edward Bangs, J. N. A. Griswold, Peter Geddes, Wirt Dexter and Chas. E. Perkins. Wirt Dexter is elected in place of Jas. M. Walker deceased.

Articles of incorporation have been filed in Denver of the Boulder and Denver Air Line Railway Company, which proposes the construction of an air line railroad between Boulder and Denver. The proposed route is to run via Marshall to an intersection with the Denver, Western and Pacific road at or near the point known as Buffalo Hill. The capital stock of the company is $300,000, divided into 3,000 shares of $100 each.

At a meeting of the Iron Steamboat Company on the 4th inst., John Roach, Rufus Hatch, William Cramp, R. Cornell White, and J. C. Fergusen resigned from the Board of Directors, and Sidney Dillon, G. M. Dodge, George F. Baker, John H. Hall, and G. P. Morosini were elected directors to fill the vacancies. A. R. Whitney was elected Vice-President. The board authorized the President to take immediate steps for establishing a line of the iron steamers to Rockaway, and also a night line to Albany.

The stockholders of the International and Great Northern Railroad Co., at their annual meeting in Palestine, Texas, on the 4th inst, elected the following officers for the ensuing year: Directors, Jay Gould, Samuel Sloan, S. W. Pearsall, W. W. Phelps, of New York; R. S. Hayes, H. M. Hoxie; D. S. H. Smith, of Palestine; James A. Baker, F. A. Rice, of Houston; President, R. S. Hayes; First Vice President, S. W. Pearsall; Second Vice-President and General Superintendent, H. M. Hoxie.

At a meeting of the stockholders of the Panama Railroad Company, held in this city on the 4th inst., T. W. Park, John R. Marshall, Charles G. Francklyn, D. O. Mills, J. G. McCullough, Joseph Ogden, William B. Dinsmore, Samuel C. Thompson, George Garr, Charles D. Leverich, George A. Hoyt, Thomas Maddock, and Christopher Meyer were re-elected Directors to serve for the ensuing year. The officers are: T. W. Park, President; J. G. McCullough, Vice-President; W. J. Emmett, Secretary and Treasurer; E. Z. Penfield, Accountant.

At the recent annual meeting of the stockholders of the Megantic Railway in Bangor, Me., the amended charter was accepted and a company organized under the name of the International Railway Company with the following officers: John H. Pope, President; Noah Woods, E. R. Burpee and F. A. Wilson, all of Bangor; William B. Ives, T. S. Morey and Donald McFee, all of Sherbrooke, Que., directors; James F. Rawson, Secretary; C. F. Woodward Treasurer. The President and Messrs. Ives and McFee were appointed Construction Committee. The location of the line will be commenced as soon as the weather will permit.

A company, consisting of Hamilton Disston, William C. Parsons. William L. Elkins, John L. Hill, Edward W. Keene, Albert B. Linderman, William H. Wright, Robert E. Rogers, Samuel H. Grey, William S. Stokely, E. A. Protois, A. P. K. Safford, and J. Coryell, has been formed, and a charter obtained from the State of Florida to construct a ship canal across the State. The route will be by the way of the Caloosahatchee River, Lake Okeechobee, and thence to the Atlantic Ocean at or near the mouth of the St. Lucie River. Capital $30,000,000. This is substantially the same company having the contract with the State to drain Okeechobee Lake. The advance surveying parties leave this city to-morrow for the Everglades.

Railroad Earnings.

Th earnings of the Central Pacific Railroad for March were, $1,643,000; March, 1880, $1,373,438; increase, $269,562; first three months 1881, $4,645,907; do. 1880, $3,644,540; increase, $1,001,367.

The gross earnings of the New York and New England for the month of February, were $173,614 77; operating expenses, $151,422 00; net earnings, $22,192 77.

The earnings of the Great Western Railway of Canada for the week ending March 25, were $110,787, an increase of $4,241 over those of the corresponding week last year. The aggregate increase for the months of January, February and March to the 25, over that of the earnings for the same time last year were $37,992.

The earnings of the Grand Trunk Railway for the week ending March 26, were $217,488; for corresponding week 1880, $209,882; increase $7,606. The aggregate increase for 13 weeks of the year over same period last year were $115,975.

The earnings of the Indiana, Bloomington and Western Railway for week ending March 23, were $26,569 10; corresponding week last year, $37,834 41; decrease, $11,265 31. The road suffered from a two days snow blockade this year, in the week reported above.

The Denver and Rio Grande Railway earnings for the fourth week of March, were $168,464; same week last year, $61,972; miles operated this year 551, last year 337.

The aggregate earnings of the Flint and Pere Marquette Railroad for January, February and March, were $414,850 80; same month last year, $375,029 70; increase, $39,821 10.

The gross earnings of the Denver and Rio Grande Railway for the three months ending March 31, 1881, were $1,023,650, against $421,345 for the corresponding period of the previous year—an increase of $602,305. Miles now operated, 551; operated last year, 337.

The gross earnings of the Northern Pacific Railroad Company on 722 miles of road from July, 1880, to February, 1881, inclusive, were $1,843,889 52; same months in 1879-'80 (same mileage), $1,454,406 07; increase, $389,483 45 The approximate earnings for March, 1881, were $143,835; March, 1880, $119,357 53; increase, $24,477 47. Increase for the first eight months of fiscal year, $413,960 92.

The earnings of the St. Paul, Minneapolis and Manitoba Railway for the four weeks ending March 3d, were $320,962 46, as compared with $261,797 52, for the same period last year; an increase of $59,164 94. For the first three months of this year the earnings were $734,631 66; same period last year, $579,681 07; increase, $154,950 59.

The Cincinnati Price Current has published its thirty-second annual report of pork packing in the West for the winter and year ending March 1, showing for the winter a total of 6,916,456 hogs packed, being 30,995 less than the preceding winter. The total for the twelve months is 12,243,354, an increase of 1,241,655. The winter's average is 207.71 pounds, against 212.94 pounds last year. The average yield per hog of lard is 35.65 pounds, against 32.62 last winter. The reduction in the number and weight during the winter is equivalent to 200,000 hogs of the average of a year ago. The amount of mess pork made during the winter is 359,691 barrels, a reduction of 170,867 barrels. The reduction in the production of lard is 5,762,043 pounds.

The Interlocking Switch and Signal Company recently purchased the works of the Jackson Manufacturing Company at Harrisburg. It has also bought the works of the Bidwell Plow Company, in Pittsburgh, where it will employ about 250 hands. Geo. Westinghouse, Jr., is President; C. T. Jackson, Vice President; A. T. Rowand, Secretary; D. W. Dickey, Treasurer; F. S. Guerber, Engineer, and James Jenkins, Superintendent. A number of the men employed at Harrisburg will remove to Pittsburgh about the first of May.

Part of the Galveston, Brazos and Colorado narrow-gauge railroad was sold at Philadelphia on the 29th ult, under foreclosure of a mortgage for $100,000 issued by the Guarantee Trust and Safe Deposit Company of the latter city. It was bid in for $5,000 on account of the owners of the remainder of the property.

There is a possibility of a compromise in the suit of Henry Villard against the Northern Pacific Railroad Company. It is said that the leading holders of the stock in this city and Philadelphia will pool their holdings to prevent injurious action on the part of adverse parties.

The Michigan Central Railroad Company assumed control on the 1st inst. of the Detroit and Bay City Railroad, which will form a new division. Mr. S. C. Callaway, at present the General Superintendent, is to be the Division Superintendent.

The Toledo, Bellevue and Detroit Railroad Company has been incorporated with a capital of $300,000.

The Philadelphia and Darby Railroad was sold at Sheriff's sale on the 4th inst.

Mexican Central Railway.

At the annual meeting of the stockholders of the Mexican Central Railway Company, held in Boston on the 4th inst., the reports of the President and Treasurer were presented and accepted. The former, after explaining causes of delay, and giving minor details of construction, says:

It is hoped that the Atchison, Topeka and Santa Fe system of roads will be completed to El Paso in May; and we expect to have a section of our line graded and ready to commence laying track in June. Engineers are at work locating our line from the Gulf of Mexico at Tampico to the Pacific via the city of San Luis. There has been ordered to Tampico two thousand tons of steel rails, with their fastenings, and it is expected to commence construction on that section at an early date. A force of engineers, under C. A. Sweet, Esq., chief of the party, are in the field making a reconnoissance between Laredo and our main line near Durango, after which the party will explore the country between Laredo or Camargo, and a point south upon the Gulf line in the State of San Luis Potosi. The government of Mexico has carried out faithfully the provisions of the concession, and treated the company with great fairness; and our relations with the government and the people of Mexico are harmonious. The absence of the General Solicitor in Mexico has delayed the completion of a report which is now being prepared, and which will contain all important legal documents, and a history of the enterprise to date. This report will be mailed to the stockholders at an early date.

From the Treasurer's balance sheet it appears that the total cost of road to date is $1,494,006 97. The total deposit as guarantee to the Mexican Government, representing $300,000 Mexican currency, is $264,000, and the cash assets are $312,755 79; making the total assets, $1,971,862 76. The subscriptions, viz: 35 per cent of subscriptions to 1,270 blocks of $4 250 each, less $5,950 unpaid, amount to $1,883,175. Total liabilities, $1,971,862 76.

It was voted to fix the number of directors at nineteen. Of these, by the terms of the grant from the Mexican Government, two are to be named by that Government. The other seventeen are elected by the stockholders, who proceeded to ballot, with the following result: Thos. Dana of Boston, William Rotch of Boston, Warren Sawyer of Boston, Royal M. Pulsifer of Boston, William O. Taylor of Boston, Theodore Nickerson of Boston, Levi C. Wade of Boston, George B. Wilbur of Boston, Benjamin P. Cheney of Boston, Isaac T. Burr, of Boston, Thomas Nickerson of Boston, Robert R. Symon of New York, Charles J. Paine of Boston, Fred. L. Ames of Boston, Rudolph Fink of Mexico, Sabastian Camacho of Mexico, Ramon G. Guzman of Mexico. Of these, ten were chosen an Executive Committee, as follows: Thomas Nickerson, Thomas Dana, Fred. L. Ames, Isaac T. Burr, Warren Sawyer, Royal M. Pulsifer, William O. Taylor, Theodore Nickerson, Levi C. Wade, George B. Wilbur. The former by laws of the company were repealed, and a new set, which has been approved by the Mexican Government, was adopted. The meeting then adjourned.

Immediately after the adjournment, the directors met and organized as follows: President, Thomas Nickerson; Vice President, Robert R. Symon; Second Vice President, Levi C. Wade; Clerk and Treasurer, S. W. Reynolds; Assistant Treasurer, B. T. Lenzerdar; General Solicitor, Levi C. Wade; General Manager, Rudolph Fink; Auditor, J. H. Goodspeed.

Valley (Va.) Railroad.

The Supervisors of Botetourt county, Virginia, have agreed, on behalf of the county, to the transfer of the road bed and property and franchises of the Valley Railroad Company in that county to the Shenandoah Valley Railroad Company, or to any other company, in any way which may be agreed upon by the Valley Railroad Company, but upon these express conditions:

"That the county of Botetourt shall be forever released and discharged from any obligation to pay or deliver any part of the $95,000 of bonds not yet delivered, and that the subscription heretofore made by this county of $200,000 to the capital stock of the Valley Railroad Company shall be cancelled to the extent of said sum of $95,000, and that this county shall hold for the $105,000 of bonds heretofore delivered and paid $105,000 of fully paid up stock in said Valley Railroad Company, without any further claims upon the county, and upon this further condition: That the company which may so acquire the property and roadbed and franchises of the Valley Railroad Company south from Lexington shall build and complete a line of railway from Lexington through the counties of Rockbridge and Botetourt to some point on the Atlantic, Mississippi and Ohio Railroad, in the county of Roanoke, within two years from the date of the acquisition by said company of the road-bed, property and franchises of the Valley Railroad south of Lexington, and upon this further condition: That the individual subscriptions made by the citizens of Botetourt county to the capital stock of said Valley Railroad Company, which are now unpaid, shall be released so far as unpaid."

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending March 26, and for the year to the same date, compared with their respective amounts carried to the same time last year:

	Week.	1881.	1880.
Reading Railroad...	93,764	2,082,635	1,931,438
Schuylkill Canal....	4,070	4,070	38,041
Lehigh Valley.....	66,645	1,593,636	1,198,108
Del., Lack. & Western.	60,035	925,017	742,229
Shamokin Valley....	21,522	220,794	185,216
Central New Jersey.	68,747	883,146	666,073
United R. R. of New Jersey.....	21,473	355,450	225,171
Pennsylvania Coal ..	16,950	236,097	162,199
Delaware and Hudson	57,786	821,061	703,838
Huntingdon & Broad Top Mt.....	11,363	108,168	99,185
Penn. and New York.	25,796	397,064	347,658
Clearfield, Pa.....	51,947	470,792	331,849

The total tonnage of anthracite coal from all the regions for the week ending March 26, as reported by the several carrying companies, amounted to 373,453 tons, against 359,400 tons in the corresponding week last year, an increase of 14,053 tons. The total amount of anthracite mined for the year is 5,771,319 tons, against 4,432,436 tons for the same period last year, an increase of 1,338,883 tons. The quantity of bituminous coal sent to market for the week amounted to 103,296 tons, against 27,138 tons in corresponding week last year, an increase of 76,158 tons. The total amount of bituminous mined for the year is 990,442 tons, against 784,994 tons for the corresponding period last year an increase of 205,448 tons. The total tonnage of all kinds of coal for the week is 476,749 tons, against 386,538 tons in corresponding week last year, an increase of 90,211 tons, and the total tonnage for the coal year is 6,761,761 tons, against 5,217,430 tons to same date last year, an increase of 1,544,331 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending March 26th was 181,923 tons, of which 131,491 tons were coal and 50,432 tons coke. The total tonnage for the year thus far has been 2,053,873 tons, of which 1,491,421 were coal and 562,462 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended March 26 were 39,805 tons, and for the year 854,391 tons. The coal was carried as follows: Baltimore and Ohio Railroad—week 32,976 tons; year, 309,058 tons. Chesapeake and Ohio Canal—week, 2,477 tons; year, 3,674. Pennsylvania Railroad—week, 4,350 tons; year, 41,658 tons. The Reading Railroad coal shipments for last week, ending April 2, were 97,250 tons, of which 18,000 tons were sent to Port Richmond and 19,000 tons shipped thence, and 10,700 tons were sent to Elizabethport and 9,400 tons shipped thence.—[Phila. Ledger, April 4.

Pennsylvania Railroad.

Some remarks made by Mr. John Taylor, a banker and broker of London, on the occasion of the last annual meeting of the stockholders of the Pennsylvania Railroad Company, held at Philadelphia on the 8th of March, 1881, have attracted considerable attention in railway circles, and in some particulars the views expressed were of so original and common sense a character as to create a demand for their publication. Among other things said by Mr. Taylor are these:

I have taken and have a very great interest in the prosperity of this company.

I know in past years, when this company was subjected to great attack, I took a much more hopeful view than even some of the officers themselves of its condition and of its future. It has so happened that I have grown up in England with the railway system of that country.

I recollect going back to the primeval days of the first public railway in England, the Stockton and Darlington, so that I have taken an interest in railways apart from my business as a stock broker.

The officers of the company will bear me witness, if necessary, that when this company was the subject of great attack in the press, on our side and in the London market, I did render them some service, and helped to sustain them by my pen and by my voice. When your shares were forced down to that most unreasonable figure which they were some short time ago, I was able with my numerous clients, I think with some four or five exceptions, to hold them all true to their holdings in this company.

Yet I have some little criticism to pass upon the management of your company, and I am sure it shall be done in a friendly way. I had the offer of proxies, but I declined them, and the proxies of my own friends I sent, as I have done in previous years, to the Board. Therefore in what I am to say I am simply addressing the reason of the Board and the reason of the shareholders. There are one or two things in which you rather differ from our mode of procedure in England. In England a Board of Directors always announces beforehand what dividend they propose to recommend, but the declaration of that dividend is left in the hands of the meeting of shareholders. Here the Board have got it apparently in their own hands. It is only in the hands of shareholders to make suggestions. That announcement of the dividend is made somewhat in this form: "The account of the past year subject to audit will allow, say, a dividend of five and a half per cent, carrying forward a balance of twenty thousand pounds." The declaration of the dividend, whether it shall be five and a half, or five and a quarter, or five and three-quarters is entirely in the hands of the meeting. This simple declaration of the earnings of the company, and how they are disposed of, takes the place of a great deal of writing of reports.

We have that succinct account of what the railway has done, and what it is proposed to do with the money, and there we rest satisfied. Now we do not feel altogether satisfied in England with the dividends you have paid us in the past years, notwithstanding they are superior to anything we get for most of our own lines of railway.

I wrote a letter on this subject, and sent it to my friend of the "Ledger," and he was good enough to put it in his paper; but he added a a few words, and suggested whether it was not better to have a regular six per cent dividend, without fluctuations, than a fluctuating dividend. My own feeling is that a regular six per cent dividend from a corporation earning what the Pennsylvania Road earns, is too monotonous for our tastes, and a six per cent dividend, with a variation of from eight to ten per cent, we think would be much better.

Now, I say that, without any increase of earnings on the basis of the earnings of 1879, there was sufficient to pay the dividend of seven per cent which has been declared in the past year. But the excess earnings for the past year are $3,917,180, upon which we do not get a cent, and, in addition, we bring forward a balance of $1,181,000 from last year.

Now, Mr. Chairman, the way we manage railway accounts in England is, that the balance brought forward from last year is the basis of the profit and loss account of the following year.

Quicksilver Mining Co.

The payment of interest on the preferred stock of the Quicksilver Mining Company was prevented by litigation, which lasted from 1870 until last year. In the meantime, four persons, named Jameson, Drake, Smith, and Cotting who owned a number of certificates of preferred stock, assigned them to two persons named Kemp and Marsden. Subsequently the four persons named assigned to Margaret Manning, as Administratrix, their claim to the interest upon the stock which had accrued up to the time they transferred the certificates to Kemp and Marsden. During the controversy respecting the rights of the holders of the preferred and common stock of the Quick silver Mining Company, Mrs. Manning put in a claim for the accrued interest assigned to her The claim was rejected, and she began a suit in the Supreme Court, making the Mining Company the principal defendant, with Messrs. Kemp and Marsden. The defendants demurred to her complaint, and the Special Term sustained the demurrer. Mrs. Manning appealed to the General Term, which, on the 1st inst., affirmed the decision of the lower court. The opinion of the General Term, written by Judge Daniels, says:

"The interest which had accrued at the time when the shares were assigned was simply an incident or accessory of the shares themselves. The right to it depended wholly upon the title to the shares, and as no moneys had been appropriated in any form for its payment, the authority to demand it was wholly dependent upon that title."

Atlantic, Mississippi and Ohio Railroad.

In the United States Circuit Court, Richmond, Va., on the 4th inst., Judges Bond and Hughes presiding, the report of M. F. Pleasants, the Master who conducted the sale of the Atlantic, Mississippi and Ohio Railroad, was presented, and Judge Shipman, counsel for the English bondholders, asked the Court to confirm the sale. After a conference between the Court and counsel the form of an order of confirmation, including the manner in which the purchase money shall be paid, was agreed upon. The order provides for the deposit of $5,000,000 of the purchase money with the Union Trust Company of New York, and the balance, $3,605,000, with the Fidelity Trust Company of Philadelphia, both subject to the order of the Court; and upon evidence being furnished of the said deposits having been made, a deed of sale is to be given to the purchasers, and the property handed over to them. The order was to have been formally entered on the 5th inst.

A prospectus has been issued in London of the Atlantic Express Steam Navigation Company, formed for the purpose of establishing an express line of steamers between Milford Haven and New York, by which it is anticipated the journey from London and the continent will be shortened by two days. The steamers will be specially constructed to convey between London and New York first-class passengers, mails and perishable cargoes within seven days. The capital is placed at £2,500,000, of which it is proposed to issue first £1,700,000, in shares of £20 each. The new line will be especially adapted to the conveyance of fresh meat. It is proposed to contract for building five powerful steamers of 5,000 tons each, which it is anticipated can be commenced in fifteen months from the date of the allotment of shares. McGregor, Gow & Co., of the Glen line, have undertaken to act as general managers. The shares are to be called up within the next eighteen months.

The Supreme Court of Appeals of West Virginia decided on the 2d inst. the suit between the Pittsburg, Wheeling and Kentucky Railroad Company and the Baltimore and Ohio Railroad Company, involving the right of way for the former through the lower limits of the city to the village of Benwood in favor of the former company. In deciding the case the court held that the Baltimore and Ohio Company was a domestic and not a foreign corporation, and that Federal courts had no jurisdiction in the case. The court also held that the property of one railroad company not in actual use and necessary for the proper exercise of the franchise of the company may, under the general railroad law of the State, be condemned for the purposes of another railroad company.

Thomas McMahon, having entered a car on the Third Avenue Horse Railroad, at Fiftieth Street, this city, in July, 1878, he rode as far as Sixty-fifth street. There he purchased, at the depot, for 1 cent, a transfer ticket, which, on its face, was described as "good from Sixty-fifth street up to Yorkville and Harlem for a continuous ride." He did not continue on his way up town until some time later. The conductor of the car into which he then got refused to take the transfer ticket because he had not ridden continuously, and ejected him from the car. McMahon sued the railroad company and recovered damages in the Superior Court, and on the 4th inst. the General Term of the Supreme Court affirmed the judgment.

A company consisting of Hamilton Disston, William C. Parsons, William L. Elkins, John L Hill, William S. Stokley and others, has been chartered by the Legislature of Florida to construct a ship canal across that State. The route will be from the Gulf via the Caloosahatchee river and Lake Okeechobee to the Atlantic Ocean, at or near the mouth of the St. Lucie river, and the capital is fixed at $30,000,000. This is substantially the company having the contract to drain Lake Okeechobee. The advanced surveying party left Jacksonville on the 6th inst. for the Everglades.

The Springfield Southern Railroad, which recently passed under the control of the Indiana, Bloomington and Western Railway Co., is 108 miles in length, running from Springfield, O., to Jackson, O., and an extension of the line to connect with the Chesapeake and Ohio Railway is contemplated. The road now has connections with the Little Miami division of the P., C. and St. L., Cincinnati and Muskingum, the Dayton and Southeastern, Scioto Valley and the Portsmouth branch of the Marietta and Cincinnati Railroad.

The stockholders of the Moshannan and Bellefonte and Snow Shoe Railroad Companies met at the office of the Pennsylvania Railroad Company in Philadelphia on the 5th inst., and approved the agreement of consolidation with the Bald Eagle Valley Railroad Company, the latter corporation owning a line from Tyrone to Lock Haven, which is operated by the Pennsylvania Railroad Company, and the two companies named are branches.

The annual meeting of the Catawissa Railroad Company was held in Philadelphia on the 5th inst. The road is operated by the Philadelphia and Reading Railroad Company, and the only report made was in relation to the payment of interest under the terms of the lease. There was a large increase in the business of the road during the past year as compared with that of the previous year. The election of officers will take place on May 2d.

The Chicago Times states that the Chicago and Northwestern Railway Company has decided to extend its line westward from Florence until it reaches the Agogebic country, thence north down the Iron River valley, so as to reach the Porcupine Mountain district, and thence along the shore to the port of Ontonagon.

At a meeting of the stockholders of the Pullman Palace Car Company, held in Chicago on the 2d inst., it was voted to increase the capital stock of the company from $6,000,000 to $8,000,000. Forty five thousand shares, or three-fourths of the entire stock, were represented.

The arrivals of immigrants at this port during the month of March were 29,708, against 21,094 during the corresponding month last year. For the quarter just ended the arrivals numbered 47,513, an increase over the corresponding period in 1880 of 12,868.

It is announced that the new management of the Norfolk and Western (late Virginia and Tennessee) Railroad will reduce passenger travel 1⅛ cents per mile, or to 3⅛ cents per mile, and freights and express in corrresponding proportion.

AMERICAN RAILROAD BOND LIST.

Asterisk (*) affixed to rate of Interest signifies "Payable in Coin."

Description of Bonds.	Amount.	Rate.	Interest Payable. When.	Interest Payable. Where.	Due.	Price.

South Carolina Railroad.

The report of Receiver Fisher, of the South Carolina Railroad, for the fifteen months ended December 31, shows that the earnings have been $2,641,096 93, and the expenses $1,786,664 16, leaving the net earning $854,432 77. Out of this has been paid interest on bonds, premium, legal expenses, taxes, new equipment, ($137,988 68,) &c., amounting to $565,257 64. The gross earnings for the year 1880 show an increase over those of 1879 of $165,732 54, being an increase of 15.7 per cent.

Statement of the Public Debt of the United States, April 1, 1881.

Totals	$64,623,512 00	$869,352 68

Interest paid by United States, $49,528,566 66; interest repaid by transportation of mails, &c., $15,244,859 74; interest repaid by cash payments: 5 per cent net earnings, $654,198 87; balance of interest paid by United States, $34,628,508 05.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1881.

H. F. FRENCH,
Acting Secretary of the Treasury.

The trustees of the Cincinnati Southern Railroad have given notice to the Cincinnati Southern Railroad Company, now operating the road under a license, that the license will terminate October 1, 1881. The trustees are required to give six months' notice of the termination of the license. This action is taken to indicate the purpose of the trustees to effect a sale or re-lease for a long time of the road, under the provisions of the act recently passed by the Legislature.

The quarterly statement of the funded indebtedness of the District of Columbia and late corporations of Washington and Georgetown for April 1 shows the total bonded debt to be $22,-182,450. The reduction of the debt by the operation of the sinking fund under the management of the Treasury Department has been $641,900, and the reduction in the annual interest has been $40,600 77.

The dividend of the Bank of England for the half year ended February 28 is 4¾ per cent being the fourth half-yearly dividend of that amount. The stock sells at about 275.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 7, 1881.

The quotation for call loans throughout the day has been 5@6 per cent on stocks, and 4@5 per cent on Governments. During the last hour a good many loans were made at 6 per cent. Money was offered freely at 5 per cent for sixty days, and some loans for four months are reported at four per cent on prime stocks.

The posted rates for prime bankers' sterling are 4.81½@4.84. The actual rates are 4.80¾@4.81¼ and 4.82¾@4.83½. Cables are 4.83½@4.83¾. Prime commercial bills are 4.79½@4.79½.

The bill which passed both branches of the Tennessee Legislature, to pay the State debt at par and three per cent interest, has been signed by the Governor and is now a law, hence the rapid appreciation in the value of the securities of that State. The present bonds will be adjusted on the basis of principal and interest from 1876 in a new three per cent bond.

By reference to the public debt statement in another column it will be seen that the gross amount of debt on the 31st of March was $2,104,578,285 86, less cash in the Treasury $230,814,692 22, saving net $1,873,763,593 68, which is $6,192,819 14 less than at the commencement of the month, and $68,408,701 71 less than on the 30th of June, 1880. Of the bonded debt $196,878,600 bears 6 per cent interest, $463,590,850 bears 5 per cent, $250,000,000 bears 4½ per cent, $789,847,800 bears 4 per cent, (including $775,050 in refunding certificates,) and $14,-

000,000 bears 3 per cent. Interest has ceased on $3,093,465, and $417,029,340 bears no interest, being in the shape of legal tenders, certificates of deposit, gold and silver certificates, and fractional currency. In the past month 6 per cent bonds were reduced $5,887,950, and 5 per cent bonds $5,729,800. In addition to the above there are outstanding $64,623,512 in bonds issued to the Pacific Railroad Companies and known as the currency 6s.

The payments from the United States Treasury in March, other than interest or principal of the public debt, were as follows: On account of civil and miscellaneous $1,917,331 49; war $2,296,271 18; navy, $1,204,077 03; interior (Indians) $333,383 66, and do. (pensions) $3,322,178 58—total, $17,073,241 94.

The coinage executed at the United States Mints in March was as follows: Gold, 1,281,226 pieces, value $10,730,010; silver, 2,301,000 pieces, value $2,299,925; base 2,814,209 pieces, value $28,226. Total, 6,496,468 pieces, value $13,058,161.

The closing quotations on Thursday were: Adams Express, 129@131; American Express, 76@78; American District Telegraph, 55⅜@56; Atlantic and Pacific Telegraph, 47@48; Chicago, Burlington and Quincy, 164⅜@164½; Canada Southern, 80@80½; Central Pacific, 89@89⅜; Chicago and Northwestern, 123½@123¾; do. pref., —@137; Chicago and Alton, 135@138; Chicago, Milwaukee and St. Paul, 113⅛@111¼; do. pref., 123½@123¾; Chicago, Rock Island and Pacific, 137@137½; Cleveland, Columbus, Cincinnati and Indianapolis, 88½@89; Columbus, Chicago and Indiana Central, 24½@25; Delaware and Hudson Canal, 111½@111¾; Delaware, Lackawanna and Western, 121¼@121⅝; Hannibal and St. Joseph, 57¾@58¼; do. pref., 102½@103; Illinois Central, 137@137½; Lake Erie and Western, 51½@52¼; Lake Shore and Michigan Southern, 130⅞@131; Metropolitan Elevated, 113½@—; Manhattan Elevated, 38⅜@38¾; Michigan Central, 112¼@—; New York Elevated, 122½@123½; New York, Lake Erie and Western, 47¾@47⅞; do. pref., 87½@88; New York, Ontario and Western, 35¾@36; New York Central and Hudson River, 146@146⅛; Ohio and Mississippi 43½@44¾; Panama, —@247½; Pacific Mail, 53¾@53⅞; St. Louis, Iron Mountain and Southern, 65@65¼; St. Louis, Alton and Terre Haute, 42@46; do. pref., 127½@128; Texas and Pacific, 56@56½; Union Pacific, 119⅞@120; United States Express, 59@59½; Wells Fargo Express, 118@119; Western Union Telegraph, 115⅞@116; do. ex. div., 80½@80⅝; Wabash, St. Louis and Pacific, 47⅜@47½; do. pref., 90⅛@90¼.

Chicago Union Depot.

The new Union Depot in Canal Street, Chicago, built and owned by the Pittsburg, Fort Wayne and Chicago Railway Company, and for which ground was broken about a year ago, was completed and turned over to the company on the 1st inst. It is one of the most magnificent depots in the country, having cost $1,000,000. The iron shed covering six tracks is 1,200 feet long and 157 wide. The main building is three stories, built in fine architectural lines, of Philadelphia press brick, and faces 200 feet on Canal street, with a depth of 57 feet. In this are all the offices, parlors, reception, and smoking rooms, lunch-room, and dining-room the latter with a 25 feet ceiling. All the work is good, and the various departments are finished in the finest style of the decorators' art. This depot will be used in common by the Pittsburg, Fort Wayne and Chicago, the Chicago, Burlington and Quincy, Chicago and Alton, Chicago, Milwaukee and St. Paul, and Pittsburg, Cincinnati and St. Louis Railroads, and 110 passenger trains will leave it daily.

The following is a statement of revenue and expenditure on account of the Consolidated Fund of the Dominion of Canada as by returns furnished to 31st March, 1881 : Customs, $1,619,340 15 ; Excise, $385,992 55 ; Post Office, $91,285 77 ; Public Works, including railways, $190,851 80 ; Bill Stamps, $13,245 17 ; Miscellaneous, $106,971 30. Total in March, $2,406,186 74 ; Revenue to 28th February, $18,584,390 69. Grand total $20,991,077 43. Expenditure in March, $1,068,100 37 ; expenditure to 28th February, $15,794,950 46. Total expenditure $16,857,650 83.

In accordance with a decree of the United States Court, the Spartanburg and Asheville Railroad was sold at Spartanburg, S. C., on the 4th inst., to Joseph Walker, representing a committee of bondholders, for $111,000. It is understood that the sale was in the interest of the Spartanburg, Union and Columbia Railroad, with which the Asheville road connects at Spartanburg.

Erastus P. Carpenter, President, and Edward Appleton, Chief Engineer, of the New York, Boston, Albany and Schenectady Railroad Co., have filed a profile of the route of the road through Albany County. It will be constructed in connection with the Albany and Greenbush Bridge and will extend from the western terminus of the bridge to Schenectady, and from Albany to New York upon the east side of the Hudson river.

The Concord (N. H.) Horse Railroad Company commenced running cars on the 1st inst.

The Washington (Dt. of Columbia) Belt Line Railway extension to the bureau of printing and engraving, and along Fourteenth street to Pennsylvania avenue, will be begun before the close of the present month. The work on extending that road by Eleventh street to the river front, to make a junction with the Anacostia and Potomac Road, will be completed before midsummer.

The great Corliss engine, which was on exhibition at the Philadelphia centennial, and taken to the new town of Pullman, a few miles south of Chicago, on thirty-five cars has been placed in the Pullman Palace Car Company's works. It is to be kept constantly in motion, and will furnish power for the entire works.

The Ontario Silver Mining Company advertises its sixty sixth dividend of 50 cents per share, payable April 15, at Wells, Fargo & Co. Transfers will close April 9. The payment of this dividend will make the sum of $3,350,000 divided among the company's stockholders.

OFFICE OF THE ONTARIO SILVER MINING CO.,
No. 18 WALL ST., NEW YORK, April 5, 1881.

DIVIDEND NO. 66.

THE REGULAR MONTHLY DIVIDEND OF Fifty Cents per share has been declared for April, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst.

Transfer-books close on the 9th inst.

H. B. PARSONS, Assistant Secretary.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY,
TREASURER'S OFFICE, GRAND CENTRAL DEPOT,
NEW YORK, March 25, 1881.

THE BOARD OF DIRECTORS OF THIS COMPANY have this day declared a DIVIDEND of TWO PER CENT. upon its capital stock, payable on Monday the 2d day of May next, at this office.

For the purpose of this dividend, and also for the annual election for Directors, which is to be held on the 4th day of May next, the Transfer Books will be closed at 3 o'clock p. m. on THURSDAY, the 31st inst., and will be reopened on the morning of Friday, the 6th day of May next.

E. D. WORCESTER, Treasurer.

H. C. SWEET,

COAL

OFFICE:
115 LIBERTY ST., near Greenwich,
WHARF, PIER 6, N. R. / YARD, 603 WASHINGTON, ST. } NEW YORK.
Coal and Wood delivered to any part of the City.

ONCE TRIED, ALWAYS USED.

PHŒNIX PACKING.

On Spools and Coils 25 to 150 lbs. for Shipment.

TRADE MARK.

Self-Lubricating. Not Frictional. Exceedingly Pliable. Very Durable

Adapted for all kinds of ENGINES, Hot and Cold Water. PUMPS, &c., &c., &c.

Beware of Infringement.

Patented 1875, 1876, 1878 and 1880.

This instrument is supplied with 12 different keys for 12 stations in or outside of the buildings. Invaluable for all concerns employing night watchmen.

SPECIAL NOTICE.—The "Imhaeuser" referred to by Buerk is the late firm of Imhaeuser & Co., consisting of three persons, and has nothing whatever to do with this firm of E. Imhauser.

Send for circulars to **E. IMHAUSER, 212 Broadway, New York** P. O. Box, 2875.

Patent Stretched and Patent Riveted Short Lap

BELTING.

Our Belts are made from pure Oak Tanned Butts, and of the heart or solid part only. No part of the shoulder being used. Any one not familiar with Belt making can readily detect this by the shortness of the lengths and laps. Long laps are made including the shoulder or thinner and softer part of the Leather, causing the Belt to be, in its enduring qualities, no better than its poorest or thinnest parts.

Our Belting is warranted to run straight and maintain an even bearing on the pulleys, and sold under the fullest Guarantee.

BARBER BIT BRACE.

Hereafter every Bit Brace found in any market with Jaws as shown in the above cut, and bearing our name, will be made of Rolled Steel and heavily Nickel Plated. The Head is of Lignumvitæ, and the revolving Hand piece of Rosewood. The Jaws are of forged and tempered Steel, and will adapt themselves to any shape tool tang, round, square or flat, and hold it perfectly without any fitting. When made with a Ratchet Attachment it will bore in places where there is not room to revolve the Sweep; a slight back and forth motion driving the bit in or out. We formerly used Iron Jaws, which wore out. All such we will now replace with Steel, sending them by mail prepaid on receipt of 25 cents. They are all one size and will fit any Brace which we ever made. Our Braces are for sale by nearly all Hardware Dealers. Those who do not have them in stock will furnish them if requested. Price from $1 75 to $3.25 each. Many Braces are sold for less money; but this is the only Steel Brace in market; and one of them is worth six of any other kind. Save this notice as it may not appear again.

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognised authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

STEAM NAVIGATION, COMMERCE, FINANCE, BANKING, MACHINERY, MINING, MANUFACTURES.

SECOND QUARTO SERIES, VOL. XXXVII., No. 16.] NEW YORK, APRIL 16, 1881. [WHOLE No 2,347, VOL. LIV.

A Great Crucible Steel Casting.

Messrs. Jessop & Sons, Brightside Steel Works, Sheffield, have recently cast the largest crucible steel casting yet produced. It is a spur ring 28 feet in diameter, machine-moulded, and cast whole. To cast it 270 pots were used, each pot holding 80 lb. weight of molten steel. When the steel had been poured into the three large ladles, the plugs were removed, and it ran into the mould, the weight when cast being about ten tons. In its finished state the weight will be about 8½ tons. It is, without doubt, by far the largest crucible cast steel casting of its kind that has ever been produced. Messrs. Jessop & Sons anticipate that this will be the beginning of an important trade with Lancashire mill owners, as they discover how much more durable steel wheels are than the cast iron wheels at present in general use. The firm have previously cast wheels 13 feet and 14 feet in diameter, but to 28 feet was a great leap. Now, however, they are prepared to undertake castings up to 34 feet. The operation of casting occupied 8½ minutes.—[Scientific American.

Development of Steam Power.

A singular calculation has been made by some foreign arithmeticians of the extent to which steam power has developed. England, it is said, derives from the employment of her wealth of coal 7,000,000 of horse power per annum; the United States, 7,500,000; Germany, 4,000,000; France, 3,000,000; Austria, 1,500,000. This is exclusive of locomotive power; and as, in the Old and New World, the total number of locomotives exceeds 105,000 which are working on some 220,000 miles of railway, the horse power is reckoned at 30,000,000. In France the horse-power of the locomotives 2,358,993, in addition to 8,177 belonging to fixed engines. Steamers, not reckoning the ships of war, employ 173,039 horse-power; industries generally, 484,241. The total horse-power of all the machines and engines worked by steam in the world is estimated at 80,000,000. Now, each horse is equal to at least ten men, so that the steam power of the globe represents a daily working power of 800,000,000 men. The population of the globe has been reckoned by two German savants at 1,455,923,000, and the number of males between 15 and 65 years at about one-third of the population; this, in round numbers, gives the total of men of the working age at 500,000,000. As the steam engine does the work of about 800,000,000 men, it follows that, since the invention of Watt and Stephenson spread its beneficent influence over all civilized countries the resources of industry have nearly trebled. And all this has been accomplished before the steam engine, as a perfected practical agent, is half a century old.

A Home on the Rail.

The Pittsfield (Mass.) Sun gives the following description of Mr. Dudley's novel car and method of inspecting railroads:

There arrived at our depot, yesterday afternoon, a passenger car the like of which is not to be found anywhere in the world. It is the property of Mr. P. H. Dudley, inspector of the tracks and apparatus of railroads, and this gentleman and his wife live in this car. A reporter of the Sun called on the occupants yesterday afternoon, and was entertained for nearly an hour with the explanations of and experiments made with the large piece of machinery by which the gentleman accomplishes his work. It is of the most complicated and delicate nature, and the amount of work done by it is marvelous. A description of it would be wearisome, with its systems of cogs, switches, wires, pens, etc., etc., and would be almost unintelligible, but an idea of its extraordinary work may be gained from the following summary of its accomplishments:

A band of plain paper, about twenty inches wide, is fed from a roll into the machine, passing under a complex set of overflowing pens. For every fifty feet of track passed over by the car this paper band moves one inch, thereby taking eight and a fraction feet for a mile of road. By carefully constructed and adjusted machinery, connected with the wheels of the car, the operator obtains upon the paper a perfect chart of every foot, yes, every inch, of the road. The instrument shows: first, the power required to draw the train; second, a pen marks on the paper the seconds of time in transit; third, another pen marks every tenth second in the same way; fourth, still another pen marks each minute. Then comes a schedule showing the distribution of coal used by the engine; the amount of water used by the engine; a perfect diagram of the track is delineated, showing all curves, grades, etc.; the number of revolutions which the driving wheels of the engine make in a minute ormile, or parts of these two; the location of the mile posts are shown, as also the bridges; the work done by the engine, so given that the foot-pounds of work can be readily ascertained by multiplying the ratios; the velocity and resistance of the wind. When used to inspect the track, the machine shows the surface of each rail, giving the condition of each joint, frog, etc., and shows at a glance whether the rails are fitted perfectly true, or the least trifle out of place, or if one is a hair's breadth higher than another. The elevation of the rail on a curve is shown, and a machine has just been added, which Mr. Dudley invented, giving the exact amount in feet and inches that the rails are depressed from a true line. Another section of the chart gives the exact movements of the engineer when the brakes are applied, when steam is put on, and the power required to start and stop the train. Mr. Dudley examines a road in this way, hands his chart to the superintendent, and that gentleman knows at once just where to make repairs and all other needful particulars. The machine is the invention of Mr. Dudley, he having spent eight years perfecting it, and, save one which he made and sent to Australia, his is the only one in existence.

Besides this workroom there are a nicely furnished library and parlor, containing cabinets and a fine piano, a dining-room, kitchen, bedroom, and storeroom. All this in a common size passenger coach, and in it Mr. and Mrs. Dudley have lived for the last four years, traveling all over the United States. The lady says the life is a very pleasing one, and she enjoys it much. Both the lady and gentleman are finely educated and entertaining peo-

ple, and an hour spent in their company is a very profitable one.

Settlement of the Tennessee Debt.

The act "to compromise and settle the bonded indebtedness of the State of Tennessee," passed both branches of the Tennessee Legislature and received the signature of the Governor, before the adjournment of the Legislature on the 7th inst. The following is the text of the bill:

Section 1. Be it enacted by the General Assembly of the State of Tennessee, That all the legally issued bonds of the State of Tennessee, except the bond issued for the permanent school fund and except the bonds held by educational and charitable institutions, and all outstanding coupons thereon up to and including those falling due on the first day of July, 1881, be capitalized and funded into coupon bonds of the State, to be styled "the compromised bonds of the State of Tennessee."

Sec. 2. Be it further enacted, That for each and every legally issued bond of the State of Tennessee, or coupons, presented to the funding board hereinafter provided for under the provisions of this act, there shall be issued a bond or bonds for an amount equal to the principal of said bond so presented, together with the past due interest thereon. Said bonds authorized to be issued under the provisions of this act shall be dated on the 1st day of July, 1881, and shall be payable ninety nine years after their date, but the same shall be redeemable by the State at any time after the expiration of five years from their date, at the pleasure of the State. Shall bear interest at the rate of three per cent per annum, payable semi-annually, on the 1st day of January and July, in the city of New York. Shall have coupons of interest attached to each of said bonds, and for the punctual payment of the principal and interest of said bonds the faith, credit and honor of the State is hereby solemnly pledged.

Sec. 3. Be it further enacted, That the coupons on said compromise bonds on and after their maturity shall be receivable in payment for all taxes and debt due to the State, and said coupons shall show upon their face that they are so receivable.

Sec. 4. Be it further enacted, That said bonds shall be in denominations of $50, $100, $500 and $1,000. That is, there shall not be less than five per cent of the whole amount in bonds of the denomination of $50; five per cent of the denomination of $100, and ten per cent of the denomination of $500, the remainder to be of the denomination of $1,000, to be prorated by the funded board hereinafter provided as said board may deem just and equitable between those who may present their bonds and coupons to be funded under this act. But the funding board may issue bonds of the smaller denomination aforesaid to any amount in excess of the amounts hereinbefore stated if the holders of the bonds and coupons who present them to be funded so desire.

Sec. 5. Be it further enacted, That the Secretary of State, comptroller and State treasurer shall constitute a board, to be designated a funding board, any two of which shall constitute a quorum for the transaction of any and all business for which said board was created. Said board may sit or hold meetings for the transaction of the business created by this act at such times and places as they may deem wise and proper, to enable holders of Tennessee bonds and coupons to fund the same under the provisions of this act.

Sec. 6. Be it further enacted, That when any of the legally issued bonds of the State, or coupons outstanding and unpaid are presented to said funding board for funding under the provisions of this act, they shall examine and audit the same, and if found to be genuine, shall prepare a compromise bond or bonds, as may be necessary for the purpose, and when said bond or bonds have been signed by the Governor and countersigned by the Secretary of State, and the great seal of the State of Tennessee is affixed thereto, and the original bond or bonds have been registered in the comptroller's office and a full memorandum of the same made by the comptroller, and the same signed by the party receiving the compromise bond or bonds, said board shall deliver said compromise bond to the party entitled to receive them, taking full and ample receipts therefor from the party so receiving. But in funding under the provisions of this act, the State shall not receive or account for any portion of a bond or coupon in excess of the bond demanded, and if the amount of the bond or coupons presented to be funded be less by a fractional part of a coupon, the party applying may pay the same in currency.

Sec. 7. Be it further enacted, That as soon as practicable after the passage of this act there shall be prepared, under the direction of the Governor and the funding board, a sufficient number of well engraved bonds to take up and fund all the unpaid bonds and coupons of the State, and upon each coupon of the bonds so prepared the signatures of the treasurer and comptroller shall be engraved, and the said coupons shall be numbered with the number of the bond to which they are attached, and shall state on their face when they fall due and the amount of interest due on each. The cost of engraving and preparing said bonds and coupons shall be paid out of the treasury upon the warrant of the comptroller, based upon the certificate of the Governor.

Sec. 8. Be it further enacted, That the funding board is authorized to demand and receive as compensation for their services in carrying out the provisions of this act the sum of two dollars for each bond of the denomination of $1,000, one dollar and fifty cents for each bond of the denomination of $500, and one dollar for each of all other denominations, to be paid by those receiving the compromise bonds, as provided by this act.

Sec. 9. Be it further enacted, That the bonds authorized to be issued by this act shall be substantially in the following form:

COMPROMISE BOND OF THE STATE OF TENNESSEE.

Know all Men by These Presents: That the State of Tennessee hereby promises to pay to the bearer, on the 1st day of January, 1980, at the Treasurer's office at the Capitol of Tennessee, in the city of Nashville, Tenn., the sum of —— dollars, in the lawful money of the United States of America, with interest at the rate of 3 per cent per annum, payable semi-annually, on the 1st day of January and July of each and every year, until the principal shall be paid, as evidenced by the coupons hereto attached, but this bond may be redeemed by the State at any time after the 1st day of July 1886, by paying the principal and interest. For the prompt payment of the principal and interest the faith, honor and credit of the State is solemnly pledged. The coupons of the bonds, as they become due are receivable for all taxes and debts due the State of Tennessee. This bond and coupons are issued in pursuance of and under the Act of the General Assembly of the State of Tennessee, entitled "An act to compromise and settle the bonded indebtedness of the State of Tennessee." Approved the —— day of ——, 1881.

In witness whereof, I, —— ——, Governor of the State of Tennessee, have hereunto signed my name officially and caused the same to be countersigned by the Secretary of State, and the Great Seal of the State to be affixed.

Done at the Executive Department of the State, in the city of Nashville, this 1st day of July, 1881.

Sec. 10. Be it further enacted, That it shall be the duty of the funding board immediately upon the receipt of the original bond or bonds and the issuance of the compromise bond or bonds, to cancel said original bond or bonds after being registered the same as hereinbefore provided, by cutting out the name of the Governor and Secretary of State, subscribed to each bond, and to deface the coupons by punching holes in the same. The board shall submit their books of registration and cancellation to the Governor every three months, or oftener, who may examine and compare the same with the bonds issued under the provisions of this act, and shall certify the same to the comptroller, who shall embrace the same in his report to the first General Assembly that may convene after the passage of this act. That this act shall take effect from and after its passage, the public welfare requiring it.

Automatic Train Dispatcher.

An invention of an automatic train dispatcher recently patented by a Frenchman named Jas. G. Chasse, of Quebec, Canada, bids fair to create a sensation in railroad circles. Without going into scientific terms, the invention consists of a common wire stretched the length of the track, a little to one side of it, and a short distance above the cab. This wire is swept by a metallic fan while the train is in motion, thus keeping up a communication along the line. In each cab are a gong and a dry battery with a ground-wire running to the axles of locomotive, while at a distance of every mile the rails are grounded with a ground-wire. In every depot are two gongs, which automatically ring when a train approaches within three miles in either direction. Two trains approaching each other also break the circuit causing the bells in each cab to ring an alarm. The trial test of this invention was made on Monday at Chillicothe in the presence of the Master Mechanic of the Marietta and Cincinnati Railroad and several members of the Cincinnati press. The above company have fitted up engine No. 76 and stretched a wire for the occasion. During the run, sometimes at the rate of 30 miles an hour, the communication was unbroken. Mr. Evans, the Master Mechanic of the Marietta and Cincinnati, and Charles Zimmer, engineer of the same company, and who have, by the way, done much to render the experiment a success, were loud in their praises of the invention, and unhesitatingly pronounced it successful far beyond their expectations. Unless something unforeseen occurs, it is bound, from the present outlook, to come in general use, and also be the means of great saving of life and property in the future, and greatly lessening the probability of collisions.—[Pittsburg Chronicle.

Train Order Signal.

At the junction of the Cincinnati, Indianapolis St. Louis and Chicago and Marietta and Cincinnati Railroad in this city they have a new train order signal, called 'Miller's Day and Night Revolving Train Order Signal,' the invention of H. K. Miller. It is operated by a shaft that runs the signal through the building. At the operator's table, in case of use, by turning a crank one-half round, one can give all necessary orders. Red and white lights are used at night. For day it has two wings that open in the form of a book leaf, the inside being painted red. When closed it shows white signal for safety in both directions. The lantern stands on a parallel line with the operating shaft, the day signal on a right angle with the lantern, so that when the lantern or night signal turns one-half round from a parallel with the operating shaft, the day signal turns one-half round from a right angle to the night signal, and in turning round the day signal opens out on the same principle as opening a book. The perpendicular shaft that supports the day and night signal is a hollow tube, through which passes a rod which supports the light, so that the lantern revolves and the light is stationary. Mr. Miller is likewise the inventor of a new switch movement which the Cincinnati, Indianapolis, St. Louis and Chicago have adopted in their yard at Cincinnati. —[Cincinnati Enquirer.

Three distinct and separate railroad corporations have been formed in Illinois, and their charters recorded, for the purpose of operating railroads wholly and only in St. Clair County as coal roads.

New York, Saturday, April 16, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

SUPERINTENDENT DUTCHER gives it as his opinion that the Erie canal cannot possibly be open for navigation before May 10th, estimating that it will take fully a month to repair the channel after the ice disappears.

THE decree confirming the legality of the Philadelphia and Reading election was made by the Court of Common Pleas, Philadelphia, Wednesday. It is said that Mr. Gowen will take an appeal to the Supreme Court of the State, and also that the present managers of the company do not intend to resign until a final decision is obtained on the question of the legality of the election.

A CONVENTION is to be held in Davenport, Ia., commencing May 25, for considering methods for constructing a canal from Hennepin, on the Illinois river, to the Mississippi river, and such other works as shall tend to open up to commerce the use of all water routes of communication via Chicago and the Lakes, from the Upper Mississippi Valley to the Eastern Atlantic Coast. Very little enthusiasm seems as yet to have been manifested in this somewhat visionary project for a new grain route to the Atlantic.

THE funding bill just passed by the Tennessee Legislature provides that the outstanding bonds of the State, principal and interest, shall be refunded at their face value up to the first of July, in new bonds payable in 1980, bearing 3 per cent interest, but redeemable at the pleasure of the State at any time before maturity. This action of Tennessee is a testimony to her ideas of honesty and is in keeping with her increased prosperity. It is received with great gratification not only by holders of the bonds but by the public at large, which rejoices to see her take a worthy position among the debt paying States. The details of the bill are given in another column.

THE plan adopted by the Secretary of the Treasury for providing for the disposal of 6 per cent bonds maturing on or before July 1st, 1881, by which it is left optional for the holder to retain them at 3½ per cent interest from that date for such a period as the Government may see fit, is receiving very general approval. The idea of the proffered extension was an entirely new departure but it was formed after a most careful and practical study of the matter in all its bearings, conferences with leading financiers of the country being held for the consideration of the subject and the opinion of the general public being carefully weighed from different standpoints, a result of which is that from all parts of the country indications of the popularity of the measure are being freely presented. It will take some time, however, to determine how large a portion of the owners of the bonds will desire to extend them at 3½ per cent, though there is a strong probability that the banks will very generally accept the extension in preference to purchasing 4 or 4½ per cents at the market prices which would be likely to prevail.

AN important consolidation has been effected during the past week by which the Boston, Hoosac Tunnel and Western Railway with its allied roads, under one arrangement, will furnish a through line from the Hoosac Tunnel to Oswego and Buffalo. The arrangement includes the Boston, Hoosac Tunnel and Western, the Hoosac Tunnel and Saratoga, the Utica and Syracuse Air line, the Syracuse, Chenango and New York, the Syracuse, Phœnix and Oswego, and the Mohawk and Lake Erie Railroad companies. The consolidated roads will form a line about 400 miles long. The directors of the consolidated company are W. L. Burt, Boston; William Foster, Jr., New York; E. C. Benedict, New York; Charles G. Francklyn, New York; Myron P. Bush, Buffalo; W. R. Garrison and C. K. Garrison, New York; Daniel P. Hatch, New York; E. B. Phillips, President Eastern Railroad, Boston; George I. Post, Fairhaven, N. Y.; Josiah Case, Vernon, N. Y.; Dr. Estes Howe and W. V. Burt, Boston. General Burt is the President and Dr. Estes Howe Treasurer of the road. Concerning the plans of the new organization the Boston Journal says: "The capital of the road is to be increased to $25,000,000 and $20,000,000 of 6 per cent bonds, which are to be issued only as the road is completed, with a double track and fully equipped. The work of construction is to be pushed ahead with the utmost vigor, and it is hoped to open the road through to Buffalo within two years. The fact that Commodore Garrison is one of the principal backers of the enterprise, in connection with his control of the Northern New York road and its connections with the elevated roads, assures a connection with New York upon the east side of the Hudson. For a Boston connection the plans are not fully developed as yet. The strong list of names upon the directory is assuring that the financial condition of the road will be strong and competent to complete it."

Southern Pacific Route.

A special dispatch to the Boston Journal says that "Mr. M. H. De Young, proprietor of the San Francisco Chronicle, has arrived here, having come over the newly-opened Southern Pacific route. He says that through a portion of Southern California and Arizona there is no water, and there are water cars attached to the trains to supply the engines. There is one part of the road where there is a straight run of sixty miles without a single station. In Arizona the road runs along a basin for sixty miles which is 250 feet below the level of the ocean. On one side the ground is perfectly white, caused by the deposits of salt and alkali from two to four feet deep. Between Los Angeles and San Francisco, in order to overcome the elevation, a great feat of engineering was performed. It is called "the loop." The train goes through a tunnel and then winds around on a track like a corkscrew to another tunnel, which is directly above the first tunnel. Thus the elevation is overcome. The idea is a very novel one, and has never before been attempted. At Deming the Southern Pacific connects with the Atchison and Topeka. The former road is completed 84 miles beyond this point, and is now at El Paso. Mr. Crocker, the President of the road, told Mr. De Young that he expected to have the road completed to New Orleans by July 1, 1882. The Californians are expecting to forward a great deal of grain over this road to New York, where it will be shipped to Europe."

Kansas City, Fort Scott and Gulf Railroad.

The earnings of this road for the year ending December 31, 1880, were $1,222,867 03, the operating expenses (including taxes) $969,951 80, and the net earnings $525,915 23, showing an increase in gross earnings of $327,002 64, with an increase in expenses of $133,898 72, making the increase in net earnings $193,103 92. The percentage of operating expenses (including taxes) to gross earnings in 1880 were 56 99, a decrease of 5.86. The total credits to income account are $584,180 44. The disbursements on account of interest, premiums and dividends have been $502,488 77, leaving a surplus from year's business, after payment of 8 per cent on contracts for pre-

ferred stock, $81,646 67, from which deduct amount standing to debit of income account January 1, 1880, $5,321 31; surplus to credit of income account, $76,325 36. There has been expended during the year for construction, $19,440 78; equipment, $225,099 16—total, $244,539 94. These expenditures have been provided for from the sale of a portion of the securities of other corporations owned by this company, and referred to by the directors in their last annual report as being held for the purpose of providing for new equipment, and any other special expenditure. The market value of the residue of this fund is about $222,000. The original issue of Kansas City, Fort Scott and Gulf Railroad Company's first mortgage bonds was $4,000,000. During the year 1880 the net proceeds received by the trustees from the land department have been applied to the purchase of said bonds to the extent of $943,100, leaving outstanding December 31, 1880, bonds to the amount of $3,056,900. The estimated value of the land department assets, December 31, 1880, was, including unsold lands and unpaid contracts, $899,862 14, to which add the net receipts from land received in the last quarter of 1880, and paid to the trustees this year, $89,023 19, making total assets of $988,885 33 to be applied to a further reduction of the bonded debt.

Organization.

Orlando Smith has been elected a director of the Columbus and Hocking Valley Railroad Company in place of John L. Gill.

Isaac N. Seligman, of the firm of J. & W. Seligman, of New York (the bankers who have contracted to place the new issue of bonds made by the Buffalo, Pittsburg and Western Railroad Company to retain the old mortgage and extend the road,) has been elected a director of the company.

The directors of the Allegheny Valley Railroad Company, elected on the 12th inst., are: John Scott, Pittsburg; George B. Roberts, Philadelphia; D. A. Stewart, Pittsburg; A. J. Cassatt, Philadelphia; B. F. Jones, Pittsburg; James P. Green, H. M. Phillips, Edmund Smith, J. N. DuBarry, Philadelphia. John Scott is President of the company.

Articles of consolidation were filed in the office of the Secretary of State, at Madison, Wis., on the 12th inst., of the Chicago and Milwaukee Railway and Northwestern Union, under the name of Chicago and Milwaukee Railroad Company. The stock of the Chicago and Milwaukee Company is to be exchanged for that of the consolidated company, share and share alike, and Northwestern Union at 20 shares of common for one share of the preferred stock of the consolidated company.

At an adjourned meeting of the board of directors and stockholders of the Western North Carolina Railroad Company held at Salisbury, North Carolina, on the 12th inst., Col. A. B. Andrews, of Raleigh, was elected President. The following were elected directors for the ensuing fiscal year: Col. A. S. Buford, of Richmond, Va.; Geo. R. B. Vance, Judge A. C. Avery, S. H. Wiley, Frank Coxe, William Anderson, Gen. T. M. Logan, and Major James H. Dooley. Resolutions authorizing the most active measure to complete the work were unanimously adopted.

The Buffalo, Cleveland and Chicago Railway Company of New York, the same of Pennsylvania; the New York and Chicago Railway Company of Ohio, the same of Indiana and the same of Illinois, are about to file papers of consolidation with the Secretary of State at Albany, N. Y. This will give a continuous line from Buffalo by way of Erie City, Penn, to Cleveland and Fort Wayne, and thence to Chicago, the whole distance to be made without change of cars. The name of the new corporation will be the New York, Chicago and St. Louis Railway Company. The capital is $35,000,000, of which $11,000,000 is preferred at 7 per cent, and the remainder common stock.

At the annual meeting of the Boston, Hartford and Erie Railroad Company, held in Boston, Mass., on the 12th inst., the following board of directors was elected: John P. Terry, Delorme Knowlton, Richard A. Roberts, Samuel F. Gregory, and M. A. Coleman, New York; Henry R. Hilton, Connecticut; William Denman and John Rooney, New York; James McMehan, Massachusetts; John D. Sanborn, Massachusetts, and James Adair, New York. The by-laws were so amended that meetings of the directors may be held in New York and that directors may be elected irrespective of their residence. It was voted to authorize the President and directors to make an assessment on the stock for the purpose of carrying on the litigation to recover property of the company.

Articles of consolidation of the Buffalo, Cleveland and Chicago Railway, of New York; Buffalo, Cleveland and Chicago Railway, of Pennsylvania; New York and Chicago Railway, of Ohio; New York and Chicago Railway, of Indiana, and New York and Chicago Railway of Illinois, under the name of New York, Chicago and St. Louis Railway, were filed with the Secretary of State of Ohio on the 12th inst. The Directors are Columbus B. Cummings, Daniel P. Eells, Calvin S. Brice, Charles Foster, Samuel Thomas, George I. Seney, John T. Martin, Edward H. R. Lyman, Waleton C. Brown, William Fleming, and Alexander M. White. The road is to be a through trunk line from Buffalo to Chicago. This is the final incorporation which completes all the preliminary arrangements.

The directors of the Virginia, Kentucky and Ohio, a new company formed to build the Southwestern Virginia division of the Richmond and Southwestern Railway, have elected Samuel Leece, President; C. T. Smith, Vice President; Charles F. Palmer, Treasurer; C. D. Boyd, Secretary, and G. C. Wharton, Chief Engineer. A proposition has been made to connect this road with the Richmond and Allegheny at the confluence of Craig's Creek and James River in Botetourt County. Already 200 miles of its line have been let to contract in Kentucky, between Louisville and Pound Gap. The United States Commercial Company (chartered by the last Legislature), which has contracted to construct the Richmond and Southwestern in its entirety and equip it, will build and equip the link and branches named, the conditions being, so far as the Southwest is concerned, that the counties traversed and the people along the line of road shall take $300,000 of stock in the aggregate in county bonds and money, and shall give say 150,000 acres of land for capital stock also.

At a meeting of the directors of the Texas and Pacific Railway Company held in Philadelphia on the 12th inst., the resignation of Colonel Thomas A. Scott, President of the company, was accepted and Jay Gould was elected to succeed him. Colonel Scott also retired from the Board of Directors, as well as H. H. Houston, whose place was filled by General Thomas T. Eckert. The following are the present officers of the company: President, Jay Gould. Vice Presidents, Frank S. Bond and John C. Brown. Assistant to the President, James P. Scott, Treasurer. Geo. D. Krumbhaar. Secretary, Charles E. Satterlee. Directors—Thos. A. Scott, Pennsylvania; Frank S. Bond, Pennsylvania; John C. Brown, Tennessee; Jay Gould, New York; Russell Sage, New York; Fred. L. Ames, Massachusetts; E. H. Perkins, Jr., New York; William Thaw, Pennsylvania; Thos. T. Eckert, New York; James P. Scott, Pennsylvania; R. D. Barclay, Pennsylvania; Chas. O. Baird, Pennsylvania; W. J. Sewell, New Jersey; B. K Jamison, Pennsylvania; W. T. Walters, Maryland; W. C. Hall, Kentucky; Wm. M. Harrison, Texas. General office, 275 South Fourth street, Philadelphia. General local office, Marshall, Texas. Transfer agency in New York, the Farmers' Loan and Trust Company.

Construction.

The Denver and Rio Grande Railroad Company are extending the Corpus Christi and Laredo Railroad which they a short time since purchased, and which reaches sixty miles west of Corpus Christi, to a connection with the Mexican National at Laredo, Tex. The final object is said to be the extension of the Rio Grande's Colorado system to Laredo, thus giving them direct connection with the Gulf of Mexico and the Pacific coast.

The Nantucket Railroad Company, of Massachusetts, announces that the road bed is nearly finished, and that the ties are on the ground. It will be completed in time to accommodate this summer's visitors. The road runs from Nantucket across the island to the south shore, and then along the cost to Siasconset, about 10¼ miles, and will be three feet in gauge. The directors have authorized the issue of $60,000 first mortgage 7 per cent bonds, payable in 1900, to secure funds for purchasing iron and equipping the road.

The Board of Public Works of Virginia has paid to the Richmond and Allegheny Railroad Company the third installment of $100,000 on account of 50 miles additional road completed. This company has now in operation 150 miles, which have been constructed in about 150 working days, and the road is being pushed to completion with great rapidity. The entire road will be open for traffic this Summer, and it will bring into market immense quantities of ore and open a new route for tourists between the East and West. It passes near the Peaks of Otter and the far-famed Natural Bridge, and the lands along the line are for the most part second to none in fertility and scenery.

Personal.

Asa Rogers, Jr., the new railroad commissioner of Virginia has entered upon his duties with Thos. H. Cross as his assistant.

H. H. Hollister has been appointed treasurer of the Burlington, Cedar Rapids and Northern Railway Company, vice Alexander Taylor, resigned.

A. B. Daniels a director of the Denver and New Orleans Railroad, and Vice President of the Colorado National Bank, died at Denver suddenly of heart disease on the 9th.

E. A. Ford, the new General Passenger Agent of the Pennsylvania Company, arrived in Pittsburg on the 5th inst., and is stopping at the Monongahela House.

Gen. Herman Haupt has been appointed general manager of the Northern Pacific Railroad. Among the important works with which he has been identified is the Hoosac Tunnel, he having been prominently connected with that enterprise in its earliest days.

All business connected with the passenger traffic of the Pennsylvania Railroad Company is now directed to George W. Boyd, Chief Clerk of the Passenger Department, Philadelphia, Mr. Boyd has been connected with the department for years, and a brother of the late D. Boyd, who held the position of Gene-

ral Passenger Agent. His ability and long experience eminently fit him for the responsible duties of the position.

C. W. Smith, formerly Traffic Manager of the Chicago, Burlington and Quincy Railroad, and now holding the same position with the Erie Railway Company, has accepted the position of General Manager of the Chesapeake and Ohio Railroad Company, and will enter upon the discharge of his new duties on the 1st of May with headquarters at Richmond, Va.

A. W. Locke, who has been appointed manager of the Troy and Greenfield Railroad (Hoosac Tunnel), succeeding G. Clinton Gardner, resigned, has been connected with the Hoosac Tunnel and employed by the State of Massachusetts during the past twelve years. In May, 1869, he took charge, for the State, of the construction department at the east end of the tunnel. Upon the completion of the Shanley contract Mr. Locke removed to North Adams, at the west end of the tunnel, and acted as principal assistant in supervising the finishing of the tunnel. He has since been first engineer on the Troy and Greenfield Railroad, and has had general charge of the duties of road master, etc. Mr. Locke is held in high esteem in North Adams, having taken an active interest in matters pertaining to the welfare of that enterprising town, being especially interested in perfecting its sewerage and other sanitary measures. Concerning Mr. Locke's fitness for his new position The Adams Transcript says: "His last promotion is only an appointment of the best man for the position, as Mr. Locke probably knows more from experience and observation of the present condition, necessities and prospects of the Hoosac tunnel and its contingent railroads than any other available man."

Financial Law.

Corporation—Unless Authorized may not hold Stock in Another, and cannot compel Transfer.

Plaintiff and defendant were corporations organized under the Ohio banking law. Such law forbids a corporation organized under it, under penalty of forfeiture of its charter, from being a holder or purchaser of any of its stock, or of the stock of any other incorporated company, unless such purchase should be necessary to prevent loss upon a debt previously contracted in good faith, on security, which at the time was deemed adequate to insure the payment of such debt independent of any lien upon such stock. The plaintiff loaned to F., president of the defendant, $10,000 on his individual account, and received as security for the loan a certificate owned by F. of 200 shares of the capital stock of the defendant. The plaintiff presented said certificate to the defendant at its place of business and demanded a transfer of said shares to the plaintiff on the books of the company, which was refused, whereupon the plaintiff brought an action against the defendant for the conversion of said stock, founded on said refusal to transfer the same to the plaintiff. Held, that the plaintiff was not entitled to said transfer, and consequently that the defendant was not liable for refusing to make or or permit it. Independently of statute, one corporation cannot become a stockholder in another. Mutual Savings Bank v. Meridan Agency, 24 Conn. 159; Franklin Co. v. Lewiston Savings Bank, 68 Me. 43; Central R. Co. v. Collins, 40 Ga. 582; Sumner v. Maxcy, 3 W. & M. 105. That the stock was transferred to the corporation as a pledge would not affect the result. A person in whose name stock stands on the books of a corporation is, as to such corporation, a stockholder. State v. Ferris, 42 Conn. 560; In re Barker, 6 Wend. 509; Hoppin v. Buffum, 9 R. I. 513; Field on Corp., § 69. This court has uniformly adhered to the doctrine in Strauss v. Eagle Insurance Co., 5 Ohio St. 59, that corporations have such powers only as the act creating them confers, and are confined to the exercise of those expressly granted and such incidental powers as are necessary to carry into effect those specifically conferred. Bank of Buffalo v. Toledo Ins. Co., 12 Ohio St. 601. To the same effect see Thomas v. Railroad Co., 101 U. S. 71; Ashbury Railway Car Co. v. Riche, L. R., 7 H. L. 653. It was not the duty of the defendant to make the transfer when the same was demanded, and leave the State to impose the penalty of forfeiture on the plaintiff for a violation of its charter. The cases of Union Nat. Bank v. Matthews, 98 U. S. 621, and Jones v. Guaranty & Indemnity Co, 101 Id. 692, do not support a contrary proposition. Ohio Supreme Court, January, 1881. Franklin Bank of Cincinnati v. Commercial Bank of Cincinnati. Opinion by Boynton, J.

That Purchase of Stock was Induced by false Representations does not Relieve Stockholder from Liability as such.

In an action against defendant as a stockholder in a corporation to enforce the statutory liability for debts due from the corporation, one defense was that defendant was induced to become a stockholder by false and fraudulant representations by the president of the company; that the stock was full paid capital stock upon which there was no liability of the stockholders. Held, that the defense was not available. See Oakes v. Turquand, L. R., 2 H. L. 325. Where a man has became a stockholder, no misconduct of the company or false representations made by them to induce him to take shares will release him from bearing the responsibility which he owes to creditors whatever effect it may have between himself and other creditors. Henderson v. Royal British Bank, 7 El. & Bl. 356; Powis v. Harding, 1 C. B. (N. S.) 533. In Matter of Reciprocity Bank, 22 N. Y. 17, it is said: "A person may show, in exoneration of himself, that his name was placed on the books of the bank without his authority. But if a party makes an actual purchase of shares, whether from the corporation or an individual stockholder, and voluntarily allows himself to be represented to the world as a stockholder, he must take the responsibility of the situation, that equities may exist between him and other parties, but the statute has no regard for such questions. He cannot disown the ownership when it ceases to be a benefit and becomes a burden." See Ruggles v. Brock, 6 Hun, 164; Ellis v. Schmoeck 5 Bing. 521; Spear v. Crawford, 14 Wend. 24. When a person has, through fraudulent representations of the seller of the stock or of the company, become a stockholder in a corporation where a personal liability to creditors may by statute arise, he can in the appropriate action, after tendering the stock to the person or company who fraudulently induced him to buy it and demanding back what he gave for it, be reimbursed for any loss or damage he has sustained, and be relieved thereafter from any further liability as a stockholder; but whilst he continues to be a stockholder his liability under the statute to creditors continues. Wright's case, L. R., 12 Eq. 351; Clarke v. Dickson, 1 E. B. & E. 148. And where by further inquiry he could at the time he purchased become aware of the liability he assumed, it would be his duty to make such inquiry. Upton v. Tribilcock, 1 Otto, 54; Peel's case, L. R. 2 Ch. 684; Kincaid's case, id 426. New York Common Pleas, Gen. Term, Jan. 3, 1881. Briggs v. Cornwell. Opinion by Daly, C. J.

Negotiable Instrument—Indorsement—Payment.

A note made payable to the maker's own order and indorsed by him, thereby becomes payable to the bearer. When a third person, a stranger to such a note, gives the holder his written obligation in consideration of the discounting of the note "to be holden precisely the same as if I had indorsed said note," he does not thereby become a party to the note; and upon non-payment according to its terms by those liable upon the note, if he pay it in pursuance of such written obligation he is entitled to the note undischarged, and to maintain an action on the same in his own name. See Pacific Bank v. Mitchell, 9 Metc., 297; Pollard v. Ogden, 75 Eng. C. L. R. 459. Maine Sup. Jud. Ct., June 17, 1880. Bishop v. Rowe. Opinion by Danforth, J.

Union Ferry Co.

The following is a statement of gross receipts of the Union Ferry Company from May 1, 1861, to May 1, 1871. Two cents for foot passengers at all hours of the day:

Year Ending	
May 1, 1862	$632,925 00
May 1, 1863	680,783 48
May 1, 1864	735,531 93
May 1, 1865	760,328 60
May 1, 1866	845,510 49
May 1, 1867	907,407 87
May 1, 1868	940,968 75
May 1, 1869	937,671 00
May 1, 1870	955,910 12
May 1, 1871	976,218 38
Total for 10 years	$8,873,255 57

The following statement of gross receipts of the Union Ferry Company from May 1, 1871, to May 1, 1880. One cent fare for foot passengers during four hours per day:

Year Ending	
May 1, 1872	$940,871 25
May 1, 1873	968,556 62
May 1, 1874	995,679 25
May 1, 1875	1,022,554 00
May 1, 1876	994,582 00
May 1, 1877	961,916 60
May 1, 1878	969,742 07
May 1, 1879	979,537 82
May 1, 1880	1,052,896 27
Total for 9 years	$8,886,334 78

By an official report dated Nov. 15, 1880, filed according to law, a cash surplus is shown of $1,250,295 33.

The Warren extension of the Olean, Bradford and Warren Railroad has been commenced, and a through line from Bradford to Warren is expected by the last of July.

The opening of the Jacksonville and Fernandina Railroad was formally celebrated at Fernandina, Florida, on the 8th inst.

Railroad Extension in Northern Maine.

The Boston Journal says that arrangements are about completed for the widening of the New Brunswick Railway to the standard gauge and the extension of one of its branches to Presque Isle in Aroostook. This railroad begins at Gibson, on the east bank of the St. John River and directly opposite Fredericton, N. B., and extends to Edmundston, near the Quebec boundary. It has a branch line to Woodstock, where it makes connection with the Continental railway system, and another branch to Caribou, on the Aroostook. With its branches it is 190 miles long. It was built with a gauge 3 feet 6 inches with an association of New Brunswick capitalists, the chief of whom was Alexander Gibson, a wealthy lumberman. Last fall a syndicate, at the head of which were George Stephen and Donald A. Smith, who are the leading spirits in the Canadian Pacific Company, purchased the road, which they intend this summer to widen and equip in first class manner. They have also obtained a charter to build an extension to the St. Lawrence, a distance of about 80 miles, and will begin operations on that line at an early day. The object of the company is to provide the shortest possible route over Canadian territory from Montreal to the sea.

Railroad Law.

CARRIER OF PASSENGERS—DUTY OF RAILROAD COMPANY TO PROVIDE SAFE EXIT FROM TRAIN—CONTRIBUTORY NEGLIGENCE—NOT LOOKING FOR APPROACHING TRAIN NOT.

The rule is not that in no case can a person attempt to cross a railroad track without looking for approaching trains without subj-cting him self to the imputation of negligence. Terry vs. Jewitt, 78 N. Y. 338. A passenger, when taking or leaving a railroad car at a station, has the right to assume that the company will not expose him to unnecessary danger, and while he must himself exercise reasonable care, his watchfulness is naturally diminished by his reliance upon the discharge by the company of its duty to passengers, to provide them a safe passage to and from the train. In this case intestate, a girl seventeen years old, who had for some months lived at East Syracuse, and who at the time lived in in sight of the station and near to it, rode as a passenger upon one of defendant's trains to that station. The primary purpose of this train was to take defendant's employees to their work, but it also took passengers who paid fare. The train stopped to discharge those riding in it, not at the station but at a point 1,300 feet therefrom, opposite the freight-house and yards, where there were twenty tracks. The train stopped on the third track from the south, the two tracks south of it being used for ordinary passenger trains. There was nothing in the arrangement of the tracks and no planking to indicate in which direction passengers were to leave this train, and when it stopped no instructions were given to passengers what to do when leaving it, or any warning of danger. The employees who left went north to their work. Intestate, after alighting, assisted an aged female companion to alight and they two started to walk toward where intestate lived, across the south tracks. While so doing they were struck by a passenger train from the east, which was ten or fifteen minutes behind time and running at the rate of thirty-five or forty miles per hour, and killed. If intestate had looked east before attempting to cross the track, she could have seen the approaching train, but she did not do so. At the trial of the action for damages for her death, the court refused to charge that the omission to look to the east was per se negligence, but did charge that if deceased knew or had reason to believe that the passenger train was behind time or that it might come along at any moment, then she was bound to look, and an omission to do so was negligence. Held no error. The fact that the deceased did not look for the approaching train was a material and important fact to be considered by the jury upon the point of contributory negligence ; but her omission to do so was not in law decisive against a recovery. Judgment affirmed. Brassell vs. New York Central and Hudson River Railroad Co. Opinion by Andrews, J.

[Decided March I, 1881.]

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending April 2, and for the year to the same date, compared with their respective amounts carried to the same time last year :

	Week.	1881.	1880.
Reading Railroad...	102,979	2,185,614	2,048 065
Schuylkill Canal....	7,460	11,530	40,013

Pennsylvania Coal ..	16,450	251,548	184,730
Delaware and Hudson	49,684	870,745	754,418
Huntingdon & Broad Top Mt.....	10,118	118,287	104,934
Penn. and New York.	26,839	423,404	366,004
Clearfield, Pa..	48,914	519,706	337,779

The total tonnage of anthracite coal from all the regions for the week ending April 2, as reported by the several carrying companies, amounted to 360,251 tons, against 372,586 tons in the corresponding week last year, a decrease of 12,335 tons. The total amount of anthracite mined for the year is 6,021,579 tons, against 4,804,020 tons for the same period last year, an increase of 1,217,549 tons. The quantity of bituminous coal sent to market for the week amounted to 100,894 tons, against 31,155 tons in corresponding week last year, an increase of 69,739 tons. The total amount of bituminous mined for the year is 1,086,686 tons, against 855,952 tons for the corresponding period last year an increase of 231,284 tons. The total tonnage of all kinds of coal for the week is 461,145 tons, against 403,741 tons in corresponding week last year, an increase of 57,404 tons, and the total tonnage for the coal year is 7,108,255 tons, against 5,659,472 tons to same date last year, an increase of 1,448,783 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending March 26th was 181,923 tons, of which 131,491 tons were coal and 50,432 tons coke. The total tonnage for the year thus far has been 2,053,873 tons, of which 1,491,421 were coal and 562,452 tons coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended April 2 were 38,129 tons, and for the year to that date 392,521 tons, an increase of 28,585 tons as compared with the corresponding period last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 29,380 tons ; year, 338,439 tons ; increase as compared with 1880, 20,271 tons. Chesapeake and Ohio Canal —week, 3,720 tons ; year, 7,395 tons ; increase

as compared with 1880, 3,518 tons. Pennsylvania Railroad—week, 5,029 tons; year, 46,688 tons; increase as compared with 1880, 4,775 tons. The Reading Railroad coal shipments for last week, ending April 9, were 108,000 tons, of which 22,600 tons were sent to Port Richmond and 26,500 tons shipped thence, and 7,500 tons were sent to Elizabethport and 8,200 tons shipped thence.—[Phila. Ledger, April 11.

St. Johnsbury and Lake Champlain R. R.

The securities of the St. Johnsbury and Lake Champlain Railroad Company have been admitted to the List at the Boston Stock Exchange. The company was incorporated January 31, 1881, under the laws of Vermont. The statement is as follows:

This road extends from Lunenburg, Vt., on the Connecticut River, to Lake Champlain at Maquam Bay, in the town of Swanton, Vt., a distance of 120 miles through the counties of Essex, Caledonia, Orleans, Washington, Lamoille and Franklin, and is a consolidation of the Lamoille Valley Railroad Company, the Montpelier and the St. Johnsbury Railroad Company and the Essex Railroad Company. Authorized capital, $3,848,500. Amount of capital stock issued, $3,562,550. Bonds, first mortgage, 6 per cent, $600,000. Par value, $50 per share.

Gross earnings for the six months ending Dec. 31, 1880	$97,065 65
Operating expenses	69,241 67
Net earnings	$27,823 98

The treasurer's statement, March 3, 1881, is as follows:

LIABILITIES.

First mortgage bonds, 6s (sold)	$116,000 00
Floating debt	250,730 00
Claims underlying first mortgage	121,000 00
Non-assenting first mortgage bonds, P. and O. Vt. Div., outstanding, to be exchanged for the stock of the company	30,000 00

RESOURCES.

Cash on hand	22,887 89
Personal property	45,000 00
First mortgage bonds, 6s (unsold)	484,000 00

Horace Fairbanks, President; Franklin Fairbanks, Vice President; William P. Fairbanks, Treasurer; A. P. Jewett, Superintendent; A. W. Hastings, Secretary. Directors, Horace Fairbanks, St. Johnsbury, Vt.; Franklin Fairbanks, St. Johnsbury, Vt.; Bardley Barlow, St. Albans, Vt.; George W. Hendee, Morristown, Vt.; A. B. Jewett, Swanton, Vt.; Louis Fitzgerald, New York City. William P. Fairbanks, Transfer Agent, St. Johnsbury, Vt.

Western Maryland Railroad.

Messrs. John A. Hambleton & Co., of Baltimore, in their last weekly circular, say:

The movement and remarkable advance in Western Maryland Railroad stock is one of the wonderful things that we will some day relate to our grandchildren, to exemplify the follies of the age in which we live. We do not like to say that any stock is worthless, but Western Maryland for all that is at present in sight, comes about as near to it as any stock (except Marietta and Cincinnati) that we know of. It is possible that some day this stock may possess some value, but it is in the dim future. This is how it stands at present. The net earnings of the Western Maryland Railroad for the year 1880 were $38,278 91, and the fixed charges, that is, interest on bonds, &c., are $254,815. Nor is this all. The city of Baltimore extended aid to the Western Maryland Railroad in the shape of indorsed bonds to the extent of $2,875 000. With the exception of the coupons on $200,000 first mortgage bonds the railroad company has never paid one cent of interest on any of these bonds, and the interest has gone on piling up against the company, until nearly $1,500,000 of accrued interest is now due the city of Baltimore.

Statement of funded debt in detail:

First mortgage 6s, due in 1880	$400,000
First mortgage 6s due in 1890, indorsed by Baltimore City	200,000
Second mortgage preferred 6s due in 1895	600,000
Second mortgage 6s due in 1890, indorsed by Baltimore City	300,000
Second mortgage 6s due in 1900, indorsed by Washington County	300,000
Third mortgage 6s, indorsed by Baltimore City, due in 1900	875,000
Fourth mortgage city stock issued	1,000,000

To assist the speculation in Western Maryland stock, it was reported that some one was buying the stock to obtain control of the road. As we stated last week, Baltimore city and Washington County hold a majority of the stock, but we are now informed that it is not necessary for the city to hold any stock at all to control the road. They might sell every share of it and yet have entire control of the road. When the city of Baltimore issued the last $1,000,000 city stock to aid the Western Maryland Railroad, it was on the condition that the city should control the road and should appoint eight out of the thirteen directors. By an act of the Legislature of 1870 the number of directors in the Western Maryland Railroad was increased to thirteen, of which the city was given the power to appoint eight. If any one wants to control the stock, we think they can do so, but the city will always control the road, anyhow until her debt is paid.

Brooklyn Underground Railway.

Operations will, it is said, be commenced at an early day by the Brooklyn Underground Railway Company upon the construction of their road. A majority of the property owners on the line of Fulton street, beneath which the road is to be constructed, are said to have given their consent. In the Register's Office the president pro tem., Eugene D. Berri, has caused a map of the route to be filed. The line is to run from the terminus of the East River Bridge, along Washington street to the junction of Fulton street, Fulton to Flatbush avenue; Flatbush avenue to Malbone street in the town of Flatbush, where it will connect with the Brooklyn, Flatbush and Coney Island Railroad. A branch of the road will extend from Flatbush avenue to the entrance of Prospect Park, and along Ninth avenue to the Coney Island Railroad depot at Twenty-first street. The funds necessary for the work will, it is said, be forthcoming when required.

Elevated Railroad in Brooklyn.

The third Board of Rapid Transit Commissioners of Brooklyn have adopted a plan for the construction of an elevated railroad similar to the Third avenue line in this city. On most of the streets the structure will span the roadway from curb to curb. The rest of the roadway will be built on columns and partly cover each sidewalk. When it approaches the high ground between Greenwood Cemetery and Prospect Park it will run through a tunnel. The route will be Washington street to High street, along thence to Pearl, through Pearl street to Willoughby, Willoughby to Debevoise place, to and across DeKalb avenue to Fulton street, to Flatbush avenue, to the Long Island Railroad depot; from the latter point to Fifth avenue, along thence to Second street, through Second to Seventh avenue, to a point near Broxton street, where the road will cease to be elevated. The road will then pass through private property across Eighth, Ninth and Tenth avenues, Sherman and Prospect avenues and Twentieth street to Culver's Coney Island Railroad.

Commerce of New York.

The foreign imports at New York for the month of March, 1881, are officially stated as follows:

	1880.	1881.
Entered for consumpt'n	$25,443,771	$21,166,592
Do. for warehousing	10,115,827	8,449,640
Free goods	9,244,529	11,652,898
Specie and bullion	794,602	7,312,131
Total entered at port	$45,598,729	$48,580,761
Withdrawn fr. wareh'use	7,545,317	7,813,347

The foreign imports at New York for three months from January 1, were:

	1880.	1881.
Entered for consumpt'n	$66,124,600	$54,341,210
Do. for warehouseing	25,021,653	20,579,920
Free goods	32,872,800	31,275,623
Specie and bullion	2,642,214	12,626 630
Total entered at port	$125,661,267	$118,823,383
Withdrawn fr. wareh'se	21,441,451	22,205,211

The foreign imports at New York for nine months of the fiscal year, were:

	1880.	1881.
6 months ending Jan. 1	$266,228,601	$280,770,515
January	40,897,154	36,085,359
February	40,165,384	34,167 263
March	45,598,729	48,580,761
Total 9 mos	$392,889,868	$399,593,898
Deduct specie	81,385,385	83,221,166
Total mdse	$311,504,483	$316,372,732

The duties received at New York for nine months ending with February, were:

	1880.	1881.
6 months ending Jan. 1	$59,271,080 94	$69,593,542 80
January	11,960,677 78	10,572,559 15
February	12,251,602 24	11,217.766 87
March	14,469,557 65	13,122,964 03
Total	$97,955,918 61	$104,506,832 85

The exports from New York to foreign ports for the month of March, were:

	1880.	1881.
Domestic produce	$33,086,477	$34,492,683
Foreign free goods	216,068	1,250,188
Do. dutiable	323,914	547,814
Specie and bullion	1,612,713	1,804,122
Total exports	$35,239,172	$37,594,807
Do. exclusive of specie	33,626,459	36,290,685

The exports from New York to foreign ports for three months from January 1, were:

	1880.	1881.
Domestic produce	$81,104,711	$90,083,991
Foreign free goods	822,302	3,240,988
Do. dutiable	1,007,160	1,366,928
Specie and bullion	3,037,654	3,523,079
Total exports	$85,971,827	$98,214,986
Do. exclusive of specie	82,934,173	94,691,907

The exports (exclusive of specie) from New York to foreign ports for nine months ending with March, were:

	1880.	1881.
Six months ending Jan. 1	$197,760,586	$220,839,350
January	25,416,566	30,264,919
February	23,891,148	28,186,303
March	33,626,459	36,290,685
Total produce	$280,694,759	$315,581,257
Add specie	6,370,720	8,172,480
Total exports	$287,065,479	$323,708,737

Comfort and Safety on the Rail.

Among recent inventions for the comfort and security of passengers and employes of railroads are a time signal invented by William A. Knight and Orvy M. Shepard, of Evansville, Ind., which is operated by the wheels of a passing train in such a way as to display day or night signals, retain them in sight for a certain length of time and gradually change to different positions; a coupling attachment, which, by the aid of a steel bar with adjustable handle, permits the use of the link and pin without the necessity of the operator going between the cars, invented by T. C. Steward, of Chattanooga, Tenn., and a method of lighting car platforms and steps, invented by Winfield S. Rogers, a Pittsburg brakeman, which by means of a lens concentrates the light of an ordinary deck lamp on a corrugated concave mirror outside the door, which throws the light down upon the platform. The whole attachment can be applied for $2 per car.

The steamer Ida, built for the Maryland Steamboat Company, was launched from the shipyard of the Harlan & Hollingsworth Company at Wilmington, Del., on the 11th inst. Her dimensions are: length between perpendiculars, 190 feet; beam, 31 feet, making 51 feet over all; depth of hold, 10 feet. Her hull is of iron and is divided into four water-tight compartments. The machinery consists of a vertical jet condensing walking beam engine, cylinder 40 inches in diameter and 10 feet stroke, arranged with Stephens' cut-off. She will be provided with what are known as feathering water wheels. It is intended to have her completed by the 16th of May.

The directors of the Georgia railroad have leased that road to the owners of the South Carolina Railroad, consisting of Wm. M. Wadley, John H. Fisher, Moses Taylor Samuel Sloan and others, from April 1, 1881, and to run for ninety-nine years. The annual rental is $600,000 or 10 per cent on the capital stock of the Georgia Railroad and its bonded indebtedness. Messrs. Wadley & Co. deposit $1,000,000 in bonds as security. The lease is in the interest of the Louisville and Nashville Railroad and Central Railroad of Georgia.

An eastern syndicate proposes to build a railroad from Wheeling to Charleston, West Virginia, a distance of 180 miles, as soon as a local company with which it can contract is organized. The road is to be known as the Wheeling, Parkersburg and Charleston Railroad. It will be standard gauge and will connect at Charleston with the Chesapeake and Ohio Railway. The road will pass through the counties of Ohio, Marshall, Wetzell, Tyler, Pleasant, Wood, Jackson, and Kanawha.

The Wabash, St. Louis and Pacific Railroad has begun the encouragement of local passenger traffic by adopting cheap fares on a large scale. Rates from station to station have been reduced to 3 cents a mile, round trip rates 1⅓ or 2 cents per mile each way, and a sliding-scale adopted for parties traveling together by which twenty or more persons receive a discount of 25 per cent from these rates; fifteen to twenty, one of 20 per cent, and ten to fifteen of 10 per cent.

The Bessemer Syndicate, composed of the eleven Bessemer plants in this country, has purchased for $275,000 the Thomas-Gilchrist basic process for the dephosphorization of iron ores.

Railroad Earnings.

The earnings of the Grand Trunk Railway for the week ending April 2, were $228,424; same week last year, $203,498; increase $24,926; aggregate increase for 14 weeks, $140,901.

The earnings of the Chicago and Grand Trunk Railway for week ending April 2, were $28,735, an increase of $3,496 over those of the corresponding week last year.

The earnings of the St. Paul, Minneapolis and Manitoba Railway for week ending April 7, were $86,722 82; corresponding week last year, $82,886 47; increase, $3,836 35. The increase in earnings from Jan. 1 to April 7 over the same period last year was $158,786 94.

The earnings of the Denver and Rio Grande Railway for first week in April were, $104,668; corresponding week last year, $36,888; miles now operated 551; miles operated last year 337.

New York, Lake Erie and Western R. R.

The gross earnings, working expenses and net earnings of the New York, Lake Erie and Western Railroad Company for the month of February, 1880 and 1881, were:

	1880.	1881.
Gross earnings	$1,252,217 69	$1,425 765 22
Working expenses	909,633 94	1,059,160 24
Net earnings	$342,583 75	$369,604 98

—showing an increase in gross earnings of $173,547 53, with an increase in working expenses of $149,526 30, making the increase in net earnings $24,021 23.

For the five months ending with February 1880 and 1881, the gross earnings, working expenses and net earnings were:

	1879 & 1880.	1880 & 1881.
Gross earnings	$7,176,376 21	$8,293,288 27
Working expenses	4,860,288 45	5,491,891 86
Net earnings	$2,316,087 76	$2,801,846 41

—showing an increase in gross earnings of $1,116,862 06, in working expenses of $631,603 41 and in net earnings of $485,258 65.

The circular of the Mercantile Agency of R. G. Dun & Co. shows the number of failures in the United States during the first three months of 1881 to be 1,761, with liabilities amounting to $24,447,250, against 1,432 failures and $12,777,074 liabilities same time in 1879. The increase this year is attributed partly to the severe weather in the Western and Northern States, and the unfavorable condition in the Southern States, and the attending hindrance to business and agricultural operations.

The report of the Auditor of the State of Delaware shows the receipts for the year ended January 10, 1881, to have been $134,239; expenditures, $123,158; balance in the treasury available for State purposes, $11 081; amount in the treasury belonging to oyster fund, $24,589; amount in treasury belonging to school fund, $11,840; total in treasury, $47,461.

Mr. James L. Randolph, chief engineer of the Baltimore and Ohio railroad, has placed two additional corps of engineers in the field, who have commenced surveys from Port Deposit for the new road between Baltimore and Philadelphia.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 14, 1881.

Money on call has been in good supply at 4@6 per cent, 5 per cent being the ruling rate on stocks, few loans to the stockbrokers having been above 5 per cent, and many as low as 4 per cent, which was the closing rate. Time money is pressed on borrowers at 4@4½ per cent. Prime mercantile paper is 5@5½ per cent.

The posted rates for prime bankers' sterling are 4.82@4.84½. The actual rates are 4.81@¼ and 4.83@¼. Cables transfers are 4.83½@4.84. Prime commercial bills are 4.79¼@¾.

The Tennessee Legislature adjourned on the 7th inst., having passed all the necessary laws to provide for the payment of interest on the State debt.

The directors of the Cincinnati Southern Railroad have called a meeting of the stockholders for May 3 to vote on the proposition to increase the capital stock from $2,000,000 to $5,000,000.

The Secretary of the Treasury issued on the 11th inst. a circular informing the holders of maturing six per cent bonds of July and August, 1861, and March 3, 1868, that said bonds will be paid, principal and accrued interest, on the 1st of July next, and that after that date interest on said bonds will cease, unless the holders thereof should elect to have them continued at the rate of 3½ per cent during the pleasure of the government after that date. A separate circular was also issued on the same day calling in for redemption on the 1st of July next the outstanding six per cent bonds of March 2, 1861, known as

the "Oregon War Debt;" no option being given the holders to continue them after that date. These bonds, which amount to $688,200, are distinguished from the regular 6s of 1881 by having the words "Oregon War Debt" printed on their face. The text of the circulars is as follows:

TREASURY DEPARTMENT,
WASHINGTON, D. C., April, 11, 1881.

By virtue of the authority conferred by law upon the Secretary of the Treasury, notice is hereby given that the principal and accrued interest of the bonds hereinbelow designated will be paid at the Treasury of the United States, in the City of Washington, D. C., on the 1st of July, 1881, and that the interest on said bonds will cease on that day; provided, however, that in case any of the holders of the said bonds shall request to have their bonds continued during the pleasure of the Government with interest at the rate of 3½ per centum per annum in lieu of their payment at the date above specified, such will be granted if the bonds are received by the Secretary of the Treasury for that purpose on or before the 10th day of May, 1881, viz:

Six per cent bonds, acts of July 17 and August 5, 1861: Coupon bonds, $30,706,050; registered bonds, $109,838,600; total, $140,544,650. Six per cent bonds of the act of March 3, 1863: Coupon bonds, $9,545,500; registered bonds, $45,600,250; total, $55,145,750. Aggregating $195,690,400, and being the entire amount issued under the above mentioned acts which remains outstanding.

The request above mentioned should be in form substantially as herewith prescribed; and upon the surrender of the bonds, with such request, the Secretary of the Treasury will return to the owners registered bonds of the same loan with the fact that such bonds are continued during the pleasure of the Government, with interest at the rate of 3½ per cent per annum, stamped upon them, in accordance with this note.

Upon the receipt of bonds to be continued as above provided, the interest thereon to July 1, 1881, will be prepaid at the rate the bonds now bear, and after that day the semi-annual payments of interest on the continued bonds will be made by checks from the Department as in the case of other registered loans. All bonds whether intended for payment or to be continued, should be forwarded to the "Secretary of the Treasury, Loan Division," with a letter of transmission setting forth the purpose for which they are transmitted, and if to be continued they must also be accompanied by the request above referred to.

Registered bonds for redemption or to be continued should be assigned to the Secretary of the Treasury for redemption or continuance as the case may be, and when parties desire checks in payment of registered bonds to be drawn to the order of anyone but the payee, they should assign them to the "Secretary of the Treasury for redemption on account of—(here insert name or names of person to whose order the check is to be made payable)." The Department will pay no expense of transportation on bonds received under the provisions of this circular, but the bonds returned will be sent by prepaid registered mail unless the owners otherwise direct.

WILLIAM WINDOM, Secretary.

The following is the circular, relative to the payment of United States six per cent bonds, act of March 2, 1861 ("Oregon War Debt"):

WASHINGTON, D. C., April 11, 1881.

Notice is hereby given to the holders of United States 6 per cent bonds, issued under the Act of March 2, 1861, and commonly known as the "Oregon War Debt," that said bonds, with the accrued interest thereon, will be paid at this Department on July 1, 1881, and that the interest on said bonds will cease on that day.

These bonds are in denominations of $50, $100 and $500, and bear the inscription "Oregon War Debt."

All bonds forwarded for redemption should be addressed to the "Secretary of the Treasury, Loan Division, Washington, D. C.," and should be assigned to the "Secretary of the Treasury, for redemption." Where parties desire checks in payment for bonds drawn to order of anyone but the payee, they should assign them to the "Secretary of the Treasury, for redemption for account of —— (here insert name of person or persons to whose order the check should be made payable)."

WILLIAM WINDOM, Secretary.

The Homestake Mining Company has declared its regular monthly dividend (No. 32) of 30 cents per share for March, payable on the 25th inst., at the office of Wells Fargo & Co., 65 Broadway. Transfers close on the 20th inst.

Under the new arrangements recently effected between the Pennsylvania and the Baltimore and Ohio Railroad Companies the rate of fare between New York and Washington have been reduced from $7 50 to $6 50 ; between New York and Baltimore from $5 20 to $5 50 ; between Philadelphia and Washington from $4 50 to $4. The fare between Philadelphia and Baltimore remains as it was, $3.

In the United States Circuit Court at St. Louis, on the 1st inst., Judge McCrary gave a decision in the case of the old Pacific Railroad Company against the Missouri Pacific Railroad Company, C. K. Garrison et al., which sustains the finding whereby the third mortgage was foreclosed and the sale of the road made.

The contracts for building the Buffalo, Pittsburgh and Western Railroad, being a proposed new line to Buffalo, were signed on the 2d inst. The road is to be completed about October 1. The New York and Pennsylvania Construction Company are the contractors.

The Wabash Railway Company has acquired the Havana, Rantoul and Eastern Railroad, a narrow gauge line, seventy-six miles long, running from Leroy, Ill., to West Lebanon, Ind., and it will be incorporated into the Wabash system at once.

John H. Davis & Co.,

Bankers and Brokers,

17 Wall St., New York.

Interest allowed on Temporary and Standing Deposits.

Stocks and Bonds bought and sold on Commission only, either on Margin or for Investment.

Sheldon & Wadsworth,

BANKERS,

SPECIAL NOTICE.—The "Imhaeuser" referred to by Buerk is the late firm of Imhaeuser & Co., consisting of three persons, and has nothing whatever to do with this firm of E. Imhauser.

Send for circulars to E. IMHAUSER, 212 Broadway, New York; P. O. Box, 2875.

Patent Stretched and Patent Riveted Short Lap

BELTING.

Our Belts are made from pure Oak Tanned Butts, and of the heart or solid part only. No part of the shoulder being used. Any one not familiar with Belt making can readily detect this by the shortness of the lengths and laps. Long laps are made including the shoulder or thinner and softer part of the Leather, causing the Belt to be, in its enduring qualities, no better than its poorest or thinnest parts

Our Belting is warranted to run straight and maintain an even bearing on the pulleys, and sold under the fullest Guarantee.

J. B. HOYT,
D. B. FAYERWEATHER,
HARVEY S. LADEW.

LEATHER BELTING.

Made exclusively from Messrs. J. B. Hoyt & Co.'s Best Oak Butts—shoulders all cut off, only solid leather used—short lengths and short laps—fully warranted.

Rubber Belting and Hose and Packing at lowest prices.

AMERICAN RAILROAD JOURNAL,

PUBLISHED WEEKLY BY THE

AMERICAN RAILROAD JOURNAL COMPANY,

JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.

The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.

The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.

The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.

The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.

The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.

The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.

☞ Sample Copies sent on Application. Address

AMERICAN RAILROAD JOURNAL COMPANY,
NEW YORK.

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

SUNDAY AND THE RAILROADS.

One of the ablest presentations of the question of running Sunday trains that has yet been given to the public from the clergy, was contained in a sermon delivered by Rev. T. T. Munger, on Fast Day, April 7th, at the Congregational Church, North Adams, Mass. Mr. Munger, who is widely known not only as a preacher but as a successful author, is one of New England's eminently practical men and his ideas spring from a mind in no manner narrowed by petty bigotry, but instead are the product of a well balanced, sound and healthy liberality. His views on the Sunday question are those which in the main are endorsed by the leading railroad men of the country, who with him would rejoice at a general cessation of Sunday work on the railroads and would encourage any worthy means tending to make it possible by any wise adjustment of necessities, public demands and transportation requirements. Perhaps the sermon may have been inspired in a measure by local influences, for North Adams, known as the "Tunnel City," being near the Hoosac Tunnel and growing rapidly into an important railroad center, has heard much of the Sunday train question, which of late has been agitated considerably in Massachusetts. What is asked for up there by the tunnel roads, however, is not so much an increase of Sunday liberty as less discrimination in favor of other roads. The tunnel roads have asked for only such privileges as by the most scrupulous must be considered actual necessities; privileges applying to important and needed through trains. By the way, Mr. Munger's allusion, in the quotations below, to the manner in which three great roads running out of Chicago manage to do away as much as possible with Sunday work, is an illustration of the many merits that are to be found after all in the poorly understood pooling system. We make the following extracts from the sermon:

"The determining factor in American society is the railroad. It has made the country what it is; it determines the forms of business; it imparts its essential character to society; it stands at the head, and governs the methods and details of every occupation. The cotton-spinner in New England, the cattle-herder in Colorado, the farmer in Iowa, the wood-chopper in Maine, the capitalist in the city, the operative in every mill—all receive their direction—the character and complexion of their lives from the railroads. I do not think it an exaggeration or extravagance of speech, to say that the destiny of the country lies in the railroad system. It is our largest factor and the largest always dominates.

* * * * The system of long routes and through transit seems to render it inevitable that trains should run on Sunday. A company of business men leave New York on Saturday for Chicago, or St. Louis, or Omaha; shall they stop over Sunday on the summit of the Allegbanys in mid winter? A freight train of live stock leaves Chicago the latter part of the week; shall it stop twelve or twenty-four hours where Sunday overtakes it? A train of perishable fruit, whose value consists in reaching the market within thirty hours—shall it not start on Saturday? Providence, having ripened the fruit on Saturday, would seem to say yes, it must go then or not at all. Milk is a necessity; shall no milk trains be run on Sunday? Great freight trains, manned by five or six men only, are on long routes; shall they lie still on Sunday wherever they are, requiring still the supervision of a part of the force? Shall friend summoned to friend in dying sickness, not have the means of going?

"These are hard questions to answer, still not so hard as they are made to appear. And strange as it may seem, the answers most favorable to an observance of the Sabbath come from railroad managers. I do not mean second-rate and third-rate and fourth-rate railroad men, the men who echo the demands of the stockholders and of ambitious presidents of rival roads; but the large-minded, comprehensive, far-seeing and in-seeing managers of our great roads. I do not say that these men would do away with all running of trains on Sunday, but that they favor its reduction to the lowest possible amount; they are opposed to Sunday traffic and Sunday trains with very severely determined exceptions. They see no necessity for them; they see how the seeming difficulties may be overcome. They understand the necessity of a day of rest. Standing close to the matter and viewing it from within, they perceive the insidious evil of an occupation that has no rest or cessation in it. They do not believe it is economic; they understand well that it engenders a social, and physical and moral demoralization that is hurtful and dangerous. This class of railroad men of whom I speak do not believe in running trains on Sunday. One of the ablest railroad managers in the country, one whose eyes have never been blinded by the millions of capital behind him, wrote to me recently, and wrote as a railroad man and not as a moralist, 'What a blessed thing this Sunday rest is! It certainly is not one of the mistakes of Moses!' * * * * * *

"The question of through passenger trains between the great centers of business on the Atlantic coast and the Mississippi valley, bring the severest test to the principle of Sabbath observance. Shall a three days' journey involve a stop of twelve hours? Shall the mails stop, and cease to start on the Sabbath? Is there no plea in the fact of the frequent summons to sick friends or children? I drive to the next town to see my dying friend; shall I not ride to the next city or next State? The contraventions are so great, the necessity and mercy often so evident, that I see no way but to acquiesce in an arrangement that otherwise would take from the business of the world more than a seventh of its time. But this should be done not as in violation of the Sabbath, but as a work of necessity, done only under a sort of compulsion, its exception and the restrictions laid upon its methods being an indorsement of the rule of Sabbath rest. It is still a question, however, if the gain to society would not be greater is even this were not allowed. From Chicago there are three great routes to Omaha. Pooling their earnings, only one of the roads in turn sends out a train on Sunday, and that simply in view of the San Francisco travel. Such a fact as this is indicative of the minds of practical railroad men; they hate the whole Sunday business."

Iron and Steel Industries.

A bulletin has been issued from the Census Bureau at Washington on the iron and steel industries of the United States, which shows the number and capacity of the blast furnaces, rolling mills, steel works, forges and blomaries in the United States at the close of the census year, May 31, 1880, to be as follows:

Blast furnace establishments, 490; completed blast furnaces 681; rolling mill establishments, 324; single puddling furnaces, each double furnace counting as two single furnaces, 4,319; rotary puddling furnace (Sellers'), 1; Danks' puddling furnaces, 19; hammers in iron rolling mills, 289; heating furnaces, 2,105; trains of rolls in iron rolling mills, 1,206; nail machines, 3,775; steel works, 73; Bessemer steel converters, 24; open hearth steel furnaces, 87; pot holes for crucible steel, 2,691; trains of rolls in steel works, 136; hammers in steel works, 219; forges and blomaries, 118; forge and blomary fires, 495; Siemens' rotator, 1; hammers in forges and blomaries, 141; daily capacity of blast furnaces in net tons, 19,248; daily capacity of rolling mills in net tons, 16,430; daily capacity of Bessemer steel converters in net tons, 4,467; daily capacity of open hearth steel furnaces in net tons, 827; daily capacity of crucible steel works in net tons, 445; daily capacity of forges and blomaries in net tons, 520.

The whole number of establishments in 1880 was 1,005. In 1870 it was 808. The percentage of increase in the ten years was 24.38. The size and capacity of the establishments were, however, much greater in 1880 than in 1870. As the capacity of blast furnaces only was given in 1870, no complete data are available for a comparison of the capacity of all the works in the two periods. The daily capacity of the blast furnaces in 1870 was 8,357 tons, and in 1880 it was 19,248 tons, an increase of 130.32 per cent.

The whole amount of capital invested in the iron and steel industries of the United States in 1880 was $230,971,884; in 1870 it was $121,772,074; increase, $109,199,810, or 89.68 per cent.

In 1870 there were twenty-five States engaged in the manufacture of iron and steel. Of these South Carolina does not appear in the statistics of 1880. Its total production in 1870 did not aggregate 500 tons. The iron industry in this State has been practically abandoned.

Since 1870 three States have for the first time engaged in the manufacture of iron, namely, Colorado, Kansas and Nebraska; also two Territories, namely, Utah and Wyoming. Utah did not, however, make any iron in 1880. It made a small quantity in each of the years 1874, 1875 and 1876, and it will make a larger quantity in the near future.

California and Washington Territory have made arrangements since the close of the census year 1880 to manufacture iron.

New Hampshire made iron many years ago, but it does not appear in the statistics for 1870. It appears in the tables for 1880.

Oregon and Texas each built a blast furnace in the decade preceding the census year 1870, but they did not make any iron in that year. They appear, however, in the statistics of production for 1880.

The District of Columbia once had a blast furnace in operation, but in 1870 it had no iron industry whatever. In 1880 the United States Government owned and operated a small rolling mill at the Washington Navy Yard.

Minnesota appears in 1880 for the first time among iron manufacturing States, but its statistics relate only to the preparations that have been made to embark in the business.

Thirty States, the District of Columbia and Wyoming Territory actually made iron in 1880. Twelve States made over 100,000 tons each in 1880.

Pennsylvania, which for more than a hundred years has been the leading iron-producing State in the Union, made in 1870 a fraction over 50 per cent of the total product, and in 1880 it made a fraction over 49 per cent. At both periods its prominence in the production of iron and steel was virtually the same. From 1870 to 1880 it increased its production 97 per cent., or from 1,836,808 tons to 3,616,668 tons, while the whole country increased its production 99 per cent, or from 8 655,215 tons to 7 265,140 tons.

Ohio was the next State in prominence in 1870, and it held the same rank in 1880. In the former year it produced 449,768 tons, and in 1880 it produced 930,141 tons—an increase of 107 per cent.

The third State in prominence in 1870 was New York, and it maintained this rank in 1880, but its growth fell far below that of its two sister States above mentioned. In 1870 it produced 448,257 tons, and in 1870 it produced 598,300 tons—an increase of 33 per cent.

New Jersey was fourth in rank in 1870, producing 115,262 tons, but it was fifth in 1880, although in that year it produced 243,860 tons, an increase of 112 per cent.

The fourth place in 1880 was taken by Illinois, which produced in 1870 only 25,761 tons, while in 1880 it produced 417,967 tons, an increase of 1,522 per cent. Maryland ranked fifth in 1870, producing 95,424 tons in that year, while in 1880 it produced only 110,934 tons, an increase of 16 per cent, causing it to drop to the twelfth place.

The sixth State in rank in 1870 was Missouri, with a production of 94,890 tons, which was increased to 125,758 tons in 1880, or 32 per cent, giving it the tenth place in that year.

Michigan increased its production in the ten years from 86,679 tons to 142,716 tons, or 65 per cent, taking the eighth place in rank in 1880.

Wisconsin increased its production from 42,234 tons to 178,935 tons, or 324 per cent, giving it the sixth place in 1880.

Indiana produced 64,148 tons in 1870 and 96,117 tons in 1880, an increase of 50 per cent.

Of the New England States, Massachusetts shows the greatest growth in the ten years, increasing from 86,146 tons in 1870 to 141,321 tons in 1880, or 64 per cent., placing it ninth in rank.

Astonishing progress was made in the ten years in several Southern States. West Virginia increased its production from 72,337 tons to 147,487 tons, or 104 per cent., giving it the seventh place in 1880. Alabama increased from 7,060 tons to 62,986 tons, or 792 per cent. Georgia increased from 9,634 tons to 35,152 tons, or 265 per cent. Tennessee increased from 34,305 tons to 77,100 tons, or 125 per cent. Kentucky increased from 86,732 tons to 123,751 tons, or 43 per cent, placing it eleventh in rank in 1880. Delaware increased from 8,307 tons to 33,918 tons, or 308 per cent. Virginia increased from 37,836 tons to 55,722 tons, or 47 per cent.

All the States which made iron or steel in 1870 increased their production in 1880, except Maine, North Carolina and South Carolina.

The Central and Southern Pacific Railroads.

The Central and Southern Pacific Railroad Companies, by their agents and auditors, appeared before the State Board of Equalization at Sacramento, Cal., on the 6th inst., and filed sworn statements by the Secretaries of the companies, of the values of property, and supported the same by proofs, by the testimony of Charles Cadwalader, C. A. Grow and E. B. Ryan, and by filing bills of cost of locomotives. The statements were as follows:

Southern Pacific Railroad—Length of road in California, 711.51 miles; in San Francisco, 7.36; San Mateo, 25.10; Santa Clara, 59 50; Santa Cruz, 2.15; San Benito, 17.65; Monterey, 49.28; Fresno, 17.93; Tulare, 61.98; Kern, 117.83; San Bernardino, 54.60; San Diego, 158.85. Rolling stock, 48 locomotives, $249,600; sleeping car, $3,000; 43 passenger cars, $51,600; 31 emigrant cars, $31,000; 13 baggage, express and mail cars, $10,400; 6 caboose cars, $4,500; 563 box freight cars, $225,200; 367 flat freight cars, $91,750; 223 dump, hand, section and all other cars, $11,450; total, $678,500. Franchise, 711.51 miles; [illegible]; roadway and roadbed, $884,518 50; rails, $3,412,402 95; rolling stock $678,500. Grand total, $4,975,446 45. Total value per mile, $6,932 79. Annual gross earnings for entire railroad for year ending December 31, 1880, $1,018,844 (all in California).

Central Pacific Railroad—Length of railroad in California, 602 22 miles; San Francisco, 4; Alameda, 83 52; Santa Clara, 8 50; San Joaquin, 56.75; Sacramento, 41; Placer, 112.75 Nevada, 30.25; Sierra, 2.15; Yuba, 15.87; Sutter, 10; Butte, 45; Tehama, 40 54; Shasta, 18.80; Stanislaus, 22.63; Merced, 36.75; Fresno, 61.06; Tulare, 12 65. Rolling stock, 112 locomotives, $634,400; 12 sleeping cars, $36,000; 87 passenger cars, $121,800; 65 emigrant and smoking cars, $65,000; 32 baggage, express and mail cars, $25,600; 44 caboose cars, $30,800; 1,629 freight box cars, $651,600; 1,290 flat freight cars, $322,500; 360 dump, hand section and all other cars, $25,800; total, $1,913,500. Franchise, $25; roadway and road bed, $1,013,019 50; rails, $3,418,421 60. (Rolling stock, $1,913,500.) Grand total, $6,344,966 10. Annual earnings for the year to January 1st, 1881; gross earnings for entire railway, 2,654.95 miles, $20,508,112 88. Proportionate annual gross earnings of the railroad in the State $12,119,482 69.

California Pacific Railroad—Length of road, 112.50 miles. Rolling stock, $132,200; franchise, $25; roadway and roadbed $156,161 25; rails, $466,180; grand total, $754,566 25. Annual gross earnings to March, 1881, and proportionate earnings (leased to Central Pacific Railroad and included in Central Pacific Railroad statement.)

Sacramento and Placerville Railroad—Length of road, 48 50 miles. Rolling stock, $47,400; franchise, $25; roadway and bed, $56,195 05; rails, $138,710; grand total, $242,330 05. Annual gross earnings to March, 1881, $124,800 45—all in California.

San Pablo and Tulare Railroad—Length of road, 46 miles. No rolling stock; franchise, $25; roadway and bed, $61,614 30; rails, $230,920; grand total, $292,559 30. Earnings in Central Pacific Railroad statement, as it is leased to that company.

Northern Railway—Length of road, 114.30 miles. No rolling stock. Franchise, $25; roadway and bed, $162,019 25; rails, $573,786; grand total, $735,830 25. Earnings in statement of C. P. R. R.

Stockton and Copperopolis—Length of road, 44.63 miles. Rolling stock, $32,900; franchise, $25; roadway and bed, $48,292; rails, $166,916 35; grand total, $248,133 35. Earnings in statement of C. P. R. R.

Amador Branch—Length of road, 27 miles. No rolling stock. Franchise, $25; roadway and bed, $29,439 50; rails, $112,860; grand total, $142,324 50. Earnings in statement of C. P. R. R.

Contracts were awarded in Knoxville, Tenn., on the 19 inst., to five companies out of the thirty-nine which bid on the Knoxville and Ohio Railroad to complete it to the Kentucky State line. Eight sections were awarded to J. M. Condon & Co., of Knoxville; four to J. D. Offutt, of Tennessee; two to Martin Shea, of Knoxville; two to Myer, Hay & Co., of Shelbyville, Ky.; and two to J. L. Offitt, of Knoxville. Work will begin immediately and will be pushed with all possible speed.

The Newcastle and Franklin railroad, thirty-six miles long, was sold under the hammer at Newcastle, Pa., on the 13th inst., for $775,000, Thomas P. Simpson, representing the Buffalo, Pittsburg and Western Railroad, being the purchaser.

Railroad Earnings.....441

New York, Saturday, April 23, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

AT the opening of the Monetary Conference at Paris, Tuesday, M. Magnin the French Minister of Finances was elected president of the Conference, on the motion of Mr. Evarts. The opening addresses indicate an intention of considering in a liberal spirit all plans brought before the Conference.

THE prospects for the adoption of the proposed amendment to the State Constitution abolishing tolls on the Erie Canal are not promising at the present writing. There seems to be a prevailing belief at Albany and throughout the State that what New York needs for the maintenance of her commercial supremacy, or as much of it as depends upon navigation, is not the abolishment of the present low tolls but rather a judicious expenditure in improvements upon the canal that should make a fair toll fully justifiable.

A COMPANY has issued its prospectus in London which proposes to establish a fast steamship line between New York and Milford Haven, Wales, with steamers of sufficient speed to make the voyage in seven days. As the main reliance will be upon passengers and high priced freight transportation the project seems a somewhat venturesome one, but there are good reasons after all in these days of rapid transit and increasing ocean travel to warrant a belief in its success. The name of the new organization is the Atlantic Express Steam Navigation Company.

THE agricultural development in the Northwest, which has been so surprising during the past few years and which now appears to have created among settlers an excitement about wheat growing in Dakota similar to what has been witnessed in "mining fevers" has come from the liberality and enterprise of railroad managers. The Northern Pacific Railroad Company has not only sold land on long and easy terms with small payment down making it possible for almost any one to purchase, but also is bearing a generous part of the expense of building side tracks, placing the rails where a roadbed and ties are furnished in any section desired within four or five miles of its main line. This encouragement has led men from all departments of business to become directly or indirectly interested in farming, and in many cases with most flattering results.

As the annual report of the State Engineer on the railroads of New York, just issued, was the first one made since the passage of the Hepburn bill last year, (the additional returns demanded by which it was asserted would make revelations of such great value and interest to legislators) there is naturally a little curiosity to know how carefully the facts obtained by the State Engineer have been studied at Albany. The Herald correspondent remembering how much had been asserted in this direction and thinking, since railroad legislation is again such a prominent topic at the Capitol this season, that a test of the utility of the extra requirements would be apparent now, went to the State Engineers' office last week and inquired how many members of the Legislature had requested to inspect the returns or any of them. The answer he received was "Not one."

THE fourteen questions bearing on the subject of the management of railroads, propounded by the New York Chamber of Commerce through the means of a widely circulated letter, have received several able replies. They have given a good opportunity for the presentation of the varied phases of the railroad question and inasmuch as they have been fully discussed the public will be benefitted through having been better informed than ever before as to the principles of traffic and the arbitrary natural laws which govern railroad managers in the performance of their duties. Among the most able replies elicited is that from E. P. Alexander, Vice President of the Louisville and Nashville Railroad Company. He has gone at length into the subject and has given an ample supply of authentic illustrations to support his position, in which he asserts the true policy of the country to be, "to allow in all industries the greatest possible freedom of individual action consistent with the stability of society and the security of life and property." He makes a point of especial interest locally when he calls attention to the intense rivalry existing between several of the most important seaport cities in their efforts to draw export trade to themselves, and asks the Chamber of Commerce of New York if it is prepared to take all power away from the railroads which work in New York's interest more directly, and to have any three men invested with the power to determine what the comparative rates shall be from the West to each rival city.

Railroads of Illinois.

There were 9,294 miles of railroad track in Illinois in 1880, at the close of the year for which the State Railroad Commissioners made up their recently published report, dated in December. This includes main line, double tracks and sidings. The amount of stock held in the State is given in the report as $7,841,700, being $638,481 less than in 1879. The issue of stock per mile averaged for all the roads $22,257, varying from $750 per mile the lowest, to $69,400 the highest. The total funded and floating debt and capital stock reported for 1878 was $704,784,082, being $16,279 per mile for roads reported; the total reported for the year 1880 was $759,320,465, giving an average of $41,147 16 per mile for roads reported. The construction and equipment account shows the average cost per mile to be $40,309. The highest average cost per mile of standard roads reporting in that State is given in the report of the Commissioners as being the Michigan Central $126,389 and the lowest that of the Indianapolis, Decatur and Springfield $10,670.

During the year only 67.37 miles of new road were added to old lines, 64.37 to the Illinois Central and 3 to the Chicago, Milwaukee and St. Paul, while on new lines there were completed 279.37 miles. The equipment of rolling stock is reported for 1880, as being: locomotives 3,952, passenger cars 2,643, freight cars 100,818, being an increase in those departments of 446, 285 and 18,304 respectively. The whole number of feet of bridges built in the State was 9,921, the number of bridges being 48 of which one-half were of iron. 44 new stations were built and 424 miles of fencing. That an army of men and an army of no small dimensions, is required in the working of the gigantic railroad enterprises of Illinois, is shown from the fact that the employes of the railroads reporting there number 94,561, and their pay amounts to $49,427,729 72; of this number it is estimated that 40,650 are employed in the State, receiving $21,250,000.

The gross earnings from all sources reported by 50 organizations, the same number as the previous year, were $140,949,675 63, for 1880

as compared with $109,877,864 for 1879. The net income for 1880 was a little over 30 per cent greater than in 1879. The above refers to railroads reporting in Illinois, but of course not to operations within the State. The gross earnings in Illinois of 48 roads were $48,461,-221, as compared with $41,189,320 in 1879. Twelve roads reported dividends in 1880 amounting to $25,932,737 57, while the same roads reported in 1879 $14,903,477. Only five roads reported losses in 1880. A gradual lowering of rates has taken place during the past six years until now the average in Illinois is 1.38 cents per ton per mile. By the reduction of rates as compared with those of the previous year there was saved to the shippers something over $14,000,000; a saving that was made possible only by the skillful management of railroad men and the favoring conditions of general business.

Organization.

The Far Rockaway Beach Railroad Company filed articles of incorporation at Albany on the 15th inst., the capital being $50,000, and the length of the road one mile and a half.

The Toledo, Delphos and Burlington Railway Company, branch line, with termini at Dayton and Lebanon, Ohio, has filed a certificate of incorporation with the Secretary of State at Columbus.

At the annual meeting of the stockholders of the Sutro Tunnel Company, held in San Francisco on the 6th inst., the following Trustees were elected: Charles W. Brush (President), William Irvine (Vice-President), F. F. Low, David Cahn, Hugh Marshall, William Johns and Joseph Aron; Treasurer, Lazard Freres; Secretary, Pelham W. Ames; Superintendent, C. C. Thomas.

The following are the officers of the Mexican National Construction Company: president Walter Hinchman, treasurer Wm. M. Spackman, assistant treasurer John Dougherty, secretary W. W. Nevin, general manager G. Clinton Gardner, purchasing agent, A. R. Roberts. The general offices are at 17 Cortlandt Street, New York.

Articles of incorporation have been filed in the office of the Secretary of State of Colorado of the Silver Cliff and Rosita Railway Company. The capital stock is $150,000, divided into shares of $50 each. The directors are W. I. Adams, F. H. Denman, F. E. Morse, D. D. Miller and A. B. Tuttle. The road will run from the terminus of the railroad at Silver Cliff to Rosita.

The directors of the East River Bridge and Coney Island Steam Transit Company, elected on the 18th inst., are: A. R. Culver, H. W. Sage, E. C Litchfield, A. C. Washington, Charles Garlichs, Edward W. McGinnis, and Edward H. Litchfield. The officers are: President, A. R. Culver; Secretary and Treasurer, A. C. Washington. The Executive Committee is composed of Messrs. Culver, H. W. Sage, and E. C. Litchfield.

At the annual meeting of the Cincinnati, Wabash and Michigan Railroad Company, held in Wabash, Ind., on the 13th inst., the following Board of Directors was elected: H. B. Payne, J. H. Wade, William Bingham, C. P. Leland and W. S. Jones, all of Cleveland, O.; J. H. Defrees, Goshen, N. Beckly, Elkhart; C. Cowgill, Wabash, and A. G. Wells, Marion, Ind. John H. Wade was elected President and Treasurer. It was decided to extend the road from Goshen north via Elkhart to Benton Harbor, Mich. and from Anderson south to Knightstown. Work will be commenced at once.

A certificate of incorporation has been filed in the office of the Secretary of State of California of Presidio and Ferry Railroad Company of San Francisco, to operate a railroad from East and Market streets to the Presidio Reservation by means of compressed air and other motive power. Length of road, seven miles. Directors, A. S. Hallidie, Albert Miller, A. W. Bowman, J. G. Kittle, James Moffitt, Robert Watt, N. J. Brittan. Capital stock, $500,000, in 5,000 shares of $100 each.

Articles of incorporation of the Chicago, Decorah and Minnesota Railway Company have been filed in Decorah, Iowa. The authorized capital is $10,000,-000. The incorporators are: James H. Eastman, C. E. Dickerman, A. Bradish, J. M. Green and others, of Decorah; William Larabee, of Fayette County, and E. H. Williams, of Clayton County. It contemplates building a railroad from Decorah to connect with the Burlington road at Pottsville and an extension of the same road northward from Decorah.

There have been filed with the Secretary of State of California articles of incorporation of the Eastern Quicksilver Company of San Francisco. Directors, T. A. Mudge, J. T. Coe, B. W. Mudge, C. C. Fisher, F. A. Berlin. Capital stock, $200,000, in shares of one dollar each. Duncan Hill Tunnel Mill and Mining Company of San Francisco. Directors, Samuel Linkton, Wm. G. Crandall, L. P. Drexler, J. R. Crandall, E. W. Roberts. Capital stock, $250,000, in shares of five dollars each.

Amended articles of association have been filed at Albany, of the New York, Lackawanna and Western Railroad Company. According to these the road is to begin at Binghamton, run through the counties of Broome, Tioga, Chemung, Steuben, Livingston, Wyoming, Genesee and Erie to Buffalo, and connect with the Suspension Bridge, with a branch from the main line through Livingston and Monroe counties to Rochester. The whole length of the road is to be 300 miles.

The directors of the Ohio and West Virginia Railroad Company, recently elected, are: Geo. C. Benham, Wm. G. Deshler, D. J. Gray, Wm. Greene, Henry Miller, Orland Smith, Charles Parrot, Samuel Thomas, C. C. Walcutt, Jas. A. Wilcox, Geo. McQuigg, J. A. Hamilton and P. W. Huntington. The officers are: President, M. M. Greene; Vice President, Orland Smith; Secretary and Treasurer, W. M. Greene. The road is reported in a flourishing condition with good business.

Articles consolidating the Chicago and Milwaukee, the Milwaukee and Madison, and the Sheboygan and Western Railway companies were filed with the Secretary of State of Illinois on the 15th inst. The name of the new organization is the Chicago, Milwaukee and Northwestern Railway Company. The capital stock of the new company is that authorized by law for its three companies consolidated. The first Board of Directors are Albert Keep, Marshall M. Kirkman, Martin L. Sikes, Augustus Schell, Marvin Hughitt, Jos. B. Redfield, Wm. L. Scott, Charles C. Wheeler and James H. Howe. The consolidation is in the interest of the Chicago and Northwestern Railway Co.

A Bankers and Merchants' Telegraph Company has been organized and incorporated under the laws of New York. The capital stock of $1,000,000, is said to be all subscribed by bankers and merchants, principally of New York, Philadelphia and Boston. The special business of the company will be to transmit messages for the mercantile trade. Charters have also been obtained in New Jersey and Pennsylvania. The company will operate twelve wires from Boston to Washington, running through New York, Philadelphia and Baltimore. Mr. W. M. Maris, of Maris & Smith, bankers, of Philadelphia, is president of the new company, and G. S Mott general superintendent.

Articles of consolidation of the Chicago and Rensselaer and the Chicago and New York Railway companies under the name of the Chicago and New York Railway Company with a capital of $5,000,000, were filed with the Secretary of State of Illinois on the 15th inst. The first Board of Directors of the new company are William C. Kibbe, R. S. Higgins, E. P. Cowles, John H. Gutches and Jas. E. Abbott, who are the officers in the order named. The principal office is in Chicago. The Chicago and New York Railway Co. and the Continental Railway Co, under the name of the Continental Railway Company, ware also consolidated with the same combination. These consolidations were effected in June, 1873, but never filed with the Secretary of State until now. The roads run from Chicago into Indiana.

Personal.

Robert S. Brown has been appointed Louisville agent of the Ohio and Mississippi Railroad, succeeding Chas. B. Chapman, deceased.

The Lombard and South Street Railway Co., Philadelphia, have elected John B. Parsons, formerly of Salisbury, Md., president.

H. M. Hoxie, of the International and Great Northern Railway has been recently elected general manager of the Texas and Pacific Railway.

President Garrett, of the Baltimore and Ohio Railroad is expected home from the south of France in June.

General Whittier of the firm of Lee, Higginson & Co., and Mr. Dodd, of Richardson, Hill & Co., of Boston, go to Europe this Spring on a short vacation.

H. H. Hollister has been appointed Treasurer of the Burlington, Cedar Rapids and Northern Railroad Company in the place of Alexander Taylor, resigned.

R. M. Galloway has been elected president of the Manhattan Elevated Railway Co., as successor to Wm. R. Garrison, who recently resigned.

F. W. Baldwin formerly of the Central Vermont Railroad has received the appointment of assistant superintendent of the Mexican Central Railroad.

Allen Manvel has been appointed assistant general manager of the St. Paul, Minneapolis and Manitoba Railway, with headquarters at St. Paul.

C. W. Bradley succeeds M. V. McCracken, recently resigned, as manager of the Cincinnati Northern Railway.

The death, in London, of R. J. Reckie, a prominent railroad contractor and civil engineer of Montreal is announced by cable.

C. E. A. Bartlett, for many years past the Treasurer of the Boston and Lowell Railroad Company, has been selected to fill the position of manager of the road in the place of Hocum Hosford, deceased.

At recent meetings of the Columbus and Toledo, the Columbus and Hocking Valley and the Ohio and West Virginia Railway Companies, Col. Orland Smith was appointed vice-president and general manager of the three roads.

Collingwood Schrieber, Chief Engineer of Government Railways, Canada, has gone to Winnipeg, it is believed for the purpose of arranging for the transfer of the finished portions of the Canada Pacific Railway to the Syndicate.

Charles Donnelly has resigned the Presidency of

the Somerset and Cambria Railroad Company, and J. B. Washington, Assistant Auditor of the Baltimore and Ohio Railroad Company has been elected to succeed him.

C. W. Smith, formerly of the Chicago, Burlington and Quincy and more recently traffic manager of the New York, Lake Erie and Western Railroad, has been appointed general manager of the Chesapeake and Ohio Railway.

Fred. Grant has tendered his resignation as First Lieut. in the Fourth Cavalry and Lieut-Col. on the staff of the Lieut-General of the Army, to accept a position with the Chicago, Texas and Mexican Central Railroad Company.

By some recent changes among the officers of the New York Central and Hudson River Railroad, J. Tillinghast is made assistant to the president, an entirely new office ranking next to vice-president; J. M. Toucey is made general manager of the main line and C. M. Bissell general superintendent of the Hudson River and Harlem divisions.

H. R. Duval, general manager of the Great Western Despatch, and the Erie and Pacific Despatch, has announced the appointment of Norman C. Jones as the Southwestern agent of these lines, with his office at Dallas, Texas, to have charge of the interests of the lines in Arkansas, Texas, Louisiana, Colorado, New Mexico and Southern California.

Edward Huntingdon, one of the engineers for constructing the Utica and Schenectady Railroad and the enlargement of the Erie Canal, died at Rome, N. Y., Sunday morning. He was a member of the State Constitutional Convention of 1846, president of the Rome Savings and Exchange Banks and the Rome Iron Works.

George Chauncey, who for some time has been the station agent of the Delaware, Lackawanna and Western Railroad at Fulton, N. Y., has received an appointment to a position on the Atchison, Topeka and Santa Fe Railroad, where his duties will be the inspection and supervision of agents along the line of the road. His headquarters will be at Topeka, Kansas.

James R. Wood, whose appointment as general passenger agent of the Pennsylvania Railroad has been confirmed by the board of directors, has during the past eleven years made rapid advances in a railroad career the duties of which have involved much responsibility and skillful management. In 1870 he was train master on the western division of the Burlington and Missouri River Railroad. He was afterwards general passenger agent at Chicago, and later general agent of the land and passenger departments of the same road. At later periods he was connected with the Michigan Central as assistant general superintendent and also as assistant passenger agent. Three years ago he took the position of general passenger agent of the Chicago, Burlington and Quincy Railroad.

Railroad Earnings.

The earnings of the Grand Trunk Railway for week ending April 9, were $218,912; corresponding week last year, $206,797; increase, $12,115; aggregate increase for 15 weeks this year over corresponding weeks last year, $153,016; miles open 146½.

The earnings of the Chicago and Grand Trunk Railway for week ending April 9, were $26,988; corresponding week last year, $24,054; increase, $2,934; aggregate increase from January 1 to April 9th, over corresponding time last year, $54,963.

The earnings of the Denver and Rio Grande Railway for second week of April were $95,681 as compared with $36,388 for corresponding week last year; miles now operated 551, last year 337.

The earnings of the St. Paul, Minneapolis and Manitoba Railway for week ending April 14, were $115,082 44; week ending April 7, $86,722 82; total for two weeks $201,805 26. For 1880 the earnings for corresponding weeks were respectively $82,669 27 and $82,886 47; total, $165,555 74; an increase for the two weeks of this year of $36,249 52. From Jan. 1 to April 14 the aggregate earnings were $936,436 92; corresponding period last year, $745,236 81; increase, $191,200 11.

Underground Wires.

The Philadelphia Record says that the National Underground Electric Company is making rapid progress in the good work of ridding the city of the unsightly telegraph poles and the annoyance to householders of wire fixtures upon their roofs, and then adds:

The system of the National Underground Electric Company is claimed to be the simplest and most inexpensive plan for laying underground wires yet discovered, and has been so pronounced by experts. The system or method consists of cylindrical blocks of terra cotta, with numerous small holes, forming continuous tubes, covered with a vitrified glazing on the outer and inner surfaces. These blocks are laid end to end and firmly cemented together, thus making a series of terra cotta pipes in a single line of blocks. These are laid in sections, and at convenient distances excavations are made in the ground and carefully bricked up and cemented, thus making an underground waterproof chamber between the sections. As the blocks are laid a single wire or carrier is placed in each hole or conduit, all the wires in each section ending in the sunken chambers. The design of this is to enable the linemen to draw the cables or bundles of wires through the perforated blocks by means of a reel as fast as needed, and in such numbers as the telegraph companies may require, without digging up the streets each time, as in the case with every other known system.

Philadelphia and Reading Railroad Election.

In the Court of Common Pleas, Philadelphia, on the 13th inst., it was adjudged and decreed that at the election for officers and managers of the Philadelphia and Reading Railroad Company, held on the 14th of March, Frank S. Bond was duly elected President; George F. Tyler, Samuel R. Shipley, John S. Newbold, Edward T. Steel, Charles Parrish and John Lowber Welsh, Managers; Samuel Bradford, Treasurer, and Edward L. Kinsley, Secretary. After argument, on the 19th inst., in the United States Circuit Court, Philadelphia, before Judges McKennan and Butler, upon the application of Frank S. Bond et al., for recognition as legally elected officers of the Philadelphia and Reading Railroad Company, Judge McKennan stated that it was the inflexible purpose of the Court not to be mixed up in any controversy regarding the officers of the company; but as a highly respected Court had adjudged certain persons elected as president and managers of the corporation, proper respect for its decision required that the persons in question should not be debarred from enjoying the privileges and performing the functions of the offices to which they claimed to be entitled; but the Court did not intend to exclude the persons now serving as officers and managers from enjoying similar privileges pending a final decision of the Court of proper jurisdiction. The following order was made:

And now, to wit, April 19, 1881, the Court orders and directs that the receivers heretofore appointed by this court in the above causes furnish to Messrs. Frank S. Bond, George F. Tyler, Samuel R. Shipley, John S. Newbold, Edward T. Steel, Charles Parrish, John Lowber Welsh, Samuel Bradford and Edward L. Kinsley suitable accommodation in the office of the Philadelphia and Reading Railroad Company, No. 227 South Fourth-st., Philadelphia, for the performance of the duties and functions of the offices to which they claim under the Court of Common Pleas to have been elected in the Philadelphia and Reading Railroad Company; and also to permit the said above-named persons to examine, inspect and have free access to all the books and papers of the said Philadelphia and Reading Railroad in the possession or under the control of said receivers, not excluding nor in any wise interfering with the enjoyment of Franklin B. Gowen and his Board of the same privileges which are hereby accorded to Frank S. Bond and his associates.

Houston and Texas Central Railway.

The following is a comparative statement of earnings and expenses of the Houston and Texas Central Railway for years 1879 and 1880:

Gross earnings, 1879	$3,205 684 88
Gross earnings, 1880	3,741,000 47
Increase in gross earnings (16.69 per cent)	$538,515 59
Operating expenses (including taxes), 1879	$1,773,771 27
Operating expenses (including taxes), 1880	2,007,323 35
Increase in expenses (13.16 per ct.)	$233 552 08
Net earnings, 1879	$1,431,913 61
Net earnings, 1880	1,733,677 12
Gain in net earnings (21.07 per ct.)	$301,763 51

The amount expended during 1880 for steel rails, ties, fastenings, equipment, &c., was $399,840 87.

At a joint meeting of the stock and bondholders of the Credit Valley Railway, held in Toronto on the 12th inst., the directors were authorized to issue five per cent debenture stock to the amount of $20,000 a mile to replace the seven per cent bonds amounting to $12,000 a mile. The exchange is to be for equivalent amounts. The total amount of the new issue will be $3,720,000, and the additional interest payable, notwithstanding the reduction from seven to five per cent, will be $29,760. In case any bondholder refuses to make the exchange, the company is to reserve an amount of debenture stock equal to the bonds refused to be surrendered.

Vice President Bond, of the Texas and Pacific Railway Company, announced on the 8th inst. that rapid progress has been made upon the extension of that road, 100 miles of track having been completed since last November. The road is now finished 233 miles west of Fort Worth, and the contract requires its construction to El Paso, about 600 miles west of Fort Worth, by the beginning of next year. At El Paso connection is made with the Southern Pacific road.

It is expected that the Quebec Central Railroad will be opened for traffic between Levis and Sherbrooke early in May next.

Detroit, Lansing and Northern Railroad.

The gross earnings of this road for the year ending December 31, 1880, were $1,203,151 65, and the total expenses (except $73,816 01 for extension to Big Rapids, and $77,686 57 for new equipment) were $739,004 84, making the net earnings $464,146 81. This is an increase in the gross earnings over the preceding year of $94,219, and in net earnings of $15,001 36. On August 10, 1880, and February 15, 1881, a dividend of 7 per cent was paid on preferred stock, amounting to $175,224, and on August 10, 1880, a dividend of 2½ per cent was paid on common stock, amounting to $45,635. The balance to the credit of the income account after paying the dividend of February 15, 1881, and $229,296 for interest, was $15,357 63. The bonded debt was decreased in 1880 by the payment of $81 000 Ionia and Lansing second mortgage bonds, which matured November 1, 1880. Since January 1, 1881, the bonded debt has been increased by the sale at 17½@17⅝ per cent premium, of $178,000 Detroit, Lansing and Northern seven per cent mortgage bonds, due January 1, 1907, which realized the sum of $209,180, which has been appropriated to the payment of the Ionia and Lansing bonds and the balance to the completion of the Stanton branch and its equipment. The report of the General Manager shows the total main track operated during the year to be 225.57 miles, an increase over 1879 of 24.29 miles. The total track owned is 263 miles, an increase for the year of 21.94 miles. The new equipment includes 2 freight locomotives, fifty new box freight cars, six first-class passenger coaches and two new 33-foot baggage cars. The General Manager says as to future earnings. "I estimate our gross earnings for the coming year at $1,800,000 and shall be disappointed if my expectations are not more than realized."

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending April 9, and for the year to the same date, compared with their respective amounts carried to the same time last year:

	Week.	1881.	1880.
Reading Railroad	110,665	2,296,269	2,248 631
Schuylkill Canal	6,049	17,579	46,651
Lehigh Valley	104,999	1,771,956	1,413,662
Del., Lack. & Western	60,016	1,045 070	899,673
Shamokin Valley	19,554	258,888	208,942
Central New Jersey	53,225	993,231	796,567
United R. R. of New Jersey	24,801	401,865	267,806
Pennsylvania Coal	20 538	272,056	217,125
Delaware and Hudson	44,906	915,651	832,344
Huntingdon & Broad Top Mt.	8,205	126,492	118,919
Penn. and New York	26,432	449 837	393,914
Clearfield, Pa.	54,056	573,762	344,831

The total tonnage of anthracite coal from all the regions for the week ending April 9, as reported by the several carrying companies, amounted to 400,508 tons, against 630,783 tons in the corresponding week last year, a decrease of 230,275 tons. The total amount of anthracite mined for the year is 6,532,079 tons, against 5,433,798 tons for the same period last year, an increase of 1,098,281 tons. The quantity of bituminous coal sent to market for the week amounted to 108,069 tons, against 75,221 tons in corresponding week last year, an increase of 32,848 tons. The total amount of bituminous mined for the year is 1,197,756 tons, against 930,674 tons for the corresponding period last year an increase of 267,082 tons. The total tonnage of all kinds of coal for the week is 508,577 tons, against 706,004 tons in corresponding week last year, a decrease of 197,427 tons, and the total tonnage for the coal year is 7,729,835 tons, against 6,364,472 tons to same date last year, an increase of 1,365,363 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending April 2d was 178,283 tons, of which 117,562 tons were coal and 60,721 tons coke. The total tonnage for the year thus far has been 2,232,156 tons, of which 1,605,983 tons were coal and 623,173 coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended April 9 were 39,832 tons, and for the year to that date 432,853 tons, an increase of 15,160 tons as compared with the corresponding period last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 30,178 tons; year, 368,617 tons; increase as compared with 1880, 10,501 tons. Chesapeake and Ohio Canal—week, 5,594 tons; year, 12,989 tons; increase as compared with 1880, 4,246 tons. Pennsylvania Railroad—week, 4,050 tons; year, 50,748 tons; increase as compared with 1880, 414 tons. The Reading Railroad coal shipments for last week, ending April 16, were 124,000 tons, of which 22,000 tons were sent to Port Richmond and 33,000 tons shipped thence, and 10,700 tons were sent to Elizabethport and 13,500 tons shipped thence.—[Phila. Ledger, April 18.

Railway Connection Between Pensacola and Jacksonville.

One of the most important railroad enterprises that has been inaugurated in Florida in a number of years is that which proposes to make a connecting link between Jacksonville and Pensacola. With a view to this purpose the Pensacola and Atlantic railroad company was organized at Pensacola, on the 11th inst., with the following officers: W. F. McCormick, G. A. Stanley, E. De Funiak, W. D. Chipley and T. T. Wright. W. D Chipley was elected president and P. K. Yonge secretary.

Mr. Chipley, the president, is superintendent of the Mobile and Montgomery, the Selma and Pine Apple divisions of the Louisville and Nashville system.

Mr. De Funiak, one of the directors, is the general manager of the system, and one of the most brilliant railroad men in the country. The other directors are prominent business men and citizens of Pensacola.

This line will be a continuation of the J. P. & M. road from Chattahoochee, the intersection of the Chattahoochee and Flint rivers, to Pensacola. It will serve an immense scope of country now without railroad facilities, and will connect the western portion of Florida with the eastern. It will be located through much good agricultural country, and for fifty miles will have on its line a virgin forest, the unequaled quality and great quantity of which will serve to extend Pensacola's magnificent timber trade fifty years longer.

Nor only this but the line will shorten the distance between New Orleans and Tallahassee, the state capital, by 480 miles and will give the most direct line from Savannah to the gulf. We are informed that the entire stock has been subscribed and many applications for stock were received after the capital stock had all been taken up.

This new enterprise will be the making of West Florida and will develop an important and fertile agricultural section. It has been the desire of Jackson county for a number of years to get this road, and several prominent citizens from that county attend d the meeting, and aided in carrying out the project to a successful culmination. Evidently the dawn of prosperity in Florida is brightening into open day. With her everglades reclaimed, the two canals and the new railroad, the state has an encouraging future.—Columbus, (Ga.) Enquirer-Sun.

Anthracite Coal Tonnage.

John H. Jones, accountant of the Philadelphia and Reading Railroad Company, furnishes the following statement of the anthracite coal tonnage for the month of March, 1881, compared with the same period last year:

	March, 1881.	March, 1880.
Philadelphia and Reading Railroad	495,835 05	461,872 15
Lehigh Valley Railroad	442,059 09	289,427 01
Central Railroad of New Jersey	337,753 15	277,579 15
Delaware, Lackawanna and Western R. R.	362,899 17	290,363 17
Delaware and Hudson Canal	291,600 05	209,161 05
Pennsylvania Railroad	143,498 03	121,241 01
Pennsylvania Coal Co.	109,443 09	71,424 02
New York, Lake Erie and Western R. R.	42,751 19	26,302 06
Total	2,225,842 02	1,746,872 02

	For Year 1881.	For Year 1880.
Philadelphia and Reading Railroad	1,824,409 03	1,158,519 00
Lehigh Valley Railroad	1,194,636 12	849,170 18
Central Railroad o New Jersey	897,777 04	710,104 06
Delaware, Lackawanna and Western R R.	992,352 09	802,669 02
Delaware and Hudson Canal	764,280 12	669,637 09
Pennsylvania Railroad	441,079 00	307,075 14
Pennsylvania Coal Co.	286,432 01	225,897 03
New York, Lake Erie and Western R. R.	115,694 19	88,784 14
Total	6,016,661 00	4,807,758 06

—showing an increase for the month of 478,970, and for the year of 1,208,902 14.

The stock of coal on hand at tidewater shipping points March 31, 1881, was 563,068 tons; on February 28, 1881, 395,286 tons; increase, 167,777 tons.

Brooklyn Underground Railway.

The agent of the Brooklyn Underground Railroad Company was ordered on the 15th inst. to file the map of the route of that company in the office of the Register of Kings county, as the same had been signed. The starting point of the road, which begins as an elevated, is at Fulton ferry, and runs parallel with Water street, under the suspended bridge superstructure. At this point it makes a curve and runs parallel with the bridge structure over private property to and across Main street; thence it descends and crosses Prospect street on the surface, ceasing to be an elevated road. Gates are to be erected along the track. Passing under Sands street the road enters a tunnel and continues under Washington and Fulton streets, also Flatbush avenue, to the junction of Atlantic avenue. It will be so arranged that passengers from Coney Island can be brought to this city without change of cars. The central station of the road will be located at City Hall square. The road will continue under ground along Flatbush avenue, and there will be

stations at the main entrances of Prospect Park. A branch will run along Ninth avenue to the depot of the Prospect Park and Coney Island Railroad.

Buffalo, New York and Philadelphia R. R.

The Buffalo, New York and Philadelphia Rail road, extending from Buffalo to Emporium, on the Philadelphia and Erie Railroad, with narrow gauge connections and 16,000 acres of coal land has been purchased by a syndicate for $4,850,000. The syndicate is composed of the following firms: J. & W. Seligman & Co., Drexel, Morgan & Co., Winslow, Lanier & Co., Kidder, Peabody & Co., Clark, Post & Martin and E. W. Clark & Co. The aggregate net earnings of the road and the connections is nearly $1,000,000. Twenty per cent of the purchase money has been paid, and the balance will be paid in monthly instalments. The new purchasers are to receive the earnings from the first day of May. The roads are to be reorganized with Sherman S. Jewett, of Buffalo, as president, and J. W. Jones, president of the Buffalo, Pittsburg and Western, as vice president, with majority of the directors chosen from the present board of the Buffalo, Pittsburg and Western. These roads, will in about one year, be merged with the Buffalo, Pittsburg and Western, when John W. Jones will become president of all. The Genesee Valley Canal Railroad, previously purchased by Clark, Post & Martin is to be a part of the scheme. This will give terminal facilities in Rochester, and by the new purchases fifty acres of ground in the heart of Buffalo are gained for terminal facilities in that city.

The Philadelphia Record says that the Genesee Valley Canal Railroad, running from Salamanca to Rochester, has been bought for $128,000 by those who furnished funds for the recent purchase of the Newcastle and Franklin Railroad, and then adds: a number of the stockholders of the Genesee Valley Company were opposed to selling because they had not assurances that it would go into the hands of capitalists who would complete it. They were informed by Clark, Post and Martin, of New York, representatives of the firm of F. W. Clark & Co., of Philadelphia, that $7,000,000 had been raised for the improvement of this road and important links.

M. L. Bonham, Railroad Commissioner for South Carolina, in his second annual report, just issued, says the condition of the roads in that State has been greatly improved during the past year. The number of miles of main line and branches in the State is 1,407.5. The total income for 1880 of all the roads was $4,943,074 39; total expenses, $3,585,766 61, net earnings, $1,357,307 78. The excess of net earnings last year over the year 1879 was $446,851 70. Only one passenger was killed during the years 1879 and 1880.

The Harford, Md., Democrat says that the directors of the Baltimore and Delta Narrow Gauge Railroad Company have secured money enough to continue work on the road until the middle of June. By this time, it is estimated, the grading and a large part of the masonry will be completed.

Mitchell & McLean, of Canada, have been awarded the contract for the construction of the bed of the Washington City and Point Lookout Railroad from Washington, Dt. Col., to Brandywine—17 miles. W. E. Brown, of Nova Scotia, has the contract for the track and bridges.

The foreclosure sale of the Petersburg Railroad, which was to have taken place under a decree of the United States Circuit Court on the 20th inst., at Petersburg, has been postponed by an order from the same Court to May 10.

Grand Trunk Railway of Canada.

The gross earnings, working expenses and net profit of the Grand Trunk Railway Company of Canada for the month of February, 1880 and 1881, were as follows:

	1881.	1880.
Gross receipts	£158,295	£153,393
Working expenses	120,966	112,055
Net profit	£37,329	£41,338

—showing an increase in gross receipts of £4,902, with an increase in working expenses of £8,911, making a decrease in net profit of £4,009.

The aggregate for two months ending with February, was:

	1881.	1880.
Gross receipts	£322 554	£316,636
Working expenses	247,829	231,890
Net profit	£74,725	£83,746

—showing an increase in gross receipts of £6,818, with an increase in working expenses of £15,939, making the decrease in net profit £9,021.

A short time ago Emanuel M. Levy, formerly an agent for the New York Life Insurance Company, but now connected with the Equitable Life Assurance Society, was arrested on a charge made by the New York Life Insurance Company that he had embezzled $965 44 in failing to give to its financial accountant two checks received from one Patrick McCann. The complaint was made after Levy had left the New York Life Insurance Company. Levy said that the money was still in his possession and he was willing to turn it over when the New York Life should settle a claim which he had against the company for something more than $1,000. Judge Morgan decided that there was no embezzlement and discharged Levy.

At a meeting of the directors of the Western Union Telegraph Company, held in this city on the 15th inst., the following preamble and resolution was adopted: Whereas, The order of the Superior Court of the City of New York, granted March 15th, restrained this Company from the payment of dividends under the resolution passed by this Board on the 9th of March, and the dividend cannot be paid on the 15th of April, as declared; therefore, resolved, that the payment of cash dividend, declared by this Board on the 9th of March last, be and is postponed to such date as may hereafter be fixed by this Board, or by the Executive Committee.

A company is being formed for the manufacture of pig iron on the estate of E. A. Packer, on lands in Rockbridge county, Va. The company have in contemplation the erection of two blast furnaces, each 16 by 60 feet, with Whithall hot blast stoves. This estate embraces between 17,000 and 20,000 acres of iron ore land in Rockbridge and several thousand acres of coal land in West Virginia, both on the line of the Chesapeake and Ohio Railway.

Great Western Railway of Canada.

The gross receipts, working expenses and net revenue of the Great Western Railway of Canada for the month of February, 1880 and 1881, excluding leased lines, were as follows:

	1881.	1880.
Gross receipts	$326,700	$299,900
Working expenses, including transfers to reserve funds	259,000	226,500
Net	$67,700	$73,400

—showing an increase in gross receipts of $26,800, with an increase in working expenses of $32,500, making a decrease in the net earnings of $5,700. The above is subject to interest on bonds, etc.

We are indebted to the courtesy of Ex-judge B. W. Huntington of this city, of counsel for the successful parties, for the information, that the Court of Appeals has just decided that the N. Y. Act of 1858, allowing stockholders on paying to Railroad foreclosure purchasers a proportionate amount of the purchase money, to be entitled to the same relative amount of stock of interest in the company's franchises, &c., is repealed by subsequent inconsistent and repugnant legislation. This decision removes what has operated as an embarrassing cloud upon the title of Railroad foreclosure purchasers in the State of New York.

The Texas Western Narrow Gauge Railroad, together with all rights, franchises and properties, was sold at Galveston, Texas, on the 5th inst., to satisfy a judgment received against the road by the Farmers' Loan and Trust Company of New York, and was bought in by Baker and Botts for $100,000 for account of Messrs. Stone, Spofford and Chew. It is thought that under the new management the road will be pushed ahead, with Presidio, Del Norte or Eagle Pass as its objective points.

The contract for building the Pittsburgh, Virginia and Charleston Railroad bridge over the Monongahela, at Cunningham's Coal Works has been awarded to Fred. Gwinner. The grading of the railroad on the Redstone branch, has been put out to the following gentlemen: Fred. Gwinner, four sections; Messrs. Bridgens, four; Morgan & Co., four; Hon. T. B. Schnatterly, one. The contract calls for the completion of the work on or before October 1, 1881.

The New York, West Shore and Buffalo Railroad Company have executed contracts for the construction of the western division of the road from Schenectady to and through the gorge at Little Falls. Contracts for the section between the latter place and Oneida will soon be let, and work will be pushed on the entire line as fast as possible.

The St. Paul, Minneapolis and Manitoba Railway Company has contracted with Langdon & Co. for the construction of about 200 miles of line this season, on the Osseo branch from Minneapolis, on the Breckenridge extension from Durbin north and to the Grand Forks branches west toward Devil's Lake and north to Pembina.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

The following securities, in addition to those given in our financial columns, have been admitted to dealings at the Board:

Milwaukee and Northern Railroad Company—Capital stock $2,155,000, in shares of $100 each; first mortgage bonds, $2,155,000; dated June 10, 1880, payable June 1, 1910; interest the first year, 4 per cent, the second year 5 per cent, and thereafter 6 per cent, payable June 1 and December 1. The company was organized under the general laws of Wisconsin, with authority to buy the Milwaukee and Northern and the Menasha and Appleton Railroads. Its main line extends from Schwartzburg station on the Chicago, Milwaukee and St. Paul Railway, seven miles from Milwaukee, to Green Bay, with branches to Menasha, Appleton and Neenah, in all 126 miles. The company has a contract with the Chicago, Milwaukee and St. Paul Railway for use of its road into Milwaukee, and terminal facilities there. At Menasha it connects with the Wisconsin Central Railroad which extends to Ashland and Eau Claire. The company is under lease to the Wisconsin Central Company, terminable by either party on six months' notice, at a rental of 37½ per cent of the gross earnings, payable monthly, and has no other indebtedness of any description.

Chicago and Eastern Illinois Railroad Company—Capital stock, $3,000,000, in shares of $100 each. The company obtained its rights under the foreclosure and sale of the Illinois Division of the Chicago, Danville and Vincennes Railroad, under decree of the United States Court for the Northern District of Illinois, February 7, 1877, and under foreclosure and sale of the Indiana Division of the same railroad, under decree of the United States Court for the District of Indiana, February 9, 1877, and by consolidation with the Danville and Grape Creek Railroad Company, as per articles of consolidation filed in the Secretaries of States' offices of Illinois and Indiana, on March 9, 1881. The length of its road is 263 miles. The company has a funded debt of $4,160,000; and also guarantees the interest on $1,250,000 securities of the Evansville, Terre Haute and Chicago Railroad Company, and the Indiana Block Coal Company, which have been leased to the company. It has a debt of $49,500, and a temporary car loan of $109,390, the latter secured by income bonds. It holds in its treasury securities of the par value of $424,602, as follows: First Mortgage Bonds Chicago and Eastern Illinois Railroad, $75,000; Income Bonds and Scrip Chicago and Eastern Illinois Railroad, $232,389 08; Capital Stock and Scrip Chicago and Eastern Illinois Railroad, $2,212 98; Income Bonds due from Evansville, Terre Haute and Chicago Railway Company for betterments, under lease of May 1, 1880, $115,000.

The general term of the Supreme Court of New York City has denied the application of the Third Avenue Railroad Company for a new trial in the suit in which Wm. Schultz was awarded $15,000 for injuries received by one of the company's cars. The general term of the Supreme Court also affirmed the judgment recovered against the same company by Thomas McMahon, for being put off one of their cars on July 6, 1878.

The Chief of the Bureau of Statistics reports that the total values of the exports of petroleum and petroleum products from the United States during the month of February, 1881, were $2,524,055, and during February, 1880, $2,800,314. For the eight months ended February 28, 1881, $25,363,391, and for the eight months ended February, 29, 1880, $28,234,473.

According to the Annual Report of the Board of Trade the number of manufacturing establishments in Cincinnati is 5,450; cash capital invested, $67,651,552; value of real estate occupied $40,069,458; number of hands employed, 80,839, value of products, $179,815,497.

New York Central and Hudson River R. R.

The following is a comparative statement of the earnings, by months, of the New York Central and Hudson River Railroad Company for the first half of the current fiscal year, compared with the corresponding period of the previous year:

	1880-81.	1879-80.
October	$3,095,198 35	$2,898,586 19
November	3,047,540 98	2,801,835 04
December	2,833,403 10	2,846 216 37
January	2 404,718 37	2,593,612 75
February	2,293,462 72	2,317,230 80
March	2,668 250 31	2,854,834 73
Totals	$16,342,568 83	$16,312,315 88

—showing an increase of $30,252 95.

A railway company has been formed at Cornwall, Canada, under the title of the Eastern Ontario, New York and Boston Line. The object is to build a road from Carleton Place to Cornwall, with a view of bridging the St. Lawrence at the latter place and connecting with the railway system of New York and the New England States. The projected road would connect with the Pacific Road at Carleton Place.

The Baltimore Sun says that the value of a steam pilot-boat off the capes is becoming more apparent every day. During the recent bad weather numerous steamers short of coal were supplied by the steam yacht Pilot and enabled to get into the capes, the last supplied being the steamer Gracia, from the West Indies. The Pilot has also towed in many sailing vessels.

The new title of the Green Bay and Minnesota Railroad will be the "Green Bay, Winona and St. Paul Railway." The road now runs from Green Bay, Wisconsin, across the whole of that State, to Winona, Minnesota, and a branch to St. Paul is in contemplation.

The Texas and Pacific Railway was completed to Colorado, Texas, 263 miles west of Dallas, on the 16th inst. Freight and passenger trains will commence running, as soon as the time card can be changed.

The Southwestern Branch of the St. Louis and San Francisco Railroad from Pierce City, Mo., to Dallas, Texas, is being vigorously pushed, and will be completed to Fayetteville, Ark., by the 1st of June.

Messrs. Caldwell & Neely have been awarded the contract for constructing the first 27 miles of the Chicago, Texas and Mexican Central Railroad. President Hale says 50 miles of the road will be completed by September 1.

Trains commenced running on the 18th inst. on the Shenandoah Valley Railroad, through from Hagerstown, Md., to Waynesboro', Va., 143 miles south, and where the road connects with the Chesapeake and Ohio Railway.

The Mauch Chunk Gazette says that the Lehigh Valley Railroad is to be extended from Ashland to Pottsville.

The Scioto Valley Railroad will be opened on the 1st of May to Peterboro, opposite Ashland, Kentucky.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, April 21, 1881.

During the forenoon the loan money market was in good supply on call at 4@5 per cent, the exceptionally high rate being 6 per cent. Time money was freely offered at 4½ per cent, the quotation where the collateral consisted of stocks being 4@4½ per cent. Prime mercantile paper was 5@5½ per cent. Later in the day the quotation for call loans was 3½@4 per cent, and at the close the rate was 3 per cent.

The posted rates for prime bankers' sterling are 4.82@4.84½. The actual rates are 4.81¼@⅛ and 4.83⅛@¾. Cables transfers are 4.84@¼. Prime commercial bills are 4.79¾@4.80.

According to the semi-annual Report of the Grand Trunk Railway Company of Canada, which has just been issued in London, the available balance for the half year ended December 31, 1880, was £197,895, which pays the first and second preference dividends in full and admits of the payment of one per cent on the third preference.

The suit of the city of New York against the Union Ferry Company to recover a fair rent for the ferries, which had been leased, it is claimed illegally, for ten years at $1 a year, was compromised on the 14th inst. The company is to pay the city $300,000 in settlement.

We gave in our last issue the circular of the Secretary of the Treasury of April 11th, calling in for redemption, on the 1st of July next, the United States six per cent bonds of 1881, unless the holders thereof should elect to have them continued at the pleasure of the Government after

that date at the rate of 3½ per cent per annum; and provided the bonds are received by the Secretary of the Treasury for that purpose on or before the 10th of May next. The form of request which should accompany the bonds forwarded for continuance is as follows:

(P. O. Address:)

1881.

To the Secretary of the Treasury:

Under the terms of the Circular No. 42, issued by the Secretary of the Treasury April 11th, 1881 ———the undersigned, owner of the below described United States Six per centum Bond——— hereby request that———payment be deferred, and that———be continued during the pleasure of the Government, to bear interest at the rate of three and one-half per centum per annum from July 1, 1881, as provided in said Circular, and, in consideration of the premises, ———hereby waive and release all right to, or claim for, any interest on said Bond in excess of three and one-half per centum per annum on and after said date of July 1, 1881; and in witness thereof———have hereunto set———hand and seal this day———.

Authorizing Act.	Registered Coupon.	Denomination.	Serial Numbers.	Amount.
				$

[Signature in full.] [SEAL]

NOTE.—The seal should be of wafer or wax, if not executed by a corporation. In case the above request is signed by an officer of a bank or other corporation, it should be accompanied by the usual resolution authorizing such officer to act for the institution. This form of request will be furnished upon application to the Secretary of the Treasury.

The following is the indorsement which is to be printed on the face of the 6 per cent bonds which may be received at the Treasury Department for continuance at a lower rate of interest: "At the request of and for value received by the owner of this bond, the same is continued during the pleasure of the Government, to bear interest at the rate of 3½ per centum per annum from July 1, 1881, payable semi-annually, as provided in Treasury circular No. 42, dated April 11, 1881."

The governors of the Stock Exchange have admitted to dealings at the Board the following securities:

Michigan Central Railroad Company—Jackson, Lansing and Saginaw Railroad Company consolidated mortgage bonds, $1,100 000; dated September 1, 1880, payable September 1, 1891; interest 6 per cent payable March 1 and September 1. The entire property is leased and operated by the Michigan Central Railroad Company, which guarantees all the bonds, principal and interest, of the other company, and in addition pays $70,000 a year rent. The Jackson, Lansing and Saginaw Railroad Company, besides its railroad property, has about 425,000 acres of land, and although this land is not covered by the mortgages for the bonds, that company applies any moneys arising from sales of lands to retiring such bonds.

Chicago, Rock Island and Pacific Railway Company—An additional $2,500,000 Chicago, Rock Island and Pacific Railroad Company first mortgage bonds; dated 1877, payable July 1, 1917; interest 6 per cent, payable January 1 and July 1. These bonds complete the amount ($12,500-000) authorized to be issued.

Rochester and Pittsburg Railroad Company—Capital stock, $3,000,000 in shares of $100 each; first mortgage bonds, $1,300,000; dated February 1, 1881, payable February 1, 1921; interest, 6 per cent, payable February 1 and August 1; income bonds, $1,870,000, of same date and maturity. The interest on the income bonds is not accumulative. This company is a reorganization of the Rochester and State Line Railway Company by purchase at foreclosure sale. The original first mortgage bonds of that company were issued at the rate of $25,000 per mile of road, and are provided for as follows: In the new company one-half of the principal is given in a new forty-year six per cent gold bond, issued at the rate of $12,000 per mile of road; the balance of the principal and the back interest is given in a non-accumulative income bond, issued at the rate of $16,000 per mile. The road runs from Rochester to Salamanca, a distance of 108½ miles. It connects the New York Central Railroad with the Erie and New York, Pennsylvania and Ohio Railroads at Salamanca. The company has no floating debt.

New Orleans Pacific Railway Company—First mortgage bonds, amount authorized, $7,100,000, issued, $1,360,000; dated July 31, 1880, payable July 1, 1920; interest 6 per cent, payable January 1 and July 1. This road is an extension of the Texas and Pacific Railway, and forms part of the trunk line between New Orleans and San Francisco, and is owned by the Texas and Pacific interest. Its main line extends from New Orleans to Shreveport, La., a distance of 315 miles, of which there are now built sixty-eight miles, from New Orleans to Bayou Gonla, and the remainder is under contract to be completed by August 1, 1881. The company has large terminal facilities at New Orleans. The amount of capital stock is at the rate of $20,000 a mile, of which $1,124,000 has been issued. The present issue of bonds is at the same rate, and there is no other mortgage on the property. The company has no floating debt.

Louisville and Nashville Railroad Company—St. Louis Division first mortgage bonds, $3,500,-000; dated January 27, 1881, payable March 1, 1921; interest 6 per cent, payable September 1 and March 1; second mortgage bonds, $3,000,-000; dated January 27, 1881, payable March 1, 1980; interest 3 per cent, payable September 1 and March 1. These bonds have been issued in payment for the St. Louis and Southeastern Railroad, extending from East St. Louis to Evansville, Ind., with a branch to Shawneetown, which constitutes the St. Louis Division of the Louisville and Nashville Company to which it is leased; Pensacola Division, first mortgage bonds, $600,-000; dated March 1, 1880, payable March 1, 1920; interest 6 per cent payable March 1 and September 1. These bonds are secured by a first mortgage on a line of railroad extending about forty-five miles from Pensacola, Fla., to a point in Alabama where it connects with the Mobile and Montgomery Railroad. The road is owned by the Louisville and Nashville Company.

ESTABLISHED IN 1831.
AMERICAN RAILROAD JOURNAL,
PUBLISHED WEEKLY BY THE
AMERICAN RAILROAD JOURNAL COMPANY,
JOHN H. SCHULTZ - - - - - President.

The AMERICAN RAILROAD JOURNAL, the oldest railroad paper in the world, was established during the construction of the first 100 miles of railroad in this country. Its files of the past fifty years furnish a complete record of the development of American railroads and faithful chronicles of the kindred financial interests. It contains features of special value to investors and others desirous of being readily acquainted with values and transactions connected with the development and working of our railroad systems, and much of interest to the general reader. Among its contents are concisely arranged Bond and Share Lists, in tables (describing in detail railroad properties, giving the length of Main Road and Branches, Gauge of Track, Number of Locomotives and Cars, Traffic, Capital Stock, Bonded Debt, Earnings, Dividends, etc., of the different American Railroads), condensed summaries of Railroad Reports, Weekly, Monthly and Yearly Earnings, Dividend Statements, Market Reports of New York, Boston, Philadelphia, Baltimore and London; a Department on Railroad and Banking Law, Lists of United States and Canadian Counterfeits, Construction, Organization, Manufacturing and Personal Notes, Sketches, Editorial and Miscellaneous Articles, etc.

The AMERICAN RAILROAD JOURNAL is taken by leading railroad men, investors and banking houses in this country and Europe, where it has long been a recognized authority in its special field, being recommended as such by *Chambers' Encyclopædia* and other standard foreign and domestic publications. We give below a few extracts from opinions of the press:

From HERAPATH'S RAILWAY JOURNAL, London.
The *American Railroad Journal*, one of the most honest and outspoken of American papers.

From THE JOURNAL OF COMMERCE, New York.
The *American Railroad Journal*, a most valuable weekly newspaper, is now half a century old.

From THE CINCINNATI PRICE CURRENT.
The *American Railroad Journal's* list of patrons is composed largely of the oldest and heaviest financial houses in the United States, Great Britain and the Continent, and of railway companies, manufacturing establishments, and banking and commercial houses in this country.

From THE NORWICH (Conn.) DAILY BULLETIN.
The *American Railroad Journal*, founded in 1831, is the oldest railroad paper in the world. The carefully prepared list of bonds and stocks, their description and value, which has always been given more freely by this journal than any other, is one of its more noteworthy valuable features.

From THE PITTSBURG (Pa.) CHRONICLE.
The *American Railroad Journal* is authority on railroad news.

From THE WASHINGTON (D. C.) LAW REPORTER.
The *American Railroad Journal* is a most valuable publication, and to all persons interested in American railroads, bonds, shares, including mileage, rolling stock, debts, income, dividends, etc., etc., it is almost invaluable.

TERMS OF SUBSCRIPTION FIVE DOLLARS PER ANNUM.
☞ Sample Copies sent on Application. Address
AMERICAN RAILROAD JOURNAL COMPANY,

NEW YORK, LAKE ERIE & WESTERN RAILWAY.
TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almos 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

E. S. BOWEN, General Superintendent.
JNO. N. ABBOTT, General Passenger Agent.

SECOND QUARTO SERIES, VOL. XXXVII., No. 18.] NEW YORK, APRIL 30, 1881. [WHOLE No 2,349, VOL. LIV.

THE GROWTH OF RAILROADS IN NEW YORK.

An interesting bit of railroad history is found in the annual report on the railroads of New York, recently submitted to the Legislature by the State Engineer and Surveyor. A portion of the report is devoted to a concise sketch of the development of railroads in the State as follows: In the year 1825 there were no railroad companies in this State. In 1830 twelve companies had been formed, but no road was in operation. About 12½ miles of track had been laid by the Mohawk and Hudson Railroad between Albany and Schenectady, the cost of which cannot be given, as no report was required from it until the line was completed. Ten years later, in 1840, there were 86 companies incorporated. Of this number only thirty-three built their roads and continued in existence, and but five—the New York and Harlem (the oldest surviving railroad company), the Saratoga and Schenectady, the Rensselaer and Saratoga, the Long Island and the Oswego and Syracuse—are in existence today. Four of these roads are leased and but one (the Long Island) is now operated by its own officers. In 1840 there were 368 miles of road in operation and about $7,800,000 had been expended in railway construction. The rails used were wood, with a flat three-quarters of an inch by two and one-half inch bar of iron fastened on the upper side. The New York and Erie Railway Company, whose road was not in operation, in their report for the year 1840 state that they had purchased 5,000 tons of "edge rail," weighing fifty-six pounds per yard, at a cost of $55 per ton, which they considered much superior to flat iron rails in use on other roads, and that they had purchased three first-class locomotives, weighing fifteen tons each. This was the weight of the largest locomotives at that time. In the report of the Auburn and Syracuse Railroad Company for the year 1837, they say: "Owing to the general disarrangement of the business of the company and the difficulty of enforcing the payment of instalments upon the stock and to disarrangement of foreign exchange it was impossible to obtain iron plates for the rails, and the directors consequently determined upon the temporary use of wooden ribbons and horse power until the iron can be procured."

In 1850 eighteen companies were operating their roads, the entire length amounting to 730 miles, which cost $25,429,668. Five other companies, whose roads were incomplete, had 554 miles in use and had expended $35,239,865 16; and three companies, whose roads were not in operation, had expended $100,263 85. The whole number of miles over which trains were run was 1,285, and 485 miles were in process of construction. The total expenditure for railroads in New York State at this time was $60,769,797 01. The earnings for the year were $5,676,761 22 and the cost of operating the roads amounted to $2,440,794 22, leaving a surplus or profit of $3,235,967, equal to 5¼ per cent upon the amount invested. There were 4,363,608 passengers carried in cars and 734,378 tons of freight transported. Sixty-two persons were killed and 18 injured during the year.

In 1860, twenty years after the first railroad was built, there were 44 steam and 4 horse roads in operation. Fifty-two steam and 18 horse railroad companies were required to report to this office, and 1 steam and 5 horse road companies were exempt from reporting, making a total of 76 corporations. The cost of constructing the steam roads was $130,440,394 11, and the horse roads cost $7,407,929 48 — a total of $137,848,323 59. There were 2,730 miles of road in operation, 2,656 of which were steam and the remainder horse roads. The steam railroads carried 9,305,978 passengers and the horse roads 49,980,148—a total of 59,286,126. The total tonnage of freight transported was 4,741,773 tons, of which amount the New York Central Railroad Company report they carried 1,028,183 tons, 297,925 tons being west bound and 730,258 east bound freight. The earnings of the steam roads were $20,477,593 09 and of the horse roads $2,364,642 82, a total of $22,842,241 91. The total expenses were $14,387,983 83, of which the steam roads paid $12,652,676 72 and the horse roads $1,735,307 11. This leaves a surplus or profit for the steam roads of $7,824,922 37, or about 6 per cent upon the amount invested, and for the horse roads, $629,355 71, or 8½ per cent upon the cost. The number of persons killed during the year upon steam roads was 143 and 9 upon the horse roads. The number injured was 71 and 17 respectively.

In 1870 there had been 6,191 miles of steam and 310 miles of horse road constructed, and the amount paid for constructing steam roads was $249,228,896 19 and for horse roads $23,481,268 74. The steam roads this year carried 24,550,753 passengers and 20,572,212 tons of freight. The horse roads carried 154,591,871 passengers. The earnings of the steam roads were $69,549,444 03 and the cost of operating was $46,132,947 01, leaving a profit of $23,416,479 02, or 9½ per cent upon the cost of the roads. The horse road earnings amounted to $9,523,892 83 and the cost of operating was $7,859,928 78, leaving a profit of $1,663,965 05, or 7 per cent upon the cost of roads. The number of persons killed by steam roads was 269 and 264 more were injured. The horse roads injured 103 and killed 29. The report for 1880 shows that 9,186 miles of railroad have been constructed, 8,709 miles having been built by steam railroad companies and 477 miles by the horse railroad companies, including the elevated railroads. The steam roads have cost $695,525,828 48, the horse roads $40,686,946 64, and the elevated roads $33,038,332 12, a total of $770,251,107 24 for all. The steam roads carried 47,197,385 passengers, the horse roads carried 244,900,717, and the elevated 60,831,757, making 305,732,474 passengers carried by the city roads, a total of 352,929,859. During the year the steam roads carried 57,356,128 tons of freight, and the earnings were $108,965,556 04. The payments for operating the roads amounted to $64,996,989 54, leaving a profit of $43,968,566 50, or 6¼ per cent upon the cost. The earnings of the horse roads were $13,449,121 87 and the cost of operating $9,157,457 28, leaving a profit of $4,291,664 59, or 10½ per cent. The earnings of the ele-

vated roads were $4,612,975 56, the cost of operating $2,644,325 24, and the surplus or profit $1,968,650 32, or 6 per cent.

In regard to the new incorporations of the past year the report says: "An evidence of better times and increased confidence is shown by the number of railroad companies that were incorporated in this State during the past year. There were 52 new companies formed, 12 reorganized or formed by the consolidation of other companies, and 2 whose corporate powers had ceased were revived by special acts of the Legislature, making a total of 66 new corporations. This is the greatest number of roads ever incorporated in any one year. The largest number heretofore was 61, in the year 1872."

Grand Trunk Railway of Canada.

DIRECTORS' REPORT FOR THE HALF YEAR ENDING DECEMBER 31, 1880.

	Dec., 1879.	Dec., 1880.
The gross receipts upon the whole undertaking, including Buffalo and Champlain lines, have been	£978,202	£1,158,407
Deduct—Working expenses at the rate of 67.67 per ct, against 72.87 per cent for December half of 1879	712,807	783,894
	£265,395	£374,513
Add—Interest on International Bridge Capital	11,836	13,082
Interest on Chicago & Trunk Railway Bonds	.....	10,121
	£277,231	£397,666

Out of this amount the following half yearly charges for interest and rents have been paid, viz:

Interest on 5 per cent perpetual deb. stock	£76,538
Interest on Land loans, &c	457
Rents	105,388
Equipment bond interest	26,058
	£208,430
Showing a balance of	189,236
	£397,666

The amount brought forward from the preceding half year, £8,659, makes, with the above balance from the past half year of £189,236, a total of £197,895 available for the payment of dividends, as against a total of £65,740 in corresponding half year of 1879. From the sum of £197,895 thus available, the following dividends were paid on the 1st March last:

First preference stock, at the rate of 5 per cent per annum	£80,374
Second preference stock, at the rate of 5 per cent per annum	58,154
Do in payment of arrears of div. on the June half at the rate of 2 per cent per annum	23,262
Third preference stock, at the rate of 1 per cent per annum	35,823
	£197,614

leaving £281 to be carried to the next half year's account. The gross receipts for the half year were greater than in 1879 by £180,204, or 18.42 per cent., though the receipts for the Riviere du Loup line from 1st July to 13th August, 1879, (£5,038), were included in the receipts for that year, but not in those for 1880. The working expenses including renewals, amounted to £783,894, or 67.67 per cent, against a total charge of £712,807, or 72.87 per cent in 1879, showing an increase of £71,087, or 9.97 per cent, as compared with an increase in the receipts of 18.42 per cent. The passenger receipts, including mails and express freight, increased by £40,572, or 12.28 per cent; and the number of passengers carried by 82 388, or 7.47 per cent, as compared with 1879. The receipts from freight traffic increased £139,428, or 21.72 per cent; and the tonnage 221,577 tons, or 15 74 per cent. The total number of passengers was 1,185,089, against 1,102,701; and the quantity of freight was 1,629,035, against 1,407,468 tons. The average receipt per passenger was 5s. 8½d., against 5s. 5½d.; and per ton of freight 9s. 7d., against 9s. 1½d. The charges for maintenance and renewals of road and rolling stock compare with 1879, as follows:

Expended on—	1880.	1879.
Way, stations, and buildings	£161,060	£151,975
Engines, work shops, &c	74,825	64,771
Cars	77,017	69,657
Total	£312,902	£286,403
Of gross receipts per cent	27.01	29.28

The general increase in the charges for maintenance and renewals was owing partly to higher wages and greater cost of materials, but principally to extra work performed. Though the total charges were thus increased by £26,499 the proportion of maintenance and renewals to gross receipts was decreased by 2.27 per cent as compared with 1879, and by 5.60 per cent as compared with 1878. The expenditure for fuel, wages, and other charges for working the railway was increased by £44,589, as the following statement shows:

Expenditures for	1880.	1879.
Fuel	£113,241	£103,247
Running engines, wages, oil, &c	75,370	69,795
Traffic department	212 228	192,694
General charges	20,546	18,016
Miscellaneous expenses	17,495	18,181
Rent end mileage of foreign rolling stock	22,135	15,023
Tolls paid	9,975	9,445
Total	£470,990	£426,401
Percentage of gross receipts	40.66	43.59

The percentage of the working expenses (excluding maintenance and renewals) to the gross receipts fell from 43.59 to 40.66, and, as already stated, was also lower for maintenance and renewal of road and rolling stock, thus decreasing the relative proportion of the whole charges 5.20 per cent. On the 23d July, 1880, a prospectus of the issue of £1,000,000 perpetual 5 per cent debenture stock of £105 per £100 nominal was sent to each proprietor of the company, and resulted in application being received considerably in excess of the amount required. The whole of the stock was allotted, and, as far as possible, the receipts have already been applied to the objects of the issue—the redemption of pre preference securities. Notice having been duly given of the redemption of the pre-preference securities scheduled in the prospectus of 23d July, 1880, interest ceases to be paid upon them from the dates when they become payable. The most important of such securities are:

	1881.
Atlantic and St. Lawrence 6 per cent 2nd Mortgage Bonds payable	1st April.
Do. " 3rd	1st May.
Montreal and Champlain 6 per cent Mortgage Bonds	1st July.
And the balance of the International Bridge Bonds not already drawn for payment	1st July.

The amount charged against capital account during the half year was £283,423. The principal item of £266,949 consists of the pre-preferential securities (not previously included in the Grand Trunk capital account), redeemed from the proceeds of the issue of debenture stock. The remaining expenditure includes £50,707 for new works, £19,200 for rolling stock, and £6,562 for lands and land damages. There has been credited to capital account £10.808, the value of materials on the Riviere du Loup line sold during the half year, and £49,634 for premiums on debenture stock sold. At the special meeting to be held immediately after the general meeting, agreements (copies of which are attached) with the Michigan Air line and the Montreal and Champlain Junction Railway Companies, will be submitted to the shareholders for their approval. An agreement with the Georgian Bay and Lake Erie Railway Company will also be submitted. This company has been formed by an amalgamation of the Port Dover and Lake Huron, the Stratford and Huron, and the Georgian Bay and Wellington Railway Companies. The agreement is similar in character to that sanctioned by the proprietors in October last, but is enlarged to include the proposed extension to Colpoys Bay.

On behalf of the board,
H. W. TYLER, President.
21, Old Broad Street, E. C., 18th April, 1881.

Philadelphia and Reading Companies.

The receivers of the Philadelphia and Reading Railroad Company furnish the following statement of the business of the Railroad for the month of March, and for the year to that date, compared with the corresponding periods of the previous year:

	March, 1881.	Year to date.
Gross receipts	$1,600,568 41	$5,610,159 28
Gross expenses	918,112 33	3,377,048 79
Net profit	$682,456 08	$2,233,110 59
	March, 1880.	Year to date.
Gross receipts	$1,489,389 70	$5,467,707 75
Gross expenses	859,113 21	3,107,733 18
Net profit	$630,276 49	$2,359,974 57

The business of the Philadelphia and Reading Coal and Iron Company for the same time was as follows:

	March, 1881.	Year to date.
Receipts	$924,539 49	$3,445,425 43
Expenses	890,286 54	3,235,198 53
Profit	$34,252 05	$210,226 90
Net profit of all	$716 709 73	$2,443,337 49
	March, 1880.	Year to date.
Receipts	$927,670 09	$2,854,476 45
Expenses	872,214 02	3,059,265 09
Profit	$55,456 07	Loss $204,788 64
Net profit of all	$685,732 56	$2,155,185 93

This shows the total gross receipts on the railroad to have been $9,055 584 81 for the four months to date, against $8,322,184 20 for the same period in the preceding year; but as the expenses have increased from $3,107,733 18 for last year to $3,377,048 79 this year, the net profit is less by $126,863 98. The operations of the Coal and Iron Company show a profit of $210,226 90 up to date, against a loss of $204,788 64 last year, or a net gain in both companies of $288,131 56.

By the purchase of the Cleveland, Canton, Coshocton and Straitsville Railroad, the Connotton Valley Railroad Company has secured a direct line to the Hocking Valley.

The San Juan division of the Denver and Rio Grande Railway has been opened to Amargo, 28 miles beyond Chama, and within 80 miles of Durango.

New York, Saturday, April 30, 1881.

Entered at the Post Office at New York, N. Y., as Second-Class Mail Matter.

AN important step for the encouragement of American ocean shipping was taken at Albany this week, when the Senate passed a bill exempting from State and local taxation all American vessels registering at New York ports.

THE proposed amendment to the State Constitution providing for the abolishment of tolls on the canals of the State, was lost in the Senate at Albany this week, the vote standing 16 in favor to 15 against, with one Senator, said to be opposed to the measure, absent. This ends all probability of the canals being made free within the next four years at least.

THE prospects of the World's Fair seemed somewhat brighter on Wednesday. It had been prophesied that on that day the Executive Committee would meet and decide to abandon the project, but no such decision was made; on the contrary, reports were made that private subscriptions were coming in more freely, while the railroad companies were showing a disposition to give generous and substantial encouragement to the committee.

MOST encouraging reports continue to be received concerning the success of cotton manufacturing enterprises in Georgia. The Graniteville Cotton Manufacturing Company of Augusta, running 886 looms and 34,064 spindles, has just made an annual report showing a net profit for the year ending March 1st of $91,000, said to be a net earning of over 15 per cent on the capital stock, after paying all expenses. Another large cotton manufacturing enterprise, called the King Manufacturing Company, has been inaugurated recently, with a capital of $750,000 the proposed mill to have a capacity of 30,000 spindles.

THE growth of the railroad may safely be esteemed as among the most accurate measures of the advancement of civilization and Christianity; or perhaps still more positively it may be taken as the true index of the directions and localities in which the highest progress and the most worthy development of mankind will most rapidly extend. That it is considered by those whose efforts are most directly applied to missionary work is shown in abundant instances, and the railroad is heartily recognized by those of broad views, laboring in varied fields at home and abroad for the welfare of their fellow men, as one of their strongest material and practical allies. An illustration of this is given in the important missionary field which Burmah presents. That the people of Burmah, who have not yet accepted Christianity, have been made through the influence of the railroad and the telegraph and their accompanying works, to look with dissatisfaction upon their own religion, with its retarding superstition and ignorance, and are being prepared for the acceptance of Christianity, is illustrated by the following from a correspondent, at Thongzai, of the Baptist Missionary Magazine: "A few days ago I heard two men conversing about the wonderful era. They were Buddhists. 'It is time for a new Baddh to appear,' remarked the elder, and then they talked, and got up and looked out of the railway carriage. I passed into their car, and entered into conversation with them. 'What signs of a Buddh do you see?' I asked. The elder replied, 'Change in all things. Five years ago we were all afraid when we saw these iron rods upon the tops of those (telegraph) poles; but now, see, scores of birds sit up there. Two years ago I was afraid of this great "fire-waggon," and walked half a day rather than venture this ride of one hour; now I never think about fear, but sometimes come in and sleep all the way. Everything is so changed, that I think a Buddh will come to us.'" A missionary of the Baptist Board at Toungoo writes: "I have organized our jungle work anew, and our forty-three native preachers are doing what they can to win men into the kingdom of Christ. I am proud of our corps of native preachers. They are a noble set of men. I hear excellent reports from all parts of the field. A new village sent in a delegation at the beginning of the week for us to come out and destroy their charms, etc., used in the worship of the nats: for they wanted now to worship God, as they were sure our God was the true God."

Our Distinguished Railroad Visitors.

The Cunard steamship, Gallia, which arrived here Monday, brought among its other passengers a distinguished company of prominent railroad managers and titled gentlemen from England, who have come to this country for the primary purpose of inspecting and studying the different features of our railroad system. The Duke of Sutherland is of the party, and as it is said of him that he has a passionate fondness for steam engines of all kinds but more particularly for locomotives, much of his interest while studying railroads here will doubtless be manifested in examining and making practical tests of improvements in locomotives. Before his return he will inspect the Fire Department of this City and will probably visit several large locomotive works. In and about his own domain in Scotland (and he owns there over a million acres of land), and also in London society, the Duke of Sutherland is looked upon as a remarkably accomplished man, not only in the accomplishments ordinarily to be expected in a man of his station but also for those pertaining to engine driving, for he is fond of getting into the engine cab and running the locomotive, which he manages with as much skill as he would a horse. He is largely interested in the London and Northwestern Railway, and owns a line running through his Scotland estate. He is accompanied by his son, the Marquis of Stafford, who is an officer in the Life Guards. The other prominent members of the party are Henry Crosfield, Auditor of the London and Northwestern Railway; J. P. Brickersteth, its Deputy Chairman; George Crosfield, O. L. Stephen, and T. Knowles, Directors of the company, the last named a member of Parliament for Wigand; George P. Neele, the company's Superintendent, Henry Wright, the Duke's private secretary, and William H. Russell the famous war correspondent of the London Times, and widely known here as "Bull Run" Russell.

Among the features of the American railroad system that will be especially studied by the party will be those relating to the transportation of passengers and baggage, and the method of checking baggage, which does not prevail in England, will be looked into. The London and Northwestern Railway Co., once endeavored to have a plan adopted on the other side of the water by which baggage could be checked from any point on its line to this country, but the plan was abandoned, being opposed by the ocean lines. The prominent car shops will be visited by the party, and rolling stock features examined. The elevated railroads are to receive some attention though they are not made a special feature of the visit.

While some of the party are interested in American railroads, there seems to be no reason to think that the visit has any special significance in its financial bearings, on the stock market, or concerning the effecting of any important business arrangements. It appears to be rather a trip for study and pleasure, for enjoying which the railroad managers here with whom they are brought in contact will extend most heartily all possible opportunities to their distinguished visitors. Upon their arrival in the city the party went direct to the Brevoort Houee, and after a short rest started later in the week for Philadelphia, Baltimore, Washington and Richmond. After visiting those cities they will go to Boston, make a trip through Canada, arriving at Niagara Falls about the 15th of May. In June the party will be divided, some of the Directors returning to London while the Duke and others make a trip through the West and across the continent to San Francisco, sailing from this city for London in midsummer.

Organization.

Articles of incorporation have been filed in the office of the County Clerk for the establishment of the Pie Island Silver Mining Company. Capital stock, $5,000,000, divided into 1,000,000 shares of $5 each. Trustees, Hugh J. Jewett and ten others.

The following gentlemen have been elec'ed directors of the Quebec Steamship Company: Messrs. W. J. Buchanan and Alexander Buntin, of Montreal; and Messrs. Weston Hunt, John C. Thomson, D. C. Thomson, P. Garneau, W. Withall, H. S. Scott and A. Joseph, of Quebec.

The Directors of the Evansville, Dayton and Eastern Railroad Company held a meeting in Dayton, Ohio, on the 23d inst., and organized by electing Joseph Clegg, President; R. R. Dickey, Vice President; J. E. Sickles, Secretary; A. W. Platt, Treasurer. Ten per cent has been paid, and construction of the road will be commenced at once.

Letters patent have been issued at Ottawa, Canada, to the Northwest Navigation Company (limited), with a total capital stock of $250,000. The incorporators are: Jas. Grahame, Winnepeg: C. J. Brydges, Andrew Allen and H. Drummond, Montreal; Chas. Drummond, Winnipeg; W. Lawson, Andrew Whitton and Wm. Mackenzie, Dundas, Scotland.

The directors of the Midland (Canada) Railway Company, elected on the 19th inst., are: G. A. Cox, Peterboro; Lewis Ross, Port Hope; J. R. Dundas, Lindsay; R. Jaffray, and H. P. Dwight, Toronto; E. J. Halsey, H. Grizzell and W. R. Bucke, London, Eng. Mr George A. Cox was re-elected President and Managing Director.

At the annual meeting of the Valley Railroad Company, held at Cleveland, Ohio, on the 20th inst., Henry B. Payne, H. M. Flagler and Lewis V. Backins were re-elected directors for three years. The board reorganized, re-electing J. H. Wade president, S. T. Everett vice-president and treasurer, W. P. Porter secretary and auditor, and Sam Briggs superintendent.

The Secretary of State of Illinois has authorized Charles F. Neetling, Alonzo S. Wilderman, Frederick H. Pieper and Benjamin J. West, Jr., to organize the Bellville Mining, Milling and Smelting Company of Bellville with a capital of $200,000. Also, Benjamin W. Goodhue, Wm. A. Baldwin and Albert Larrabee to organize the Nevada Mining company and Milling company of Chicago, with a capital of $250,000.

The Rapid Construction Company has been incorporated in Connecticut with a capital of $1,000.000, which may be increased to $6,000,000. Henry P. Kidder, Hugh Harrison, Francis H. Peabody, Pliny Jewell, Elisha S. Converse, Thomas Wallace, James D. Smith and Percy S. Bryant are the incorporators. This company will shortly offer $2,000,000 stock for subscription at par, one-half to American Rapid Telegraph stockholders and one-half to the public.

Articles of incorporation have been filed with the Secretary of State of California of the Santa Rosa and Sonoma Railroad Company, for the purpose of constructing a broad gauge road from Santa Rosa through the Sonoma valley to Benicia, a line of fifty miles. Principal place of business, Santa Rosa. Directors—W. S. M. Wright, James B. Rue, E. T. Farmar, A. A. Bean, David Burris, F. G. Hahman and George P. Noonan, of Santa Rosa. Capital stock, $1,000,000 divided into 10,000 shares.

At a meeting of the stockholders of the Chicago and West Michigan Railway, held in Muskegon, Mich., April 21, the following directors were elected for the ensuing year; M. Thayer, H. H. Honeywell, Charles Francis Adams, jr., George Shattuck, J. Harvey, C. Merriam, F. S. Shaw and George C. Kimball. The stockholders of the White River Railroad Company at the same time chose the following: H. H. Honeywell, C. Merriam, Charles Francis Adams, jr., M. Thayer, Walter Honeywell and George C. Kimball.

The Louisville, New Albany and Corydon Railway Company, has been organized for the construction of a branch railroad from a point on the Louisville, New Albany and St. Louis Air Line to Corydon, a distance of eight miles. Stock to the amount of $35,090, has been subscribed, and Bennett H. Young, St. John Boyle, Charles Godshaw of Louisville, George Lyman, of New Albany; S. M. Stockslager, Thomas McGrain and Samuel J. Wright have been elected directors.

Articles of incorporation have been filed in the office of the County Clerk for the establishment of the following named mining companies: The Ruby Durango Mining Company, capital stock, $500,000, divided into 500,000 shares of $1; trustees, George A. Evans and seven others. The Baldwin Mining and Milling Company, capital stock, $200,000, divided into 50,000 shares of $4 each; trustees, Nathaniel D. Putnam and four others. The Chester Mining Company, capital stock $10,000, divided into 100 shares; trustees, George St. J. Sheffield, Henry C. Ward and David Milliker, jr.

The Carthage, Joplin and Short Creek Railway Company has been organized at Galena, Kan., with the following Board of Directors: A. A. Talmage, J. A. Hills, C. M. Hays, St Louis; E. H. Brown, Gerard, O.; H. Picher, Joplin; W. B. Stone and D. H. Sanderson, Galena. The company was organized for the purpose of extending the Missouri Pacific from Carthage to Short Creek. The right of way and depot grounds in the towns named is all that the company asks, and as soon as the right of way is secured and guaranteed the work will be commenced.

The Austin and Northwestern (Texas) Railroad Company has been organized by the election of the following board of directors: Jos. A. Rhomberg, J. K. Graves, S. T. Walker, all of Dubuque, Ia; H. W. McNeil, of Oscaloosa, Ia.; Dr. M. A. Taylor, B. Bertram, Leander Brown, Francis B. Forster, of Austin; W. S. Westfoot, of Burnett. The managing directors are: Joseph A. Rhomberg, President; Dr. M. A. Taylor, Austin, Vice-President, and Francis B. Forster, of Forster & Co., bankers, Austin, Secretary and Treasurer. The projected road is to run from Austin to Burnett and San Saba in a northwestern direction to Abilene, Taylor County, where it will intersect the Texas and Pacific road, with a branch of about one hundred miles from Burnett through Llano, Mason, Menard, Concho, and Tom Green, to a point of intersection with the Texas and Pacific in Howard County, Tex., in all about four hundred miles.

At the annual meeting of the stockholders of the Atchison, Topeka and Santa Fe Railroad Company, held in Topeka, Kansas, on the 22d inst., the following directors for the ensuing year were elected: T. J. Coolidge, J. T. Burr, Alden Shear, B. C. Cheney, L. S. Thorndike, C. J. Paine, G. A. Gardner, C. W. Price, W. Powell Mason, of Boston; S. A. Kent, of Chicago; C. K. Holliday, B. F. Stringfellow, and L. Lenery, of Kansas. Subsequently the following officers were elected: T. J. Coolidge, President; W. B. Strong, Vice-President and General Manager; L. S. Thorndike, Controller; E. Wilder, Secretary and Treasurer; G. L. Goodwin, Assistant Secretary and Treasurer; J. P. Whitehead, Auditor. The company is now operating more than 2,500 miles of railroad in Kansas, Colorado, and New Mexico, valued at $25,000,000. During the past year it has constructed over 400 miles of new road, bought $1,500,000 worth of rolling stock, and expended $500,000 in improving the lines already built.

Interest and Dividends.

The Iowa Railroad Land Company has declarid a dividend of $1 50 per share, payable May 2.

The Panama Railroad Company has declared a quarterly dividend of 5 per cent, payable May 2.

The Concord Railroad Corporation has declared a semi-annual dividend of 5 per cent, payable May 2.

The Wabash, St. Louis and Pacific Railway Company has declared a quarterly dividend of 1¼ per cent on the preferred stock, payable May 10.

The Manchester and Lawrence Railroad Company has declared a semi-annual dividend of $5 per share, payable on the 2d of May.

The Boston and Maine Railroad Company has declared a semi-annual dividend of $4 per share, payable on the 16th of May.

The Boston and Providence Railroad Company has declared a semi-annual dividend of $4 per share, payable April 30.

The Lynn and Boston Horse Railroad Company has declared a semi-annual dividend of $4 per share, payable on the 2d of May.

The Calumet and Hecla Mining Company has declared a quarterly dividend of $5 per share, payable on the 16th of May.

The Duncan Mining Company has declared its regular monthly dividend of 7½ cents per share, payable May 2.

The Cedar Rapids and Missouri River Railroad Company will pay a dividend of $1 per share on the common stock May 2.

The Railway Equipment Trust of Pennsylvania has declared a quarterly dividend of 2 per cent, on Series A stock; and the Car Trust of Pennsylvania a quarterly dividend of 1½ per cent, on Series A and B stock, both payable on the 2d of May.

The Baltimore and Ohio Railroad Company has declared a semi-annual dividend of 5 per cent on the capital stock of the Main Stem payable on and after the 16th of May; also a semi-annual dividend of 5 per cent on the stock of the Washington Branch Railroad, payable on and after the 16th of April.

The Atchison, Topeka and Santa Fe Railroad Company has declared a quarterly dividend of 2 per cent, payable at the office of the company in Boston, and at the National Bank of Commerce in New York on the 16th inst. to stockholders of record on the 4th inst.

The directors of the East Tennessee, Virginia and Georgia Railroad have declared a dividend 3 per cent on $5,000,000. Hitherto the 3 per cent has been declared upon $2,000,000 only. This latter dividend will then be 60 per cent larger than the usual semi-annual dividend. They also ordered a sale of 320 shares of "increase of capital stock," and 932 shares of "capital stock."

Personal.

Col. Thomas A. Scott is said to be improving in health. He intends to spend the summer at Newport.

H. C. Lowrie is to be Chief Engineer of the proposed Denver and New Orleans Railroad.

O. P. Carty has been appointed Assistant General Ticket Agent of the Union Pacific Railway.

Mr. and Mrs. John S. Kennedy, of this city, went to Montreal last week. Mr. Kennedy is a member of the Canada Pacific Syndicate.

Mr. Venner, the famous weather prophet, has resigned from the Canadian geological survey and will open a mining exchange in Montreal.

Mr. John W. Garrett, President of the Baltimore and Ohio Railroad Company, is expected to sail from Liverpool to New York May 19.

J. N. Du Barry has been elected President of the Philadelphia and Erie Railway Co. to fill the vacancy caused by the death of Gen. Robert Thompson,

Whitlaw Reid, editor of the Tribune, was married last Monday evening to Miss Elizabeth Mills, daughter of D. O. Mills, of this city.

W. Weatherson formerly of the Toronto, Grey and Bruce Railway Co. succeeds T. S. Dettor as General Superintendent of the Grand Trunk Railway of Canada.

Levi P. Morton, it is said, does not intend to go to Paris until after July 1, Minister Noyes having signified his willingness to remain until relieved by his successor.

The departure of Wm. H. Vanderbilt on a short visit to England is announced for to-day, Saturday. He sails on the Germanic and may return on the same steamer.

Harvey Seymour a prominent citizen of Hartford, Conn., recently deceased, was one of the first men in that city to do a brokerage business in railroad stocks and bonds. He died after a short illness aged 84 years.

M. Leon Chatteau, the French advocate of free trade, recently arrived in this city frem Paris, is interested in a new company organized in Paris for the importation of American live stock. The company's capital is stated to be 20,000,000 francs.

C. V. Hammond is reported to have been engaged to assist in establishing the right of way for the Baltimore and Ohio's new line between Baltimore and Philadelphia. Mr. Hammond was formerly connected with the Chesapeake and Ohio Canal.

J. C. Rawn has been appointed Superintendent of the Western and Springfield Divisions of the New York and New England Railroad, succeeding J. T. McManus, resigned. Mr. Rawns' former position as Engineer of roads, bridges and buildings, on the same road, is taken by F. L. Hills.

Prof. O. J. Schmitz an eminent geologist has been employed by the Louisville and Nashville Railroad Company, to examine the mineral lands of Alabama. The results thus far obtained are said to be very gratifying, developing the fact that at many places on the Louisville and Nashville Railroad where it never was expected, magnetic and other kinds of iron ore exist in large quantities.

Mr. Peck, the inventor of the patent railroad "chair" now quite extensively used, had the idea of the utility of such an invention thrust upon him quite forcibly by an experience when conductor on a street car line in Boston a few years ago. An end of a rail flew up one day and so aggravated him by its interruption of his trip, that he resigned his position at once and set about inventing something to remedy the evil.

The venerable Peter Cooper whose interest in public matters does not wane in the advanced years of his useful life is reported as declaring that the proposed world's fair enterprise shall not fail, even if he has to go to the rescue with his own money. Mr. Cooper is further quoted as saying that it would "be a great disgrace, not only to the city of New York, but to every business man in America, if the affair should prove a failure."

J. W. Romaine has been appointed assistant emigrant agent for the New York, Lake Erie and Western Railroad. Mr. Romaine has for a long time occupied a responsible position in the office of J. N. Abbott, General Passenger Agent, in connection with which he is widely and favorably known among the traveling public, and his new duties embody a still greater responsibility, especially at this time when the tide of immigration is flowing in upon our shores with such force as to make its distribution one of the most important features of transportation from New York westward. In assuming his new duties Mr. Romaine does not relinquish his old position, but for the present the former requires a large part of his time and attention.

Railroad Earnings.

The earnings of the Denver and Rio Grande Railway for the 3d week of April, were $104,104; as compared with $36,800, for corresponding week last year; miles now operated 551, operated last year 337.

The earnings of the Grand Trunk Railway for week ending April 16, were $221,116; corresponding week last year, $196,418.

The earnings of the Chicago and Grand Trunk Railway for week ending April 16, were $33,502; corresponding week last year, $21,173.

The earnings of the Flint and Pere Marquette Railroad for week ending April 21, were $39,748 95; corresponding week last year, $30,697 85.

The earnings of the St. Paul, Minneapolis and Manitoba Railway for week ending April 21, were $98,035 94; corresponding week last year $83,278 66.

St. Lawrence Tunnel.

The official report of Mr. Shanly, on the St. Lawrence Tunnel, which was forwarded to the Quebec Government last week, states that the material through which the tunnel will be carried is composed of Utica shale rock, which is easily worked and presents no engineering difficulties so far as can be ascertained at present. The total length of the tunnel and approaches, for which two lines have been surveyed, will be about 13,000 feet. The breadth of the tunnel will be twenty-six feet and the height 23 feet. A double track will be constructed the whole length of the tunnel. The cost is estimated at $3,850,000 on one survey and $4,170,000 on the other. Mr. Shanly expects, however, to reduce the cost by further examinations on the approaches of these lines, and the examinations are now going on. The estimates of cost are made to provide for work of the highest character of excellence in all parts of the undertaking. Should no unforeseen obstacles be met with, the completion of the tunnel may fairly be counted on within three years from the date of commencement.

During the coming summer the gauge of the Toronto, Grey and Bruce Railway will be widened to the standard gauge and laid with steel rails throughout, the necessary bonds having been issued, and 12,000 tons of steel rails purchased in England for that purpose. Contracts have been let for the work of preparation for the change of gauge, such as making the necessary reduction of grades and curves, and cutting down embankments, etc. As soon as the road is placed in good working order it will be handed over to the Grand Trunk Railway Co., with whom negotiations have been completed for the working of the line for a period of twenty years.

A meeting of the second mortgage bondholders of the Petersburg Railroad Company is to be held in Richmond on 3d May next. The bonded debt of the company consists of $500,000 first and $500,000 second mortgage 8 per cents, upon both of which the company is in default. It is understood that arrangements will be made to redeem the road by the payment of the back interest on the first mortgage bonds, and a reorganization be brought about without the intervention of foreclosure proceedings.

The St. Louis Republican says that track laying on the Laclede and Creve Cœur railroad from Laclede station to Creve Cœur lake, a distance of 12 miles, was completed last week. The road will be completed by the middle of next month. Already two boat clubs are building boat houses at the lake, which promises to be a great resort.

The Ohio Central Railroad, which is now completed to Toledo, a distance of 225 miles, will intersect with the proposed branch to Youngstown, to be constructed in order to unite the Wabash system and the Central railroad of New Jersey. The railroad company and the coal company are now consolidated.

The United States Circuit Court, Philadelphia, on the 21st inst., issued the decree and injunction in accordance with its decision of the previous day, published elsewhere, prohibiting the issue of the deferred income bonds.

Robert F. Fairlie, of London, England, has filed a complaint against the Manhattan Elevated Railway Company for infringement of his patent for rounded platforms and traction cars, laying his damages at $250,000.

Presque Isle, Maine, has voted $10,000 bonus to have the New Brunswick Railway extended to that place from Caribou in the same State.

The name of the Minnesota Northern Railroad has been changed to "Northern Pacific, Fergus and Black Hills Railroad."

Trains over the Boston, Winthrop and Point Shirley Railroad commenced running on the 25th inst, to Winthrop Beach and Ocean Spray.

Proposed National Convention of State Railroad Commissioners.

By an act of the legislature of Alabama creating a board of railroad commissioners of that state a provision of the act required the commissioners to consult with the railroad commissioners of other states "by convention or otherwise" on matters regarding interstate commerce. The railroad commissioners of Missouri have been consulted and were the first to agree to holding a convention off-hand. There are twenty-one states which have railroad commissioners, and it is probable nearly all will favor the project of holding a national convention. It has been agreed to hold the proposed convention some time in June, and the place to be selected will probably be Louisville, Ky. This will be the fourth convention held by the railroad commissioners of the different states. The other three conventions were held at the instance of the Missouri commissioners, who took a leading part in the action of said conventions.

Col. G. C. Pratt of the present board of commissioners of Missouri, yesterday sent to the Alabama commissioners copies of the proceedings of the former conventions so that they can see what has already been done in that connection. Col. Pratt says that it is likely they will get some business prepared for the convention before it meets.—[St. Louis Rep. Apl. 23.

Philadelphia and Reading Railroad Deferred Income Bonds.

In the United States Circuit Court, Philadelphia, on the 21st inst., Judge McKennan delivered an opinion in the matter of the bill of the Messrs. McCalmont against the Philadelphia and Reading Railroad Company. He said:

The present proceeding is two fold; first, to obtain a rescision of an order made November 18th, 1880, by one of the Judges of this Court, at Chambers, touching the issue by the Philadelphia and Reading Railroad Company of $34,000,000 of "deferred bonds;" and second, to enjoin the issue of such bonds. Whatever may be the literal import of the order of November 18, 1880, only the significance and effect of an order by consent can be given to it. The petition for it was referred to one of the Masters in the cause. His report was favorable. All classes of interest supposed to be affected by it were apparently represented and concurring, and it was, therefore, made without argument, and as of course. When it was afterwards challenged by the complainants here, the circumstances under which it was made were fully explained, and its phraseology was so changed as to exclude any inference of authoritative sanction on the plan referred to. The petition for the revocation of the order must then stand upon the same footing as to merit with the motion for the injunctions.

The deferred bond plan is challenged for the vital reason that the corporation is legally incompetent to institute it. It is notably peculiar in its features. It is a proposition by the corporation that the stock and bondholders shall subscribe and pay ratably over $10,000,000, to be used in extinguishing the floating debt of the corporation, that to each subscriber shall be issued a writing, the form of which is yet undetermined, entitling him to receive 6 per cent on the sum of $50 for each $15 paid by him out of the net earnings of the corporation after paying all fixed charges and a dividend of 6 per cent upon the common shares, and that for further interest these subscriptions will rank pari passu with the common shares.

In considering the legality of the scheme, the Judge said:

Whatever power the defendant has in the premises can only be found in its general authority to borrow money. Neither in the charter of the defendant nor in the special act which authorizes it to sell bonds which it may issue below par is anything contained to legalize the contested proposition, unless it can be put on the footing of a loan. Has it, then, this character? I think, plainly not. It does not propose to create the relation of debtor and creditor between the defendants and the subscribers. The money obtained by the defendant could not be regarded as borrowed, because that implies reimbursement, and it is not demandable by the subscribers or payable by the defendant. It has not the essential and distinguishing qualities of a loan. It contemplates a stipulation that the subscribers, in consideration of the sums paid (not lent) by them, shall be entitled to receive, in a remote and uncertain contingency, a portion of the defendant's earnings, to be measured by a certain rate per cent upon three times the sums paid by them, and after that shall participate with the common shareholders in the division of the residuary earnings. By what allowable definition of a loan or borrowing such a transaction can be embraced I am at loss to conceive, nor will the fact that is to be evidenced by the sealed writing of the defendant change its inherent character and bring it within the range of a power to which it is not otherwise referable.

The Judge further said that—

Authority to raise money by borrowing does not imply the use of another and a different method of raising it, however well adapted to the end it may be. Even in the prospectus issued by the President of the defendant, the proposed issue of "deferred bonds" is not in any aspect treated as a loan, and the system is correctly stated to be "new in the United States, and to have been frequently adopted in Great Britain with great benefit to the companies and to subscribers," but we know that in Great Britain that system is expressly authorized by statute, and hence it may be assumed that such legislation was deemed necessary to legalize a resort to it. Is not this suggestive of the inference that, although it has been found to be of great benefit in Great Britain, it is "new" in this country, because it has been regarded as without necessary legislative authorization? I am therefore of opinion that the issue of "deferred bonds," as proposed, is without warrant of law, and that the order of November 18, 1880, ought to be revoked and a preliminary injunction granted, and it is so ordered.

Judge Butler read an opinion, in which he fully concurred in the views expressed by Judge McKennan and in the conclusion to which he had arrived. In relation ro the irredeemable character of the bond Judge Butler said:

There is no such thing known to commerce or transactions in money as an irredeemable loan in the sense here involved. Governments have issued obligations without provision or stipulation for repayment of the principal borrowed; but such obligations are redeemable at pleasure. Running, however, for an indefinite time, with no power in the holder to exact payment, they have come to be regarded as irredeemable, and an investment in them is, therefore, treated and described, not as a loan, but as the purchase of any annuity or stock. Aside, however, from the abstract considerations involved in defining the term borrow or loan, the corporate powers of the defendants to borrow money must be held to apply only to such methods of borrowing as fall within the ordinary sense of the term—as understood by the community and illustrated in commercial transactions. Applying this test to the proposition here under consideration, it becomes plain that the transaction contemplated is not a loan. The certificate proposed to be issued would vest in the owner a joint interest with the common stockholder in the capital or property of the corporation—an interest purchased with his money, the earnings of which would be paid to him in dividends.

In conclusion, Judge Butler said:

That the defendants have no authority to issue stock for the purposes involved in the scheme under consideration is not only clear on examination of the charter and subsequent statutes relating to the subject, but is fully conceded by their counsel. The proposed mortgage for $150,000,000 being liable to the same objection, as respects a part of the bonds proposed to be secured thereby, no further reference to it is necessary.

Metallic Cars.

It is a common remark, even among railroad men, that iron or steel cars will some time or other come into general use, for the reasons that timber is getting scarce and more expensive, and that iron is already extensively used for truck frames and body bolsters. But the question of iron body construction does not depend upon the way in which trucks are built. The two are essentially unlike, and are subject to different conditions. It does not necessarily follow that because iron makes a good axle or crowbar, it will also make an equally good flagstaff or ax handle. Railroad cars, as compared with stationary structures, are subject to peculiar conditions inseparable from the uses they perform. These are rapid movement, a minimum of weight, liability to violent concussion, and the necessity of being easily and readily repaired. With respect to these, wood has the advantage over iron at the start. It is lighter, more compressible, will resist shocks better, and, in case of breakage, repairs can be made with less difficulty. Iron, it is true, will not splinter nor burn; a car made of it may not weigh more than a wooden one of the same size and capacity; it may last longer, resist shocks quite as well if rightly constructed, be worth more as scrap when worn out, and be repaired with less difficulty than is generally supposed. These arguments, however, amount to little so long as they are not sustained by a record of performance.

It would be no very difficult thing, as it strikes us, to make a model passenger car body entirely of iron or steel—frame, panels, roof, flooring, and seat frames, with no inside wood finish even. It could be beautifully ornamented inside and out with paint and varnish, and made to look very light, cheerful, and attractive. It would make a few beautiful "runs" and after a few rose-colored local notices in the papers would be lost sight of and forgotten, and the roads would go on ordering new wooden cars as before, without the least regard to the wonders performed by the model car in the way of somersaults down embankments, with no roasting or scalding of passengers as an accompaniment.

One great obstacle in the way of iron body construction is the fact that it can not be carried on without special shops, machinery, tools, and workmen. A new and distinct department would be necessary upon every road using, repairing, or building such cars. Machinery and tools for the purpose would have to be perfected by degrees, according to the methods of construction that experience should prove to be best. Wood working machinery, on the other hand, is already perfect, or nearly so, and car builders know just what kinds to put into a shop.

Another obstacle is the tendency to make iron construction conform to that of wood, when the difference in the two materials seems to require that the construction should also be essentially different for each. Our freight cars are designed almost exactly upon the same principles as our passenger cars, and with special reference to wood construction. It is manifest, however, that if iron cars are ever to be a success, the material must be used constructively as iron, and without reference to the peculiarities of wood construction. The

design for a model iron passenger car that would really be a model for imitation would involve such a wide departure from present practice in order to meet the requirements of the new material that a first attempt could hardly be a success except by a miracle.—National Car Builder.

Sawdust Car Wheels.

The possibilities of sawdust are enthusiastically set forth by a lumber journal as follows: We have been shown a model of a car wheel consisting of an iron rim of seven inches outward diameter by one-half inch thick, fitted with a well proportioned hub, the space between the hub and rim filled with pine sawdust, pressed in so solidly that we are ready to believe the assertion that resting the iron rim upon bearings, a pressure equal to twenty-three tons applied to the hub failed to develop any signs of weakness. We hesitate, in these days of progress, to assert that anything is impossible, and we begin to think that even sawdust possesses elements of value hitherto unsuspected, and that the day may come when the filled grounds adjacent to all saw mills may be seen to have a great value in the mechanical development and utilization of the now useless debris placed upon them to get it out of the way. Sawdust car wheels, sawdust brick, sawdust fence posts, railroad ties, and even sawdust window and door frames, wainscoting and moldings, begin to appear among the possibilities of the immediate future.

The Coal Trade.

The leading coal carrying companies make the following reports of their tonnage for the week ending April 16, and for the year to the same date, compared with their respective amounts carried to the same time last year:

	Week.	1881.	1880.
Reading Railroad...	125,299	2,421,568	2,442 678
Schuylkill Canal....	5,751	23,330	70,540
Lehigh Valley.....	87,273	1,859,230	1,531,144
Del., Lack. & Western.	59,738	1 104,809	978,317
Shamokin Valley....	18,660	277,548	227,745
Central New Jersey.	63,543	1,056,778	896,575
United R. R. of New Jersey.....	27,234	429,100	297,849
Pennsylvania Coal ..	21,560	293,616	245,722
Delaware and Hudson	41,874	960,525	915,413
Huntingdon & Broad Top Mt.....	7,411	133,903	132,153
Penn. and New York.	27,283	477.120	420,322
Clearfield, Pa.....	58,485	632,247	356,581

The total tonnage of anthracite coal from all the regions for the week ending April 16, as reported by the several carrying companies, amounted to 416,070 tons, against 593,610 tons in the corresponding week last year, a decrease of 177,540 tons. The total amount of anthracite mined for the year is 6,886,892 tons, against 6,073,425 tons for the same period last year, an increase of 812,967 tons. The quantity of bituminous coal sent to market for the week amounted to 112,876 tons, against 85,584 tons in corresponding week last year, an increase of 27,292 tons. The total amount of bituminous mined for the year is 1,294,246 tons, against 1,016,656 tons for the corresponding period last year an increase of 277,590 tons. The total tonnage of all kinds of coal for the week is 528,946 tons, against 679,194 tons in corresponding week last year, a decrease of 150,248 tons, and the total tonnage for the coal year is 8,180,638 tons, against 7,090,081 tons to same date last year, an increase of 1,090,557 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the week ending April 16 was 179,319 tons, of which 128,071 tons were coal and 51,248 tons coke. The total tonnage for the year thus far has been 2,581,022 tons, of which 1,855,224 tons were coal and 725,798 coke. These figures embrace all the coal and coke carried over the road, east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ended April 16 were 42,062 tons, and for the year to that date 474,415 tons, a decrease of 2,764 tons as compared with the corresponding period last year. The coal was carried as follows: Baltimore and Ohio Railroad—week 29,321 tons; year, 397,938 tons; decrease as compared with 1880, 778 tons. Chesapeake and Ohio Canal—week, 11,738 tons; year, 24,417 tons; increase as compared with 1880, 3,226 tons. Pennsylvania Railroad—week, 1,012 tons; year, 51,760 tons; decrease as compared with 1880, 5,212 tons. The Reading Railroad coal shipments for last week, ending April 23, were 123,500 tons, of which 26,100 tons were sent to Port Richmond and 29,300 tons shipped thence, and 9,125 tons were sent to Elizabethport and 10,850 tons shipped thence.—[Phila. Ledger, April 25.

Important Patent Case Decision.

The case of Reed Peck, administrator, etc., plaintiff in error, vs. T. D. Collins, was recently decided by the United States Supreme Court. The questions presented by this case are:

First, whether a patent surrendered by the patentee in order to obtain a reissue becomes cancelled upon the refusal of the commissioner to grant a reissue; and,

Second, whether a person who enters into a contract while the application for the reissue of a patent is pending to buy that patent or a part of it when it shall be "reissued or returned" can be held to his contract after the application for a reissue has been denied.

This court holds, first, that as the law stood prior to July 8, 1870, a patent surrendered in order to obtain a reissue was in legal effect cancelled, and if the application for a reissue were denied the patentee was in the same situation that he would have been in had his original application for a patent been rejected. The surrender of a patent was an abandonment of it, and the applicant for a reissue took upon himself the risk of getting such reissue or losing all. [Moffitt vs. Garr, 1 Black, 273.] Hence a patent once surrendered could no more serve afterward as a foundation for the assertion of a right than could an act of Congress which had been repealed.

Second, a person who has contracted to buy the whole or part of a patent "upon its reissue or return" cannot be held to that contract when the application for a reissue has been denied, and the patent if returned is cancelled and void. The word "return" is to be construed to mean return with the same validity which it had when sent. A surrendered patent under the law as it existed prior to 1870 could not be so returned, and the contract therefore cannot be enforced. Since the surrender of the patent in the case in question the patent laws have undergone a general revision, and a new clause has been introduced, declaring that the surrender shall take effect upon the issue of the amended patent (Revised Statutes, section 4916).

What may be the effect of this provision in cases where a reissue is refused, it is not necessary now to decide. Possibly it may be to enable the applicant to have a return of his original patent, if a reissue is refused on some formal or other ground which does not affect his original claim. But if his title to the invention is disputed and adjudged against him, it would still seem that the effect of such a decision would be as fatal to his original patent as to his right to a reissue. The judgment of the court below is affirmed with costs.

The Prosperity of the South.

Every well-wisher for the prosperity of the South will be pleased to learn of the rapidly growing industries, especially in the States of Virginia, North Carolina, and Georgia. The multiplication of spindles in the cotton mills of the latter State amounts to a marvel, and the development of her mineral wealth is enough to make a Leadville mine green with envy. For several years past one old miner has been working inside a fence twenty feet high, by which he fends off the inquisitive; this mine is a perfect bonanza to him; its product is a valuable mineral, out of which is taken every quality of stone, from the common emery to the more expensive purple amethyst, the red sapphire, and more highly prized blue variety. This mine almost exclusively supplies the home demand. Coming to North Carolina, in addition to gold, silver, copper, iron and coal mines, the three former yielding greater percentages to the ton than Colorado can boast, there are found mica mines of fabulous value; the owner of one of these boasts of a standing order on his books, from a stove firm in the State of New York, for $50,000 worth of that article. The busy hum of the spindle is heard all over western North Carolina, while men from the Eastern States are pouring in with their various industrial enterprises. The Pennsylvania capitalist is starting blast furnaces in close proximity to navigable streams, and narrow gauge railroads are building to convey the ore, coal and lumber to points accessible by water. Old Virginia, beloved by all for her past gifts to the Union, and the world of Christian statesmen and patriots, is opening up her treasures and bidding the enterprising, law abiding mechanic, and capitalist, enter, develop and enjoy. The questions which have agitated the South and North in years gone by will gradually melt away and disappear before the march of improvement and progress which seems to be setting in that direction of the South, and a bond of union cemented by industry will spring up, which will make us indeed a prosperous and powerful nation.—[St. Louis Republican.

The charter of the Milford and Bay Shore Railway Company, purchased on the 19th inst. by the Pennsylvania Railroad Company, is extremely liberal in its provisions, allowing a road to be built starting anywhere near Milford, Del., and proceeding towards Wilmington, taking in on its route Frederica, Magnolia and a number of other towns, and provides for co-operation, if desired, with such companies in Maryland and Pennsylvania as are or may be incorporated. Among the incorporators named in the original charter are Gov. Hall, Frederica; Harbeson Hickman, Lewes; Wm. M. Shakespeare, Dover; John M. Voshell, Smyrna.

The completion of the extension of the Scioto Valley Railroad to a connection with the Chesapeake and Ohio Railway was to have been celebrated in a becoming manner by a grand banquet at Ironton, Ohio, on the 29th inst.

The iron steamer Cepheus, for the Iron Steamboat Company, of New York, was launched at Roach's yard, in Chester, Penna., on the 16th inst.

AMERICAN RAILROAD BOND LIST.

Asterisk (*) affixed to rate of Interest signifies "Payable in Coin."

Description of Bonds.	Amount.	Rate.	Interest Payable. When.	Interest Payable. Where.	Due.	Price.
